

Fee Policy

All fees are simple and straightforward.

It's always free to list an item for sale on Poshmark.

For Sellers, after your item sells, we deduct a small fee from the final order price. For sales under \$15, the fee is a flat rate of \$2.95. For sales \$15 and above, the fee is 20% and you keep 80%.

Please note, your earnings are based on the listing price and actual earnings will vary based on the final order price, seller discounts, and any other applicable taxes and discounts.

Buyers are responsible for any shipping costs incurred with respect to their purchased Item. Please see [Shipping Policy](#) for details and exceptions.
