SEC. 601. SHORT TITLE.

This title may be cited as the “Recreational Fishing and Hunting Heritage and Opportunities Act”.

SEC. 602. FINDINGS.

Congress finds that—

(1) recreational fishing and hunting are important and traditional activities in which millions of Americans participate;

(2) recreational anglers and hunters have been and continue to be among the foremost supporters of sound fish and wildlife management and conservation in the United States;

(3) recreational fishing and hunting are environmentally acceptable and beneficial activities that occur and can be provided on Federal lands and waters without adverse effects on other uses or users;

(4) recreational anglers, hunters, and sporting organizations provide direct assistance to fish and wildlife managers and enforcement officers of the Federal Government as well as State and local governments by investing volunteer time and effort to fish and wildlife conservation;

(5) recreational anglers, hunters, and the associated industries have generated billions of dollars of critical funding for fish and wildlife conservation, research, and management by providing revenues from purchases of fishing and hunting licenses, permits, and stamps, as well as excise taxes on fishing, hunting, and recreational shooting equipment that have generated billions of dollars of critical funding for fish and wildlife conservation, research, and management;

(6) recreational shooting is also an important and traditional activity in which millions of Americans participate;

(7) safe recreational shooting is a valid use of Federal lands, including the establishment of safe and convenient recreational shooting ranges on such lands, and participation in recreational shooting helps recruit and retain hunters and contributes to wildlife conservation;

(8) opportunities to recreationally fish, hunt, and shoot are declining, which depresses participation in these traditional activities, and depressed participation adversely impacts fish and wildlife conservation and funding for important conservation efforts; and

(9) the public interest would be served, and our citizens' fish and wildlife resources benefitted, by action to ensure that opportunities are facilitated to engage in fishing and hunting on Federal land as recognized by Executive Order No. 12962, relating to recreational fisheries, and Executive Order No. 13443, relating to facilitation of hunting heritage and wildlife conservation.

PURPOSE OF THE BILL

The purpose of H.R. 2406 is to protect and enhance opportunities for recreational hunting, fishing and shooting.

BACKGROUND AND NEED FOR LEGISLATION

H.R. 2406, the Sportsmen's Heritage and Recreational Enhancement Act of 2015 (SHARE Act), as amended, aims to protect Second Amendment rights and ensure that future generations of Americans will have ample access to federal lands to hunt, fish, and recreationally shoot. Reliable access is necessary to sustain our nation's rich outdoor sporting tradition heritage and benefits the men and women that make up the industries that support it. Outdoor sporting activities, including hunting, fishing and recreational shooting, are deeply engrained in the fabric of America's culture and heritage. Much of this activity occurs on America's federal lands. Federal agencies often prevent or impede access to federal lands for hunting, fishing, and recreational shooting that should otherwise be available for those activities. Since lack of access is one of the key reasons why sportsmen and women may stop participating in traditional outdoor sporting activities, ensuring that the public has reliable access to our nation's federal lands must remain a priority.

The SHARE Act includes many provisions to accomplish these goals. First, it implements an "open until closed" management policy on federal lands to facilitate sustained access for hunting, fishing, and recreational shooting and protects sportsmen and women from arbitrary efforts by the federal government to close lands to those activities. However, it does not prioritize hunting and fishing over other multiple uses of federal lands. The bill also requires federal agencies to consider the use of volunteers from the hunting community to cull excess animals on federal lands; prevents the Departments of the Interior and Commerce from restricting recreational or commercial fishing access on marine waters without coordination with and approval of the applicable State or territory; prevents U.S. Forest Service restrictions on hunting, fishing, and shooting in certain National Forests in Arkansas, Louisiana, and Mississippi; creates a new cost structure for small film crews operating on federal lands; adjusts funding limitations to make more funds available to States to establish and maintain recreational shooting ranges; authorizes bows and crossbows to be lawfully transported on National Park System lands with certain restrictions; and allows the National Park Service to establish hunter access corridors through National Park System units that are used to access adjacent federal land that is open to hunting. The bill also reauthorizes and amends the Federal Land Transaction Facilitation Act by emphasizing the acquisition of parcels that provide recreational access and providing federal agencies with the option to use funds generated by land sales for deferred maintenance activities, in addition to the purchase of land.

The bill also protects Second Amendment rights and the use of traditional ammunition and fishing tackle. It protects individuals' Constitutional right to bear arms on lands owned by the U.S. Army Corps of Engineers. Congress passed legislation allowing citizens to exercise this right on National Park and other federal lands, but

did not address lands owned by the Corps. The bill also protects the use of traditional ammunition and fishing tackle by reiterating and clarifying existing law that clearly limits the Environmental Protection Agency's authority to regulate those components under the Toxic Substances Control Act. It also prevents certain federal agencies from regulating the use of ammunition and fishing tackle based on lead content, but retains the existing prohibition of lead used in waterfowl hunting.

Finally, the bill prevents the regulation of lawfully possessed ivory products and eliminates red tape associated with the importation of hunting trophies. The bill prevents the U.S. Fish and Wildlife Service from implementing onerous rules banning the domestic sale and trade of lawfully possessed ivory products, including musical instruments, firearms, and antiques that include ivory, and ensures that sport-hunted elephant trophies can be legally imported from countries with sustainable elephant populations. It also allows for the importation of certain already legally-taken polar bear hunting trophies that, through no fault of sportsmen or women, have become trapped in bureaucratic red tape. However, the bill does not open the door to future imports.

COMMITTEE ACTION

COMMITTEE OVERSIGHT FINDINGS AND RECOMMENDATIONS

Regarding clause 2(b)(1) of rule X and clause 3(c)(1) of rule XIII of the Rules of the House of Representatives, the Committee on Natural Resources' oversight findings and recommendations are reflected in the body of this report.

COMPLIANCE WITH HOUSE RULE XIII

1. Cost of Legislation. Clause 3(d)(1) of rule XIII of the Rules of the House of Representatives requires an estimate and a comparison by the Committee of the costs which would be incurred in carrying out this bill. However, clause 3(d)(2)(B) of that rule provides that this requirement does not apply when the Committee has included in its report a timely submitted cost estimate of the bill prepared by the Director of the Congressional Budget Office under section 402 of the Congressional Budget Act of 1974. Under clause 3(c)(3) of rule XIII of the Rules of the House of Representatives and section 403 of the Congressional Budget Act of 1974, the Committee has received the following cost estimate for this bill from the Director of the Congressional Budget Office:

H.R. 2406—SHARE Act

Summary: H.R. 2406 would amend existing laws and establish new laws related to the management of federal lands. It would authorize the sale of certain federal land and permit the receipts from those sales to be spent. The bill also would authorize the appropriation of \$5 million a year to enforce laws related to the illegal trading of ivory. Based on information provided by the affected agencies, CBO estimates that implementing the legislation would cost \$24 million over the 2016–2020 period and \$1 million after 2020, assuming appropriation of the authorized and necessary amounts.

Because CBO estimates that enacting the bill would affect direct spending, pay-as-you-go procedures apply. However, CBO estimates that the net effect on direct spending would be negligible over the 2016–2025 period. Enacting H.R. 2406 would not affect revenues. CBO also estimates that enacting H.R. 2406 would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2026.

H.R. 2406 contains no intergovernmental mandates as defined in the Unfunded Mandates Reform Act (UMRA) and would benefit state agencies by lowering the matching requirement for federal grants that support public shooting ranges. Any costs incurred by those entities would be incurred voluntarily.

H.R. 2406 would impose a private-sector mandate, as defined in UMRA, by eliminating an individual's existing right to seek compensation for damages occurring at some public target ranges. Based on information from the Department of the Interior, CBO estimates that the cost of the mandate would be small and fall well below the annual threshold established in UMRA for private-sector mandates (\$154 million in 2015, adjusted annually for inflation).

Estimated cost to the Federal Government: The estimated budgetary effect of H.R. 2406 is shown in the following table. The costs of this legislation fall within budget function 300 (natural resources and environment).

^a The amounts of sale proceeds shown in the table reflect expected increases in collections under RR, 2406. In addition to those amounts, CBO estimates that the Bureau of Land Management will collect \$10 million over the 2016–2025 period from land sales under current law.

Basis of estimate: For this estimate, CBO assumes that the legislation will be enacted in 2016 and that the necessary amounts will be appropriated for each fiscal year.

Direct spending

CBO estimates that enacting H.R. 2406 would have a negligible effect on direct spending over the 2016–2025 period. Title IX, which would reauthorize the Federal Land Transaction Facilitation Act (FLTFA) through July 25, 2022, would increase offsetting receipts from land sales and associated direct spending by \$36 million over the 2016–2022 period. On balance, title IX would have no net effect on direct spending over that period. Other provisions in the bill would have a negligible effect on direct spending.

