

FOX NEWS POLL

All results are for release after 6:00PM/ET Wednesday, September 28, 2022.

PENNSYLVANIA

Methodology

Interviews were conducted September 22-26, 2022 among a random sample of 1,008 Pennsylvania voters contacted on landlines (173) and cellphones (835).

Results based on the full sample have a margin of sampling error of ± 3 percentage points.

Telephone numbers were randomly selected from a statewide voter file of registered Pennsylvania voters using a probability proportionate to size method, which means phone numbers are proportionally representative to the number of voters in all regions across the state.

The Fox News Poll is conducted under the joint direction of Beacon Research (D) and Shaw & Company Research (R).

Fieldwork conducted by Braun Research, Inc. of Princeton, NJ.

Results are of registered voters, unless otherwise noted.

An asterisk () is used for percentages of less than one-half percent.*

A dash (-) represents a value of zero.

Some percentages may not add to 100% due to rounding. In the same way, percentages in "total" columns may be one point more or less than the sum of their parts due to rounding.

- There are a range of reasons why people do or do not vote. On a scale from zero to 10, where 10 means you're certain you will vote in the Pennsylvania elections this November and zero means there is no chance you will vote, please tell me how likely it is that you will vote this November. If you have already voted, either early or by sending in a mail or absentee ballot, please just say so.

	<u>22-26 Sep 22</u>
10 -- Certain to vote	82%
9	5
8	2
