Mobile version of INIS website launched

Japanese added to the INIS Thesaurus

2015–2018

E-learning modules introduced

INIS moves towards Open Access

New powerful search engine implemented

4 million bibliographic records

The International Nuclear Information System (INIS) hosts one of the world's largest collections of published information on the peaceful uses of nuclear science and technology.

INIS is a unique and valuable information resource, offering global coverage of nuclear literature.

INIS was established in 1970 in line with the IAEA's mandate "to foster the exchange of scientific and technical information on peaceful uses of atomic energy". It is operated by the IAEA in collaboration with over 150 Member States and international organizations.
