CHILDREN & YOUTH COMMUNITY PLAN (CYCP) PROGRESS REPORT 2022-2023

ALEXANDRIA'S PROGRESS TOWARDS ENSURING EVERY CHILD
SUCCEEDS TODAY AND TOMORROW

EXECUTIVE SUMMARY

BACKGROUND

In April 2021, the Alexandria City Council and the School Board of Alexandria City Public Schools approved and endorsed the City's Children and Youth Community Plan (CYCP) 2025. The CYCP is a roadmap for how our community will work together to create the conditions for all young people to thrive in Alexandria. It is framed around preventing childhood trauma while increasing the 40 Developmental Assets that all young people need to succeed.

Since the CYCP was approved in 2021, annual progress reports have been produced to demonstrate the progress made in reaching the Plan's goals. This report looks back at progress made from 2022 to 2023. It is a comprehensive statistical snapshot and tells the unique story about Alexandria's children and youth. Population-level data collected from public records can help us see how effective our efforts have been in improving the health and well-being of youth living in Alexandria.

REPORT FEATURES:

- Data that tell us how we are doing in a particular area
- Progress in the elimination of disparities in adolescent health and well-being
- The actions our community is taking to improve trends
- Where to learn more about the progress within each strategic area of the Plan
- Historical baselines with forecasts to assess the big picture

HIGHLIGHTS

How much have we done since April 2021?

- **80%** of the Plan's 169 action steps are either in progress or fully implemented.
- **14** CYCP Report Cards created and can be found here: www.alexandriava.gov/child-and-family-services/children-and-youth-community-plan-report-card
- **2** Annual Progress Reports published.

Is anyone better off?

- **58%** of the indicators are trending in a positive direction since their respective baseline year.
- **56%** of the disparity ratios have decreased since their baseline year.
- **43%** of the indicators show disparity ratios greater than 2.

CHALLENGES

- **Monitoring the Plan.** Increased staff turnover and limited staff capacity have resulted in under-reporting of the Plan's performance measurements. 23 (or 52%) of the Plan's 44 strategies have yet to be featured in a monthly Report Card.
- **Advancing Racial Equity.** Nearly half of the indicators show moderate to extreme racial disparities. Of all the race and ethnic groups, Hispanic youth experience the most disparities.

NEXT STEPS

The findings in this Report suggest that our community is making progress, but there is clearly more work to be done, starting with:

- Build capacity to collect and analyze data consistently and establish a "data culture"
- City-Wide adoption and use of the Racial Equity Tool, Developmental Assets Framework, and trauma-informed practices
- Collaboration among City and Schools to operationalize the recommendations from the [Youth Safety and Resiliency Report](#)
- Continuous investment in the skills and professional growth of youth service providers

CYCP STRATEGY MAP

We will ensure that...

All children, youth, and families are physically safe and healthy

Start Healthy and Connected

Create the conditions for children to have a strong start in life and support economic stability among families

Increase participation in early childhood education and care

Promote health, wellness, and wellbeing

Prevent risk-taking behaviors

Connect families to transportation, housing, financial, and employment resources

Preserve our natural environment

Children are academically successful and career ready

Support Academic Success and College and Career Readiness

Advance educational equity and prepare youth for post-secondary success

Foster supportive learning environments

Light pathways to college and careers

Children, youth, and their families have positive experiences

Decrease ACEs, Increase Assets

Build safe, stable, and nurturing environments and relationships

Minimize exposure to Adverse Childhood Experiences (ACEs) and childhood trauma

Create trauma-informed and resilient communities

Build Developmental Assets

To be successful in each of the CYCP Goal Areas, our systems must be coordinated and equitable

Address systemic racism and advance equity.
 Build capacity to expand resources and workforce resilience.
 Mobilize funding for positive experiences.
 Improve data collection and sharing.
 Strengthen collaboration and communication to build resilience.

CHILDREN & YOUTH COMMUNITY PLAN (CYCP)

PROGRESS REPORT 2022-2023

INTRODUCTION

In 2021, Alexandria celebrated the release of its second Children and Youth Community Plan (CYCP), a blueprint for improving outcomes for children who call Alexandria home. The Plan envisions a city where “All of Alexandria’s children and youth can thrive today and tomorrow” and sets the three cradle-to-career goals listed below:

1. All children, youth, and their families are physically safe and healthy.
2. All children and youth are academically successful and career ready.
3. All children, youth, and their families have positive experience.

Core to this Plan is ensuring our systems that serve children, youth, and families are well coordinated and equitable. To that end, it recommends two overarching strategies:

1. Design, implement, and evaluate solutions that undo racism, end discrimination, and advance equity.
2. Strengthen organizational capacity in the areas of staffing, infrastructure, communication, funding, planning, monitoring, evaluation, and professional development.

But how do we know if we’re successful in reaching those goals? How do we know if we are effective in addressing those inequities? How do we know if anyone is better off?

