STATE OF THE STATE  
GOVERNOR DOUGLAS A. DUCEY  
FIRST REGULAR SESSION, FIFTY-FIFTH LEGISLATURE  
January 11, 2021

Good afternoon.

This past year we've all gotten used to doing business a little differently, and so it is today. We would have preferred our usual State of the State proceedings, but like so many other recent plans, it wasn't in the cards.

If there's an upside to the unique circumstances, it's that for this year's address we have more people than ever watching us live from across the state. What we've lost in ceremony, we've gained in citizen engagement. And I'm glad to have so many Arizonans listening, because there is much to report.

On Friday, I had the pleasure of meeting with all four legislative leaders – Democrats and Republicans. I want to thank Speaker Rusty Bowers, President Karen Fann and Leaders Reginald Bolding and Rebecca Rios for a serious and cordial exchange.

Our meeting was in stark contrast to the violent and destructive rioting at our nation's capitol, just two days prior. It was a sickening day in Washington D.C., that no American will ever forget. In the United States of America, violence and vandalism have no place in the people's House. Perpetrators should be prosecuted to the full extent of the law. Let us condemn it and resolve that it never happens again.

With that in mind, let us treat each other this year as one of our nation's greatest presidents, Abraham Lincoln, suggested: "With malice toward none, with charity for all, with firmness in the right as God gives us to see the right, let us strive on to finish the work we are in." and Arizona will do its part to bind up the nation's wounds. Here, we will conduct ourselves with integrity, and respect for each other and for the United States Constitution.

As for our work here, all agree the pandemic remains the most significant threat we face, and it will require vigilant attention for months to come. The risk is still serious, and so is the pressure on our hospitals and medical personnel.

Even so, we should take encouragement where we find it – starting with the breakthrough that will change everything. If last year was the year of the virus, this year will be the year of the vaccine.

**Monday, January 11, 2021**

**First Day**

2020 threw a lot at us. It was a time we'll all remember, but not very fondly. Yet in a time of trial, loss, worry, and disruption, we kept our bearings, and never lost heart. It's been one of those turns in life when perseverance makes all the difference . . . when we had to show just how resilient we are.

We've also had reminders – as if any were needed – of why medicine and nursing are so respected among life's great callings.

I think of Edmond Baker, a doctor and Army veteran who for years has cared for patients in the medically underserved parts of Arizona. Like so many other doctors, he has stayed on call and has never relented, so that no matter who you are or where you live, you can get the care you need.

Then there's Regina Villa, a nurse at Valleywise Health Medical Center. The mission, says Nurse Villa, "is truly to care for all people. It doesn't matter who you are." It's been a time when COVID patients can't even see their families, and nurses can feel like the only friend at their side. Nurse Villa is one of the thousands who have met this crisis with courage, grace, and kindness.

And we can never overlook the incredible service of the Arizona National Guard. Consider just the single example of Will Smith, a medic who in 2019 came home from deployment in Iraq. With the pandemic, Will found himself back in a Blackhawk helicopter delivering COVID testing kits to tribal nations. That was Will's idea of a break from his regular job at Scottsdale Osborn Medical Center.

In so many ways, an extremely tough year brought out the best in us. And yet sometimes, despite all, our best wasn't enough. It's a vicious virus, taking some 10,000 lives in our state alone, and has left nothing but grief in its path.

With the vaccine, however, we aim to cut off that path as quickly as possible.

We started with vaccinations of medical personnel, since they're the ones we count on to deliver it far and wide. The logistics of putting the vaccine within reach of everyone will be complex and demanding. But Arizona is going to do it fast, we are going to do it right, and I assure you that we'll do it with a real sense of urgency and purpose.

Today, our state's largest county begins vaccinating teachers and cops. And while local public health officials are working hard, we need to work faster. So now, even more resources will be brought to the fore. At my direction, the state has launched a 24/7 vaccination site at a large and notable location: State Farm Stadium, home of the Arizona Cardinals. Everyone needs this vaccine. And the sooner we all receive it, the more quickly we can get on with life as it should be.

From the very outset of COVID-19, there have been disagreements about how to deal with it. And in my fifty-plus meetings with the press, I've heard endless variations of the same question: Why not more and longer lockdowns? Why not more aggressive lockdowns? Schools, businesses, parks, weddings, funerals, church services – why not ban all gatherings and just lock everything down?

It's a question that only makes sense if you forget about everything else – all the other troubles that lockdowns set in motion. The rest of life doesn't stop in a pandemic, least of all our basic responsibilities. People still have bills to pay, children in need of schooling, businesses to run and employees who depend on them. There are lots of men and women who don't have the option of remote work and don't receive uninterrupted direct deposits. To make a living, they have to show up somewhere. And if the doors are closed, then at a certain point they are never going to open again.

### First Day

If we're really all in this together, then we have to appreciate that for many families "lockdown" doesn't spell inconvenience; it spells catastrophe... zero income, inability to make a payment, eviction, foreclosure, and real personal anguish.

Often these past ten months, likewise, I met in this office with public-health experts who were describing the broader impacts of COVID-19, beyond the disease itself. Opioid abuse, alcoholism, addiction, mental-health issues, the sheer loneliness of isolation, suicide: there has been no daily count of these human costs, but they are real and they are devastating. And extreme measures by well-intentioned people have unintended consequences that actually do far more harm than good.

We never did a "lockdown" in Arizona. We were targeted and thoughtful. So some have asked: Why not end the public health emergency? It's simple... Because we are in a public health emergency. I've been entrusted by the people of Arizona with this responsibility. I'm not going to hand over the keys to a small group of mayors who have expressed every intention of locking down their cities.

And by the way, look at the experience of the other states that did lock down. What do they have to show for their strict mandates and orders? They're still dealing with the worst of it. Just as we are.

I'm well aware that taking the measured, steady, responsible approach will continue to invite criticism from all directions that we're doing too much or not enough. The critics can say what they want, but the path I've outlined is the right path for Arizona.

Here's the short of it: Arizona has taken the measured course, and all the same strengths that carried us through our worst days will carry us forward. All fifty states are focused now on saving lives, distributing the vaccine, and adding jobs. And in meeting these challenges, no state is better prepared than Arizona.

