Adult Immunization Program

Samuel Ortiz Severiano

Importance of Adult Immunizations

Immunizations are proven to significantly reduce the risk of transmission for vaccine-preventable diseases (VPD).

- Immunizations provide protection for:
 - The patient
 - The patient's loved ones
 - The patient's community
- Certain populations are particularly high-risk for VPDs
 - Adults 65+
 - Immunocompromised
 - Pregnant women
 - First responders, healthcare providers, etc.

Adult Safety Net (ASN) Program

Adult Safety Net (ASN) Program

May 2003–Present
20 Years of Service

- Initial inception: Hepatitis B initiative served uninsured and underinsured adults
- Current: Increase access to vaccination services in Texas for uninsured adults by supplying adult vaccines at no cost to a network of 623 providers
- The ASN Program is one of the major factors in improving adult vaccination rates in Texas today

ASN-only Program Structure

TEXAS

Health and Human Services

Texas Department of State
Health Services

Responsible Entities (RE)

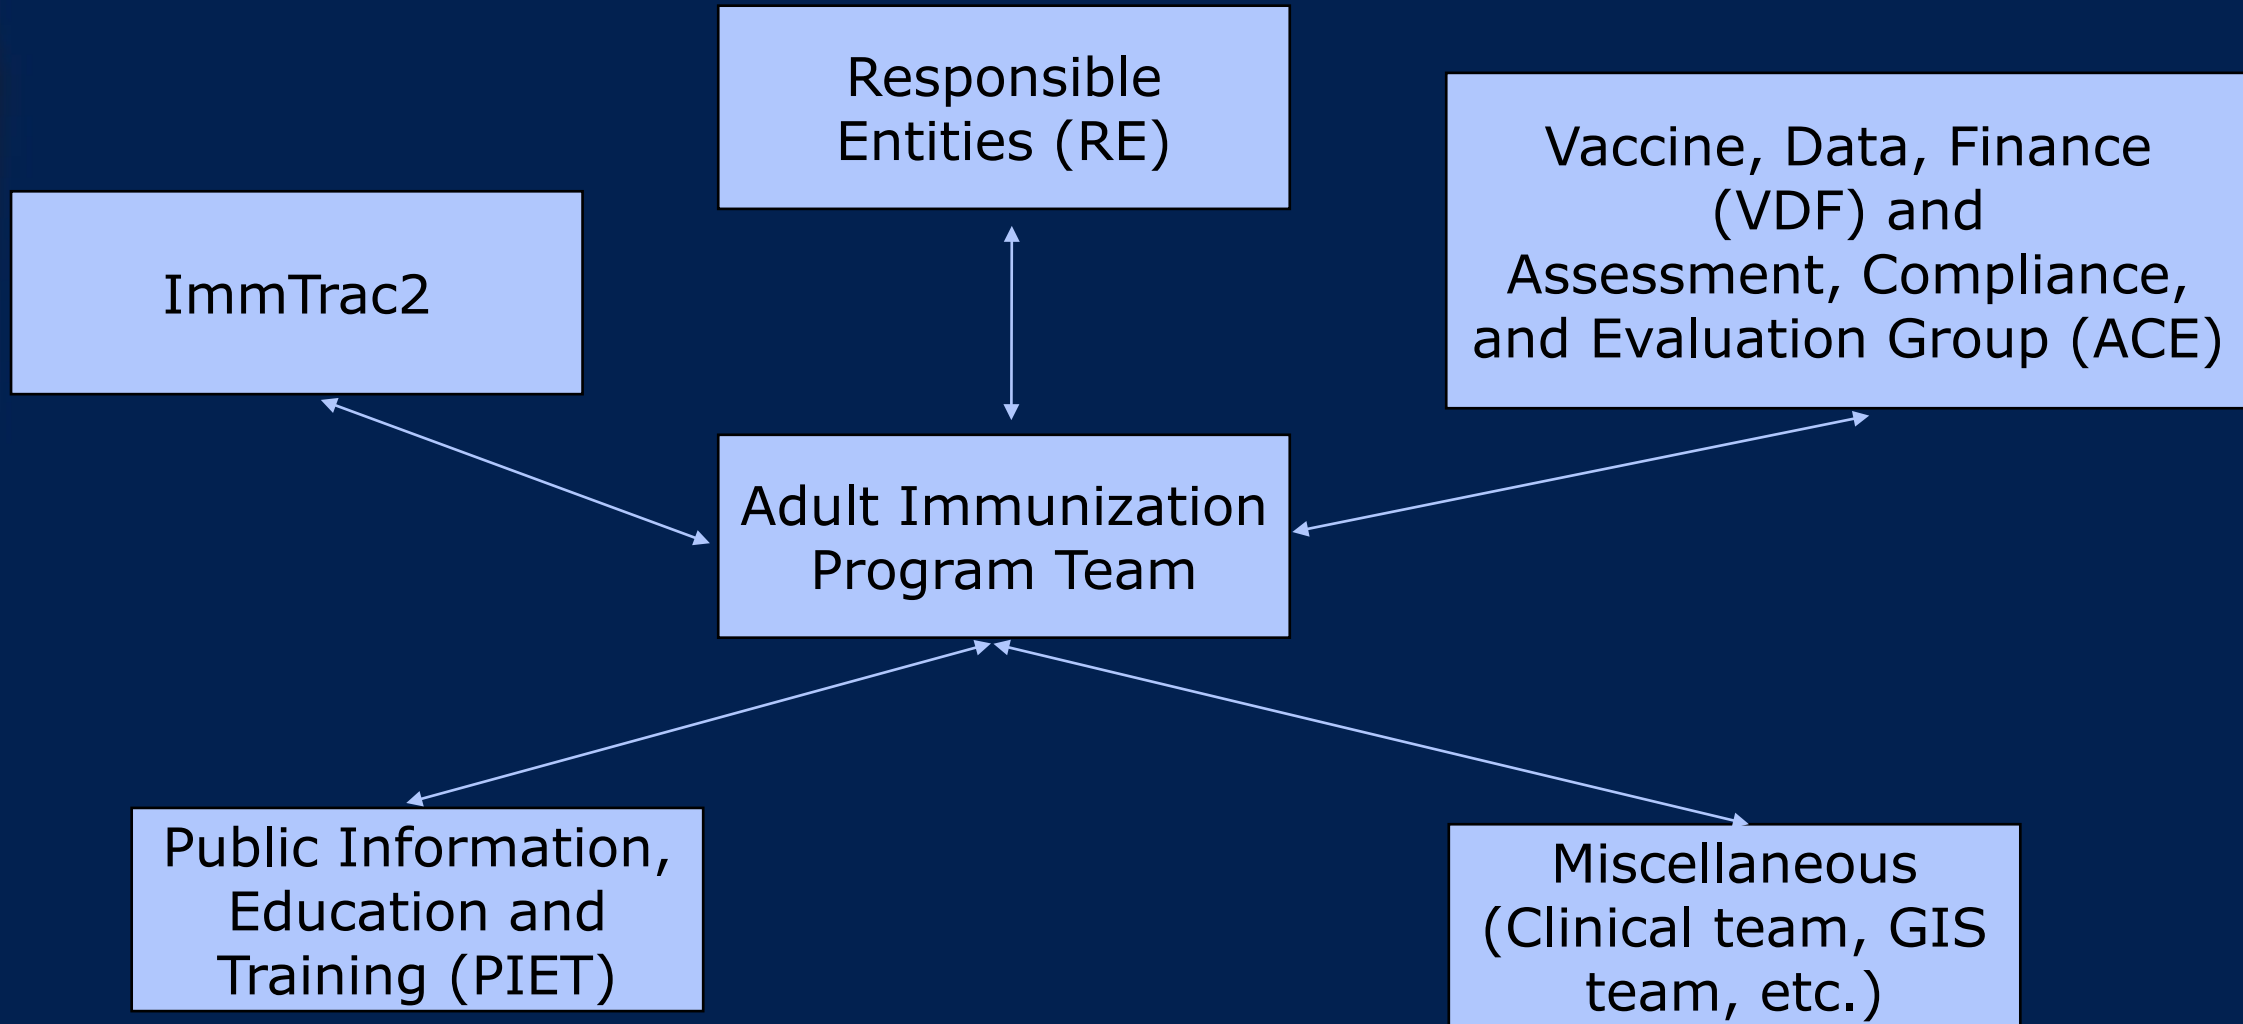

ASN-only Program Structure

TEXAS

Health and Human Services

Texas Department of State
Health Services

ASN Program Structure

REs are responsible for:

- Onboarding new providers
- Monitoring and approving ASN vaccine orders
- Providing guidance to ensure providers adhere to the ASN program policy
- Working directly with providers to execute state projects or initiatives
 - e.g., ASN provider recruitment, Adult Influenza Vaccination Initiative (AIVI), CDC COVID-19 Bridge Program, Ukrainian Humanitarian Parolee Polio Project