This progress report is a comprehensive statistical snapshot and tells the unique story about Alexandria’s children and youth. It includes the results that we are trying to achieve, the players involved, the actions our community is taking to improve trends, where to learn more, and data that tell us how we are doing in a particular area and to what extent gaps exist and for whom.

Despite our numerous efforts in improving outcomes, racial, ethnic, and social disparities in adolescent health continue to persist. These disparities result from multiple factors, including unequal allocation of power and resources, income inequality, historical trauma, and persisting legacies of social problems such as structural racism and oppression.

Fortunately, we are not defined by these current realities. When we see gaps in opportunities, this is our call to action. We will continue to work together and to use every tool at our disposal to address the root causes beneath troublesome trends and work towards bringing about lasting, transformative change that leads to a prosperous future for all.

MONITORING THE PLAN'S PROGRESS

Each Strategy in this Plan is connected to an Action Plan. Tactic Owners, who are responsible for implementing the action steps, report their progress to their Strategy’s Champion, a specific person or entity who is responsible for coordinating the Plan’s implementation. Champions report progress to the Children and Youth Community Plan Coordinator who then reports that progress to the general public in the form of these Progress Reports and the **CYCP Report Cards**. This Report serves as a data profile of Alexandria’s youth and what the City is doing to improve their outcomes. For a more robust description of each initiative, visit the CYCP Report Cards page:

www.alexandriava.gov/child-and-family-services/children-and-youth-community-plan-report-card

CYCP PROGRESS REPORT 2022-2023

ABOUT DISPARITY RATIOS

Problems like poverty, unemployment, inadequate education, housing, exposure to violence, and neighborhood deterioration are among the factors that shape people's health, and they do so in unequal ways, thus contributing to health inequities. Fortunately, these factors can all be improved. Policies can be changed, resources can be leveraged, and communities can take action in powerful ways to create a context where everyone has the opportunity to thrive.

Alexandria's Children and Youth Community Plan was built on the promise of our community to create opportunities for our youngest members to achieve their full health potential. It recommends community-led solutions for ensuring that every young person gets what they need to thrive and fully participate in society.

This report aims to provide a summary of the health and wellbeing status of children and youth in Alexandria, evaluate progress in the elimination of disparities in adolescent health and wellbeing, and review information on what the City is doing to address those gaps. Identifying health disparities is

important for decision makers and key stakeholders to take action. This type of information can help to establish priorities and develop programs. This report includes disparity ratios that summarize the level of racial and ethnic disparity in each area of the Plan and are used to measure and track progress towards the elimination of these disparities over time. To be clear, these disparity ratios are not a statement of which student groups are outperforming other student groups. They are a way for our City to measure and identify the existing inequities and develop policies and strategies that will change the conditions so that all young people can prosper. Instead of asking if our children are ready for kindergarten, for example, the more appropriate question is if our kindergarten classrooms are ready for our children.

The CYCP uses 31 key performance indicators to show how we are doing as a city to improve youth outcomes. Data disaggregated by race and ethnicity were available for all but five of these indicators. Disaggregated data make it possible to calculate disparity ratios. Disparity ratios are computed for each of these indicators to identify where disparities exist and the degree of these disparities for each population.

To calculate the disparity ratio, we compare the population with the best rate to the population with the worst rate. The methodology is described in more detail on page 8.

The disparity ratios are grouped by the size of disparity. The tables on the next page describe these groupings; disparities that range from 1.1 to 1.4 are slight disparities while disparities of five and higher are more extreme. Nearly half of the indicators show moderate to extreme disparities.

CYCP PROGRESS REPORT 2022-2023

ABOUT DISPARITY RATIOS

Of all the race and ethnic groups, Hispanic youth experience the most disparities - for this group, we see disparities for all but one of the 26 indicators that were disaggregated by race/ethnicity. Hispanic youth had the greatest number of disparity ratios that were two or higher, indicating that large disparities continue to exist for this population.

Table 1 summarizes the groupings of disparity ratios by their size and the number of indicators that fall within each group.

TABLE 1: EXTENT OF DISPARITIES

Disparity Ratio Groupings	# of Indicators	
5 or Higher	5	Extreme
2 - 4.9	11	Serious
1.5 - 1.9	7	Moderate
1 - 1.4	14	Slight

Table 2 summarizes the number of times that a race or ethnic group had the best rate for an indicator (for example, the lowest teen pregnancy rate or the highest school engagement rate) therefore becoming the comparison group when calculating the disparity ratio for that indicator. White youth had the best rate the most frequently.

TABLE 2: EXTENT OF DISPARITIES BY RACE/ETHNICITY

Racial or Ethnic Group with Best Rate	# of times
Hispanic	1
Asian	5
Black	6
White	14

ABOUT THE DATA & ANALYSIS

DATA SOURCES

The data come from public records, including the 2020 U.S. Census, City of Alexandria departments, the Virginia Department of Health, the Youth Risk Behavior Survey (YRBS), the Alexandria Resident Survey, the Alexandria City Public Schools (ACPS) Scorecard, and the Search Institute's Profiles of Student Life: Attitudes and Behaviors.