In this new session, the Legislature and I have some big pieces of business to complete. And I'll soon be sending the details of my proposals for 2021. But today, I know that many Arizonans are especially concerned about their kids and about their jobs, so let me begin there.

It's been a small mercy of this pandemic that the virus is least likely to harm our children, although there are exceptions. Of course, their teachers are a different matter, and that's why we're making sure that teachers receive the vaccine as quickly as possible.

Across our state, students have been kept out of their classrooms for long enough. They've lost out on childhood experiences that can't be duplicated on a computer screen. In strange, difficult circumstances, parents and teachers have done their resourceful best. But it's time to get our students back where they belong. With every public-health professional, from Dr. Fauci and the CDC on down, saying that the safest place for kids to be is in school, we will not be funding empty seats or allowing schools to remain in a perpetual state of closure. Children still need to learn, even in a pandemic.

By necessity during this emergency, many parents have been more engaged than ever in the daily education of their children. Quite a few have found temporary educational options they want to make permanent. It's their right. Public policy should keep pace, and empower them to make that choice.

But still, other kids have fallen behind. There's been severe learning loss. Kids have missed out on so much. So let's put our resources on getting them caught up. Before COVID, we had an achievement gap in our schools. And it's only gotten worse. It's a problem detailed in a report just last week from one of the state's leading business organizations – with data showing the gap in student achievement often falls squarely

**Monday, January 11, 2021**

**First Day**

down economic and racial lines.

Distance learning has not been good for these students, who often don't have wi-fi or a laptop available. So starting now, let's direct resources to helping these children catch up. Summer school, longer school days, one-on-one targeted instruction, tutoring. It should be our goal that every student graduates high school on time and at grade level.

This is consistent with the education innovation for which Arizona is known. At the heart of that movement is the idea that every child, regardless of background, is entitled to a great education and all the opportunities that come with it.

Our independent spirit, after all, is one reason why so many people feel drawn to Arizona. They see that spirit as well in our respect for hard-working taxpayers. And for Americans tired of living in states with high taxes, heavy regulation, low-growth, and fading opportunity, Arizona has become the destination.

And they're still coming to Arizona in 2021 because during the pandemic, we never took our small businesses or their workers for granted. As bad as things got, we're recovering fast. New businesses and residents have been added by the thousands. At this time last year, we were ahead of 45 other states in job creation and personal income growth. Today, we're still top-five. But some Arizonans are struggling. And it's got to be our priority to help them with a growing economy and more jobs.

Every year I've been governor, we've improved income taxes in the taxpayer's favor. We've simplified the code, lowered all rates, protected them against inflation, and eliminated an entire tax bracket. In all of this, we've proven that our government can fulfill every obligation, and answer the unexpected needs of a growing state, without raising taxes.

My goal has been to make Arizona the best place in America to live, work, and do business – by letting Arizonans keep more of their hard-earned money. And having come this far, as other states chase away opportunity with their new taxes, why on earth would we ever want to follow their failed and depressing example?

So I propose, in this session, we work together to reform and lower taxes and preserve Arizona's good name as a responsible, competitive state. On tax reform, let's think big.

In the coming weeks, legislators and I will have a lot more to talk over. There's general agreement, for instance, on COVID liability protection, so that a statewide emergency doesn't line the pockets of trial attorneys with frivolous lawsuits. There's also an opportunity for a modernized gaming compact that will bring in more revenue for our tribal nations and our state budget. Among other agenda items requiring our attention, let's work on broadband expansion . . . greater access to telemedicine . . . better roads and bridges . . . continuing to be a global leader on water innovation . . . better equipment and training for law enforcement . . . criminal justice reform . . . and guarding against wildfires, so we stay on top of that ever-present risk.

With remote working by many state employees, we also have the chance to further limit the size, cost and footprint of government. Let's truly "shrink" government, by eliminating unnecessary state buildings and saving taxpayer dollars, so we can prioritize areas of need, like educating our kids, taking care of our sick, and keeping our neighborhoods safe.

We can complete all this and more in 2021, and I am ready. Our whole state is ready to get back on a rising path. Through the trials of 2020, we kept our balance. We met every test. And even in an election year, we showed the best of our state's bipartisan tradition. If Arizonans are looking to this year with a feeling of accomplishment and optimism, it is

**First Day**

because they've witnessed the strength of their fellow citizens.

Despite everything 2020 threw at us, in the face of a global pandemic, everyday Arizonans have demonstrated the true state of our state— from our frontline medical workers; teachers, moms and dads; public safety and first responders; small business people; election day workers; grocery store employees, and national guard – we've seen heroism, sacrifice, service and acts of kindness, large and small. The state of our state is not only strong – it's resilient.

So let us act in that spirit. We must be hopeful for the future — but we cannot forget the challenges we face in the immediate.

The nurses and doctors, tired and exhausted as they work overtime to save lives. The Arizonans who are grieving loved ones lost. We must all do our part, by doing what we know works: Following public health, wearing a mask, and practicing personal responsibility.

With resilience and compassion, we move forward, allowing nothing to get in our way, and showing in the end the best kind of unity there is – the unity of caring about one another.

Thanks for listening, and God bless.

## BUSINESS ON THE SPEAKER'S DESK

A communication from Governor Douglas A. Ducey on approval of the following bill, with expression of executive intent, was filed:

Re: House Bill 2402 (schools; test results; letter classification)

Dear Secretary Hobbs,

As I shared in my State of the State address, students have been kept out of school for too long, and I have serious concerns about the learning loss that has occurred this past year. Getting kids caught up and on track needs to be a top focus of ours.

Today, I signed H.B. 2402. This legislation ensures students continue to be evaluated, so we can get them the help they need, while also recognizing this year is unique and provides some flexibility around the state's A-F grade system.

But the data and information we get is only worthwhile if we study it and act on it. So in addition signing this bill, I'm also issuing Executive Order 2021-03, directing the State Board of Education to utilize AZM2 (AZMerit) Assessment data from this school year to draw comparisons to prior years and identify the extent of learning loss that occurred. This data will then be used to ensure targeted and evidence-based strategies for acceleration.

