DEI ICT CENTRE, BANGALORE

- By the next Academic Year, we hope to have a full house with students for Diploma in Electronics, Diploma in Architectural Assistantship (for Ladies) and PG Diploma in Computer Science Applications as well.
- The DEI ICT Centre, Bengaluru, has transformed from being merely a Distance Education Centre to one which provides active support to DEI's South India Initiative.
- The very successful model of remote teaching to MTV Puram has proven that it is something that can be replicated and implemented to other locations as well.
- As of today, we are supporting not only MTV Puram, but also Kurnool and Vishakhapatnam by facilitating teaching. In fact, all our Diploma in Vocational IT students are from various places in Andhra Pradesh and Telangana.