The Alexandria Youth Risk Behavior Survey (YRBS) is based on the National Youth Risk Behavior Surveillance System (YRBSS) developed by the Centers for Disease Control and Prevention (CDC). The YRBS is a voluntary, anonymous, self-reported survey administered to adolescents in grades 8, 10, and 12. The most recent survey was administered by the Alexandria City Public Schools (ACPS) to 1,478 students in 2023 (84% of 8th graders, 50% of 10th graders, and 50% of 12th graders).

The Profiles of Student Life: Attitudes and Behaviors survey is coordinated through Search Institute, a national nonprofit renowned for its expertise in youth development. The survey assesses young people's external supports and internal strengths, key non-cognitive skills, high-risk behaviors, indicators that they are thriving and deficits that need attention. The Developmental Assets survey is a voluntary, anonymous, self-reported survey administered to students in grades 8, 10, and 12. The most recent survey was distributed to 1,538 students in 2022 (66% of 8th graders, 43% of 10th graders, and 38% of 12th graders). Data disaggregated by race and ethnicity were available for the first time in 2022.

CYCP PROGRESS REPORT 2022-2023

ABOUT THE DATA & ANALYSIS

Because these surveys are only administered once every three years, it would be difficult to analyze trends if we were to only use data collected starting in 2021 - the year that the Plan was

launched; if so, we would not have any data points to compare. To have enough data points to establish a trendline and forecasting, baseline data goes as far back as 10 years.

FIGURE 1: CYCP INDICATORS

INDICATORS BY RACE AND ETHNICITY

- | | |
|--|---|
| 1. Kindergarten Students with a Pre-K Experience | 12. Experienced verbal abuse |
| 2. Ate vegetables at least 1x/day in the past week | 13. Child Poverty |
| 3. Children with a Medical Home or Usual Doctor | 14. School Engagement |
| 4. 5+ Days of Exercise/Week | 15. Caring School Climate |
| 5. Feeling Hopeless or Sad | 16. Suspensions |
| 6. Past 30 Day Cigarette Use | 17. Grade 3 Reading |
| 7. Past 30-Day Alcohol Use | 18. Graduation |
| 8. Been in a Physical Fight in last 12 months | 19. Witness to Domestic Violence |
| 9. Teen Pregnancy | 20. Bullied at School in past year |
| 10. Ever been forced to have sex | 21. Safety |
| 11. Forced to do sexual things they did not want to do | 22. Community Values Youth |
| | 23. Youth as Resources |
| | 24. Other Adult Relationships |
| | 25. Service to Others |
| | 26. Youth Enrollment in Out of School Time Programs |

INDICATORS BY GENDER

- | | |
|---|---|
| 1. Ever been forced to have sex | 4. Been in a Physical Fight in last 12 months |
| 2. Forced to do sexual things they did not want to do | 5. Feeling Hopeless or Sad |
| 3. Experienced verbal abuse by girlfriend/boyfriend | 6. Suspensions |
| | 7. Past 30-Day Cigarette Use |
| | 8. Past 30-Day Alcohol Use |

INDICATOR BY SEXUAL ORIENTATION

1. Feeling Hopeless or Sad

INDICATOR BY SOCIO-ECONOMIC STATUS

1. Suspensions

METHODOLOGY

The purpose of this report is to evaluate progress in the elimination of disparities in adolescent health and well-being and to provide information on what the City is doing to address those gaps. Disparity ratios are computed for each CYCP indicator to identify where disparities exist and the degree of these disparities for each population.

Table 3 on the following page summarizes the disparity ratios by category and populations grouped by race/ethnicity, gender, sexual orientation, and socio-economic status for the

indicators and provides a perspective on where these disparities remain the most pronounced. Hispanic youth, followed by Black youth, had the greatest number of disparity ratios that were two or higher, indicating that large disparities continue to exist for these populations. Ten indicators were 2.0 or higher for Hispanic youth, five for Black youth, one for White youth, and none for Asian youth. Youth who identify as female or as male each had a disparity ratio greater than 2.0. Economically Disadvantaged Students (EDS) also had a disparity ratio greater than 2.0.

TABLE 3: DISPARITY RATIOS BY CATEGORY AND POPULATION

Disparity Ratio Groupings	Asian	Black	Hispanic	White	Female	Male	LGBTQIA+	EDS
5 or Higher		2	3	1				
2 - 4.9		3	7	2	1	1		1
1.5 - 1.9	2	2	4	3	2	1	1	
1 - 1.4	8	12	11	7	3	1		
Total	10	19	25	13	6	3	1	1

Hispanic youth, followed by Black youth, had the greatest number of disparity ratios that were two or higher, indicating that large disparities continue to exist for these populations.

