<sup>1</sup> According to HUD, HOME Income Limits are applicable to CDBG. HOME limits are calculated using the same methodology that HUD uses for calculating Section 8 income limits, which are based on HUD estimates of median family income adjusted for family size. HOME & Section 8 income limits differ only in how Extremely Low Income or 0-30% limits are calculated. HOME 0-30% limits are based on 24 CFR part 91.5. Section 8 are based on the ELI definition contained in the 2014 Consolidated Appropriations Act, where ELI are very-low income families whose incomes do not exceed the higher of the Federal poverty level or 30% of area median income.