This will ensure we continue to have accountability in our education system, so parent can make the best educational choice for their kids. After all, these are our future leaders and it is incumbent upon us that we ensure they are prepared for success. Any future attempts to suspend this grading system will necessitate a much greater level of justification.

Sincerely,  
 /s/ DOUGLAS A. DUCEY  
 Governor

## PROTEST

Ms. Dalessandro rose to a point of protest and in accordance with Article IV, Part 2, Section 16, Constitution of Arizona, and House Rule 20, the following protest was entered:

I stand before you today at the risk of being criticized for being a day late and a dollar short, but the issue is too important for AZ not to be on the official record. The following is my 200-word Protest in opposition to HB 2691 A strike anything amendment ADEQ; water quality program; WOTUS that I am requesting to be entered into the Journal. Nearly every area is or will be facing challenges in a safe and adequate water supply.

Without safe and adequate water supply there is not life. There cannot be prosperity nor economic growth. I stand against HB2691 with its Strike Everything ADEQ; water quality program; WOTUS.

In recently we saw the suffering of people in Texas because of their standalone electrical grid which failed because of lack of investment and addressing climate issues. Grateful the AZ utilities are on the regional grid and TEP and APS are committed to renewable sources and sustainability.

Changes in definitions in WOTUS Waters of the United States is based on ill-conceived changes in definitions in the federal Clean Water Act. There are nearly a dozen cases in Federal court challenging changes in these definitions.

There was a flawed stakeholder process that excluded all the 26 environmental groups who are on the record opposing the Bill. The City of Phoenix which was in the stakeholder

process. They testified in opposition to the strike everything. A constituent testified objecting to the exclusion of Harshaw Creek which flows into Sonoita Creek which flows into the Santa Cruz which flows north to Tucson.

If this Bill passes in the Senate, I encourage all to contact Governor Ducey and ask him to veto it.

SB 1420, signed March 5, 2021

Re: Senate Bill 1420 (consular identification; validity; biometric verification)

Dear Secretary Hobbs:

Today I signed S.B. 1420 sponsored by Senator Paul Boyer. I'm grateful to the sponsor and the bipartisan majority of legislators who supported this policy that enhances public safety by offering a secure, reliable form of identification to be accepted in Arizona.

This legislation will ensure that law enforcement is able to quickly and accurately identify more of the individuals with whom they interact. This is critical to ensure safety for both law enforcement and the public. As a result of this legislation, more individuals will have biometrically secure forms of identification for interactions with law enforcement and other governmental entities.

This bill does not authorize any new rights or responsibilities for non-citizens. It simply recognized that governments in Arizona will accept cards issued by

## BUSINESS ON THE SPEAKER'S DESK

A communication from Governor Douglas A. Ducey on approval of the following bill, with expression of executive intent, was filed:

Re: House Bill 1442 hazardous vegetation removal; state forester

Dear Secretary Hobbs,

As I shared in my State of the State address, guarding against wildfires is an important issue that requires a new strategy for the state. That new strategy of taking additional steps to reduce wildfire risk to Arizona communities is reflected in the Arizona Healthy Forest Initiative.

The Arizona Healthy Forest Initiative involves 1) building additional in-house capacity to remove vegetation posing wildfire risks, 2) leveraging existing partners to remove vegetation posing wildfire risks, and 3) adding additional partnerships used to remove vegetation posing wildfire risks. Senate Bill 1442 is a key component of this initiative and will allow new partners to cooperate with the

Department of Forestry and Fire Management in their efforts to protect Arizona communities from devastating wildfires.

Additionally, Senate Bill 1442 allows the State Forester to use programs that build on the successful partnership with the Arizona Department of Corrections, Rehabilitation, and Reentry. Using the model of inmate wildland fire suppression crews, the Arizona Healthy Forest Initiative will provide opportunities for over 700 additional inmates to gain life-changing job skills and post-release opportunities.

I want to extend my gratitude to the sponsors of this legislation, Senator Kerr and Representative Griffin, and to all the legislators supporting this critical mission. I am very pleased to sign Senate Bill 1442 today, and look forward to working with the legislature to complete the other necessary pieces of this ongoing effort to protect our forests and communities.

Sincerely,

/s/ Douglas A. Ducey  
Governor

A communication from Governor Douglas A. Ducey on approval of the following bill was filed:

Dear Secretary Hobbs:

Today, I signed H.B. 2569.

**Ninety-second Day**

2020 was an extraordinary year that brought with it unprecedented challenges. Through it all, our election workers pushed forward- ensuring that we continued to prioritize access to the ballot – by mail and in person at a polling place. I'm so grateful for their work.

With unprecedented challenges came an unprecedented demand for resources. I was proud to partner with you on the AZ Vote Safe Program – allocating more than \$9 million in discretionary federal relief dollars to state and county agencies in support of the 2020 primary and general election to prioritize the safety of poll workers and voters. When private monies were offered, our election officials used these dollars with the integrity for which they've become known.

This may not have been the first time election officials relied upon private monies to conduct election, but it should be the last. With public confidence in our elections in peril, it's clear that elections must be pristine and above reproach – and the sole purview of government. If third party groups want engage in advocacy and encourage people to vote, that's great But the mechanics of elections cannot be in question, and therefore all third part money must be excluded going forward to avoid any possible allegations of wrongdoing. And, going forward, the legislative and executive branches must continue to invest adequate resources to ensure you and county election officials have the resources you need to effectively and securely administer elections.

We are grateful for the assistance we received in 2020, and nothing in this law should be interpreted as us being unappreciative. However, to preserve the integrity of and voter confidence in our elections, it is important that election officials avoid any perception of outside influence.

Sincerely,

Douglas A. Ducey  
Governor  
State of Arizona

A communication from Governor Douglas A. Ducey on approval of the following bill was filed:

Dear Secretary Hobbs:

Today, I signed H.B. 2770.

While Arizona never had a statewide mask mandate during the COVID-19 pandemic, over 90 percent of Arizonans live in a jurisdiction that made the decision to adopt a local mask mandate to mitigate the spread of COVID-19. Our largest cities opted not to enforce their mandates, leaving the responsibility up to local businesses. I understand the concern and heartache this caused for many of these businesses and I am grateful that the sponsor introduced this bill to address that very issue.