TABLE 4: THREE HIGHEST DISPARITY RATIOS BY RACE/ ETHNICITY POPULATION, ALEXANDRIA, VA

Rank	Asian	Black	Hispanic	White
1	Youth Programs (1.97)	Child Poverty (8.25)	Teen Pregnancy (6.83)	Alcohol Use (6.24)
2	5+ days of exercise (1.71)	Suspensions (5.88)	Child Poverty (5.75)	Cigarette Use (4.27)
3	3+ Caring Adults (1.36)	Teen Pregnancy (2.79)	Suspensions (5.0)	Bullied at School (2.04)

TABLE 5: THREE HIGHEST DISPARITY RATIOS BY GENDER, SEXUAL ORIENTATION, & SOCIO-ECONOMIC STATUS, ALEXANDRIA, VA

Rank	Female	Male	LGBTQIA+	EDS*
1	Forced to do sexual things (2.19)	Been in a Physical Fight (2.42)	Feeling Sad or Hopeless (1.81)	Suspensions (5.67)
2	Feeling Hopeless or Sad (1.95)	Suspensions (1.86)		
3	Ever been forced to have sex (1.64)	Cigarette Use (1.14)		

*Economically-Disadvantaged Students

CYCP PROGRESS REPORT 2022-2023

The indicators that had the greatest disparity ratio varied within each population (Tables 4 and 5). The indicators with the largest disparity ratios were child poverty for Black youth, teen pregnancy for Hispanic youth, alcohol use for White youth, youth programs for Asian youth, being forced to have sexual intercourse for female youth, being in a physical fight for male youth, feeling sad and hopeless for LGTQIA+ youth, and suspensions for EDS. These ratios ran from 8.25 to 1.14.

HOW THE DISPARITY RATIOS WERE CALCULATED

Before calculating the disparity ratio for each indicator, the racial/ethnic groups were selected. The data were reviewed for each racial/ethnic group for each indicator's baseline year and most recent year. If data for a racial/ethnic group were unavailable for one or more of those years, the group was dropped and not displayed on the report card or included in the disparity ratio calculation. This effected populations small in number, like Asian students.

Of the 996 ACPS students who completed the 2023 Youth Risk Behavior Survey, 51 (or 5.1%) of them identify as Asian, non-Hispanic. This sometimes resulted in the sample size being too small to draw any conclusions about the findings.

Therefore, this Report dropped the Asian group from disparity ratio calculations for the following indicators:

- Cigarette Use
- Alcohol Use
- Youth Violence
- Teen Pregnancy
- Dating/Relationship Violence
- Child Poverty
- School Suspension

To calculate the disparity ratio, we compare the population group with the best rate - meaning the group with the most favorable outcome - to the population group with the worst rate.

Using the CYCP indicator "Ate vegetables at least 1x per day in the past 7 days" as an example where a higher percentage is favorable, we see that among all the race and ethnic groups, White youth had the highest rate and therefore the "best" for this indicator in 2019 at 66.28%.

Black youth, on the other hand, had the lowest rate and therefore the "worst" for this indicator in 2019 at 28.51%.

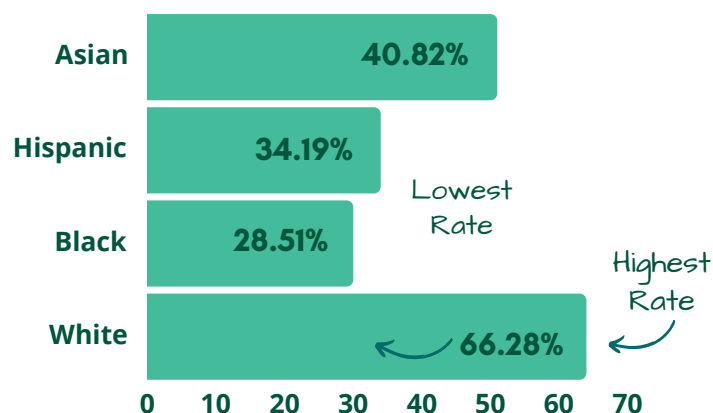

Then, we divided the rate for White youth by the rate for Black youth and get the unrounded disparity ratio:
 $66.28 / 28.51 = 2.324798316$.

Finally, we rounded the disparity ratio to two decimals for display on the report card: 2.32.

Chart 1: Calculating the Baseline Disparity Ratio

Ate Vegetables at Least Once in the past 7 days by Race/Ethnicity, 2019

Source: Youth Risk Behavior Survey, 2019

DISPARITY RATIO:
2.32

In 2019, White youth were 2.32 times more likely than Black youth to report eating vegetables at least once per day.

CYCP PROGRESS REPORT 2022-2023

For indicators with an established baseline, we can compare the ratios to see if they have increased or decreased over time. If, however, the group with the best baseline is different from the group with the currently best rate, then no comparison can be made. This was the case for the sexual assault indicators.

