2021 CANNABIS REPORT

MAY 2022

International Cannabis Policy Study

UNIVERSITY OF WATERLOO

Forward

The International Cannabis Policy Study is an international research collaboration designed to examine cannabis policy and public health impact. The project started in 2018 and includes annual population-based surveys in Canada and the United States (since 2018), as well as Australia and New Zealand (since 2021).

The current report summarizes findings among respondents from Alaska for the 2021 survey, with comparison to previous years. Additional details are available upon request.

Visit the study website for more information: www.cannabisproject.ca.

International Cannabis Policy Study

ETHICS CLEARANCE
THE PROJECT HAS BEEN REVIEWED BY AND RECEIVED ETHICS CLEARANCE THROUGH A UNIVERSITY OF WATERLOO RESEARCH ETHICS COMMITTEE (ORE#31330).

International Cannabis Policy Study

Methods

OVERVIEW
The International Cannabis Policy Study is a repeat cross-sectional survey conducted annually in the United States and Canada (since 2018), as well as Australia and New Zealand (since 2021) to examine trends in cannabis. This report summarizes key indicators from the 2021 ICPS survey in Alaska from September 14 to November 8, 2021.

SAMPLE
Respondents were aged 16-65 years and were recruited through the Nielsen Consumer Insights Global Panel. The analytic sample for 2021 comprised 52,938 respondents in Canada (n= 16,952), the United States (n= 30,081), Australia (2,925) and New Zealand (2,980). The results in the current report focus on the subsample of 1,462 respondents from Alaska who participated in the 2018 & 2019 (n= 326), 2020 (n= 751), and 2021 (n= 385) surveys.

SURVEY
The survey covers the following content areas:
• prevalence and patterns of cannabis use;
• cannabis purchasing and price;
• cannabis consumption and modes of use;
• commercial retail environment;
• risk behaviours;
• cannabis knowledge, perceptions of risk and social norms;
• exposure to health warnings and public educational campaigns;
• exposure to cannabis marketing and branding;
• substance use and other risk behaviours; and
• socio-demographics and socio-economic status.

DATA ANALYSIS
Post-stratification survey weights were created using age-by-sex-by-state, ethnicity-by-census division, education-by-state, and age-by-smoking status groups. All estimates in the current report are weighted and rescaled to the original sample size within each state.

Comparisons are provided between Alaska and other states. In the current report, the term 'legal' refers to states that had legalized non-medical cannabis for adult use at the time of data collection in each year. 'Medical' refers to states that had legalized medical but not non-medical adult use cannabis at the time of data collection. 'Illegal' refers to all other states.

TECHNICAL REPORT
The survey and technical report are available at: www.cannabisproject.ca/methods. The technical report includes detailed information on methodology and survey weighting.

ICPS 20
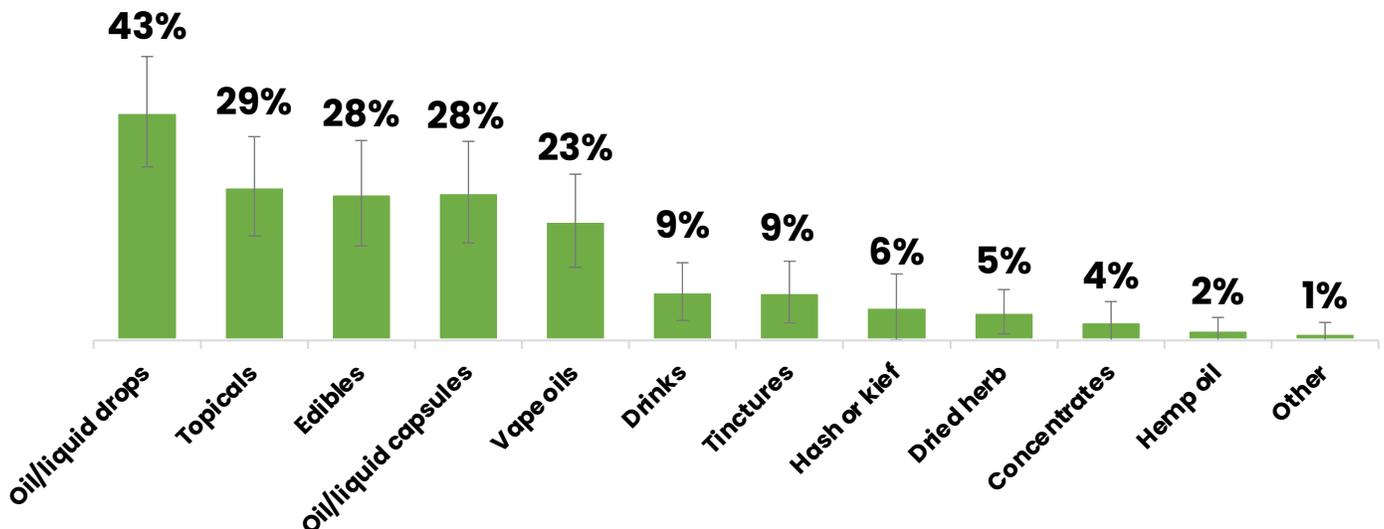

'Delta-8' THC products–Awareness

In 2021, 'Delta-8 THC' products were widely marketed in the US, particularly in jurisdictions in which conventional 'Delta 9 THC' products were illegal for adult use. Approximately 13% of Alaska respondents reported hearing about Delta-8 products. However, awareness levels for 'Delta-8' were similar to levels for 'Delta-4' products. 'Delta 4' THC was included in the survey as a 'bogus' option given that no Delta-4 products are currently marketed or sold in the US. This suggests a high level of misreporting among those who indicate an awareness of Delta-8 products.

