TORTILLAS

AUTHENTIC SPROUTED CORN TORTILLAS

BEST TASTING CORN TORTILLAS EVER!

Unlike most corn tortillas today, **these unique tortillas are made from freshly sprouted 100% organic whole-kernel corn.** We use no corn meal or corn flour. Instead, we sprout our corn first, then slowly produce a "masa" using basic natural ingredients and gently press it into these healthy and flavorful sprouted organic corn tortillas. We believe in sprouting the corn we use because **sprouting optimizes vital nutrients stored in whole grains.**

We add just the right amount of water to healthy, whole, organically-grown corn to unlock this dormant food energy and maximize nutrition and flavor. As a result, beneficial enzymes are activated, which causes the corn to sprout and become a living food. Our exclusive sprouting process not only significantly increases vitamins and minerals but also causes a natural change that allows the protein and carbohydrates to be assimilated by the body more efficiently. And even better still, our slow mixing process helps preserve the important natural fiber.

You can see, taste, and smell THE LIVE GRAIN DIFFERENCE![™] of Food For Life tortillas. See the difference fresh sprouts really make and partake of the miracle.

Your body and taste buds will know the difference!