After calculating the disparity ratio for the baseline year (see Chart 1), we calculate the disparity ratio for the most recent year that data are available for the same indicator.

In 2023, 64.06% of White youth reported eating vegetables at least once per day in the past 7 days. That same year, 29.82% of Black youth reported eating vegetables at least once per day in the past 7 days.

Next, we divided the rate for White youth by the rate for Black youth: $64.06/29.82 = 2.15$.

Chart 2: Calculating the Current Disparity Ratio

Ate Vegetables at Least Once in the past 7 days by Race/Ethnicity, 2023

Source: Youth Risk Behavior Survey, 2023

DISPARITY RATIO:
2.15

Currently, White youth are 2.15 times more likely than Black youth to report eating vegetables at least once per day, a decrease of 7% since 2019.

LIMITATIONS

This Report has several limitations. One limitation is that most of the data used are sourced from self-reported surveys that do not capture underlying differences between survey participants and those who are eligible to participate in the survey but choose to opt out. Given that about half of students opted out of these surveys or were absent the day they were administered, there may be some bias in the responses.

Another limitation is that this Report does not include an analysis of the statistical significance of the percentage changes from the baseline year to the current year. Therefore, no conclusions can be drawn as to whether a rate “improved” or “worsened” over time. Instead, the Report simply notes when a rate “increased” or “decreased” over time.

A third limitation of this Report is its scope. The purpose of this report is to use the best data available to track the movement of the CYCP and evaluate progress in the elimination of disparities in adolescent health. Reporting on each area of the Plan is structured around results and indicators from the CYCP. It is not meant to be a complete archive of everything that took place in Alexandria that can be related to supporting youth. For readers wanting to take a deeper dive, each page provides links to CYCP Report Cards and other reports and plans where you can learn more about our collective progress through stories, anecdotes, and accomplishments that go beyond the numbers.

CYCP PROGRESS REPORT 2022-2023

CYCP POPULATION-LEVEL INDICATORS: CHANGE FROM BASELINE

INDICATOR

BASELINE* CURRENT CHANGE**

GOAL 1: ALL CHILDREN, YOUTH, AND FAMILIES ARE PHYSICALLY SAFE AND HEALTHY

KINDERGARTEN STUDENTS WITH A PRE-K EXPERIENCE	73%	77%	+5%
ATE VEGETABLES AT LEAST 1X/DAY IN THE PAST WEEK	41%	42%	+2%
CHILDREN WITH A MEDICAL HOME OR USUAL DOCTOR	74%	77%	+4%
5+ DAYS OF EXERCISE/WEEK	31%	38%	+23%
FEELING DEPRESSED OR SAD FOR THE LAST TWO WEEKS	30%	31%	+3%
PAST 30 DAY CIGARETTE USE	9%	5%	-44%
PAST 30-DAY ALCOHOL USE	26%	17%	-35%
BEEN IN A PHYSICAL FIGHT IN LAST 12 MONTHS	21%	12%	-43%
TEEN PREGNANCIES/1,000 FEMALES	13	12	-8%
EVER BEEN FORCED TO HAVE SEX	7%	3%	-48%
FORCED TO DO SEXUAL THINGS THEY DID NOT WANT TO DO	10%	9%	-10%
PARTNER PHYSICALLY HURT YOU	7%	4%	-39%
EXPERIENCED VERBAL ABUSE BY A GIRLFRIEND/BOYFRIEND	13%	20%	+53%
CHILD POVERTY	15%	15%	NO CHANGE
RENTER HOUSEHOLDS WITH INCOMES BELOW \$50K WHO ARE HOUSING COST BURDENED	88%	93%	+6%
% OF WASTE THAT IS DIVERTED THROUGH RECYCLING, REUSE OR COMPOSTING	49%	53%	+8%

GOAL 2: CHILDREN ARE ACADEMICALLY SUCCESSFUL AND CAREER READY

SCHOOL ENGAGEMENT	48%	80%	+67%
CARING SCHOOL CLIMATE	28%	31%	+11%
SUSPENSIONS	872	545	-33%
GRADE 3 READING	62%	60%	-3%
GRADUATION	83%	83%	NO CHANGE

GOAL 3: CHILDREN, YOUTH, AND THEIR FAMILIES HAVE POSITIVE EXPERIENCES

WITNESSED DOMESTIC VIOLENCE	24%	22%	-8%
BULLIED AT SCHOOL IN PAST YEAR	13%	10%	-23%
SAFETY	49%	39%	-20%
ALEXANDRIAN ADULTS WITH 4+ ACES	15%	16%	+7%
IDEAL NUMBER OF DEVELOPMENTAL ASSETS	19%	19%	1%
COMMUNITY VALUES YOUTH	20%	17%	-15%
YOUTH AS RESOURCES	21%	25%	+19%
OTHER ADULT RELATIONSHIPS	42%	38%	-10%
SERVICE TO OTHERS	46%	38%	-17%
YOUTH PARTICIPATION IN AFTERSCHOOL PROGRAMS	52%	47%	-10%

*Baseline years are variable based on which instrument was used to collect the data, when certain questions were added to a survey, and when disaggregated data became available. Therefore, baseline years range from 2014 to 2022.