This bill is well-intentioned, but due to an error in drafting may have unintended consequences. Some rational mask requirements that are not related to the spread of COVID-19 may not be enforceable. The state needs to be able to enforce long-standing workplace safety and infection control standards unrelated to COVID-19. I'm grateful to the sponsor, Rep. Joseph Chaplik, for agreeing to fix this technical oversight in a future bill this session. With his commitment to fix this oversight, I am signing this bill, ensuring that our small businesses will no longer be required to enforce mandates imposed on them by their cities who are choosing not to enforce it themselves.

Sincerely,

Douglas A. Ducey  
Governor  
State of Arizona

#### BUSINESS ON THE SPEAKER'S DESK

A communication from Governor Douglas A. Ducey on disapproval of the following bills were filed:

HB 2360, vetoed April 11, 2021

Dear Speaker Bowers:

Today, I vetoed H.B. 2360. Arizona's county recorders are extraordinary elections professionals, who run our state's elections with efficiency and integrity. I appreciate and am grateful for their work. While there are many changes to the laws governing elections in this state that could continue to improve Arizonans' confidence in our election system, making wholesale changes to the ownership and operation of our online voter registration is unnecessary.

Under current law, the Secretary of State and the Arizona Department of Transportation share responsibility for managing online voter registration. The Arizona Department of Transportation has developed a site and a system that Arizonans recognize and appreciate. This bill would have moved this system under the exclusive control of the Secretary of State by December 31, 2023, after the

current administration. I appreciate the inclusion of a group of county recorders as an advisory board, but to move ownership of this responsibility to the Secretary of State removes the checks and balances that have served the development and administration of this system well in the past and should continue into the future.

Sincerely,

Douglas A. Ducey

State of Arizona

PROTEST

Ms. Salman rose to a point of protest and in accordance with Article IV, Part 2, Section 16, Constitution of Arizona, and House Rule 20, the following protest was entered:

During Committee of the Whole debate on SB 1456, a member from District 23 with an accent from outside of Arizona mocked another member from District 30 with an accent that is shared by many Latino Arizonans. As the daughter and granddaughter of Arizonans with German, Middle Eastern and Latino accents, I think this form of mockery is wrong and member should not engage in this demeaning behavior, I will be submitting these comment in the Journal.

#### Minority Report:

We oppose SB1457 abortion; unborn child; genetic abnormality as amended in conference committee, because the conference committee amendment fails to remedy the egregious Constitutional issues and practical barriers created by the bill.

The bill is an expansive and intrusive step toward criminalizing, restricting, and regulating women, doctors, universities and public institutions. The amendment makes minor improvements: it exempts in vitro fertilization procedures from the expansive civil and criminal liability of the bill; it adds an additional requirement that a Class 6 felony penalty shall apply if a person performs an abortion knowing that it is sought "solely" because of a genetic abnormality of the child. Additionally, it tightens the language of the exception to the Class 6 felony for abortions sought due to a "severe fetal abnormality," to a "lethal fetal condition." These slight improvements are far from sufficient to address the significant criminal and civil liability that this bill creates.

First and foremost, the Pace amendment does not change the fetal personhood language of Sec. 1., which confers personhood - all rights, privileges and immunities - to an unborn child at any stage of development. This would grant all rights, privileges, and immunities of any other citizen, to a fetus - meaning any harm to the fetus may carry criminal or civil sanctions never before contemplated. Although the bill states the personhood status must be consistent with Supreme Court precedent, it is not hard to

### One Hundredth Day

see how this provision could be easily interpreted to erase the universe of protections afforded to women under law of the land since *Roe v. Wade* and *Planned Parenthood v. Casey*.

Regardless of potentially undermining a woman's right to an abortion under current Supreme Court precedent, the "personhood" provisions of the bill would open up the potential for prosecutors to charge persons including the pregnant individual whose conduct results in a woman having a miscarriage with murder, manslaughter or child endangerment. In fact, a young African American woman in Alabama, a state with a fetal personhood law, was indicted by a grand jury on manslaughter charges when she lost her fetus at 5-months after being shot and faced up to 20 years in prison. In El Salvador where the law maintains personhood for fetuses and criminalizes abortions, women in poverty who have miscarriages or still births are routinely swept up into the criminal system through no fault of their own. Evidence suggests that poor women of color will be punished more severely than their counterparts, further exasperating the racial and class disparities that already exist in our justice system.

An amendment attached to Sec. 1 of the bill during the Free Conference Committee expressly prohibits a cause of action against a person who performs In Vitro Fertilization (IVF), seemingly in view of the fact that IVF techniques routinely engage in the selective reduction in the number of embryos implanted in a person's womb. Nevertheless, the scope of this exemption from liability is unclear. Does it apply to any nurse, anesthesiologist or technician or office staff that work for an entity that conducts IVF? What about the company that stores embryos in deep freezers? Would their potential negligence in damaging a test tube containing an embryo or shutting off a freezer, subject them to criminal or civil liability and damages? For these reasons, we sought to introduce an amendment to repeal Sec. 1 from the bill, but the conservative majority adjourned abruptly in order to prevent us from doing so.

Secondly, the bill will criminalize the doctor-patient relationship, providing for the prosecution of a person, not limited to a doctor, who performs an abortion sought due to a genetic abnormality, and any person who solicits or accepts monies to finance an abortion sought due to a genetic abnormality. This would require doctors to interrogate a pregnant person for their motivations in seeking an abortion, and subject them to a felony if they are determined incorrect by a judge or jury. The addition of the word "solely," far from clarifying the doctor's duties in determining why an abortion is sought, only creates more questions: what if a woman provides one reason for an abortion but then later mentions the fetus's genetic abnormality? Which is the physician to believe is the "sole" reason the person now wants an abortion? Additionally, if a woman is wealthy enough to self-finance this abortion out of pocket, she does not face the Class 3 felony prescribed in this section. However, lower middle class and low-income women will be treated more harshly based on their ability to pay for abortions based on genetic abnormalities. The amendment also exempts from a prohibited abortion an abortion performed on a fetus with a "lethal fetal condition," as defined under A.R.S. Section 36-2158. The definition of a lethal fetal condition also raises questions as it turns on the existence of a reasonable medical certainty that the fetus will not live more than 3 months after birth. It is important to understand that the bill language does not defer to the doctor's medical judgment as would be necessary were the language to include the phrase "good faith medical judgment." Instead the ultimate decider of whether a physician is liable (and the full scope of liability for the physician's staff) will be the judge or the jury.