Federal Land Transaction Facilitation Act. Title IX would reauthorize FLTFA and allow certain federal agencies to spend, without further appropriation, proceeds from the sale of land administered by the Bureau of Land Management (BLM) to purchase inholdings (privately held land surrounded by federal land). Based on information from BLM, CBO estimates that enacting title IX would increase both the proceeds from the sale of federal property and the spending of those proceeds. On balance, CBO estimates that enacting title IX would have no net effect on direct spending over the 2016–2022 period.

Under current law, proceeds from the sale of BLM land are deposited in the Treasury as offsetting receipts. CBO estimates that such proceeds will total \$7 million over the 2016–2022 period and are not available to be spent without appropriation. Because, under the bill, BLM could spend those proceeds to pay for administrative costs associated with other land sales, CBO estimates that enacting the legislation would lead to more sales, and that collections would increase by \$36 million over that period. Under the bill, we esti-

mate that new spending authority from the proceeds of the sale of BLM land would total around \$43 million over 2016–2022 period.

CBO estimates that annual proceeds from the sale of BLM land over the next 7 years would be lower (on average) than historical collections under FLTFA, which expired in 2011. Over the 2001–2011 period, proceeds under the program totaled roughly \$120 million. Most of those collections were generated by sales near urban areas in Nevada and Arizona in 2006 and 2007. Because the amount of future proceeds would be related to housing market conditions in those areas, we expect that total proceeds in the future would be lower, although they would increase annually through 2022 as additional sales take place near those urban areas.

Title IX also would authorize four land-management agencies (BLM, the U.S. Fish and Wildlife Service, the National Park Service, and the Forest Service) to spend without further appropriation proceeds from the sale of BLM land, including amounts expected to be collected under current law. Thus, CBO estimates that enacting title IX would increase direct spending over the 2016–2022 period. Based on the historical rate of spending for FLTFA program and for other federal land acquisition activities, CBO expects that those agencies would spend \$36 million over the 2016–2022 period. As a result, CBO estimates that enacting title IX would have no net effect on direct spending over that period.

Interest Earned on Amounts in the Wildlife Restoration Fund (VWRF). Title XII would amend current law to change how interest earned on amounts in the WRF could be spent but not the amounts available to be spent. Because the amounts available to be spent would not be affected, CBO estimates that enacting title XII would have a negligible net effect on direct spending.

Fees for Commercial Filming Activities. Title XIII would require the Secretaries of Agriculture and the Interior to charge a permit fee of \$200 a year for crews of five persons or fewer that conduct commercial filming activities on certain federal lands. Under current law, some of the affected agencies collect fees for those activities to recover any costs the agencies incur in administering such activities. Those agencies are authorized to spend the collections without further appropriation. CBO expects that, under the bill, certain film crews would pay less than the amounts required under current law and others would pay more. However, because the affected agencies would have the authority to spend any proceeds from fees established under the bill, we estimate that enacting title XIII would have a negligible effect on net direct spending.

Spending subject to appropriation

Title X would amend and reauthorize the African Elephant Conservation Act. The bill would authorize the appropriation of \$5 million a year over the 2016–2020 period for the Fish and Wildlife Service to enforce laws aimed at preventing the illegal trading of ivory. The bill would authorize the Secretary of the Interior to station law enforcement officers in African countries with elephant populations and to identify countries where illegal ivory trade is occurring. Assuming appropriation of the authorized amounts, CBO estimates that implementing title X would cost \$24 million over the 2016–2020 period and \$1 million after 2020.

H.R. 2406 also contains provisions that would affect the possession, transport, and use of certain hunting and fishing equipment on federal lands, impose certain reporting requirements, and allow for the importation of certain polar bear remains. Based on information provided by the affected agencies, CBO expects that many of those provisions would have little or no effect on the agencies' activities relative to current law. Thus, we estimate that implementing those provisions would have an insignificant effect on the federal budget.

Pay-As-You-Go considerations: The Statutory Pay-As-You-Go Act of 2010 establishes budget-reporting and enforcement procedures for legislation affecting direct spending or revenues. The net changes in outlays that are subject to those pay-as-you-go procedures are shown in the following table.

	By fiscal year, in millions of dollars—											
	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2016–2020	2016–2025
	NET INCREASE OR DECREASE (1) IN THE DEFICIT											
Statutory Pay-As-You-Go	0	0	0	0	0	0	–1	0	0	0	0	0

Increase in long term direct spending and deficits: CBO estimates that enacting the legislation would not increase net direct spending or on-budget deficits in any of the four consecutive 10-year periods beginning in 2026.

Estimated impact on state, local, and tribal governments: H.R. 2406 contains no intergovernmental mandates as defined in UMRA and would benefit state agencies by lowering the matching requirement for federal grants that support public shooting ranges. Any costs incurred by those entities would be incurred voluntarily.

Estimated impact on the private sector: The bill would impose a private-sector mandate as defined in UMRA by eliminating an individual's existing right to seek compensation from the federal government for damages occurring at a public target range supported by federal funds. The cost of the mandate would be the forgone value of awards and settlements in such claims. Information from the Department of the Interior indicates that few, if any, of those types of lawsuits are brought against the U.S. government. Because such claims would probably continue to be uncommon, CBO estimates that the cost of the mandate would be small and fall well below the annual threshold established in UMRA for private-sector mandates (\$154 million in 2015, adjusted annually for inflation).

Estimate prepared by: Federal costs: Jeff LaFave; Impact on state, local, and tribal governments: Jon Sperl; Impact on the private sector: Amy Petz.

Estimate approved by: H. Samuel Papenfuss, Deputy Assistant Director for Budget Analysis.

2. Section 308(a) of Congressional Budget Act. As required by clause 3(c)(2) of rule XIII of the rules of the House of Representatives and section 308(a) of the Congressional Budget Act of 1974, this bill does not contain any new credit authority, or an increase or decrease in revenues or tax expenditures. According to the Congressional Budget Office, CBO implementation of this bill would cost \$2 million over the 2016–2010 time period, subject to appro-

priation, while increasing net offsetting receipts by \$5 million over the 2018–2025 time period.

3. General Performance Goals and Objectives. As required by clause 3(c)(4) of rule XIII, the general performance goal or objective of this bill is to protect and enhance opportunities for recreational hunting, fishing and shooting.

EARMARK STATEMENT

This bill does not contain any Congressional earmarks, limited tax benefits, or limited tariff benefits as defined under clause 9(e), 9(f), and 9(g) of rule XXI of the Rules of the House of Representatives.

COMPLIANCE WITH PUBLIC LAW 104–4

This bill contains no unfunded mandates.

COMPLIANCE WITH H. RES. 5

Directed Rule Making. The Chairman does not believe that this bill directs any executive branch official to conduct any specific rule-making proceedings.

Duplication of Existing Programs. This bill does not establish or reauthorize a program of the federal government known to be duplicative of another program. Such program was not included in any report from the Government Accountability Office to Congress pursuant to section 21 of Public Law 111–139 or identified in the most recent Catalog of Federal Domestic Assistance published pursuant to the Federal Program Information Act (Public Law 95–220, as amended by Public Law 98–169) as relating to other programs.

SEC. 3. (a)(1) An amount equal to all revenues accruing each fiscal year (beginning with the fiscal year 1975) from any tax imposed on specified articles by sections 4161(b) and 4181 of the Internal Revenue Code of 1986 (26 U.S.C. 4161(b), 4181) shall, subject to the exemptions in section 4182 of such Code, be covered into the Federal aid to wildlife restoration fund in the Treasury (hereinafter referred to as the “fund”) and is authorized to be appropriated and made available until expended to carry out the purposes of this Act. So much of such appropriation apportioned to any State for any fiscal year as remains unexpended at the close thereof is authorized to be made available for expenditure in that State until the close of the succeeding fiscal year. Any amount apportioned to any State under the provisions of this Act which is unexpended or unobligated at the end of the period during which it is available for expenditure on any project is authorized to be made available for expenditure by the Secretary of Agriculture in carrying out the provisions of the Migratory Bird Conservation Act.

(2) There is established in the Federal aid to wildlife restoration fund a subaccount to be known as the “Wildlife Conservation and Restoration Account”. There are authorized to be appropriated for the purposes of the Wildlife Conservation and Restoration Account \$50,000,000 in fiscal year 2001 for apportionment in accordance with this Act to carry out State wildlife conservation and restoration programs. Further, interest on amounts transferred shall be treated in a manner consistent with 16 U.S.C. 669(b)(1)).

