

NCSU WALKTIMES MAP

- T Transportation Office
- Start/End Connector
- Multi-use Path
- Start/End Point
- 0 min Walk time between points in minutes

The lines between points do not represent specific routes for walking between endpoints.

The walk times provided are estimates. Depending on the route you take and your specific pace, your actual walk time may vary.

All time estimates include using sidewalks where available, and crossing streets at crosswalks.

As an urban campus, NCSU strives to balance high volumes of vehicular traffic with high volumes of pedestrian traffic. Improving the safety of pedestrians on campus requires walkers and drivers alike to adhere to traffic signals and to adopt an attitude of vigilance as they travel from one place to another. Look before you cross!