**The equation used to calculate the percentage change is: $[(\text{Current Rate} - \text{Baseline Rate}) / \text{Baseline Rate}] \times 100$.

Colors describe the desired and actual direction of data. Green indicates that the change is headed in a favorable direction; yellow indicates no change in direction; and red indicates that the change is moving in an unfavorable direction.

CYCP PROGRESS REPORT 2022-2023

DISPARITY RATIOS (FROM GREATEST TO SMALLEST)

CYCP GOAL

All Children, Youth, & Families are Physically Safe & Healthy

RESULT

Every child in Alexandria has a strong start in life and in school

CHAMPION

Kids' First Years

HOW WE ARE DOING

KINDERGARTEN STUDENTS WITH A PRE-K EXPERIENCE

SOURCE: ACPS DATA WORKBOOK 2019 & DATA DIGEST 2024

■ TOTAL ■ ASIAN ■ BLACK ■ HISPANIC ■ WHITE

CURRENT TOTAL: **77%**
DISPARITY RATIO: **1.45**

Trends: About three-fourths of children in Alexandria enter Kindergarten with a Pre-K experience. The percentage has increased by 5% since 2015. Compared with Hispanic Kindergarteners, White kindergarteners are 1.45 times more likely to have a pre-k experience.

WHAT WE ARE DOING

- Fostering a coordinated system of equitable access, capacity, enrollment, and funding
- Establishing meaningful partnerships and channels of information sharing with families to support families as their child's first teacher
- Developing and coordinating professional learning opportunities for all early care and education providers to ensure equitable high-quality, culturally responsive learning experiences for young children
- Promoting our collective early care and education vision through collaborative strategic planning, data-driven decision making, sustainable funding, and policy

WHERE TO LEARN MORE

CHAMPION

Alexandria Sexual Assault Center

HOW WE ARE DOING

Trend: The percentage of youth who reported dating violence, with one exception, has decreased over the last decade. Youth who reported experiencing verbal abuse from a partner, however, increased by 53%. Compared with Black youth, White youth, on average, are 1.89 times more likely to report that they were forced to have sex and 1.43 times more likely to report being forced to do sexual things they did not want to do. Compared to Black youth, Hispanic and White youth are 1.61 times more likely to report experiencing verbal abuse from a partner. Female youth are, on average, more likely to report dating violence than male students.

*Obtaining accurate data on sexual violence is inherently difficult because it is understandably under-reported. The numbers are more a reflection of whether our community is a place where students feel comfortable reporting the incidents.

HOW WE ARE DOING

Trends in School Engagement & Climate:

The percentage of youth reporting school engagement has increased by 67% since 2010. Compared with Hispanic students, Asian students are, on average, 1.1 times more likely to report active engagement in their learning. The rate of students reporting that their school provides a caring, encouraging environment has risen by 11%. Compared with Hispanic students, Asian students are 1.15 times more likely to feel like their school provides them with a caring, encouraging environment.

Trends in Suspensions: The number of students with suspensions increased by 81% from 2022 to 2023 but decreased by 39% since the 2018-19 school year.

These pie charts depict the percentage of students by demographic enrolled in ACPS compared to the percentage of suspensions by sub-group. For example, in 2023, Black students comprised 24% of student enrollment and yet made up 47% of school suspensions. Black students at ACPS are suspended 5.88 times more than White students.

Economically-Disadvantaged Students (EDS) comprise of 61% enrollment and yet make up 85% of school suspensions. For every non-economically disadvantaged student suspended, 5.67 EDS are suspended.

Male students are 1.86 times more likely to get suspended from APCS than females.

City-School Staff Group (CSSG)

HOW WE ARE DOING

RACIAL EQUITY

% OF CYCP INDICATORS CHANGED FROM BASELINE YEAR

% OF DISPARITY RATIOS THAT CHANGED FROM BASELINE YEAR

TABLE 1: EXTENT OF DISPARITIES

Disparity Ratio Groupings	# of Indicators
5 or Higher	5
2 - 4.9	11
1.5 - 1.9	7
1 - 1.4	14

TABLE 2: EXTENT OF DISPARITIES BY RACE/ETHNICITY

Racial or Ethnic Group with Best Rate	# of times
Hispanic	1
Asian	5
Black	6
White	14

Trends: Of the 31 indicators we are using to measure the health and well-being of the young people in Alexandria, 58% of them have trended in a positive direction since their respective baseline year. When taking a closer look at the indicators that could be disaggregated by sub-groups, we see that 56% of those gaps may have narrowed since their baseline year.

