## CLAS STANDARDS ASSESSMENT PLANNING TOOL

As an agency receiving funding from the Wisconsin Department of Health Services (DHS), Division of Care and Treatment Services (DCTS), Bureau of Prevention Treatment and Recovery (BPTR), you are required to implement the National Culturally and Linguistically Appropriate Services (CLAS) Standards. The following steps are recommended as best practices in the assessment, planning, and implementation of CLAS Standards:

1. **Form a team.** This team should administer this CLAS Standards Assessment Planning Tool, complete a CLAS Standards implementation plan, and coordinate implementation of the CLAS Standards. The team should include multiple roles and perspectives. Please note the team membership in the **general information section**.
2. **Get oriented to CLAS Standards.** It is highly recommended that the team become oriented to CLAS Standards by downloading the [Behavioral Health Implementation Guide for the National Standards for Culturally and Linguistically Appropriate Services](#) and reviewing pages 1-7.
3. **Gather information.** The team should gather information regarding the data source identified for each item in this CLAS Standards Assessment Planning Tool. The information relates to policies, procedures, and more. Please note that it may take several days to weeks to thoroughly gather the information to complete this CLAS Standards Assessment Planning Tool.
4. **Complete assessment.** Based on the information gathered, the team should assess each item using the 0-2 scoring scale provided in the **assessment section**. It is important that the team comes to consensus on the scoring of each item. If the team is undecided between two scores, default to the lower score. Document discussions and decisions in the **notes section** of each item.
5. **Score and document results.** Once the assessment is complete, score and document results in the **results section**. The team review of the results should note areas of strength and areas to consider for improvement.
6. **Complete implementation plan.** Based on interpretation of results, the team should complete a detailed plan in the **implementation section**.
7. **Begin CLAS implementation.** Based on the written plan, the team should begin to work on the goals selected as part of an ongoing CLAS Standards implementation process.

## IMPLEMENTATION PLAN

Instructions: Based on review of results, select two CLAS Standards to develop goals for in the coming months. As a team, identify useful implementation strategies and detail a plan for who will do what by when. A resource in this work can be the [Behavioral Health Implementation Guide for the National Standards for Culturally and Linguistically Appropriate Services](#) from the U.S. Department of Health and Human Services. The team should regularly review and update this plan with dates of review in the general information section.