The criminalization of the doctor-patient relationship has far-reaching implications, not only for women and their doctors, but also for assisting medical professionals and staff, who could be charged as accomplices - including nurses, physician's assistant's, and anesthesiologists. Other reproductive healthcare professions such as midwives and doulas could also be criminalized under this law.

Additionally, inclusion of "genetic abnormality" language in abortion restrictions act to expand the connected civil liability under A.R.S. 13-3603.02(D), which allows a husband of the woman or parent of a pregnant minor to bring a civil action on behalf of an unborn child - against a woman who solicits or accepts monies for such an abortion; and against a doctor who performs such an abortion. This creates enormous possible legal exposure for doctors and healthcare institutions, in addition to exposing a minor to civil liability against her own parents. For these reasons, we distributed an amendment removing the language pertaining to genetic abnormality but was prohibited from moving the amendment by the Chair.

The Pace amendment fails to address any of these concerns and makes only minor and insufficient improvements. The Chair of the Conference Committee broke from custom and practice established by the Senate in 2019 by arbitrarily blocking public testimony from Morgan Tucker and Garin and Erica Marschall, Arizonans who have needed an

**One Hundredth Day**

abortion due to genetic abnormality of a fetus, and expert witnesses that include but are not limited to doctors, criminal defense attorneys, and other impacted stakeholders. In addition, the Senate President prohibited over a dozen members of the public from attending the hearing live, despite the official notice stating the hearing would be open to the public. We believe these witnesses would have provided important information on the issues raised in this report.

Lastly, the addition of a legislative intent clause - an attempt to inoculate the legislation from the inevitable court challenge the sponsor clearly anticipates - fails to remedy any concerns; and relies on dicta, and cherry-picked statistics from reports submitted by parents in those cases. It cites *Box v. Planned Parenthood* of Indiana and Kentucky, a ruling on the disposition of fetal remains in which the Court did not make a substantive ruling on the issue of a sex- and gender selective abortion restriction; and *PRETERM-CLEVELAND v. McCloud*, in which is not a final ruling on the merits of any abortion restriction but rather a ruling on a lower court's decision on a preliminary injunction. This is far from substantive law.

The amendment fails to address any of these concerns and makes only minor and insufficient improvements. For those reasons, and many more, we oppose SB1457 as amended by the conference committee.

SB's 1353, 1366, 1412, 1447 and 1645, signed April 20, 2021

A communication from Governor Douglas A. Ducey on disapproval of the following bill was filed:

SB 1456, vetoed April 20, 2021

Dear President Fann:

Today, I vetoed Senate Bill 1456.

Arizona is and will remain a nation leader in parental rights, and I support the underlying principles and intent of the legislation: More parental involvement in education, especially around the personal and sensitive topic of sex education is "opt-in." More states should follow our lead.

**One Hundred Second Day**

However, the language of the bill is overly broad and vague and could lead to serious consequences, including the very real possibility that it could be misinterpreted by schools and result in standing in the way of important child abuse prevention education in the early grades for at risk and vulnerable children.

While this veto protects against the risks, it's important to enact the most critical policy elements, and in some cases do even more to protect parents and kids.

Therefore, I'm issuing an Executive Order today that seeks to encompass the heart of the bill and strengthens parental choice and involvement. In fact, this Executive Order goes further than Senate Bill 1456 —requiring more transparency for all sex education curriculum, mandating that schools post the curriculum online and that parents have the ability to review the materials and can make an informed decision before opting their child into sex education courses. With this Executive Order, moving forward, all sex education curriculum will need to be posted online, with no exceptions.

I'm appreciative to the bill sponsor, Senator Nancy Barto, for bringing this discussion to the fold. I know her heart is in a good place, and I look forward to working with her on additional reforms.

Sincerely,

/s/DOUGLAS A. DUCEY  
Governor  
State of Arizona

I appreciate the sponsor's intent with this bill. However, I have heard from several county attorneys that this bill could make the prosecution of DUIs nearly impossible.

The safety of our highways and roads is of utmost importance, and I am concerned of the unintended consequences this bill may have.

Communications from Governor Douglas A. Ducey on disapproval of the following bills were filed:

SB 1282, vetoed May 3, 2021

Dear President Fann:

Today I vetoed S.B. 1282.

Both the legislature and I agree that the protection of our seniors and vulnerable adults living in long term care facilities is of the utmost importance. With that in mind, Senator Pace had introduced a bill to continue the Board of Examiners of Nursing Care Institution Administrators and Assisted Living Facility Managers to make sure that proper oversight of these institutions that care for our most vulnerable was in place.

Sadly, after this bill was nearly through the legislature, there was a disturbing and heartbreaking investigation by the Arizona Republic of Arizona's into this Board that showed the Board is failing in its duty. The report detailed how the Board provided a license to an individual convicted of a felony for fraud. Additionally, the board did not investigate and adjudicate complaints in a timely

manner to provide accurate information to the public. The Board has also failed to ensure that all applicants meet background check criteria.

With this new information, we need something more than a continuation. My office has spoken to the sponsor and other key members of the legislature on a path to not just continue the status quo but to improve the oversight of administrators of term care facilities.

I look forward to working with Legislature to transfer all licensing and regulation of nursing care institution administrators and assisted facility managers to the Arizona Department of Health Services.

It's time for accountability and new leadership to supervise these facilities. Our seniors – these are our grandmothers and grandfathers – deserve nothing less.

Sincerely,

/s/Douglas A. Ducey  
Governor  
State of Arizona

A communication from Governor Douglas A. Ducey on approval of the following bill, with expression of executive intent, was filed:

HB 2810, vetoed May 5, 2021

Dear Secretary Hobbs:

Today, I signed H.B. 2810.

As Governor, I have the responsibility to ensure that the state's laws are faithfully executed. That includes respecting individuals' rights as well as enforcing laws that keep our state safe. It is in this vein that today I have signed House Bill 2810.

