

POWER UP YOUR DIGITAL BANKING EXPERIENCE

FIS Digital One

Digital transformation for your bank

At FIS®, our mission is to deliver secure digital solutions that accelerate digital transformation for our clients and meets the needs of their customers. **FIS Digital One** is a feature-rich digital banking suite designed to help regional and community banks provide their customers with convenient and consistent experiences across all self-service banking channels, on any device.

Digital One is an integrated end-to-end platform that provides feature functionality out of the box, with minimal configuration needed, delivering efficiency and increasing speed to market. You can offer your customers clean and consistent interactions through a mobile app and online banking experience, including online account opening, bill pay, ACH, wires and so much more.

What's different about Digital One?

Ease of delivery and speed to market – Our out-of-the-box solutions allow your bank to get up and running faster, with only minimal configuration needed. Plus, you're enabled with rapid future updates. No wait lists. No wasted time. Just new functionality in your hands.

Single digital platform – Say goodbye to piecemeal solutions. Get all your digital banking needs to support your retail and business customers from a single, unified platform, including online banking, mobile banking app and online account opening solutions for your entire customer base.

Best of suite – FIS offers core, digital banking, payments, fraud solutions and more, that can be coupled together for our best-of-suite approach. This means you have everything you need to provide a seamless banking experience for your customers, all from a single vendor, in one cost-effective solution.

The right foundation for digital banking

Digital One is composed of several connected modules that allow banks to modernize their user experience to keep up with the speed of the market, implementing individual products at a time or opting for a full deployment. These must-have capabilities within this suite are the foundation for any digital banking experience. Our solution suite consists of:

Digital One Flex

A customer-facing application that enables intuitive self-service consumer and small-business banking via online and mobile applications, with a consistent user interface.

Digital One Online Account Open

Consumers can open new individual or joint accounts in minutes via their channel of preference, including online banking and mobile app.

Digital One Business

Online and mobile corporate banking solution with information reporting and money movement, fraud and risk management tools, advanced entitlements and integration to treasury management services.

Digital One Online Business Account Open

Online account onboarding specifically designed with corporate banking customers in mind, with business-specific products and ownership options.

FIS Business Hub

Your single hub to integrate bank and fintech applications to provide a unified user experience. It empowers you to deliver a 360° view of your banking operations, boosting client engagement and market share while unlocking financial insights.