TEXAS
Health and Human Services

Texas Department of State
Health Services

ASN Program Structure

REs are responsible for:

- Performing site visits on ASN-only providers and taking corrective action as necessary for compliance
- Emphasizing the following points with providers:
 - NVAC Standards for Adult Immunization Practice for improving vaccine coverage and vaccine documentation
 - Assessing patient eligibility at each ASN visit
 - Strategies for mitigating vaccine waste

TEXAS
Health and Human Services

Texas Department of State
Health Services

ASN Program Structure

- The Adult Immunization Program holds meetings with the AICs on the third Friday of every month
- Meeting topics include improving adult immunization coverage and documentation rates:
 - ASN program and adult project updates
 - Expanding on the Adult Standards for Immunization Practice, along with strategies to implement them in clinical settings
 - Specific regional barriers to carrying out ASN program activities, and strategies to overcome them
 - Progress on ASN site visits and emphasizing essential points for site reviewers to bring up with providers

TEXAS
Health and Human Services

Texas Department of State
Health Services

ASN Program Eligibility

- The following facilities are eligible to enroll in the program:
 - DSHS Public Health Regions (PHR)
 - Local Health Departments (LHD)
 - Federally Qualified Health Centers (FQHC)
 - Rural Health Clinics (RHC)
 - Federally Recognized Indian Tribes
 - HIV/STD clinics*
 - Behavioral Health Clinics*
- Only uninsured adults aged 19 and older are eligible to receive ASN vaccines
 - 19-year-olds in the middle of a vaccine series under TVFC may continue the series under ASN regardless of insurance status

* Facility types cannot be advertised.

TEXAS
Health and Human Services

Texas Department of State
Health Services

ASN Program Formulary

The ASN Program supplies the following ACIP-recommended vaccines:

- Hepatitis A
- Hepatitis B
- Hepatitis A-Hepatitis B combination
- Measles, mumps, and rubella (MMR)
- MCV4
- Tetanus-diphtheria (Td)
- Tetanus, diphtheria, and pertussis (Tdap)
- COVID-19

Pneumococcal: 18+	28.7	33.1	29.7	28.7
Pneumococcal: 65+	71.3	71.1	70.8	69.0
HPV: 1 or more doses	15.3	17.6		
HPV: All Doses	49.7	44.1		
Hepatitis B: All Doses	50.8	48.5		
Meningococcal	35.2			
Zoster (Shingles): 50+	25.7	29.3	31.6	

ASN Program Updates

Due to funding constraints and a rise in vaccine costs, as of August 1, 2023:

- Recruitment for FQHC/RHCs into the ASN program has been temporarily put on hold
- We removed the following vaccines from the ASN formulary:
 - HPV
 - PCV20
 - PPSV23
 - Varicella

TEXAS
Health and Human Services

Texas Department of State
Health Services

Upcoming Planned Strategies

- DSHS Central Office is planning the following activities for the coming year to reinforce AIC and adult activities:
 - Sending dosage data (shipped/administered/wasted) to AICs monthly
 - Reviewing all AICs during ASN site reviews
 - Expanding coverage of site reviews to include dual ASN providers (COVID-19 Bridge Program)
 - Including ASN policy in current TVFC site reviews

TEXAS
Health and Human Services

Texas Department of State
Health Services

Upcoming Planned Strategies

- DSHS Central Office is planning the following activities for the coming year to reinforce AIC and adult activities:
 - Identifying Adult Immunization Program team members as points of contact for designated REs
 - Setting up monthly meetings with individual REs to address targeted concerns along with individual monthly report submissions
- Sending IIS-level data monthly
- Updating the DSHS website

Centers for Disease Control and Prevention (CDC) COVID-19 Bridge Program

ASN Bridge Program COVID-19 Vaccine Patient Eligibility

- In response to the privatization of the COVID-19 vaccine, the CDC created the COVID-19 Bridge Program to supply monovalent COVID-19 vaccines at no cost to participating agencies, including DSHS.
- ASN-enrolled providers now serve as access points for the monovalent COVID-19 vaccine for uninsured and underinsured adults ages 19 and older
 - Uninsured: Refers to a person who does not have insurance of any kind, including Medicare, Medicaid, and private insurance.
 - Underinsured: Refers to a person who has health insurance, but the insurance does not cover COVID-19 vaccines. It also refers to a person whose medical insurance does not provide first-dollar coverage of COVID-19 vaccinations.
 - First-dollar coverage: Refers to health care services, such as COVID-19 vaccinations, covered pre-deductible and without any cost-sharing.