Arizona law provides for a civil process where the proceeds of criminal syndicates are forfeited to the state and local governments for use by law enforcement and non-profit organizations to help crime victims and continue the fight against organized crime.

Currently, this civil process does not require a criminal conviction before a person's property is forfeited to the state and there are many stories of property being taken forfeited, and sometimes sold without the person ever being subject to criminal prosecution.

**One Hundred Sixteenth Day**

Arizona's Constitution provides broad protections for personal rights and property – broader so than the United States Constitution. As such, when reviewing legislation, I have a constitutional responsibility to provide a balance between those rights and ensuring that law enforcement has the tools necessary to protect our state.

H.B. 2810 provides this balance. And it ensures that law enforcement has the ability to seize property pending forfeiture or if the property is evidence of a crime. It ensures that property being taken is truly connected to criminal activity while innocent persons have the ability to get their property back.

I have confidence and trust in our law enforcement professionals across the state that they can implement this law and keep our state safe from criminals that attempt to use our state to profit from their crimes. Arizonans trust and rely on law enforcement to conduct thorough practices and develop strong cases against dangerous criminal organizations and continue arresting, charging, and convicting criminals acting within our state.

Arizona can stand strong in combating organized crime and criminal activity, without sacrificing the rights guaranteed under our Constitution for law abiding citizens.

I appreciate Representative Travis Grantham's leadership in getting this bill passed and I am proud to sign it.

Sincerely,

/s/Douglas A. Ducey  
Governor  
State of Arizona

One Hundred Twentieth Day

A communication from Governor Douglas A. Ducey on approval of the following bill, with expression of executive intent, was filed:

Re: House Bill 2295 (law enforcement officers; database; rules)

Dear Secretary Hobbs:

Today, I signed House Bill 2295, which established standards for reporting and maintaining the Rule 15.1 database lists, commonly referred to as the "Brady list."

The bill codifies the formal process by which an officer is put on the Brady list, by providing fairness and transparency to the officer prior to being added to the list, and allowing the officer to request reconsideration if the officer believes their name should not be included on this list. The bill guarantees that officer who have had performance or legal issues continue to be held accountable and law enforcement agencies will still have access to all disciplinary records to make informed decisions about hiring.

This is an important step to continue fostering responsible and respectful law enforcement officers by ensuring good officers are not unfairly punished, while not tying the hands of law enforcement leadership from disciplining officers who tarnish the reputation of law enforcement officials.

Sincerely,

/s/ DOUGLAS A. DUCEY

On May 11, 2021, Governor Douglas A. Ducey on approved of the following bill, with expression of executive intent.

Re: Senate Bill 1485 ( early voting list; eligibility)

Dear Secretary Hobbs:

Today I signed SB 1485.

Arizona is a national leader when it comes to election integrity and access to the ballot box, and SB 1485 continues that legacy. In 1992, our state began offering the ability for Arizonans to vote an absentee ballot. Since then, Arizona has continuously improved and refined our election laws including intuitively renaming "absentee" voting to "early" voting- and constantly seeking to strengthen the security and integrity of our elections:

- In 1993, legislation was signed to allow County Recorders to establish on-site absentee voting locations at their office or any other places in their county.
- In 1994, access to early voting was expanded further, allowing voters to request an early voting ballot verbally. The law previously required a signed request to a County Recorder.
- In 1997, "absentee voting" was renamed to "early voting."
- In 2003, a law was enacted to ensure that early ballot requests were complete and correct in accordance with state law, ensuring that voters were following the legal requirements for receiving an early ballot.
- In 2007, the Permanent Early Voting List ("PEVL") was established, allowing early voters to continue to vote early without having to request an early voting ballot each year.
- In 2008, access to early voting locations was expanded, requiring on-site early voting be open and available for use beginning the same day that a county begins to send out the early ballots.
- In 2011, the method to request an early ballot was further expanded, allowing candidates, political committees, and organizations to distribute permanent early voting list request forms to voters.
- In 2016, to increase the integrity of early voting, Arizona joined 18 other states in ensuring a secure chain of custody between voters and the ballot box, by prohibiting the mass collection of early ballots.
- In 2019, building on the election security reforms passed by voters in 2004 that required proof of citizenship for voter registration and proof of identification at polling places, I signed a law requiring proof of identification at on-site early voting locations.

Whether these reforms were incremental or breakthrough in nature, each one sought to strengthen trust, efficiency, security, and integrity in our election system. SB 1485 is a simple reform in that same tradition:

1. The PEVL is renamed the Active Early Voting List (AEVL).
2. If a voter on the AEVL actively votes by mail, they will continue to receive an early ballot.
3. If a voter on the AEVL does not return at least one early ballot over the course of four years (two consecutive primary elections and general elections, and any municipal elections that precede them) the voter will be sent a postcard asking if they still want to receive an early ballot. The county recorder may additionally reach the voter by telephone, text message, or e-mail.
4. Whether a voter opts to remain on the AEVL or not, they remain eligible to request an early ballot or vote in person, ensuring no voter is ever disenfranchised. There is absolutely no "purging" of voter registration lists, despite what some have said in an attempt to mislead the public.

This reform will free up dollars for election officials, ensuring that rather than sending a costly early ballot to a voter who has demonstrated they are not going to use it, resources can be directed to important priorities including voter education and election security measures.

Arizona is one of only five states with an early voting list, and this legislation mirrors the practice in California, which removes voters from the list if they do not actively vote. But unlike California, our law requires County Recorders to proactively reach out to voters, with ample notice, before they are removed. If this bill is as bad as some partisan activists have suggested - what does that say about their beloved California?

**One Hundred Twenty-third Day**

In Arizona, we've always prioritized access to the ballot, allowing a lengthy period for early voting - 26 days before the election, despite our relatively late primary election date. Compare this to some other places: New York (10 days), Delaware (10 days), and Washington, D.C. (seven days).

It's clear I am very proud of Arizona's election system, and I've been a vocal champion of it - from our State Capitol to the Oval Office. Because of that, some have suggested that means I can never ever support any improvements. That's ridiculous. If prior leaders had taken that approach, none of the improvements listed above would have been enacted.