(b)(1) The Secretary of the Treasury shall invest in interest-bearing obligations of the United States such portion of the fund as is not, in his judgment, required for meeting a current year’s withdrawals. For purposes of such investment, the Secretary of the Treasury may—

(B) sell obligations held in the fund at the market price.

(2) The interest on obligations held in the fund—

(A) shall be credited to the fund;

Notwithstanding any other provisions of this Act, funds apportioned to a State under this Act may be expended by the State for management (exclusive of law enforcement and public relations) of wildlife areas and resources. Funds from the Wildlife Conservation and Restoration Account may be used for a wildlife conservation education program, except that no such funds may be used for education efforts, projects, or programs that promote or encourage opposition to the regulated taking of wildlife.

【(b) Each State】 (b) EXPENDITURES FOR MANAGEMENT OF WILDLIFE AREAS AND RESOURCES.—

(1) IN GENERAL.—*Except as provided in paragraph (2), each State may use the funds apportioned to it under section 4(c) to pay up to 75 per centum of the costs of a hunter safety program and the **【construction, operation,】 operation** and maintenance of public target ranges, as a part of such program. **【The non-Federal share】***

(2) *EXCEPTION.*—*Notwithstanding the limitation described in paragraph (1), a State may pay up to 90 percent of the cost of acquiring land for, expanding, or constructing a public target range.*

(3) *NON-FEDERAL SHARE.*—*The non-Federal share of such costs may be derived from license fees paid by hunters, but not from other Federal grant programs. [The Secretary]*

(4) *REGULATIONS.*—*The Secretary shall issue not later than the 120th day after the effective date of this subsection such regulations as he deems advisable relative to the criteria for the establishment of hunter safety programs and public target ranges under this subsection.*

* * * * *

(A) in the case of a State that has not used all of the funds apportioned to the State under section 4(c) for the fiscal year in the manner described in section 8(b)—

(i) the enhancement of hunter education programs, hunter and sporting firearm safety programs, and hunter development programs;

(ii) the enhancement of interstate coordination and development of hunter education and shooting range programs;

[(b) COST SHARING.—The Federal share of the cost of any activity carried out with a grant under this section shall not exceed 75 percent of the total cost of the activity.]

(b) COST SHARING.—

(1) IN GENERAL.—*Except as provided in paragraph (2), the Federal share of the cost of any activity carried out using a grant under this section shall not exceed 75 percent of the total cost of the activity.*

(2) PUBLIC TARGET RANGE CONSTRUCTION OR EXPANSION.—*The Federal share of the cost of acquiring land for, expanding, or constructing a public target range in a State on Federal or non-Federal land pursuant to this section or section 8(b) shall not exceed 90 percent of the cost of the activity.*

(c) PERIOD OF AVAILABILITY; REAPPORTIONMENT.—

(1) PERIOD OF AVAILABILITY.—[Amounts made]

(A) IN GENERAL.—*Except as provided in subparagraph (B), amounts made available and apportioned for grants under this section shall remain available only for the fiscal year for which the amounts are apportioned.*

MARINE MAMMAL PROTECTION ACT OF 1972

* * * * *

TITLE I—CONSERVATION AND PROTECTION OF MARINE MAMMALS

* * * * *

PERMITS

SEC. 104. (a) The Secretary may issue permits which authorize the taking or importation of any marine mammal. Permits for the incidental taking of marine mammals in the course of commercial fishing operations may only be issued as specifically provided for in sections 101(a)(5) or 306, or subsection (h) of this section.

(b) Any permit issued under this section shall—

(1) be consistent with any applicable regulation established by the Secretary under section 103 of this title, and

(2) specify

(A) the number and kind of animals which are authorized to be taken or imported,

(B) the location and manner (which manner must be determined by the Secretary to be humane) in which they may be taken, or from which they may be imported,

(C) the period during which the permit is valid, and

(D) any other terms or conditions which the Secretary deems appropriate.

In any case in which an application for a permit cites as a reason for the proposed taking the overpopulation of a particular species or population stock, the Secretary shall first consider whether or not it would be more desirable to transplant a number of animals (but not to exceed the number requested for taking in the application) of that species or stock to a location not then inhabited by such species or stock but previously inhabited by such species or stock.

(c)(1) Any permit issued by the Secretary which authorizes the taking or importation of a marine mammal for purposes of scientific research, public display, or enhancing the survival or recovery of a species or stock shall specify, in addition to the conditions required by subsection (b) of this section, the methods of capture, supervision, care, and transportation which must be observed pursuant to such taking or importation. Any person authorized to take or import a marine mammal for purposes of scientific research, public display, or enhancing the survival or recovery of a species or stock shall furnish to the Secretary a report on all activities carried out by him pursuant to that authority.

(2)(A) A permit may be issued to take or import a marine mammal for the purpose of public display only to a person which the Secretary determines—

(i) offers a program for education or conservation purposes that is based on professionally recognized standards of the public display community;

(ii) is registered or holds a license issued under 7 U.S.C. 2131 et seq.; and

(iii) maintains facilities for the public display of marine mammals that are open to the public on a regularly scheduled basis and that access to such facilities is not limited or restricted other than by charging of an admission fee.

(B) A permit under this paragraph shall grant to the person to which it is issued the right, without obtaining any additional permit or authorization under this Act, to—

(i) take, import, purchase, offer to purchase, possess, or transport the marine mammal that is the subject of the permit; and

(ii) sell, export, or otherwise transfer possession of the marine mammal, or offer to sell, export, or otherwise transfer possession of the marine mammal—

(I) for the purpose of public display, to a person that meets the requirements of clauses (i), (ii), and (iii) of subparagraph (A);

(II) for the purpose of scientific research, to a person that meets the requirements of paragraph (3); or

(III) for the purpose of enhancing the survival or recovery of a species or stock, to a person that meets the requirements of paragraph (4).

(C) A person to which a marine mammal is sold or exported or to which possession of a marine mammal is otherwise transferred under the authority of subparagraph (B) shall have the rights and responsibilities described in subparagraph (B) with respect to the marine mammal without obtaining any additional permit or authorization under this Act. Such responsibilities shall be limited to—

(i) for the purpose of public display, the responsibility to meet the requirements of clauses (i), (ii), and (iii) of subparagraph (A),

(ii) for the purpose of scientific research, the responsibility to meet the requirements of paragraph (3), and

(iii) for the purpose of enhancing the survival or recovery of a species or stock, the responsibility to meet the requirements of paragraph (4).

(D) If the Secretary—

(i) finds in concurrence with the Secretary of Agriculture, that a person that holds a permit under this paragraph for a marine mammal, or a person exercising rights under subparagraph (C), no longer meets the requirements of subparagraph (A)(ii) and is not reasonably likely to meet those requirements in the near future, or

(ii) finds that a person that holds a permit under this paragraph for a marine mammal, or a person exercising rights under subparagraph (C), no longer meets the requirements of subparagraph (A) (i) or (iii) and is not reasonably likely to meet those requirements in the near future,

the Secretary may revoke the permit in accordance with section 104(e), seize the marine mammal, or cooperate with other persons authorized to hold marine mammals under this Act for disposition of the marine mammal. The Secretary may recover from the person expenses incurred by the Secretary for that seizure.

(E) No marine mammal held pursuant to a permit issued under subparagraph (A), or by a person exercising rights under subparagraph (C), may be sold, purchased, exported, or transported unless the Secretary is notified of such action no later than 15 days before such action, and such action is for purposes of public display, scientific research, or enhancing the survival or recovery of a species or stock. The Secretary may only require the notification to include the information required for the inventory established under paragraph (10).

(3)(A) The Secretary may issue a permit under this paragraph for scientific research purposes to an applicant which submits with its permit application information indicating that the taking is required to further a bona fide scientific purpose. The Secretary may issue a permit under this paragraph before the end of the public review and comment period required under subsection (d)(2) if delaying issuance of the permit could result in injury to a species, stock, or individual, or in loss of unique research opportunities.

(B) No permit issued for purposes of scientific research shall authorize the lethal taking of a marine mammal unless the applicant demonstrates that a nonlethal method of conducting

the research is not feasible. The Secretary shall not issue a permit for research which involves the lethal taking of a marine mammal from a species or stock that is depleted, unless the Secretary determines that the results of such research will directly benefit that species or stock, or that such research fulfills a critically important research need.

(C) Not later than 120 days after the date of enactment of the Marine Mammal Protection Act Amendments of 1994, the Secretary shall issue a general authorization and implementing regulations allowing bona fide scientific research that may result only in taking by Level B harassment of a marine mammal. Such authorization shall apply to persons which submit, by 60 days before commencement of such research, a letter of intent via certified mail to the Secretary containing the following:

- (i) The species or stocks of marine mammals which may be harassed.
- (ii) The geographic location of the research.
- (iii) The period of time over which the research will be conducted.
- (iv) The purpose of the research, including a description of how the definition of bona fide research as established under this Act would apply.
- (v) Methods to be used to conduct the research.

