

DIFFERENTIATE YOUR DIGITAL BANKING EXPERIENCE

FIS Digital One

Custom Digital Solutions for Your Financial Institution

At FIS, our mission is to deliver secure digital solutions that meet end-customers' financial needs and accelerate digital transformation for our clients. **FIS® Digital One** is a feature-rich, highly configurable digital banking solution designed for large banks and financial institutions. Our comprehensive omnichannel solution provides customers and employees with convenient and consistent experiences across all banking channels, covering self-service and assisted-service. Digital One delivers a comprehensive suite of products that are flexible, configurable and scalable, giving you control of your holistic digital experience today – and for the future.

What's Different About Digital One?

Single omnichannel platform – get all your digital banking needs to support your consumer and business customers all from a single, trusted provider, including online and mobile banking, online and banker account open, teller transaction processing, and banker sales and service.

Low-code development (LCD) tools – our flexible and configurable platform allows you to have more control of your holistic digital experience, at the level you desire. Quickly build and deploy applications across iOS, Android, and web channels with common experiences.

Consistent, connected experiences – give customers the same experience across all your banking channels. Our omnichannel solutions continuously engage customers, regardless of whether they're completing tasks in a branch, online, or with your call center.

Flexible, open architecture – FIS provides the most complete digital ecosystem with our API library. API integration-ready widgets connect with Digital One APIs and other 3rd party APIs to integrate additional features, allowing you to drive innovation through our partnerships.

The Right Foundation for Digital Banking

Digital One is composed of several connected modules that allow financial institutions to modernize their customer and associate experience at their own pace in steps or altogether with a full deployment. These must-have capabilities are the foundation for any digital banking experience. Our solution suite consists of:

Digital One Consumer Studio

A highly configurable, customer-facing application that enables intuitive self-service banking online, via a tablet or a mobile device.

Digital One Online Account Open

Consumers and businesses can open new accounts in minutes online or via a mobile app.

Digital One Business

Digital business banking with information reporting and money movement, fraud and risk management tools, and integration to treasury management services.

Digital One Business Hub

Your single portal that aggregates all your business banking accounts to provide you a single pain of glass.

Digital One Banker Account Open

Our easy-to-use solution for associates to open new accounts in a branch or through the call center in minutes.

Digital One Banker Sales & Service

A feature-rich application that allows associates to perform all sales, service and account origination on a tablet or traditional desktop.

Digital One Teller

An interactive and comprehensive solution for monetary transaction processing, cash management and reporting.
