Description of Food Operation (including MENU-FOOD SOURCE-EQUIPMENT-PREPARATION-HANDLING-STORAGE):

List ALL food & drink that you plan to serve. If you need additional forms, make copies or contact the health department for additional forms. Once the food items are listed, fill-in ALL boxes across the grid row for that food item such as listed raw animal or plant ingredients, where the item was purchased and prepared, how the item is cooked, cooled, held hot, reheated and/or held cold. It is important to have receipts onsite for all food items that you buy. Also, monitor food temperatures and storage units at all times using thermometers!!!! Ensure that you cook potentially hazardous food (containing raw animal or plant ingredients) to proper temperature (PHF is food that requires temperature control because it can grow bacteria, toxin and other microorganisms (germs) that cause illness), maintain foods at refrigerated temperatures of 41°F or below or keep foods hot at 135°F or above and separate raw meats and eggs from while being stored so you don't cross contamination. Mechanical refrigeration required for all raw animal foods. Any changes in your operation must be reported to the health department immediately.

PAGE 8: TO BE COMPLETED BY SERVICING AREA OWNER/MANAGER

In order to obtain a mobile food approval, the mobile facility must operate from an approved fixed food establishment referred to as a *servicing area*. Mobile facilities must have an agreement with approved servicing area with a current health department approval. A home kitchen is NOT an approved servicing area.

Servicing area business information: Provide the *Trade Name* that identifies the servicing area, the *Sale Tax ID#* (see bottom of page for more information on sales tax), *Owner/Corporate Name* and *Physical Address and Fax#*. Provide the last inspection date conducted by the local health department. A copy of the most current inspection report is required if the servicing area is NOT inspected by the local health department where mobile application is being made. Servicing area must have an inspection within the past 12 months and with a satisfactory rating.

I provide what foods for the mobile unit: Check all boxes that pertain to the foods *your business provides* to the vendor.

I provide what services for the mobile unit: Include all the ways and in what capacity your facility accommodates the mobile vendor's operation by checking all boxes that apply. Is the mobile vendor preparing food at your facility? Storing food (dry goods, grocery, cold foods in refrigerator)? Storing utensils & equipment? Returning to your facility to use the 3 compartment sink for wash/rinse/sanitizing food contact surfaces of equipment and utensils? Disposing of trash, wastewater or grease? Park their mobile unit at your facility? Plug their mobile unit into electric at your facility?

What days and times does the mobile vendor report to my facility : You have indicated in the last 2 sections how the mobile vendor will be utilizing your facility. In this section, you must indicate the days and times of the week when the vendor has access to your facility. In making these arrangements, consider when the mobile vendor can come into your facility without interrupting your retail food operations for your business. Consider the vendors food & equipment storage needs, food prep time, and cleaning/sanitizing needs both during and at the end of their proposed workday.

Certification/signature: Read this section carefully and sign that you understand your role in the mobile food operations and have provided correct information. The agreement between the mobile vendor & servicing area is part of the application approval and grants approval for specific days, times & location of food operations at the servicing area and vending locations. Both parties have the obligation to notify the health department when servicing area, vending locations, set-up, menu, staff or any other changes are made from the approved application.
