

California Agricultural Organics Report

2021 - 2022

Organics

California's organic agricultural industry plays an integral role in California's economy. California leads the nation in the number of organic farms, land in organic production, and organic sales. According to the United States Department of Agriculture's (USDA) National Agricultural Statistics Service, California accounts for 36 percent of organic sales in the U.S. and organic sales continue to grow in the state¹. The California Department of Food and Agriculture's (CDFA) State Organic Program (SOP) is committed to upholding the integrity of products produced and sold in California as organic.

The SOP follows the USDA National Organic Program (NOP) guidelines and enforces the Organic Food Production Act of 1990 and the California Organic Food and Farming Act². The SOP assumes the NOP's oversight and enforcement authority in the state, and California is the only state in the nation with a NOP authorized state organic program. These laws and regulations protect consumers, producers, handlers, processors, and retailers by establishing standards for agricultural products and foods that are labeled and/or sold as organic.

The SOP also works in collaboration with industry leaders, representatives of the California Organic Products Advisory Committee, producers, handlers, processors, USDA Accredited Certifying Agencies (ACAs), trade associations, county agricultural commissioners, and other organic industry stakeholders to continually improve the program.

California organic sales increased 16.4 percent from \$12.0 billion in 2020 to \$14.0 billion in 2021. Of the \$14 billion in sales in California during 2021, 95 percent were from operations certified by an ACA. Total statewide producer, handler, and processor gross sales for the year were \$5,255,339,358, \$6,705,472,690, and

\$1,996,361,024, respectively. Total statewide certified producer, handler, and processor gross sales accounted for 99.9 percent, 98 percent, and 99.9 percent, respectively, of all total gross sales in 2021³. California organic production site acreage decreased slightly by 2.5 percent from 2,186,551 acres in 2020 to 2,130,157 acres in 2021. Of the 2,186,551 organic acres in 2021, 99 percent were ACA certified. California organic harvested acreage decreased by 13.1 percent year-over-year, from 2,322,763 acres in 2020 to 2,018,014 acres in 2021.

The SOP continues to advance its priorities of protecting the integrity of organic products produced and sold in California through enhanced outreach and education to organic stakeholders. The SOP maintains and builds consumer confidence in the organic industry by ensuring that the organic food supply chain is free of fraud, deception, and mislabeling.

Methodology

The SOP registers every person engaged in the state of California in the production and handling of raw organic agricultural products, processors and handlers of processed organic meat, poultry, dairy products, and retailers engaged in processing or handling of products sold as organic. The SOP registers both operations certified by an ACA and operations exempt from certification with an ACA. Through this registration process, the SOP captures data on certification status with an ACA, production sites and acreage, commodity harvested acreage, and gross sales. This data is used for reporting information to the organic industry, as well as for use in the enforcement work of the SOP.

Data for gross sales for 2020 and 2021 is reported to the SOP by California SOP registrants, which includes USDA Certified Organic Operations and

operations exempt from certification for organic producers, handlers, and processors.

Data for commodity harvested acreage per county is reported to the SOP by California SOP registrants from January 1, 2021 to December 31, 2021 and includes USDA Certified Organic producers and producers exempt from certification.

Data for commodity producers and production site acreage per county is reported to the SOP by California SOP registrants and includes USDA Certified Organic producers and producers exempt from certification.

All statewide data is collected from the following SOP reports: 2021 Gross Sales Report, 2021 Commodity Harvested Acreage per County Report, 2021 Commodity Producers per County Report, and the 2021 Production Site Acreage by County Report.

For the purposes of registration, organic products are reported in accordance with the following regulation-specific categories:

- 1) Citrus
- 2) Fruits, excluding citrus: strawberries (fresh market); all other berries; pome fruit; stone fruit; grapes, table; grapes, wine; grapes dried, raisins; all other fruits
- 3) Livestock or dairy: fluid milk, cow; all other dairy and dairy products; cattle, beef; chicken, broilers; chicken, layers; all other poultry/livestock and products
- 4) Nuts: almonds; all other nut crops
- 5) Vegetables: lettuce (head, leaf, spring/salad mixes); broccoli; carrots; spinach (fresh and processed); celery/celeriac; tomatoes; all other vegetables
- 6) Other, which includes, but is not limited to, apiculture, organic fallow ground, herbs, mushrooms, cut flowers, and nursery: propagation; seed crops; all other field crops (includes pasture and rangeland); all other not previously reported or listed; fallow.

