OFFERING POWERFUL SOLUTIONS *for* LIFECYCLE GRANTS MANAGEMENT

eRA provides mission critical support for about $39.6 billion in grants awarded by federal agencies. eRA's electronic grants management services and business intelligence capabilities allow agencies to manage the receipt, processing, review, award and monitoring of grants and are used by applicants and grantees worldwide, including the U.S. and 55 countries. eRA is an established grants management entity with over 30 years of experience in the field. It is the largest research grants management system in the federal government in terms of the number of applications, accounting for over 50 percent of the grant applications received by Grants.gov, the fed-wide portal for finding and applying for grants.

169,000
Grant applications/ awards processed

63,000+
Reviewers at 3,600 review meetings

SUPPORTING THE ENTIRE GRANT LIFECYCLE *for* AGENCIES

PROGRAM ADMINISTRATION
- Set up and maintain grant programs
- Develop funding opportunities

PRE-AWARD MANAGEMENT
- Provide application receipt interfaces with Grants.gov
- Manage/conduct review meetings & 2nd level reviews
- Use application checklists to verify compliance
- Prepare application funding decisions

AWARD MANAGEMENT
- Prepare grant award packages
- Business rules to verify policy compliance
- Automated award release process & e-notifications
- Support for financial, other federal systems [Grants.gov, SAM.gov, HHS/Payment Management System (PMS), HHS/Tracking Accountability in Government Grants System (TAGGS)] and Data Act reporting interfaces

POST-AWARD MANAGEMENT

- Dynamic grant portfolio tracking
- Manage terms and conditions requirements
- Track and process financial and progress reports
- Receive and process final closeout reports
- Robust reporting capabilities, some using artificial intelligence

REPORTING & ANALYTICS

- Robust reporting capabilities
- Leveraging artificial intelligence to guide business processes
- Powerful search capability by research area, disease or health condition
- Ability for agencies to find overlap of similar project funding with other agencies
- Ability for applicants to find funded projects or publications similar to the ones they are planning
- Ability for applicant to find right funding institute by honing in on similar projects already funded by that institute

SECURITY

- Strong security posture built into processes
- Two-factor authentication to keep accounts secure
- Keeping our systems stable, secure and available