Others have suggested that "now is not the time" for election reform. I could not disagree more. The politics of the moment should not impede good policy, and SB 1485 is a measure that ensures our voting lists remain verified and accurate, will free up resources for local election officials, and strengthen trust among citizens in our election system.

Last year, while other states struggled to administer early voting in the face of a pandemic, Arizona shined - demonstrating the integrity we have built in our early voting system since 1992. We also kept in-person voting in place, and we did it safely. This, despite calls from some politicians to cloie ?Own polling -locations - a move that would 4ave ultimately disenfranchised those committed to -voting in person.

I am proud to sign SB 1485, ensuring Arizona remains a leader for inclusive, accessible, efficient, and secure election administration . .! am thankful to the bill sponsor, Senator Michelle Ugenti-Rita, for crafting this reform, continuously improving it over time, and getting it across the finish line.

/s/Douglas A. Ducey  
Governor  
State of Arizona

SB's 1044, 1409 and 1485, signed May 11, 2021

A communication from Governor Douglas A. Ducey on disapproval of the following bill was filed:

Dear Speaker Bowers:

Today I vetoed H.B. 2820.

The last thing we need is another barrier for Arizonans to get back to work.

Over the last several years, Arizona has become a leader in occupational licensing reform. We've been relentless in hacking away at needless bureaucracy, and making it easier for Arizonans to get to work. H.B. 2820 would move Arizona in the opposite direction - creating unnecessary barriers for individuals looking to earn an honest living.

Proponents of this legislation argue that licensure is needed to provide telehealth services for out-of-state patients, but Arizona law does not prohibit registered dietitians from consulting with out-of-state patients.

This law would institute an unnecessary and burdensome government permission slip in the form of licensure. There is value in occupational licensing when it's necessary to protect public health or safety. This legislation does not meet that standard.

Sincerely,

/s/DOUGLAS A. DUCEY  
Governor  
State of Arizona

#### BUSINESS ON THE SPEAKER'S DESK

Communications from Governor Douglas A. Ducey on disapproval of the following bills were filed:

Dear President Fann and Speaker Bowers

Today I vetoed the following bills:

SB's 1022; 1030; 1074; 1119; 1121; 1127; 1135; 1176; 1215; 1408; 1514; 1526; 1635 and 1716 and HB's 2001; 2070; 2296; 2303; 2414; 2554; 2674 and 2792

Some of these pieces of legislation contain good policy. But at this time, our priority needs to be passing a budget for Arizonans.

To date, I've signed 381 bills in 2021, more than any other session since I've been in office.

This weekend marks one month until the end of the fiscal year, and Arizonans are counting on us to work together and pass a budget that provides certainty for taxpayers and citizens. Until that happens, I do not intend on signing any additional bills transmitted by the Legislature.

On the table is a budget agreement that makes responsible and significant investments in K-12 education, higher education, infrastructure and local communities, all while delivering historic tax relief to working families and small business.

June will be a very important month. I look forward to partnering with legislative leadership to focus on what matters and pass a budget.

Sincerely,

/s/Douglas A. Ducey  
Governor  
State of Arizona

On June 9, 2021 the Governor approved the following with expression of executive intent:

Re: House Bill 2241 (schools; instruction; Holocaust; genocides)

Dear Secretary Hobbs:

Today, I signed H.B. 2241. This legislation ensures that Arizona students are taught about the Holocaust and other genocides as a critical piece of world history. According to a Pew Research Center study conducted in 2019, fewer than half of respondents could correctly answer multiple-choice questions about the number of Jewish individuals who were murdered during the Holocaust or the way that Adolf Hitler came to power. Another national survey showed that approximately 49 percent of Millennials and Gen Z had some sort of distortion or denial of the Holocaust's occurrence. I find these statistics disturbing and it is why this bill is so important for our state. I want to thank Representative Alma Hernandez for her many years of work on this important issue, and I am glad to sign this into law.

Teaching and learning about the Holocaust and other genocides is a necessary and important practice in our classrooms. This bill is a solid first step. With the rise in crimes against individuals in various communities, I believe there is more work to be done. Antisemitism is real, I look forward to working with the legislature and engaging in stakeholder discussion around building upon this foundation of Holocaust education in the upcoming legislative session.

This bill will ensure that we continue to teach our students the history of past atrocities, which in return will instill greater compassion, critical thinking, societal awareness, and educational growth in our students.

Sincerely,

/s/DOUGLAS A. DUCEY

## SUPPLEMENT

Governor  
State of Arizona

On May 16, 2018, the Governor disapproved the following:

Re: Senate Bill 1719 (state emergency council; membership; procedures)

Dear Secretary Hobbs:

Today I vetoed S.B. 1719.

This bill is well intentioned but would add unneeded bureaucracy to the management of emergencies, especially wildfires. It's also unnecessary given the good and thoughtful reforms developed this session between my office and the legislature to ensure guard rails during future health emergencies, preventing the potential for the kind of extreme and job destroying measures that we saw in other places around the country last year.

Sincerely,

/s/ Douglas A. Ducey  
Governor  
State of Arizona

On May July 10, 2021, the Governor approved the following.

HB 2210, school functions; food; beverages  
HB 2363, municipal election officers; certification training  
HB 2605, medical marijuana; testing  
HB 2671, underground storage tanks; standards; reimbursements  
HB 2753, liquor licensees; records; food safety  
SB 1078, medical student loan program  
SB 1110, TPT; exemptions; Indian tribes  
SB 1350, sex offender registration; requirements  
SB 1376, Schools; curriculum; mental health  
SB 1401, alternative teacher development program; extension

On July 10, 2021, the Governor allowed for enactment without signature of the following bill.

Dear Secretary Hobbs:

H.B. 2053 is being provided without signature, pursuant to Article V, Section 7 of the Arizona Constitution.

