

TECHNICAL TRAINING PROGRAM

ABOUT THE INTERNATIONAL CODE COUNCIL (ICC)

The International Code Council (ICC) is the leading global source of model codes and standards and building safety solutions that include product evaluation, accreditation, technology, training, and certification. The Code Council's codes, standards, and solutions are used to ensure safe, affordable, and sustainable communities and buildings worldwide.

ABOUT ICC'S TECHNICAL TRAINING PROGRAM (TTP)

The TTP is a flexible educational program based on ICC's *International Residential Code*® divided into five parts: building, plumbing, HVAC (mechanical), electrical and energy. This structure enables a technical school to integrate one or more parts of the program into its current construction trade curricula to better provide students with a comprehensive knowledge of construction trades. Additional benefits include:

- Students learn up-to-date code information and technical training that go hand-in-hand with practical training for the workplace
- Students are better prepared to pursue career and college opportunities
- Program includes the necessary course materials, exams and certificates to ensure easy implementation
- Students receive a nationally-recognized Certificate of Completion (COC) from ICC upon completion of any of the five (5) disciplines of the program and passing a final exam
- Students who complete all five (5) parts (i.e. earn five (5) certificates of completion) will be better prepared to sit for the ICC Residential Building Inspector Certification exam that is required in most jurisdictions to obtain a residential building inspector position
- Students receive a complimentary 3-month ICC participating membership upon completion of the program.

THE IRC ADAPTS TO ANY CURRICULUM

ANNUAL CURRICULUM TRAINING COSTS

- All participation is annual (school year).
- **Student participation** \$600 – Instructor receives access to the TTP online portal, digital access to the 2021 International Residential Code and 2021 IRC Study Companion.
- **School participation** \$50 per student – student receives digital access to the 2021 International Residential Code and the 2021 IRC Study Companion, final exam and Certificate of Completion upon passing the final exam with a score of 70% or higher.

Note: There is a \$1,000 minimum cost annually (school year).

ICC appreciates the level of expertise and dedication technical instructors demonstrate when teaching students the codes associated with their trade.
