Internal Policy	
<p>The Board of Governors' internal policy is to respect the processes each university has established to address student complaints and to require that students exhaust all appropriate internal university processes before seeking an external review. However, after a student has exhausted all internal university processes, provided there is no avenue for external appellate review by a court, the Board's complaint process provides an avenue for review of those complaints in which a student asserts that the university is not in compliance with state law or Board of Governors regulations. To that end, this complaint form may be completed and submitted by those students asserting noncompliance with state law or Board regulations.</p>
