March 7th & March 10th at 8:30 PM IST

The Mathematical Vision of Maryam Mirzakhani

A DOCUMENTARY FILM BY

GEORGE CSICSERY

Join us to relive the mathematical works of Maryam Mirzakhani, an Iranian immigrant to the United States who became a superstar in her field! In 2014, she was both the first woman and the first Iranian to be honoured by mathematics' highest prize, the Fields Medal.

What were her contributions to the field of mathematics? Learn straight from leading mathematicians and illustrations animations.

This film will be screened across all of TIFR and ends in a panel discussion on March 11th at 5:30 PM IST

Join to the panel discussion to understand the role of models, mentors and community support in fixing the leaky pipeline for women in mathematics/computational science.