Sincerely,

/s/DOUGLAS A. DUCEY  
Governor  
State of Arizona

## **RULE 8**

### **BILLS, RESOLUTIONS, MEMORIALS, ENGROSSED COPIES,**

#### **AMENDMENTS**

A. Every bill, resolution and memorial shall be read by sections on three different days, unless in case of emergency, two-thirds of the House deem it expedient to dispense with this Rule. The vote on Third Reading and Final Passage

B. Bills, resolutions and memorials may be introduced by a member by presenting copies of such bill, resolution or memorial to the office of the Chief Clerk. The Chief Clerk shall have 24 hours to process such bill, resolution or memorial preceding the day of actual introduction. The name of the sponsor or sponsors shall be on the attached signature page of the bill. Introductions "by request" shall be so designated. A bill introduced in the House may be cosponsored by Senate members. A measure shall only have one prime sponsor; all others shall be designated as cosponsors. A House member's cosponsorship may be withdrawn by that member from any House measure that is in possession of the house. Cosponsorship withdrawal is irrevocable. Following an effective withdrawal of cosponsorship of the measure, the member shall not be identified as a sponsor of the measure on any subsequent calendars, agendas, reports, orders or other publications of the House. Withdrawal of cosponsorship shall be effective if all of the following apply:

1. The member gives a written statement of withdrawal in the form prescribed by the Chief Clerk, delivering the statement to the office of the Chief Clerk and a copy to the Engrossing Clerk.

2. The measure has not been brought for a vote on Third Reading of Bills.

C. Bills, resolutions and memorials may be introduced during the first 29 days of a regular session and during the first 10 days of a special session. Thereafter, with the exception of death resolutions, introduction may be allowed only with the permission of the Rules Committee. Every bill, resolution or memorial shall have one prime sponsor. A member may not be the prime sponsor of more than seven bills introduced after 5:00 p.m. on the fourth day of each regular session. For purposes of this Rule the first name on a bill shall be considered the prime sponsor.

D. Bills, resolutions and memorials may be prefiled by any member-elect for introduction in the first regular session during the period following the filing of the certification of election until the first day of the regular session. Bills, resolutions and memorials may be prefiled for introduction in the second regular session during the period from November 15 next preceding the second regular session until the first day of the second regular session. Bills, resolutions and memorials may be prefiled for introduction in any special session during the period following the Governor's proclamation until the first day of the special session, such bills being germane to the call.

E. A bill, resolution or memorial shall be prefiled in the same manner prescribed for introduction. Bills, resolutions and memorials prefiled for introduction pursuant to this Rule shall be deemed to have been actually introduced on the first day of each regular or special session.

F. Bills, resolutions and memorials accepted for introduction shall be entered in the Journal by the Chief Clerk.

G. The original of a bill, resolution or memorial shall be designated by blue backing, marked "original" and shall remain in the possession of the Chief Clerk. Copies shall be distributed as the Speaker directs.

H. All bills prepared for introduction which propose to add to the statutes or amend existing statutes shall show the proposed new language in capital letters (upper case) and the deletions shall be shown in regular type (lower case) lined through.

I. On First Reading of bills, resolutions or memorials, the measure shall be referred to the Chief Clerk for printing. The Speaker shall determine the number of bills, resolutions or memorials to be duplicated.

J. On First Reading, all bills, resolutions or memorials shall be referred by the Speaker or the Speaker's designee to appropriate committees. Each committee shall report each measure it carefully considers back to the House with such recommendations as may be deemed proper. All amendments proposed by the committee shall be separately reported. If the Speaker designates his referral authority pursuant to this rule to any member of the House other than the Speaker Pro Tempore the designation shall be in writing, state the period of time for which it is effective, and be filed in advance with the Chief Clerk.

K. When the first committee reports the measure to the House, the Speaker places it on the House Calendar (Inactive Calendar). When the last committee to which the measure was referred reports to the House, it is the property of the Committee on Rules, which considers the measure. The Speaker sets the order of the measures on the Active Calendar for the consideration of the Committee of the Whole.

L. The Speaker may direct that any bill be second read at the time of its consideration by the Committee of the Whole or on any day prior thereto.

M. When the Committee of the Whole has completed its deliberations, it is dissolved and reports to the House. By motion, the report of the Committee of the Whole is adopted by the House (or amended) and the Speaker properly assigns the House measures (or amended Senate measures) to be engrossed for Third Reading.

N. The original and two copies of each engrossed measure shall be on paper of durable quality and shall be stamped on each page thereof with the blind embossed stamp of the House. All engrossed pages not having a full complement of typed lines shall be marked from the end of the typed page to within one inch of the end of such page. The original House engrossed House bill shall have a green backing. The original House engrossed Senate bill shall have an orange backing.

O. The engrossed measure shall not be subject to amendment on Third Reading or Final Passage of the measure.

P. The House shall provide the Senate and the Legislative Council with sufficient copies of each amended engrossed House measure on green paper with a cover page. For House amendments to Senate measures, the same number of copies shall be provided but shall consist only of those pages containing the adopted House amendments and cover page. For unamended House measures the same number of green cover pages shall be provided stating that the measure passed as introduced, which will be identical to the original and printed copies.

Q. All bills, resolutions, memorials and engrossed measures shall be line-numbered, and such numbering shall begin with the enacting clause. Uniform sized paper, 8-1/2" x 11", shall be used. All paper and ink used by the House for the purpose of permanent records shall be of durable quality.

R. Amendments shall have uniform headings and shall read "amendment to" and shall be in the same form as the original bill. The amendment shall refer to page and line number only and when referring to more than one line shall read "lines ... through ...". If everything after the enacting clause is stricken, the amendment shall read "strike everything after the enacting clause". All amendments shall contain the language which states "amend title to conform". Substantive floor amendments shall be printed and placed on each member's desk a reasonable time prior to Committee of the Whole unless previously distributed. Substantive proposed amendments shall be reviewed for constitutionality and approved as to proper form by House Rules Counsel or other qualified personnel designated by the Speaker prior to presentation in all committees, including Committee of the Whole and conference committees.

S. No amendment to strike everything after the enacting clause and insert new material shall be in order unless notice of intent to offer such an amendment has been given by at least 5:00 p.m. on the second previous working day, excluding Saturday, Sundays and holidays, in advance of the committee meeting at which the amendment is to be considered by delivering a draft of the proposed amendment to the office or the secretary of each member of the committee, posting such notice at the Information Desk and leaving a copy of the draft in the office of the Chief Clerk. Following the adoption of a strike-everything amendment to a House measure in possession of the House, a House member's co-sponsorship may be withdrawn upon submission of a written request from the cosponsor to the Chief Clerk prior to third reading.
