U.S Jurisdictions
who have setup a
PRONTO@work location

The Code Council exceeds industry benchmarks on customer satisfaction, and our customers experience fewer technical issues on average.

PRONTO users say it best

“Creating a PRONTO@Work testing center in our office has been highly beneficial. The testing area is in-house and distraction free, and since it’s easily accessible, it has better enabled our staff to pursue new certifications and prioritize professional development. The setup couldn’t have been more straightforward. We strongly recommend PRONTO@Work.”

- Tana Bryant, CCEA, CCEO, Sr. Code Enforcement Officer, City of Anniston

“The Orange County Florida Division of Building Safety encourages our staff to pursue professional credentials/license to increase their skills, knowledge and to better serve our community. The PRONTO testing allows our team to test at their convenience in a more comfortable setting. The Code Council’s tests, professional test development, and testing procedures ensure the high standard of quality we have come to expect from our association.”

- Tom Allen, CBO, MCP, Building Official, Orange County Division of Building Safety
