GREETINGS

FIBA FOREWORD

Welcome to Recife, Brazil, for the most prestigious competition for senior men's basketball in the Americas: the FIBA AmeriCup 2022.

Over the next ten days, we will witness twelve (12) teams from the Americas compete to become the best team on the continent.

The tournament's 19th edition returns to Brazil for the first time since 1984, when it was held in Sao Paulo and FIBA Hall of Famer Oscar Schmidt led the hosts to gold. It is an honor and a privilege to return to Brazil. FIBA and the Brazilian

Basketball Confederation (CBB) have been working together for a long time to develop a very structured and inspiring plan to bring this event to Brazil.

The 2022 edition of the Americas' highest-level championship is a celebration of basketball. A celebration that will bring our elite teams to the unique and beautiful city of Recife. We at FIBA eagerly await the AmeriCup, which will showcase our region's top tier athletes, both legends of the game and emerging young stars. The United States come in as the defending FIBA AmeriCup champions,

having lifted the trophy in 2017 when Argentina, Colombia and Uruguay jointly hosted the event.

In addition to coming in as reigning champions, the United States have the most FIBA AmeriCup titles in the region with seven. USA are followed by Brazil (4), Puerto Rico (3), Argentina (2), Mexico (1) and Venezuela (1).

We cannot wait to get started, and hope you enjoy one of world basketball's most prestigious stage. See you at tip-off!

LOCATION

RECIFE

Recife stands out as a major tourist attraction of Brazil's Northeast, both for its beaches and for its historic sites. It has a vibrant cultural, entertainment and gastronomic scene, an intriguing historic center, an impressive coastal setting and a fabulous Carnival. It takes its name from the offshore recifes (reefs) that calm the waters of its ports and shoreline.

Dubbed the "Venice of Brazil" for the abundance of picturesque waterways that sliver throughout the city, Recife is the fourth-largest urban area in Brazil with 4,054,866 inhabitants, the largest urban area of the North/Northeast Regions, and the capital and largest city of the state of Pernambuco. The population of the city proper was 1,653,461 in 2020.

From the picturesque canals and brightly painted colonial buildings of its old town to its skyscraper and palm-fringed beaches, Recife's skyline reflects its personality, a bold blend of traditionalism and modernism whose free spirit shines during its legendary Carnival celebrations.

VENUE

GERALDAO ARENA

Geraldo Magalhães Sports Gymnasium, colloquially known as Geraldão, is a multi-purpose indoor arena in Recife, Brazil with capacity for 10,000 people. It hosts indoor sporting events such as basketball and volleyball, and also hosts concerts. It has become one of the main symbols of sports and cultural life of Recife since it opened in 1970. It is part of a collection of

sports arenas designed by architect Icaro de Castro Melo, which also includes the Nilson Nelson in Brasília, Paulo Sarasate in Fortaleza, and the Ibirapuera in São Paulo. The arena went through its first major reform in 2020 where it was fully modernized. Geraldão has an electronic scoreboard with four sides, two access ramps for

people with disabilities or reduced mobility, thermoacoustic cover, air conditioning and modern sound systems. In addition to the complete structural recovery, the arena boasts new sanitary facilities, 8 business lounges, 12 bars, seats in all levels and a 8,000m parking lot.

TROPHY

The FIBA AmeriCup Trophy is “founded on history”, feel inspired by an evolution of previous trophies handed out throughout the history of the continental competition. It has an etched map of the Americas engraved in the inner and outer surface, as well as all the past continental champions from 1980-2017 editions.

The new AmeriCup Trophy will be handed out for the second time on September 11

to the FIBA AmeriCup 2022 champions in Brazil.

Standing at 60cms tall, it has been handcrafted from sterling silver and features a 24ct gold plated band. This band connects all the new trophies crafted for FIBA, and stands as the only matching feature between them. This modern ingenious design has been uniquely crafted to create the effect of a levitating

basketball. It took in excess of 70 hours for the expert silversmiths to create this levitating effect through the processes of spinning, plating and polishing. All of these processes were carried out by hand to ensure that traditional craft techniques survive.
