

Subject: New ImmTrac2 eLearning Modules Now Available in the HHS Learning Portal

Texas Department of State Health Services (DSHS) has launched 13, Texas Immunization Registry (IIS) eLearning modules in the [HHS Learning Portal](#). IIS users are encouraged to take trainings to increase their knowledge of IIS.

To access the modules in the HHS Learning Portal, go to the search courses window and select ImmTrac2. Select any of the four categories highlighted in blue.

The IIS modules available in the [HHS Learning Portal](#) are:

- **Category 1: Introduction to the Registry**
 - Module 1 - History of ImmTrac2
 - Module 2 - Statutory Requirements and Purpose of IIS
 - Module 3 - Benefits to Clients and Providers
 - Module 4 - How Data is Reported to the IIS
- **Category 2: Overview of User Policies and Procedures**
 - Module 5 - How to Register and Renew IIS Site Agreements
 - Module 6 - Syntropi - in progress
 - Module 8 - General Policies and Data Security
- **Category 3: Overview of Reporting Requirements**
 - Module 8 - Reporting Policies and Procedures
 - Module 9 - TVFC and ASN Reporting Requirements
 - Module 10 - Online and Data Exchange Reporting
- **Category 4: Overview of ImmTrac2 Functionality**
 - Module 11 - How to Access Client and Immunization Data
 - Module 12 - Reports for Responsible Entities (LHD and PHR)
 - Module 13 - Ad Hoc Generated Reports
 - Module 14 - Tips Reports

Each module includes a quiz, survey, and certificate. Within each category, modules must be completed in the order listed.