Some new types of products contain DELTA-8 THC. Have you heard of products that contain the following?
% 'YES', ALL RESPONDENTS, 2021, n=385

|	AK	US	US ILLEGAL	US MEDICAL	US LEGAL
Delta-4 THC	12%	10%	10%	9%	11%
Delta-8 THC	13%	16%	20%	16%	14%
Delta-9 THC	13%	11%	12%	10%	10%
Delta-10 THC	6%	7%	8%	7%	6%
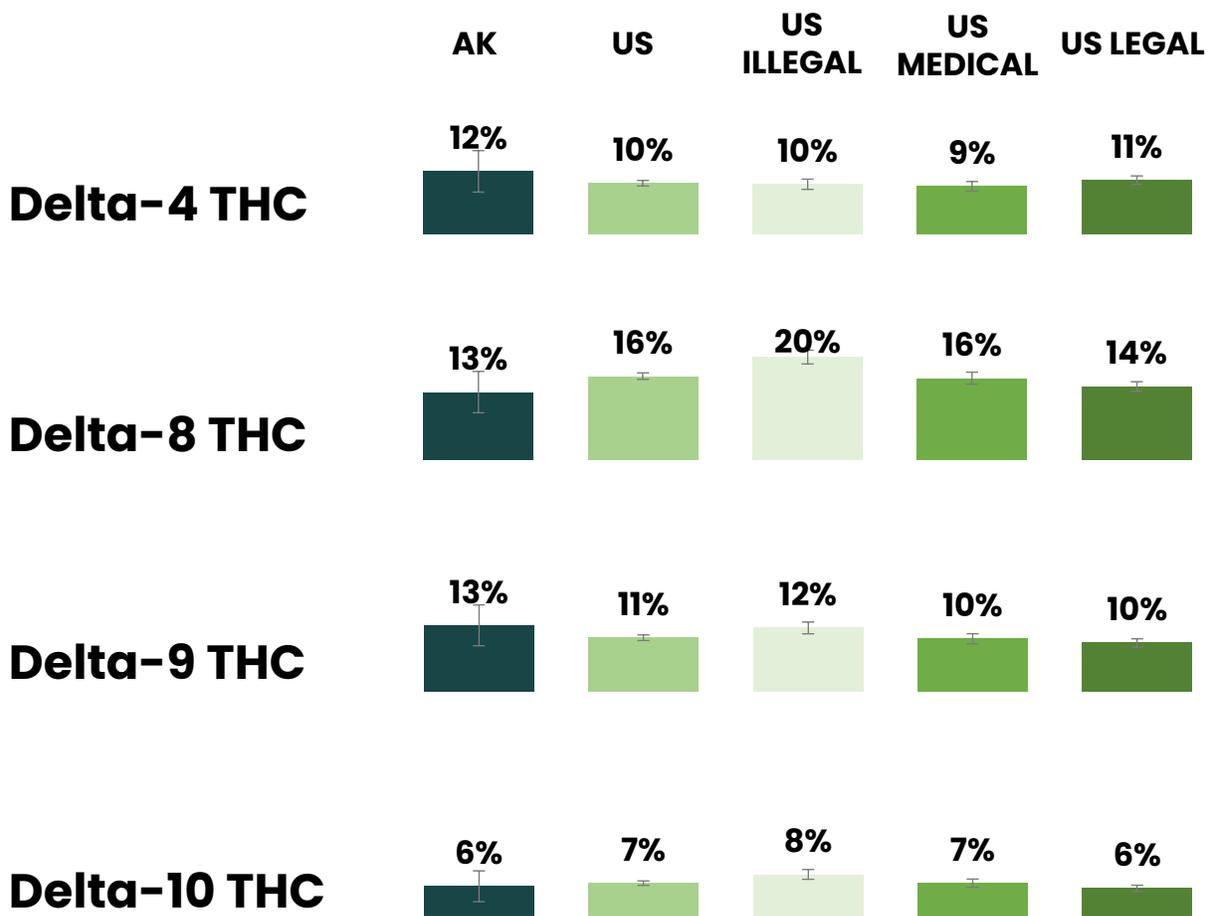

'Delta-8' THC products–Use

In 2021, 33% of respondents who had heard of 'Delta-8' THC reported using a Delta-8 THC product in the past 30 days, corresponding to approximately 4% of all respondents in Alaska. These estimates should be interpreted with caution given the high likelihood of over-reporting due to confusion over 'Delta-8' products.

Have you ever used a DELTA-8 THC product?
ALL RESPONDENTS, 2021, n=43

Yes – In past 30 days

Price of dried flower

Consumers reported paying an average of $9.09 per gram of dried flower in 2021, including from legal and illegal sources. The price paid for dried flower from legal retail sources decreased between 2020 to 2021, with increases in price from illegal sources. In 2019, the average price paid from legal sources was $10.92 per gram, $6.12 higher than from illegal sources, compared to $9.43 in 2021, $1.22 higher than illegal sources.
