let's gather at the campus

IT SUMMIT

The IT Summit 2015 is a forum for UC Berkeley IT staff and teams to network, highlight new technology, share their work, and speak with campus IT leadership about goals and actions for 2015 and beyond. Joining in the celebration of Staff Appreciation Week, multiple IT Summit sessions will be held as part of this year's theme:

SHARING SUCCESS AND RISING TO THE CHALLENGE

We heard your feedback from last year's inaugural IT Summit and have planned sessions around three tracks:

You: Discover what tools, educational and professional growth opportunities are available.

Monday, June 8 and Tuesday, June 9
Sessions will be held 9 a.m. - 5 p.m. each day.

Colleagues: Learn what colleagues are working on across the campus IT spectrum.

Campus: Hear IT and campus leaders discuss the role of IT at UC Berkeley, strategic alignment, and future initiatives followed by Q&A.

Wednesday, June 10, 9 - 11:30 a.m.
Wheeler Auditorium
With networking opportunities 8 - 9 a.m.