The disparity ratios are grouped by size of disparity. The tables above describe these groupings; disparities that range from 1.1 to 1.4 are slight disparities while disparities of two and higher are more serious. For Hispanic youth, disparities existed for all but one of the 26 indicators.

ORGANIZATIONAL CAPACITY

OF CYCP REPORT CARDS PUBLISHED
SOURCE: CITY OF ALEXANDRIA

City Staff Turnover
Source: City of Alexandria

Trends: Since the adoption of the CYCP by City Council in 2021, 14 Report Cards have been published and two comprehensive annual reports. Increased staff turnover and limited staff capacity have resulted in under-reporting of the Plan's performance measurements. 21 (or 48%) of the Plan's 44 strategies have been featured in a monthly Report Card.

WHAT WE ARE DOING

- Designing, implementing, and evaluating solutions that undo racism, end discrimination, and advance equity
- Strengthening organizational capacity in the areas of staffing, infrastructure, communication, funding, planning, monitoring, evaluation, and professional development

NEXT STEPS

The findings in this Report suggest that our community is making progress, but there is clearly more work to be done. The actions we have taken and the lessons we have learned along the way will continue to guide future work. To create the conditions in Alexandria for all children to thrive today and tomorrow, we will further deepen our efforts on equipping caring adults with the tools, supports and skills they need to create environments and relationships where young people learn, grow, heal and flourish.

With the advancement of the CYCP 2025, our collective efforts will continue to:

- Build capacity to establish a “data culture” where data is consistently collected and analyzed to measure our impact
- Encourage the city-wide adoption and use of the Racial Equity Tool, Developmental Assets Framework, and trauma-informed practices
- Collaborate among City and Schools to operationalize the recommendations from the *Youth Safety and Resiliency Report* and the Youth and Caring Adults Summit
- Invest in the skills and professional growth of youth service providers

THE FINDINGS IN THIS REPORT SUGGEST THAT OUR COMMUNITY IS MAKING PROGRESS, BUT THERE IS CLEARLY MORE WORK TO BE DONE. THE ACTIONS WE HAVE TAKEN AND THE LESSONS WE HAVE LEARNED ALONG THE WAY WILL CONTINUE TO GUIDE FUTURE WORK.

APPENDIX

APPENDIX A: INDICATORS' BASELINES & SOURCES

INDICATOR	DATA SOURCE	BASELINE YEAR FOR TOTAL POPULATION
GOAL 1: ALL CHILDREN, YOUTH, AND FAMILIES ARE PHYSICALLY SAFE AND HEALTHY		
KINDERGARTEN STUDENTS WITH A PRE-K EXPERIENCE	ACPS	2015
ATE VEGETABLES AT LEAST 1X/DAY IN THE PAST WEEK	YOUTH RISK BEHAVIOR SURVEY	2019
CHILDREN WITH A MEDICAL HOME OR USUAL DOCTOR	YOUTH RISK BEHAVIOR SURVEY	2014
5+ DAYS OF EXERCISE/WEEK	YOUTH RISK BEHAVIOR SURVEY	2014
FEELING HOPELESS OR SAD FOR THE LAST TWO WEEKS	YOUTH RISK BEHAVIOR SURVEY	2014
PAST 30 DAY CIGARETTE USE	YOUTH RISK BEHAVIOR SURVEY	2014
PAST 30-DAY ALCOHOL USE	YOUTH RISK BEHAVIOR SURVEY	2014
BEEN IN A PHYSICAL FIGHT IN LAST 12 MONTHS	YOUTH RISK BEHAVIOR SURVEY	2014
TEEN PREGNANCIES/1,000 FEMALES	VIRGINIA DEPARTMENT OF HEALTH	2018
EVER BEEN FORCED TO HAVE SEX	YOUTH RISK BEHAVIOR SURVEY	2018
FORCED TO DO SEXUAL THINGS THEY DID NOT WANT TO DO	YOUTH RISK BEHAVIOR SURVEY	2019
PARTNER PHYSICALLY HURT YOU	YOUTH RISK BEHAVIOR SURVEY	2014
EXPERIENCED VERBAL ABUSE BY A GIRLFRIEND/BOYFRIEND	YOUTH RISK BEHAVIOR SURVEY	2016
CHILD POVERTY	US CENSUS BUREAU	2015
HOUSEHOLDS WHO ARE HOUSING COST BURDENED	CITY OF ALEXANDRIA	2019
% OF WASTE THAT IS DIVERTED THROUGH RECYCLING, REUSE OR COMPOSTING	CITY OF ALEXANDRIA	2019
GOAL 2: CHILDREN ARE ACADEMICALLY SUCCESSFUL AND CAREER READY		
SCHOOL ENGAGEMENT	DEVELOPMENTAL ASSETS SURVEY	2010
CARING SCHOOL CLIMATE	DEVELOPMENTAL ASSETS SURVEY	2010
SUSPENSIONS	ACPS	2019
GRADE 3 READING	ACPS	2019
GRADUATION	ACPS	2017
GOAL 3: CHILDREN, YOUTH, AND THEIR FAMILIES HAVE POSITIVE EXPERIENCES		
WITNESSED DOMESTIC VIOLENCE	YOUTH RISK BEHAVIOR SURVEY	2019
BULLIED AT SCHOOL IN PAST SCHOOL YEAR	YOUTH RISK BEHAVIOR SURVEY	2014
SAFETY	DEVELOPMENTAL ASSETS SURVEY	2010
ADULTS WITH 4 OR MORE ACES	VIRGINIA DEPARTMENT OF HEALTH	2018
IDEAL NUMBER OF ASSETS	DEVELOPMENTAL ASSETS SURVEY	2013
COMMUNITY VALUES YOUTH	DEVELOPMENTAL ASSETS SURVEY	2010
YOUTH AS RESOURCES	DEVELOPMENTAL ASSETS SURVEY	2010
OTHER ADULT RELATIONSHIPS	DEVELOPMENTAL ASSETS SURVEY	2010
SERVICE TO OTHERS	DEVELOPMENTAL ASSETS SURVEY	2010
YOUTH PARTICIPATION IN OUT-OF-SCHOOL-TIME PROGRAMS	DEVELOPMENTAL ASSETS SURVEY	2010

