NOTICE

WEBSITE CORRECTION FOR C-129 MIDSTREAM OPERATOR NOTIFICATION TO UPSTREAM OPERATOR

September 14, 2021

In accordance with 19.15.27 and 19.15.28 NMAC, operators are required to submit Form C-129 for Venting and/or Flaring reporting purposes. Pursuant to 19.15.28.8.D NMAC natural gas gathering operators are required to provide notification to affected upstream operators in the event of any emergency, malfunction, scheduled/unscheduled maintenance, replacement, or repair of their natural gas gathering system.

Stakeholder feedback has necessitated additional modifications to the C-129 form in the e-permitting system. The following outlines the changes that were implemented in the e-permitting system on 9/7/2021.

Please continue to submit any questions to EMNRD.Wasterule@state.nm.us.

Form Changes

If “Yes” is chosen to the question “Venting or Flaring Resulting from Downstream Activity” then additional information is required

Venting or Flaring Resulting from Downstream Activity

- Was or is this venting and/or flaring a result of downstream activity
- Was notification of downstream activity received by you or your operator
- Downstream OGRID that should have notified you or your operator
- Date notified of downstream activity requiring this venting and/or flaring
- Time notified of downstream activity requiring this venting and/or flaring

The affected operator is required to indicate if notification was received by the downstream operator. In addition, a valid OGRID number must be entered for the downstream operator regardless of whether or not a notification was received. The OGRID field allows for an “assisted” choice of operators by starting to typing the name or OGRID number in to text field.

Venting or Flaring Resulting from Downstream Activity

- Was or is this venting and/or flaring a result of downstream activity [Yes](#) [Clear](#)
- Was notification of downstream activity received by you or your operator [+](#)
 Required: Please indicate if you or your operator was notified of downstream activity.
- Downstream OGRID that should have notified you or your operator [+](#)
 Required: Please provide a valid OGRID for the operator that should have provided notification.
- Date notified of downstream activity requiring this venting and/or flaring [+](#)
- Time notified of downstream activity requiring this venting and/or flaring [+](#)

Downstream OGRID [×](#)

- Downstream OGRID that should have notified you or your operator?

Downstream OGRID:

[Save](#)

Question is looking for a valid OGRID number as an answer.
If an invalid OGRID is given then it will be cleared.
To find an operator's valid OGRID use the OCD Operator Search page.

If notification was received from the downstream operator, then the affected operator is required to answer the 3rd, 4th and 5th questions prior to completing the submission.

Venting or Flaring Resulting from Downstream Activity

- Was or is this venting and/or flaring a result of downstream activity [Yes](#) [Clear](#)
- Was notification of downstream activity received by you or your operator [Yes](#) [Clear](#)