Not later than 30 days after receipt of a letter of intent to conduct scientific research under the general authorization, the Secretary shall issue a letter to the applicant confirming that the general authorization applies, or, if the proposed research is likely to result in the taking (including Level A harassment) of a marine mammal, shall notify the applicant that subparagraph (A) applies.

(4)(A) A permit may be issued for enhancing the survival or recovery of a species or stock only with respect to a species or stock for which the Secretary, after consultation with the Marine Mammal Commission and after notice and opportunity for public comment, has first determined that—

- (i) taking or importation is likely to contribute significantly to maintaining or increasing distribution or numbers necessary to ensure the survival or recovery of the species or stock; and
- (ii) taking or importation is consistent (I) with any conservation plan adopted by the Secretary under section 115(b) of this title or any recovery plan developed under section 4(f) of the Endangered Species Act of 1973 for the species or stock, or (II) if there is no conservation or recovery plan in place, with the Secretary's evaluation of actions required to enhance the survival or recovery of the species or stock in light to the factors that would be addressed in a conservation plan or a recovery plan.

(B) A permit issued in accordance with this paragraph may allow the captive maintenance of a marine mammal from a depleted species or stock only if the Secretary—

- (i) determines that captive maintenance is likely to contribute to the survival or recovery of the species or stock by maintaining a viable gene pool, increasing productivity, providing biological information, or establishing animal reserves;

(ii) determines that the expected benefit to the affected species or stock outweighs the expected benefit of alternatives which do not require removal of animals from the wild; and

(iii) requires that the marine mammal or its progeny be returned to the natural habitat of the species or stock as soon as feasible, consistent with the objectives of any applicable conservation plan or recovery plan, or of any evaluation by the Secretary under subparagraph (A).

The Secretary may allow the public display of such a marine mammal only if the Secretary determines that such display is incidental to the authorized maintenance and will not interfere with the attainment of the survival or recovery objectives.

(5)(A) The Secretary may issue a permit for the importation of polar bear parts (other than internal organs) taken in sport hunts in Canada to an applicant which submits with its permit application proof that the polar bear was legally harvested in Canada by the applicant. Such a permit shall be issued if the Secretary, in consultation with the Marine Mammal Commission and after notice and opportunity for public comment, finds that—

(i) Canada has a monitored and enforced sport hunting program consistent with the purposes of the Agreement on the Conservation of Polar Bears;

(ii) Canada has a sport hunting program based on scientifically sound quotas ensuring the maintenance of the affected population stock at a sustainable level;

(iii) the export and subsequent import are consistent with the provisions of the Convention on International Trade in Endangered Species of Wild Fauna and Flora and other international agreements and conventions; and

(iv) the export and subsequent import are not likely to contribute to illegal trade in bear parts.

(B) The Secretary shall establish and charge a reasonable fee for permits issued under this paragraph. All fees collected under this paragraph shall be available to the Secretary until expended for use in developing and implementing cooperative research and management programs for the conservation of polar bears in Alaska and Russia pursuant to section 113(d).

(C)(i) The Secretary shall undertake a scientific review of the impact of permits issued under this paragraph on the polar bear population stocks in Canada within 2 years after the date of enactment of this paragraph. The Secretary shall provide an opportunity for public comment during the course of such review, and shall include a response to such public comment in the final report on such review.

(ii) The Secretary shall not issue permits under this paragraph after September 30, 1996, if the Secretary determines, based on the scientific review, that the issuance of permits under this paragraph is having a significant adverse impact on the polar bear population stocks in Canada. The Secretary may review such determination annually thereafter, in light of the best scientific information available, and shall complete the review not later than January 31 in any year a review is undertaken. The Secretary may issue permits under this paragraph whenever the Secretary determines, on the basis of such an-

nual review, that the issuance of permits under this paragraph is not having a significant adverse impact on the polar bear population stocks in Canada.

[(D) The Secretary of the Interior shall, expeditiously after the expiration of the applicable 30 day period under subsection (d)(2), issue a permit for the importation of polar bear parts (other than internal organs) from polar bears taken in sport hunts in Canada before the date of enactment of the Marine Mammal Protection Act Amendments of 1994, to each applicant who submits, with the permit application, proof that the polar bear was legally harvested in Canada by the applicant. The Secretary shall issue such permits without regard to the provisions of subparagraphs (A) and (C)(ii) of this paragraph, subsection (d)(3) of this section, and sections 101 and 102. This subparagraph shall not apply to polar bear parts that were imported before the effective date of this subparagraph.】

(D)(i) The Secretary of the Interior shall, expeditiously after the expiration of the applicable 30-day period under subsection (d)(2), issue a permit for the importation of any polar bear part (other than an internal organ) from a polar bear taken in a sport hunt in Canada to any person—

(I) who submits, with the permit application, proof that the polar bear was legally harvested by the person before February 18, 1997; or

(II) who has submitted, in support of a permit application submitted before May 15, 2008, proof that the polar bear was legally harvested by the person before May 15, 2008, from a polar bear population from which a sport-hunted trophy could be imported before that date in accordance with section 18.30(i) of title 50, Code of Federal Regulations.

(ii) The Secretary shall issue permits under clause (i)(I) without regard to subparagraphs (A) and (C)(ii) of this paragraph, subsection (d)(3), and sections 101 and 102. Sections 101(a)(3)(B) and 102(b)(3) shall not apply to the importation of any polar bear part authorized by a permit issued under clause (i)(I). This clause shall not apply to polar bear parts that were imported before June 12, 1997.

(iii) The Secretary shall issue permits under clause (i)(II) without regard to subparagraph (C)(ii) of this paragraph or subsection (d)(3). Sections 101(a)(3)(B) and 102(b)(3) shall not apply to the importation of any polar bear part authorized by a permit issued under clause (i)(II). This clause shall not apply to polar bear parts that were imported before the date of enactment of the Polar Bear Conservation and Fairness Act of 2015.

(6) A permit may be issued for photography for educational or commercial purposes involving marine mammals in the wild only to an applicant which submits with its permit application information indicating that the taking will be limited to Level B harassment, and the manner in which the products of such activities will be made available to the public.

(7) Upon request by a person for a permit under paragraph (2), (3), or (4) for a marine mammal which is in the possession of any person authorized to possess it under this Act and which is determined under guidance under section 402(a) not

to be releasable to the wild, the Secretary shall issue the permit to the person requesting the permit if that person—

(A) meets the requirements of clauses (i), (ii), and (iii) of paragraph (2)(A), in the case of a request for a permit under paragraph (2);

(B) meets the requirements of paragraph (3), in the case of a request for a permit under that paragraph; or

(C) meets the requirements of paragraph (4), in the case of a request for a permit under that paragraph.

(8)(A) No additional permit or authorization shall be required to possess, sell, purchase, transport, export, or offer to sell or purchase the progeny of marine mammals taken or imported under this subsection, if such possession, sale, purchase, transport, export, or offer to sell or purchase is—

(i) for the purpose of public display, and by or to, respectively, a person which meets the requirements of clauses (i), (ii), and (iii) of paragraph (2)(A);

(ii) for the purpose of scientific research, and by or to, respectively, a person which meets the requirements of paragraph (3); or

(iii) for the purpose of enhancing the survival or recovery of a species or stock, and by or to, respectively, a person which meets the requirements of paragraph (4).

(B)(i) A person which has a permit under paragraph (2), or a person exercising rights under paragraph (2)(C), which has possession of a marine mammal that gives birth to progeny shall—

(I) notify the Secretary of the birth of such progeny within 30 days after the date of birth; and

(II) notify the Secretary of the sale, purchase, or transport of such progeny no later than 15 days before such action.

(ii) The Secretary may only require notification under clause (i) to include the information required for the inventory established under paragraph (10).

(C) Any progeny of a marine mammal born in captivity before the date of the enactment of the Marine Mammal Protection Act Amendments of 1994 and held in captivity for the purpose of public display shall be treated as though born after that date of enactment.

(9) No marine mammal may be exported for the purpose of public display, scientific research, or enhancing the survival or recovery of a species or stock unless the receiving facility meets standards that are comparable to the requirements that a person must meet to receive a permit under this subsection for that purpose.

(10) The Secretary shall establish and maintain an inventory of all marine mammals possessed pursuant to permits issued under paragraph (2)(A), by persons exercising rights under paragraph (2)(C), and all progeny of such marine mammals. The inventory shall contain, for each marine mammal, only the following information which shall be provided by a person holding a marine mammal under this Act:

(A) The name of the marine mammal or other identification.