APPENDIX B: WHERE WE'VE BEEN AND WHERE WE'RE HEADED

The Results-Based Accountability Framework defines a baseline as having two parts: "An historical part that tells us where we've been, and a forecast part that shows where we're headed if we don't do something more or different than what we are doing now" (Friedman, 2015). Forecasts can help organizations estimate their future staffing needs and establish what a future might look like without any changes to the budget or policies.

While there is no single right forecast and it's impossible to predict exactly where the forecasting line will go, forecasts are essential for a couple of reasons. For starters, it allows us to ask and answer the question, "Is this future okay?" If not, then it can help us get from talking to taking action.

The second reason is that baselines with forecasts can help us define success as "beating the baseline." Most of the conditions that we are trying to change have a history and often the

trend has been headed in the direction for a long time. "Sometimes the best you can do is slow down the rate at which things are getting worse, before you can flatten the curve and turn it in the right direction" (Friedman, 2015). These historical baselines with forecasts give us a way to assess the big picture and whether we have made progress since the Children and Youth Master Plan was launched in 2014.

The FORECAST function in Excel was used to predict the following future values by using linear regression. In other words, FORECAST projects a future value along a line of best fit based on historical data. The syntax of the FORECAST function is as follows:

FORECAST(x, known_y's, known_x's)

Where:

- X is the value for which you want to predict a new y-value.
- Known_y's is an array of known dependent y-values.
- Known_x's is an array of known independent x-values.

CYCP PROGRESS REPORT 2022-2023

APPENDIX C: WHO OWNS HOW MUCH OF THE PLAN?

Achieving the goals and strategies in the CYCP involves all of our efforts. The charts below indicate the percentage of the Plan's 169 tactics that are shared among the following Tactic Owners at the system-level (government, schools, coalitions and cross-sector groups) and at the organization-level (specific organizations). Calculations were made by the # of tactics owned by one organization divided by 169 (the total number of tactics in the Plan).

Acronyms

ACAP	Alexandria Campaign on Adolescent Pregnancy (6%)
ACPS	Alexandria City Public Schools (14%)
APD	Alexandria Police Department (4%)
CHIP	Community Health Improvement Plan (9%)
CSU	Court Service Unit (4%)
CSSG	City School Staff Group (4%)
CYCP WG	Children and Youth Community Plan Work Group (11%)
CYFCC	Children, Youth, and Families Collaborative Commission (1%)
DCHS	Department of Community and Human Services (15%)
KFY	Kids First Years (8%)
MCTEB	Mayor's Campaign to End Bullying (3%)
Housing	Office of Housing (4%)
RAISE	Resilience Alexandria: Inform. Support. Elevate (3%)
RPCA	Recreation, Parks, and Cultural Activities (4%)
SAPCA	Substance Abuse Prevention Coalition of Alexandria (4%)
TES	Transportation and Environmental Services (6%)
YSN	Youth Support Network (1%)

SYSTEM-LEVEL

Unified Planning and Implementation

The **Children and Youth Community Plan 2025** is connected to many City-wide plans that aim to improve outcomes among Alexandria's residents, including the Alexandria City Public Schools (ACPS) **Equity for All Strategic Plan 2025** and the Alexandria Health Department (AHD) and the Partnership for a Healthier Alexandria **Community Health Improvement Plan 2025 (CHIP)**.

In one of the first major plan alignment efforts of the city, the leadership of these organizations established a Unified Implementation Team to jointly develop the three plans in areas where the goals and outcomes overlapped. The Team reports out twice a year, in the spring and fall. You can find more information about the Team, including their Community Reports in multiple languages, [here](#).
