

A SINGLE PLATFORM TO TRANSFORM YOUR DIGITAL EXPERIENCE

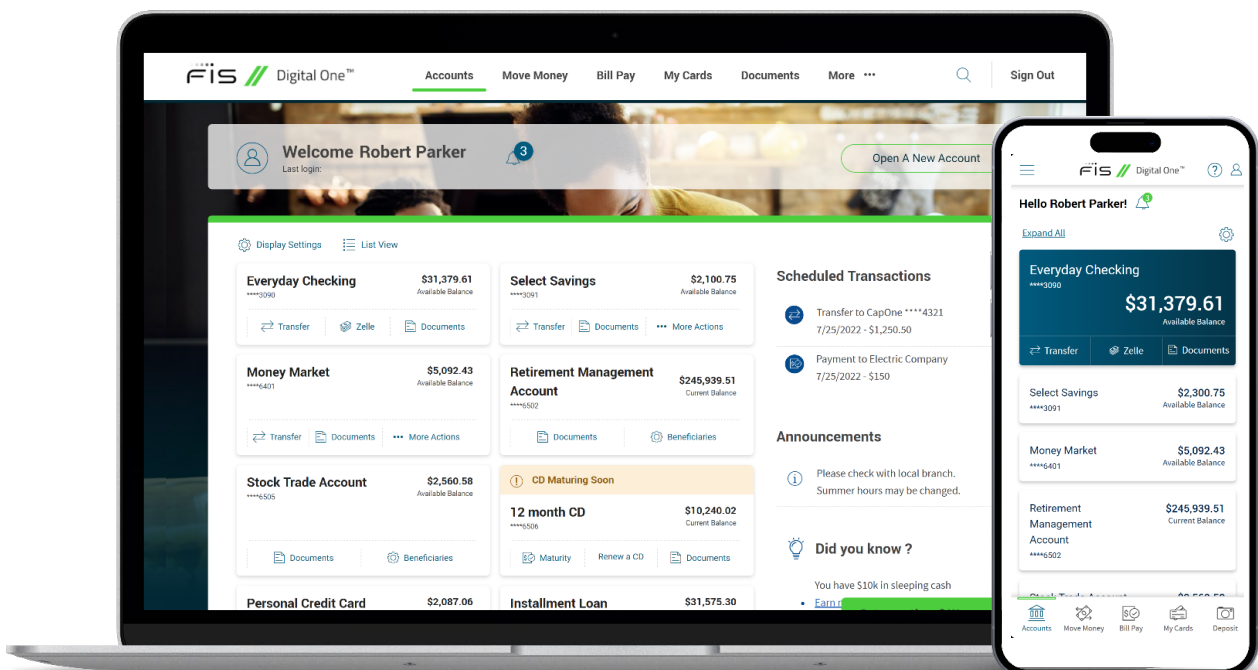

FIS Digital One Consumer Studio

Intuitive, mobile-first, omnichannel platform

FIS® Digital One Consumer Studio is the flexible, scalable, efficient way for your financial institution to accelerate its digital transformation. Digital One Consumer Studio is the only customer-facing, digital self-service banking management solution that is both available out-of-the-box, but also highly customizable and scalable depending on your bank's needs. You can empower your team to co-develop, customize and rapidly deploy your digital experience across online and mobile, unifying your customer-facing channels, all from one common platform.

Our highly scalable, low-code development framework allows for easier modification, configuration and control of your end-to-end experience. Digital One Consumer Studio offers a visual, drag and drop interface with extensive page layouts, templates, and a library of hundreds of prefabricated UI components that can be readily assembled into a next-level digital banking experience. Provide your customers with a seamless, personalized and differentiated experience that drives customer value and loyalty.

Additionally, Digital One Consumer Studio is core and partner agnostic, employing customization, a high degree of flexibility and better control in selecting the FIS and 3rd party integrations most impactful to your specific customer base and enabling you to stand out from the competition by offering better control.

Differentiators of Digital One Consumer Studio

With the rapid advancement of digital banking, it's more important than ever that you offer a standout, personalized experience to customers who expect seamless, high-caliber services across various channels. Since you need to stand out, we've designed Digital One Consumer Studio to be a stand-out solution, as well.

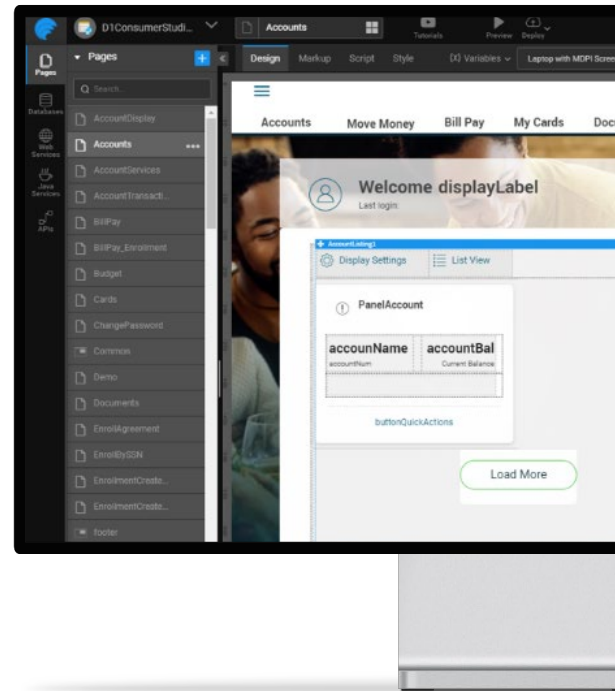

Highly scalable, low-code development environment

When you implement Digital One Consumer Studio, you put your digital team in charge. Its highly scalable, low-code framework streamlines the development process, allowing you to quickly create and customize both web and mobile banking applications with less need for intricate, often duplicative, coding, thus enhancing efficiency and allowing for quicker time to market.

Flexibility

Digital One Consumer Studio offers robust functionality ready to use out-of-the-box, but also allows you to configure and customize via the low-code platform to tailor the solution to better fit your bank and customers' unique needs. With Digital One Consumer Studio, you can harness the advantage of speed and efficiency to quickly bring your solutions to market, while retaining the flexibility to upgrade and personalize features when it aligns with your institution's strategy.

Backed by a banking leader
