About the DataVisor Partner Program

The DataVisor Partner Program puts the power of the world's most advanced AI-powered fraud management solution in your hands. Alongside a comprehensive suite of leading tools and technologies, we offer superior domain knowledge, a vast global intelligence network, and access to a wide bench of AI and ML experts with proven results in the field of AI for Fraud Management. We partner with you every step of the way, through the entire customer lifecycle, and we offer a range of opportunities and structures to power your success.

Professional Services
Full marketing support, alongside access to resources, tools, and training materials.

Referral
Earn commissions, with access to sales assets, online training, and sales and technical staff.

Re-Sell
Profitably solve customer problems with rebate and joint-marketing opportunities and full team support.

All-In Packages
Combine opportunities for comprehensive customer success and market leadership

Partnership Tiers

DataVisor's Partner Program is focused on putting advanced tools in the hands of our partners to enhance the value you bring to your customers. We arm our partners with the tools and support necessary to drive adoption of AI and ML-powered solutions in a fast-growing fraud market, to help you profitably implement the right solutions for your customers.

Technology Partners

Enjoy access to a wide array of tools, training, and support to enable you to successfully bring advanced AI and ML-powered fraud management solutions to market.

System Integrators

Receive exclusive benefits to enable growth and profitability as you leverage the world's most advanced fraud management solutions to increase competitive differentiation.

Consultants

Deliver and maintain advanced AI and ML-powered fraud management solutions with the full support of DataVisor's marketing and technical teams.

Advisory Partners

Advance your leadership as a solution provider with the inclusion of DataVisor's comprehensive suite of proactive, AI-powered fraud solutions.

Partner Benefits

DataVisor empowers partners to optimize go-to-market opportunities for maximum results. We offer close support throughout the customer lifecycle to ensure you're able to deliver the solutions your customers need, and to make certain of your leadership in the crowded fraud management field. We make available a vast array of resources to ensure you have the support necessary to create amazing customer experiences that power meaningful growth.

Resources and assets include:

- Marketing tools
- Go-to-market support
- Detailed case studies
- In-depth technical white papers
- Exclusive product webinars
- Live, hands-on product demos

Our goal is to extend your reach to your customers by providing personalized support and a full range of high-value assets.

Sales Tools

We provide partners with everything required to clearly establish leadership in the market. While competitors claim to offer AI capabilities and machine learning-driven products, only DataVisor delivers a comprehensive suite of advanced fraud management solutions that comprise proprietary technologies, unrivaled domain expertise, massive global intelligence resources, and the big data architecture and computation power to enable growth at scale.

We'll put high-value assets in your hands, arm you with world-class marketing and technical resources, and engage directly with your teams to ensure you're able to confidently make the case every time that together, we represent the future of fraud prevention.

Live Demos

Our experts will demonstrate the transformative power of our fraud management solutions.

Exclusive Webinars

Our teams present the latest in fraud intelligence with industry leaders.

Whitepapers, E-Books, and Case Studies

We provide a full range of high-value marketing, promotional, and technical assets.
