

**Finding 1**

The SDDP maintains its response that the committee overlooked filing procedures and required better training on reporting to the Commission. There was no intent to understate disbursements on the original reports filed.

**Finding 2**

In the attached files, we demonstrate permissibility for an additional \$43,244.72 in contributions.

The remaining \$4,747.69 in contributions will be returned to their original committees. A reflection of that return, or a debt noting the intention to return shortly, will be included on our next federal monthly report.

**Finding 3**

The SDDP properly disclosed the debts and obligations discussed in the IAR, making sure to include adequate purposes and correct reporting periods through the extinguishment of each debt.

Referenced materials are included in the email sent to FEC by SDDP on 7/19.

**We will not be requesting a hearing.**
