

City of Alexandria, Virginia

Creation of Office of Climate Action

December 1, 2022

Background

City Council Climate Action Efforts in 2022:

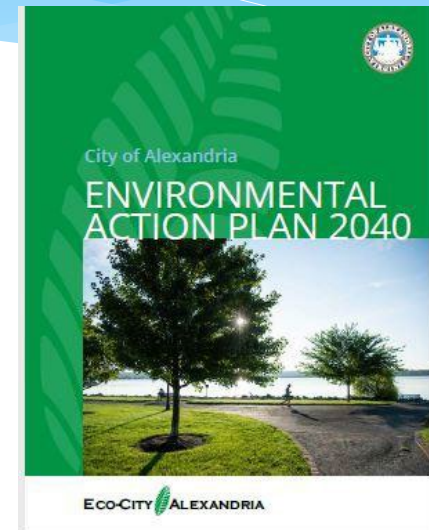

- The identification of environmental justice as a guiding principle, a lens through which each City Council priority would be viewed.
- The approval of \$1.85 million for climate change initiatives.
- Creation of Office of Climate Action.

Purpose of Office of Climate Action

Reducing City-wide greenhouse gas (GHG) emissions that achieve our climate targets and resiliency strategies that protect the community from the impacts of climate change in a just and equitable manner through:

1. A Systems Approach
2. Engaging and Empowering the Community
3. Advocating and Mobilizing Action beyond the Community

RESOLUTION NO. 2958

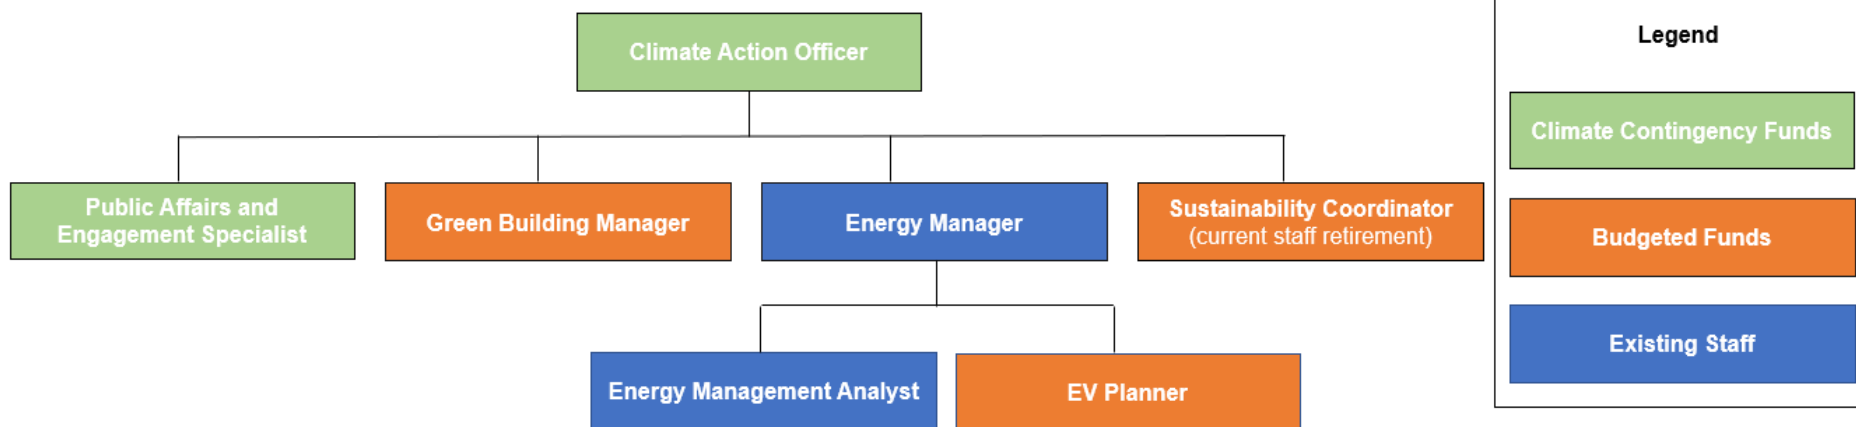

WHEREAS, City Council wishes to establish an Energy and Climate Change Task Force, and

WHEREAS, the Energy and Climate Change Task Force will conduct specified tasks outlined in this resolution.

Composition

- Centralized within the City Manager's Office
- 2 new staff positions
 - Climate Action Officer
 - Public Affairs and Engagement Specialist (EPC Recommendation #8)