(B) The sex of the marine mammal.

(C) The estimated or actual birth date of the marine mammal.

(D) The date of acquisition or disposition of the marine mammal by the permit holder.

(E) The source from whom the marine mammal was acquired including the location of the take from the wild, if applicable.

(F) If the marine mammal is transferred, the name of the recipient.

(G) A notation if the animal was acquired as the result of a stranding.

(H) The date of death of the marine mammal and the cause of death when determined.

(d)(1) The Secretary shall prescribe such procedures as are necessary to carry out this section, including the form and manner in which application for permits may be made.

(2) The Secretary shall publish notice in the Federal Register of each application made for a permit under this section. Such notice shall invite the submission from interested parties, within thirty days after the date of the notice, of written data or views, with respect to the taking or importation proposed in such application.

(3) The applicant for any permit under this section must demonstrate to the Secretary that the taking or importation of any marine mammal under such permit will be consistent with the purposes of this Act and the applicable regulations established under section 103 of this title.

(4) If within thirty days after the date of publication of notice pursuant to paragraph (2) of this subsection with respect to any application for a permit any interested party or parties request a hearing in connection therewith, the Secretary may, within sixty days following such date of publication, afford to such party or parties an opportunity for such a hearing.

(5) As soon as practicable (but not later than thirty days) after the close of the hearing or, if no hearing is held, after the last day on which data, or views, may be submitted pursuant to paragraph (2) of this subsection, the Secretary shall (A) issue a permit containing such terms and conditions as he deems appropriate, or (B) shall deny issuance of a permit. Notice of the decision of the Secretary to issue or to deny any permit under this paragraph must be published in the Federal Register within ten days after the date of issuance or denial.

(6) Any applicant for a permit, or any party opposed to such permit, may obtain judicial review of the terms and conditions of any permit issued by the Secretary under this section or of his refusal to issue such a permit. Such review, which shall be pursuant to chapter 7 of Title 5, United States Code, may be initiated by filing a petition for review in the United States district court for the district wherein the applicant for a permit resides, or has his principal place of business, or in the United States District Court for the District of Columbia, within sixty days after the date on which such permit is issued or denied.

(e)(1) The Secretary may modify, suspend, or revoke in whole or part any permit issued by him under this section—

(A) in order to make any such permit consistent with any change made after the date of issuance of such permit with respect to any applicable regulation prescribed under section 103 of this title,

(B) in any case in which a violation of the terms and conditions of the permit is found, or

(C) if, in the case of a permit under subsection (c)(5) authorizing importation of polar bear parts, the Secretary, in consultation with the appropriate authority in Canada, determines that the sustainability of Canada's polar bear population stocks are being adversely affected or that sport hunting may be having a detrimental effect on maintaining polar bear population stocks throughout their range.

(2) Whenever the Secretary shall propose any modification, suspension, or revocation of a permit under this subsection, the permittee shall be afforded opportunity, after due notice, for a hearing by the Secretary with respect to such proposed modification, suspension, or revocation. Such proposed action by the Secretary shall not take effect until a decision is issued by him after such hearing. Any action taken by the Secretary after such a hearing is subject to judicial review on the same basis as is any action taken by him with respect to a permit application under paragraph (5) of subsection (d) of this section.

(3) Notice of the modification, suspension, or revocation of any permit by the Secretary shall be published in the Federal Register within ten days from the date of the Secretary's decision.

(f) Any permit issued under this section must be in the possession of the person to whom it is issued (or an agent of such person) during—

(1) the time of the authorized or taking importation;

(2) the period of any transit of such person or agent which is incident to such taking or importation; and

(3) any other time while any marine mammal taken or imported under such permit is in the possession of such person or agent.

A duplicate copy of the issued permit must be physically attached to the container, package, enclosure, or other means of containment, in which the marine mammal is placed for purposes of storage, transit, supervision, or care.

(g) The Secretary shall establish and charge a reasonable fee for permits issued under this section.

(h) GENERAL PERMITS.—

(1) Consistent with the regulations prescribed pursuant to section 103 of this title and to the requirements of section 101 of this title, the Secretary may issue an annual permit to a United States purse seine fishing vessel for the taking of such marine mammals, and shall issue regulations to cover the use of any such annual permits.

(2) Such annual permits for the incidental taking of marine mammals in the course of commercial purse seine fishing for yellowfin tuna in the eastern tropical Pacific Ocean shall be governed by section 306 of this Act, subject to the regulations issued pursuant to section 303 of this Act.

**NATIONAL WILDLIFE REFUGE SYSTEM
ADMINISTRATION ACT OF 1966**

* * * * *

SEC. 4. (a)(1) For the purpose of consolidating the authorities relating to the various categories of areas that are administered by the Secretary for the conservation of fish and wildlife, including species that are threatened with extinction, all lands, waters, and interests therein administered by the Secretary as wildlife refuges, areas for the protection and conservation of fish and wildlife that are threatened with extinction, wildlife ranges, game ranges, wildlife management areas, or waterfowl production areas are hereby designated as the "National Wildlife Refuge System" (referred to herein as the "System"), which shall be subject to the provisions of this section, and shall be administered by the Secretary through the United States Fish and Wildlife Service. With respect to refuge lands in the State of Alaska, those programs relating to the management of resources for which any other agency of the Federal Government exercises administrative responsibility through cooperative agreement shall remain in effect, subject to the direct supervision of the United States Fish and Wildlife Service, as long as such agency agrees to exercise such responsibility.

(2) The mission of the System is to administer a national network of lands and waters for the conservation, management, and where appropriate, restoration of the fish, wildlife, and plant resources and their habitats within the United States for the benefit of present and future generations of Americans.

(3) With respect to the System, it is the policy of the United States that—

(A) each refuge shall be managed to fulfill the mission of the System, as well as the specific purposes for which that refuge was established;

(B) compatible wildlife-dependent recreation is a legitimate and appropriate general public use of the System, directly related to the mission of the System and the purposes of many refuges, and which generally fosters refuge management and through which the American public can develop an appreciation for fish and wildlife;

(C) *the Secretary shall integrate wildlife-dependent recreational uses in accordance with their status as priority gen-*

eral public uses into proposed or existing regulations, policies, criteria, plans, or other activities to alter or amend the manner in which individual refuges or the National Wildlife Refuge System (System) are managed, including, but not limited to, any activities which target or prioritize criteria for long and short term System acquisitions;

[(C)] *(D)* compatible wildlife-dependent recreational uses are the priority general public uses of the System and shall receive priority consideration in refuge planning and management; and

[(D)] *(E)* when the Secretary determines that a proposed wildlife-dependent recreational use is a compatible use within a refuge, that activity should be facilitated, subject to such restrictions or regulations as may be necessary, reasonable, and appropriate.

(4) In administering the System, the Secretary shall—

(A) provide for the conservation of fish, wildlife, and plants, and their habitats within the System;

(B) ensure that the biological integrity, diversity, and environmental health of the System are maintained for the benefit of present and future generations of Americans;

(C) plan and direct the continued growth of the System in a manner that is best designed to accomplish the mission of the System, to contribute to the conservation of the ecosystems of the United States, to complement efforts of States and other Federal agencies to conserve fish and wildlife and their habitats, and to increase support for the System and participation from conservation partners and the public;

(D) ensure that the mission of the System described in paragraph (2) and the purposes of each refuge are carried out, except that if a conflict exists between the purposes of a refuge and the mission of the System, the conflict shall be resolved in a manner that first protects the purposes of the refuge, and, to the extent practicable, that also achieves the mission of the System;

(E) ensure effective coordination, interaction, and cooperation with owners of land adjoining refuges and the fish and wildlife agency of the States in which the units of the System are located;

(F) assist in the maintenance of adequate water quantity and water quality to fulfill the mission of the System and the purposes of each refuge;

(G) acquire, under State law, water rights that are needed for refuge purposes;

(H) recognize compatible wildlife-dependent recreational uses as the priority general public uses of the System through which the American public can develop an appreciation for fish and wildlife;

(I) ensure that opportunities are provided within the System for compatible wildlife-dependent recreational uses;

(J) ensure that priority general public uses of the System receive enhanced consideration over other general public uses in planning and management within the System;

(K) provide increased opportunities for families to experience compatible wildlife-dependent recreation, particularly opportu-

nities for parents and their children to safely engage in traditional outdoor activities, such as fishing and hunting;

(L) continue, consistent with existing laws and interagency agreements, authorized or permitted uses of units of the System by other Federal agencies, including those necessary to facilitate military preparedness;

(M) ensure timely and effective cooperation and collaboration with Federal agencies and State fish and wildlife agencies during the course of acquiring and managing refuges; and

(N) monitor the status and trends of fish, wildlife, and plants in each refuge.

