4. Temporary placement of cyclopropyl fentanyl into Schedule I is necessary to avoid an imminent hazard to the public safety.

The Administrator of the Drug Enforcement Administration issued a final order placing 1-cyclohexyl-4-(1,2-diphenylethyl)piperazine (Other name: MT-45), including its salts, isomers, and salts of isomers into Schedule I of the Controlled Substances Act effective January 12, 2018. This final order was published in the *Federal Register*, Volume 82, Number 238, pages 58557-58559. This action was based on the following:

1. The 59th session of the Commission on Narcotic drugs, added MT-45 to Schedule I of the Single Convention;
2. The United States is obligated to control MT-45 under the Single Convention on Narcotic Drugs, 1961; and,
3. MT-45 has no currently accepted medical use in treatment in the United States.

Pursuant to Section 481.034(g), as amended by the 75th legislature, of the Texas Controlled Substances Act, Health and Safety Code, Chapter 481, at least thirty-one days have expired since notice of the above referenced actions were published in the *Federal Register*. In the capacity as Commissioner of the Texas Department of State Health Services, John Hellerstedt, M.D., does hereby order that the substance cyclopropyl fentanyl be temporarily placed into Schedule I; and also orders that the substance MT-45 be placed into Schedule I.