TEXAS
Health and Human Services

Texas Department of State
Health Services

ASN Bridge Program COVID-19 Vaccine Provider Responsibility

- Participating providers must complete the following:
 - Sign an updated provider agreement outlining requirements, including specific Program requirements (during new/re-enrollment).
 - Utilize an updated ASN Patient Screening Form that includes COVID-19 vaccine eligibility
 - Prior to every ASN vaccination, screening patients is required.
 - Participate in compliance site visits, including unannounced visits, and other educational opportunities associated with ASN Program requirements as recommended by DSHS.
- Participating providers are highly encouraged to report ASN vaccine doses into the Texas Immunization Registry, ImmTrac2.
- ASN providers **cannot** charge an administration fee for the COVID-19 vaccine.

Ukrainian Humanitarian Parolee Polio Project

Project Overview

- DSHS provided the adult polio vaccine (IPV) to interested TVFC/ASN enrolled DSHS PHR and LHD clinics to administer to Ukrainian humanitarian parolees affected by the Russian-Ukraine conflict, regardless of their insurance status.
- Measles, mumps, and rubella (MMR) vaccine is also available.
- DSHS waives all administration fees for the IPV and MMR vaccines for Ukrainian Humanitarian Parolees.

TEXAS
Health and Human Services

Texas Department of State
Health Services

Program Process

DSHS PHR and LHD clinics have been participating by:

1. Ordering adult polio vaccine (IPV) doses for their clinics
2. Working with Ukrainian communities by providing information on the importance of receiving the polio vaccine and all ACIP-recommended vaccines.
3. Emphasizing the importance of consenting into the Texas Immunization Registry, ImmTrac2 to save the vaccines they received.

Ukrainian Humanitarian Parole IPV Update

- 60 providers shipped adult IPV
- As of December 3, 2023:
 - 1,449 doses in provider inventory
 - 65 doses administered
 - 125 doses wasted

TEXAS
Health and Human Services

National Vaccine Advisory Committee (NVAC): Standards for Adult Immunization Practices