(5) No acquired lands which are or become a part of the System may be transferred or otherwise disposed of under any provision of law (except by exchange pursuant to subsection (b)(3) of this section) unless—

(A) the Secretary determines with the approval of the Migratory Bird Conservation Commission that such lands are no longer needed for the purposes for which the System was established; and

(B) such lands are transferred or otherwise disposed of for an amount not less than—

(i) the acquisition costs of such lands, in the case of lands of the system which were purchased by the United States with funds from the migratory bird conservation fund, or fair market value, whichever is greater; or

(ii) the fair market value of such lands (as determined by the Secretary as of the date of the transfer or disposal), in the case of lands of the System which were donated to the System.

The Secretary shall pay into the migratory bird conservation fund the aggregate amount of the proceeds of any transfer or disposal referred to in the preceding sentence.

(6) Each area which is included within the System on January 1, 1975, or thereafter, and which was or is—

(A) designated as an area within such System by law, Executive order, or secretarial order; or

(B) so included by public land withdrawal, donation, purchase, exchange, or pursuant to a cooperative agreement with any State or local government, any Federal department or agency, or any other governmental entity,

shall continue to be a part of the System until otherwise specified by Act of Congress, except that nothing in this paragraph shall be construed as precluding—

(i) the transfer or disposal of acquired lands within any such area pursuant to paragraph (5) of this subsection;

(ii) the exchange of lands within any such area pursuant to subsection (b)(3) of this section; or

(iii) the disposal of any lands within any such area pursuant to the terms of any cooperative agreement referred to in subparagraph (B) of this paragraph.

(b) In administering the System, the Secretary is authorized to take the following actions:

(1) Enter into contracts with any person or public or private agency through negotiation for the provision of public accommodations when, and in such locations, and to the extent that

the Secretary determines will not be inconsistent with the primary purpose for which the affected area was established.

(2) Accept donations of funds and to use such funds to acquire or manage lands or interests therein.

(3) Acquire lands or interests therein by exchange (A) for acquired lands or public lands, or for interests in acquired or public lands, under his jurisdiction which he finds to be suitable for disposition, or (B) for the right to remove, in accordance with such terms and conditions as he may prescribe, products from the acquired or public lands within the System. The values of the properties so exchanged either shall be approximately equal, or if they are not approximately equal the values shall be equalized by the payment of cash to the grantor or to the Secretary as the circumstances require.

(4) Subject to standards established by and the overall management oversight of the Director, and consistent with standards established by this Act, to enter into cooperative agreements with State fish and wildlife agencies for the management of programs on a refuge.

(5) Issue regulations to carry out this Act.

(c) No person shall disturb, injure, cut, burn, remove, destroy, or possess any real or personal property of the United States, including natural growth, in any area of the System; or take or possess any fish, bird, mammal, or other wild vertebrate or invertebrate animals or part or nest or egg thereof within any such area; or enter, use, or otherwise occupy any such area for any purpose; unless such activities are performed by persons authorized to manage such area, or unless such activities are permitted either under subsection (d) of this section or by express provision of the law, proclamation, Executive order, or public land order establishing the area, or amendment thereof: *Provided*, That the United States mining and mineral leasing laws shall continue to apply to any lands within the System to the same extent they apply prior to the effective date of this Act unless subsequently withdrawn under other authority of law. With the exception of endangered species and threatened species listed by the Secretary pursuant to section 4 of the Endangered Species Act of 1973 in States wherein a cooperative agreement does not exist pursuant to section 6(c) of that Act, nothing in this Act shall be construed to authorize the Secretary to control or regulate hunting or fishing of resident fish and wildlife on lands not within the system. The regulations permitting hunting and fishing of resident fish and wildlife within the System shall be, to the extent practicable, consistent with State fish and wildlife laws and regulations.

(d)(1) The Secretary is authorized, under such regulations as he may prescribe, to—

(A) permit the use of any area within the System for any purpose, including but not limited to hunting, fishing, public recreation and accommodations, and access whenever he determines that such uses are compatible with the major purposes for which such areas were established: *Provided*, That not to exceed 40 per centum at any one time of any area that has been, or hereafter may be acquired, reserved, or set apart as an inviolate sanctuary for migratory birds, under any law, proclamation, Executive order, or public land order may be ad-

ministered by the Secretary as an area within which the taking of migratory game birds may be permitted under such regulations as he may prescribe unless the Secretary finds that the taking of any species of migratory game birds in more than 40 percent of such area would be beneficial to the species; and

(B) permit the use of, or grant easements in, over, across, upon, through, or under any areas within the System for purposes such as but not necessarily limited to, powerlines, telephone lines, canals, ditches, pipelines, and roads, including the construction, operation, and maintenance thereof, whenever he determines that such uses are compatible with the purposes for which these areas are established.

(2) Notwithstanding any other provision of law, the Secretary may not grant to any Federal, State, or local agency or to any private individual or organization any right-of-way, easement, or reservation in, over, across, through, or under any area within the system in connection with any use permitted by him under paragraph (1)(B) of this subsection unless the grantee pays to the Secretary, at the option of the Secretary, either (A) in lump sum the fair market value (determined by the Secretary as of the date of conveyance to the grantee) of the right-of-way, easement, or reservation; or (B) annually in advance the fair market rental value (determined by the Secretary) of the right-of-way, easement, or reservation. If any Federal, State, or local agency is exempted from such payment by any other provision of Federal law, such agency shall otherwise compensate the Secretary by any other means agreeable to the Secretary, including, but not limited to, making other land available or the loan of equipment or personnel; except that (A) any such compensation shall relate to, and be consistent with, the objectives of the National Wildlife Refuge System, and (B) the Secretary may waive such requirement for compensation if he finds such requirement impracticable or unnecessary. All sums received by the Secretary pursuant to this paragraph shall, after payment of any necessary expenses incurred by him in administering this paragraph, be deposited into the Migratory Bird Conservation Fund and shall be available to carry out the provisions for land acquisition of the Migratory Bird Conservation Act (16 U.S.C. 715 et seq.) and the Migratory Bird Hunting Stamp Act (16 U.S.C. 718 et seq.).

(3)(A)(i) Except as provided in clause (iv), the Secretary shall not initiate or permit a new use of a refuge or expand, renew, or extend an existing use of a refuge, unless the Secretary has determined that the use is a compatible use and that the use is not inconsistent with public safety. The Secretary may make the determinations referred to in this paragraph for a refuge concurrently with development of a conservation plan under subsection (e).

(ii) On lands added to the System after March 25, 1996, the Secretary shall identify, prior to acquisition, withdrawal, transfer, reclassification, or donation of any such lands, existing compatible wildlife-dependent recreational uses that the Secretary determines shall be permitted to continue on an interim basis pending completion of the comprehensive conservation plan for the refuge.

(iii) Wildlife-dependent recreational uses may be authorized on a refuge when they are compatible and not inconsistent with public safety. Except for consideration of consistency with State laws and

regulations as provided for in subsection (m), no other determinations or findings are required to be made by the refuge official under this Act or the Refuge Recreation Act for wildlife-dependent recreation to occur.

(iv) Compatibility determinations in existence on the date of enactment of the National Wildlife Refuge System Improvement Act of 1997 shall remain in effect until and unless modified.

(B) Not later than 24 months after the date of the enactment of the National Wildlife Refuge System Improvement Act of 1997, the Secretary shall issue final regulations establishing the process for determining under subparagraph (A) whether a use of a refuge is a compatible use. These regulations shall—

(i) designate the refuge official responsible for making initial compatibility determinations;

(ii) require an estimate of the timeframe, location, manner, and purpose of each use;

(iii) identify the effects of each use on refuge resources and purposes of each refuge;

(iv) require that compatibility determinations be made in writing;

(v) provide for the expedited consideration of uses that will likely have no detrimental effect on the fulfillment of the purposes of a refuge or the mission of the System;

(vi) provide for the elimination or modification of any use as expeditiously as practicable after a determination is made that the use is not a compatible use;

(vii) require, after an opportunity for public comment, reevaluation of each existing use, other than those uses specified in clause (viii), if conditions under which the use is permitted change significantly or if there is significant new information regarding the effects of the use, but not less frequently than once every 10 years, to ensure that the use remains a compatible use, except that, in the case of any use authorized for a period longer than 10 years (such as an electric utility right-of-way), the reevaluation required by this clause shall examine compliance with the terms and conditions of the authorization, not examine the authorization itself;

(viii) require, after an opportunity for public comment, reevaluation of each compatible wildlife-dependent recreational use when conditions under which the use is permitted change significantly or if there is significant new information regarding the effects of the use, but not less frequently than in conjunction with each preparation or revision of a conservation plan under subsection (e) or at least every 15 years, whichever is earlier; and

(ix) provide an opportunity for public review and comment on each evaluation of a use, unless an opportunity for public review and comment on the evaluation of the use has already been provided during the development or revision of a conservation plan for the refuge under subsection (e) or has otherwise been provided during routine, periodic determinations of compatibility for wildlife-dependent recreational uses.