The California Agricultural Statistics Review is a compilation of data from various sources including the USDA National Agricultural Statistics Service, USDA Economic Research Service, County Agricultural Commissioners, UC California Agricultural Issues Laboratory, and CDFA, each having a separate methodology. As such, there may be discrepancies when directly comparing data in this section to data in another section of this report.

¹ California Department of Food and Agriculture registers all dairy products and minimally processed meats sold in an unfrozen state, including cut, wrapped, and unseasoned only. Any processor not statutorily required to register with the California Department of Public Health shall register with the California Department of Food and Agriculture.

² Statewide totals include data withheld from individual counties to avoid disclosure of individual operations.

D Withheld to avoid disclosure of individual operations. Represents counties with 5 or less operations.

Statewide Organic Harvested Acreage and Number of Producers by Commodity, 2021

Commodity	Harvested Acres	Number of Producers
All Other Field Crops (Incl. Pasture and Rangeland) ¹	725,025.19	726
Cattle, Beef ²	683,800.65	183
All Other Vegetables ³	75,737.29	1282
Fluid Milk, Cow ²	74,056.29	173
Fallow	59,619.34	493
Lettuce (Head, Leaf, Spring/Salad Mixes)	42,953.99	779
Almonds	29,861.04	249
Grapes, Wine	29,151.85	571
All Other Not Previously Reported or Listed ⁴	28,732.03	306
All Other Fruit Crops ⁵	27,511.69	1129
Seed Crops	27,255.68	244
Spinach (Fresh and Processed)	25,338.85	560
Carrots	21,251.33	588
Citrus	21,115.34	1031
All Other Nut Crops ⁶	18,022.37	431
Broccoli	16,655.86	697
Tomatoes	16,340.35	849
All Other Poultry/Livestock and Products ^{7,2}	15,961.3	122
Propagation	12,024.63	157
Stone Fruit	11,519.88	620
Grapes, Table	1,1149.99	267
All Other Berries ⁸	9,177.79	549
Grapes Dried, Raisins	8,461.66	120
Celery/Celeriac	7,251.1	516
Strawberries (Fresh Market)	5,871.09	502
Chicken, Broilers ²	4,360.74	85
Pome Fruit	4,130.3	411
Chicken, Layers	3,640.23	140
All Other Dairy and Dairy Products ^{9,2}	2,035.96	27
Statewide Total	2,018,013.81	13,807

¹ All other field crops includes all other field crops including pasture and rangeland.

² "harvested acreage" for livestock and dairy products refers to the area utilized for production of these commodities.

³ All other vegetables includes all other vegetables except for broccoli, carrots, celery/celeriac, lettuce (head, leaf, spring/salad mixes, spinach (fresh and processed), and tomatoes.

⁴ All other not previously reported or listed includes any crop that falls outside of the the other catagories.

⁵ All other fruit crops includes all other fruit crops except for citrus, grapes (table), grapes (wine), grapes dried (raisins), pome fruit, stone fruit, strawberries (fresh market), and all other berries.

⁶ All other nut crops includes all other nut crops except for almonds.

⁷ All other poultry/livestock and products include all other poultry/livestock and products except for cattle (beef), chicken (broilers), and chicken (layers).

⁸ All other berries includes all other berries except for strawberries.

⁹ All other dairy and dairy products include all other dairy products except for fluid milk (cow).

¹ "Production Site" is defined as a distinct geographic location of an operation that is specified for the production of agricultural products or livestock. An operation may have multiple production sites.

² "Exempt From Organic Certification" is defined as an operation that sells agricultural products as "organic", but whose gross agricultural income from organic sales totals five thousand dollars (\$5,000) or less annually.

Note: This is a general exemption. Additional exemptions and exclusions can be found under § 205.101 of the Code of Federal Regulations

³ Statewide totals include data withheld from individual counties to avoid disclosure of individual operations.

D Withheld to avoid disclosure of individual operations. Represents counties with 5 or less production sites.