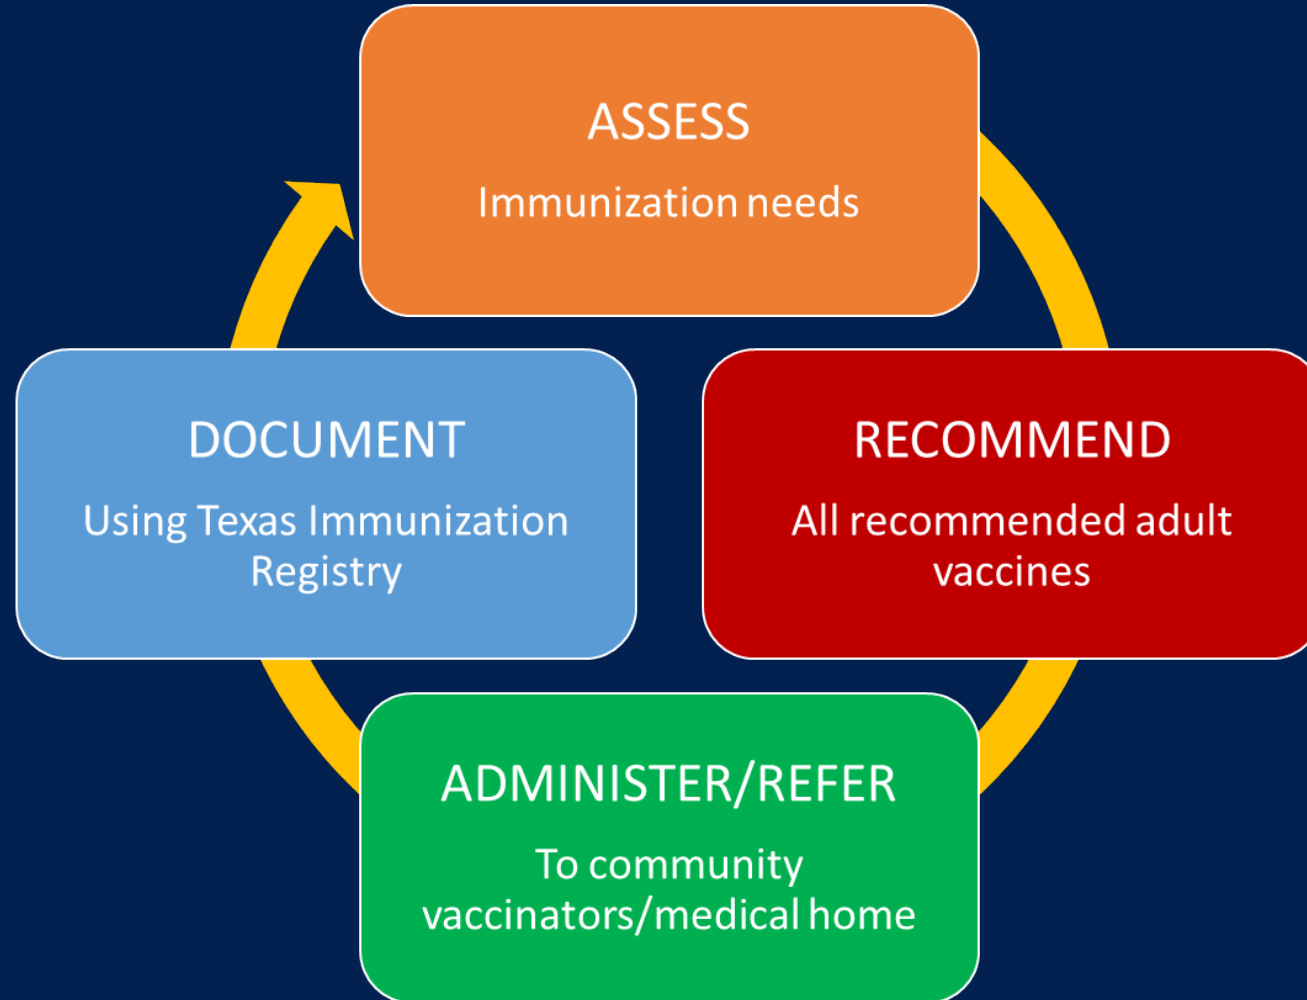

NVAC Standards for Adult Immunization Practices

TEXAS

Health and Human Services

Texas Department of State
Health Services

Assess

ASSESS immunization needs of all adults.

- Stay informed about the latest CDC recommendations
- Implement:
 - Protocols to ensure the adult vaccine needs are routinely reviewed
 - Provide reminders about needed vaccines
 - A system that collects information on current/new patients to monitor immunization status such as the Texas Immunization Registry, ImmTrac2

TEXAS
Health and Human Services

Texas Department of State
Health Services

Recommend

Recommend all vaccines:

- Explain the benefits of vaccines and potential costs of getting the disease they protect against
- Provide tailored materials
- Highlight positive experiences
- Implement strategies to provide reminders for missed or due soon vaccines

TEXAS
Health and Human Services

Texas Department of State
Health Services

Recommend

Stay current with updated vaccine recommendations:

- Up-to-date with all current Advisory Committee on Immunization Practices (ACIP) recommended adult immunizations

[ACIP Adult Immunization Schedule](#)

- General immunization recommendations
- Medical conditions with recommended vaccines for each condition
- Footnotes that provide additional explanation for spacing of vaccines
- Contraindications and precautions
- Information to report adverse events

TEXAS
Health and Human Services

Texas Department of State
Health Services

Administer

Administer needed vaccines:

- Make vaccination services as convenient as possible
- Train and educate staff on vaccine administration
- Properly store and handle vaccines
- Distribute Vaccine Information Statements (VIS) to patients
- Be aware and prepared for potential adverse reactions
 - Report to the Vaccine Adverse Event Reporting System (VAERS)

TEXAS
Health and Human Services

Texas Department of State
Health Services

Refer

Refer adults to community vaccinators or their medical home for immunization services:

- Coordinate with community vaccinators to offer onsite vaccination services

Vaccine Referral Options:

- Pharmacies
- Medical Home
- State or Local Health Departments

TEXAS
Health and Human Services

Texas Department of State
Health Services

Document

Document immunization histories using the Texas Immunization Registry, ImmTrac2:

- A repository of immunization histories for:
 - Texas children and adults
 - Texas first responders
 - Disaster-related participants, such as displaced residents during Hurricane Harvey
- The registry helps healthcare professionals know which vaccines have been received

TEXAS
Health and Human Services

Texas Department of State
Health Services

Texas Immunization Registry

- Why use Texas Immunization Registry?
 - Consolidates vaccination records in one location
 - Ensures necessary vaccine series are completed
 - Reduces chances for unnecessary doses of vaccines or missed opportunities
 - Provides reminder and recall options
 - Provides a personal immunization record of received vaccines
- Providers must be encouraged to report ASN doses into ImmTrac2.