(4) The provisions of this Act relating to determinations of the compatibility of a use shall not apply to—

(A) overflights above a refuge; and

(B) activities authorized, funded, or conducted by a Federal agency (other than the United States Fish and Wildlife Service) which has primary jurisdiction over a refuge or a portion of a refuge, if the management of those activities is in accordance with a memorandum of understanding between the Secretary or the Director and the head of the Federal agency with primary jurisdiction over the refuge governing the use of the refuge.

(e)(1)(A) Except with respect to refuge lands in Alaska (which shall be governed by the refuge planning provisions of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.)), the Secretary shall—

(i) propose a comprehensive conservation plan for each refuge or related complex of refuges (referred to in this subsection as a “planning unit”) in the System;

(ii) publish a notice of opportunity for public comment in the Federal Register on each proposed conservation plan;

(iii) issue a final conservation plan for each planning unit consistent with the provisions of this Act and, to the extent practicable, consistent with fish and wildlife conservation plans of the State in which the refuge is located; and

(iv) not less frequently than 15 years after the date of issuance of a conservation plan under clause (iii) and every 15 years thereafter, revise the conservation plan as may be necessary.

(B) The Secretary shall prepare a comprehensive conservation plan under this subsection for each refuge within 15 years after the date of enactment of the National Wildlife Refuge System Improvement Act of 1997.

(C) The Secretary shall manage each refuge or planning unit under plans in effect on the date of enactment of the National Wildlife Refuge System Improvement Act of 1997, to the extent such plans are consistent with this Act, until such plans are revised or superseded by new comprehensive conservation plans issued under this subsection.

(D) Uses or activities consistent with this Act may occur on any refuge or planning unit before existing plans are revised or new comprehensive conservation plans are issued under this subsection.

(E) Upon completion of a comprehensive conservation plan under this subsection for a refuge or planning unit, the Secretary shall manage the refuge or planning unit in a manner consistent with the plan and shall revise the plan at any time if the Secretary determines that conditions that affect the refuge or planning unit have changed significantly.

(2) In developing each comprehensive conservation plan under this subsection for a planning unit, the Secretary, acting through the Director, shall identify and describe—

(A) the purposes of each refuge comprising the planning unit;

(B) the distribution, migration patterns, and abundance of fish, wildlife, and plant populations and related habitats within the planning unit;

(C) the archaeological and cultural values of the planning unit;

(D) such areas within the planning unit that are suitable for use as administrative sites or visitor facilities;

(E) significant problems that may adversely affect the populations and habitats of fish, wildlife, and plants within the planning unit and the actions necessary to correct or mitigate such problems; and

(F) opportunities for compatible wildlife-dependent recreational uses.

(3) In preparing each comprehensive conservation plan under this subsection, and any revision to such a plan, the Secretary, acting through the Director, shall, to the maximum extent practicable and consistent with this Act—

(A) consult with adjoining Federal, State, local, and private landowners and affected State conservation agencies; and

(B) coordinate the development of the conservation plan or revision with relevant State conservation plans for fish and wildlife and their habitats.

(4)(A) In accordance with subparagraph (B), the Secretary shall develop and implement a process to ensure an opportunity for active public involvement in the preparation and revision of comprehensive conservation plans under this subsection. At a minimum, the Secretary shall require that publication of any final plan shall include a summary of the comments made by States, owners of adjacent or potentially affected land, local governments, and any other affected persons, and a statement of the disposition of concerns expressed in those comments.

(B) Prior to the adoption of each comprehensive conservation plan under this subsection, the Secretary shall issue public notice of the draft proposed plan, make copies of the plan available at the affected field and regional offices of the United States Fish and Wildlife Service, and provide opportunity for public comment.

(f) PENALTIES.—

The provisions of this section relating to recreation shall be administered in accordance with the provisions of said Act.

(j) Nothing in this Act shall constitute an express or implied claim or denial on the part of the Federal Government as to exemption from State water laws.

Not later than six months after receiving a project proposal, and subject to the availability of funds, the Secretary shall approve or disapprove the proposal and provide written notification to the person who submitted the proposal.

(d) **CRITERIA FOR APPROVAL.**—The Secretary may approve a project under this section if the project will enhance programs for African elephant research, conservation, management, or protection by—

PART II—MORATORIA AND PROHIBITED ACTS

* * * * *

SEC. 2202. MORATORIA.

(a) **IVORY PRODUCING COUNTRIES.**—

(1) **IN GENERAL.**—*The Secretary shall establish a moratorium on the importation of raw and worked ivory from an ivory producing country immediately upon making a determination that the country does not meet all the criteria set forth in section 2201(b)(1).*

(2) **LATER ESTABLISHMENT.**—*With regard to any ivory producing country for which the Secretary has insufficient information to make a determination pursuant to section 2201(b), the Secretary shall establish a moratorium on the importation of raw and worked ivory from such country not later than January 1, 1990, unless, based on new information, the Secretary concludes before that date that the country meets all of the criteria set forth in section 2201(b)(1).*

(b) **INTERMEDIARY COUNTRIES.**—*The Secretary shall establish a moratorium on the importation of raw and worked ivory from an intermediary country immediately upon making a determination that the country—*

- (1) is not a party to CITES;
- (2) does not adhere to the CITES Ivory Control System;

(4) imports raw or worked ivory from a country that is not a party to CITES;

(c) **SUSPENSION OF MORATORIUM.**—The Secretary shall suspend a moratorium established under this section if, after notice and public comment, the Secretary determines that the reasons for establishing the moratorium no longer exist.

(d) **PETITION.**—

(1) **IN GENERAL.**—Any person may at any time submit a petition in writing requesting that the Secretary establish or suspend a moratorium under this section. Such a petition shall include such substantial information as may be necessary to demonstrate the need for the action requested by the petition.

(2) **CONSIDERATION AND RULING.**—The Secretary shall publish a notice of receipt of a petition under this subsection in the Federal Register and shall provide an opportunity for the public to comment on the petition. The Secretary shall rule on such petition not later than 90 days after the close of the public comment period.

(e) **SPORT-HUNTED TROPHIES.**—Individuals may import sport-hunted elephant trophies that they have legally taken in an ivory producing country that has submitted an ivory quota. The Secretary shall not establish any moratorium under this section, pursuant to a petition or otherwise, which prohibits the importation into the United States of sport-hunted trophies from elephants that are legally taken by the importer or the importer's principal in an ivory producing country that has submitted an ivory quota.

(f) **CONFISCATED IVORY.**—Trade in raw or worked ivory that is confiscated by an ivory producing country or an intermediary country and is disposed of pursuant to the CITES Ivory Control System shall not be the sole cause for the establishment of a moratorium under this part if all proceeds from the disposal of the confiscated ivory are used solely to enhance wildlife conservation programs or conservation purposes of CITES. With respect to any country that was not a party to CITES at the time of such confiscation, this subsection shall not apply until such country develops appropriate measures to assure that persons with a history of illegal dealings in ivory shall not benefit from the disposal of confiscated ivory.

(g) **CERTIFICATION.**—*When the Secretary of the Interior finds that a country, directly or indirectly, is a significant transit or destination point for illegal ivory trade, the Secretary shall certify such fact to the President with respect to the country for the purposes of sec-*

tion 8(a) of the Fishermen's Protective Act of 1967 (22 U.S.C. 1978(a)).

SEC. 2203. PROHIBITED ACTS.

(a) *IN GENERAL.*—Except as provided in section 2202(e) and subsection (b) of this section, it is unlawful for any person—

- (1) to import raw ivory from any country other than an ivory producing country;
- (2) to export raw ivory from the United States;
- (3) to import raw or worked ivory that was exported from an ivory producing country in violation of that country's laws or of the CITES Ivory Control System;
- (4) to import worked ivory, other than personal effects, from any country unless that country has certified that such ivory was derived from legal sources; or
- (5) to import raw or worked ivory from a country for which a moratorium is in effect under section 2202.

