SUPPLEMENTARY INFORMATION: CBP invites the general public and other Federal agencies to comment on the proposed and/or continuing information collections pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*). This proposed information collection was previously published in

the **Federal Register** (88 FR 13452) on March 03, 2023, allowing for a 60-day comment period. This notice allows for an additional 30 days for public comments. This process is conducted in accordance with 5 CFR 1320.8. Written comments and suggestions from the public and affected agencies should address one or more of the following four points: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) suggestions to enhance the quality, utility, and clarity of the information to be collected; and (4) suggestions to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. The comments that are submitted will be summarized and included in the request for approval. All comments will become a matter of public record.

Overview of This Information Collection

Title: U.S. Customs Declaration.

OMB Number: 1651–0009.

Form Number: 6059B.

Current Actions: CBP is submitting a revision package to terminate the APC Program, announce MPC Expansion, and add the CBP One Mobile Application to the collection.

Type of Review: Revision.

Affected Public: Individuals.

Abstract: CBP Form 6059B, Customs Declaration, is used as a standard report of the identity and residence of each person arriving in the United States. This form is also used to declare imported articles to U.S. Customs and Border Protection (CBP) in accordance with 19 CFR 122.27, 148.12, 148.13, 148.110, 148.111; 31 U.S.C. 5316 and Section 498 of the Tariff Act of 1930, as amended (19 U.S.C. 1498).

Section 148.13 of the CBP regulations prescribes the use of the CBP Form 6059B when a written declaration is required of a traveler entering the United States. Generally, written declarations are required from travelers arriving by air or sea. Section 148.12 requires verbal declarations from travelers entering the United States. Generally, verbal declarations are required from travelers arriving by land.

CBP continues to find ways to improve the entry process through the use of mobile technology to ensure it is safe and efficient. To that end, CBP has deployed a process which allows travelers to use a mobile app to submit information to CBP prior to arrival in domestic locations and prior to departure at preclearance locations. This process, called Mobile Passport Control (MPC) allows travelers to self-segment upon arrival into the United States or departing a preclearance location. The MPC process also helps determine under what circumstances CBP should require a written customs declaration (CBP Form 6059B) and when it is beneficial to admit travelers who make an oral customs declaration during the primary inspection. MPC eliminates the administrative tasks performed by the officer during a traditional inspection and in most cases will eliminate the need for respondents/travelers to fill out a paper declaration. MPC provides a more efficient and secure in person inspection between the CBP Officer and the traveler.

Another electronic process that CBP has in lieu of the paper 6059B is the Automated Passport Control (APC). This is a CBP program that facilitates the entry process for travelers by providing self-service kiosks in CBP’s Primary Inspection area that travelers can use to make their declaration.

Both APC and MPC allow an electronic method for travelers to answer the questions that appear on form 6059B without filling out a paper form. APC program will continue to collect this information until the program is terminated on September 30, 2023.

A sample of CBP Form 6059B can be found at: <https://www.cbp.gov/newsroom/publications/forms?title=6059>.

This collection is available in the following languages: English, French, Vietnamese, German, Italian, Japanese, Korean, Polish, Portuguese, Russian, Chinese, Hebrew, Spanish, Dutch, Arabic, Farsi, and Punjabi.

New Change

APC Program Termination

The Automated Passport Control (APC) program is terminated as of September 30, 2023. Termination of the APC program will allow CBP passenger processing to streamline into a single Simplified Arrival workflow without need of interacting with a kiosk. The removal of the kiosk space will also provide additional queuing space for travelers that will utilize MPC to

expedite their entry process into the United States.

MPC Expansion

Mobile Passport Control (MPC) program will expand to include U.S. Legal permanent residents (LPR) and Visa Waiver Program (VWP) country visitors arriving for their second visit to the United States. The Automated Passport Control (APC) program previously captured this population, and CBP is now expanding the MPC program to be used by these populations. U.S. LPRs are eligible for SA's photo biometric confirmation upon arrival into the United States. Other classes of admission eligible for SA's photo biometric confirmation will be considered for MPC inclusion as a future update.

CBP One™ Mobile Application

A new mobile application testing the operational effectiveness of a process which allows travelers to use a mobile application to submit information to CBP, in advance, prior to arrival. This second mobile capability is under the current CBP One™ application which is a platform application that serves as a single portal for travelers and stakeholders to virtually interact with CBP. The CBP One™ application will also allow travelers to self-segment upon arrival at land borders in the United States.

Similar to the MPC application, the CBP One™ application eliminates the administrative tasks performed by the officer during a traditional inspection and in most cases will eliminate the need for respondents/travelers to fill out a paper declaration. In addition, the CBP One™ application will also provide a more efficient and secure in person inspection between the CBP Officer and the traveler at the land border.

Unique to the CBP One™ application is that while the MPC submission is completed upon arrival, the CBP One™ application must be submitted in advance and will require the additional data elements:

1. Traveler Identify the Port of Entry (POE).
2. Time and/or date of arrival.

In addition, like the MPC application, travelers will provide their answers to CBP's questions, take a self-picture/selfie and submit the information via the CBP One™ application, after the plane lands. This will allow for advance vetting and proper resource management at the POE. This capability through the CBP One™ application is available to all travelers arriving with

authorized travel documents, including foreign nationals.