(b) *EXEMPTION.*—Nothing in this Act or subsection (a) or (d) of section 9 of the Endangered Species Act of 1973 (16 U.S.C. 1538) shall be construed to prohibit importation or exportation, or to require permission of the Secretary for importation or exportation, of—

- (1) any raw ivory or worked ivory—
 - (A) imported solely for purposes of becoming part of a museum's permanent collection, return to a lending museum, or display in a museum; or
 - (B) exported solely for purposes of—
 - (i) display in a foreign museum; or
 - (ii) return to a foreign person who lent such ivory to a museum in the United States;
- (2) any raw ivory or worked ivory that was lawfully importable into the United States on February 24, 2014, regardless of when acquired; or
- (3) any worked ivory that was previously lawfully possessed in the United States.

(c) *TREATMENT OF ELEPHANT IVORY.*—Nothing in this Act or the Endangered Species Act of 1973 (16 U.S.C. 1538) shall be construed—

- (1) to prohibit, or to authorize prohibiting, the possession, sale, delivery, receipt, shipment, or transportation of African elephant ivory, or any product containing African elephant ivory, that has been lawfully imported or crafted in the United States; or
- (2) to authorize using any means of determining for purposes of this Act or the Endangered Species Act of 1973 whether African elephant ivory has been lawfully imported, including any presumption or burden of proof applied in such determination, other than such means used by the Secretary as of February 24, 2014.

(d) *SPORT-HUNTED ELEPHANT TROPHIES.*—Nothing in this Act or subsection (a) or (d) of section 9 of the Endangered Species Act of 1973 (16 U.S.C. 1538) shall be construed to prohibit any citizen or legal resident of the United States, or an agent of such an individual, from importing a sport-hunted African elephant trophy under section 2202(e) of this Act, if the country in which the ele-

phant was taken had an elephant population on Appendix II of CITES at the time the trophy elephant was taken.

(e) RELATIONSHIP TO THE CONVENTION.—Nothing in this section shall be construed as modifying or repealing the Secretary's duties to implement CITES and the appendices thereto, or as modifying or repealing section 8A or 9(c) of the Endangered Species Act of 1973 (16 U.S.C. 1537a and 1538(c)).

Dear Mr. Chairman:

On October 8, 2015, the Committee on Natural Resources ordered favorably reported as amended H.R. 2406, the Sportsman's Heritage and Recreational Enhancement Act of 2015. The bill was referred primarily to the Committee on Natural Resources, with an additional referral to the Committee on Agriculture, among other committees. My staff has shared a copy of the reported text with your staff.

I ask that you allow the Committee on Agriculture to be discharged from further consideration of the bill so that it may be scheduled by the Majority Leader. This discharge in no way affects your jurisdiction over the subject matter of the bill, and it will not serve as precedent for future referrals. In addition, should a conference on the bill be necessary, I would support your request to have the Committee on Agriculture represented on the conference committee. Finally, I would be pleased to include this letter and any response in the bill report filed by the Committee on Natural Resources to memorialize our understanding, as well as in the Congressional Record.

Thank you for your consideration of my request and for the extraordinary cooperation shown by you and your staff over matters of shared jurisdiction. I look forward to further opportunities to work with you this Congress.

Sincerely,

Washington, DC 20515

Dear Chairman Bishop:

I write concerning H.R. 2406, the *Sportmen's Heritage and Recreational Enhancement Act of 2015* (SHARI Act). This legislation includes matters that fall within the Rule X jurisdiction of the Committee on Transportation and Infrastructure.

In order to expedite Floor consideration of H.R. 2406, the Committee on Transportation and Infrastructure will forgo action on this bill. However, this is conditional on our mutual understanding that forgoing consideration of the bill does not prejudice the Committee with respect to the appointment of conferees or to any future jurisdictional claim over the subject matters contained in the bill or similar legislation that fall within the Committee's Rule X jurisdiction. Should a conference on the bill be necessary, I fully expect the Committee on Transportation and Infrastructure to be represented on the conference committee.

Thank you for your assistance in this matter and for agreeing to include a copy of this letter in the bill report filed by the Committee on Natural Resources, as well as in the *Congressional Record* during Floor consideration.

Sincerely,

Bill Shuster
Chairman

Dear Mr. Chairman:

On October 8, 2015, the Committee on Natural Resources ordered favorably reported as amended H.R. 2406, the Sportsman's Heritage and Recreational Enhancement Act of 2015. The bill was referred primarily to the Committee on Natural Resources, with an additional referral to the Committee on Energy and Commerce, among other committees.

I ask that you allow the Committee on Energy and Commerce to be discharged from further consideration of the bill so that it may be scheduled by the Majority Leader. This discharge in no way affects your jurisdiction over the subject matter of the bill, and it will not serve as precedent for future referrals. In addition, should a conference on the bill be necessary, I would support your request to have the Committee on Energy and Commerce represented on the conference committee. Finally, I would be pleased to include this letter and any response in the bill report filed by the Committee on Natural Resources to memorialize our understanding, as well as in the Congressional Record.

Thank you for your consideration of my request and for the extraordinary cooperation shown by you and your staff over matters of shared jurisdiction. I look forward to further opportunities to work with you this Congress.

Sincerely,

Rob Bishop

Dear Chairman Bishop,

I am writing with respect to H.R. 2406, the "Sportsmen's Heritage and Recreational Enhancement Act of 2015," which the Committee on Natural Resources recently ordered reported favorably. As a result of your having consulted with us on provisions in H.R. 2406 that fall within the Rule X jurisdiction of the Committee on the Judiciary, I agree to discharge our Committee from further consideration of this bill so that it may proceed expeditiously to the House floor for consideration.

The Judiciary Committee takes this action with our mutual understanding that by foregoing consideration of H.R. 2406 at this time, we do not waive any jurisdiction over subject matter contained in this or similar legislation, and that our Committee will be appropriately consulted and involved as the bill or similar legislation moves forward so that we may address any remaining issues in our jurisdiction. Our Committee also reserves the right to seek appointment of an appropriate number of conferees to any House-Senate conference involving this or similar legislation, and asks that you support any such request.

I would ask that a copy of our exchange of letters on this matter be included in the *Congressional Record* during Floor consideration of H.R. 2406.

Sincerely,

Bob Goodlatte
Chairman

DISSENTING VIEWS

Our nation's public lands provide opportunities for hunting, fishing, trapping, and other wildlife-dependent recreational activities which serve as economic engines for local economies. More than 75 percent of federal lands, whether managed by the Forest Service, Bureau of Land Management, National Park Service, or Fish and Wildlife Service, are open for fishing, hunting, and recreational shooting. Increasing opportunities for hunters, anglers, and other outdoor enthusiasts remains a top priority of Committee Democrats. However, this bill fails to provide those opportunities, and instead advances an anti-conservation agenda that is at odds with our principles and the tradition of bipartisan work on legislation designed to benefit American landscapes, wildlife, and the sporting community.

H.R. 2406 cobbles together seven separate legislative proposals along with six other titles, allegedly, to enhance access to federal lands for hunting, fishing and recreational shooting. While several of the proposals are non-controversial, the bill includes provisions that would undermine the Wilderness Act, the National Environmental Policy Act and other conservation laws. H.R. 2406 also continues the Republican crusade to drive the extinction of wildlife by adding language that would block the Administration's efforts under the Endangered Species Act to stop ivory trafficking and prevent the slaughter of African elephants. Finally, the bill includes several unrelated and harmful titles dealing with importation of polar bear trophies, hunting birds using bait, use of fire arms at Army Corps of Engineers facilities, and toxic substances contained in ammunition and fishing tackle.

H.R. 2406 is just as notable for the provisions it excludes. Many conservation priorities important to sportsmen are conspicuously missing from this bill, including reauthorization of the Land and Water Conservation Fund (LWCF), the North American Wetlands Conservation Act, the National Fish and Wildlife Foundation, and the Multinational Species Conservation Funds. Committee Democrats offered an amendment at markup that would have added these and other bipartisan measures to the bill, but Republicans defeated it on a party line vote. A separate Democratic amendment to permanently reauthorize LWCF a critical conservation program which expired on October 1st failed by a similar margin. Republicans' continued refusal to reauthorize LWCF means that \$2.5 million in offshore oil and gas royalty payments is being diverted away from land conservation every single day.

With their failure to include these reauthorizations and remove some of the extreme titles which undermine bedrock conservation laws, Committee Republicans have pushed through a controversial bill instead of working with Democrats to craft legislation that would benefit sportsmen and pass the House using expedited proce-

dures. In its current form, H.R. 2406 is just a giveaway to the gun lobby, not a serious sportsmen's package. We oppose H.R. 2406, and hope that Committee Republicans will reconsider their stance on several of the bill's provision and glaring omissions in advance of reporting it to the full House.
