INTERNATIONAL CODE COUNCIL®

Technical Training Program

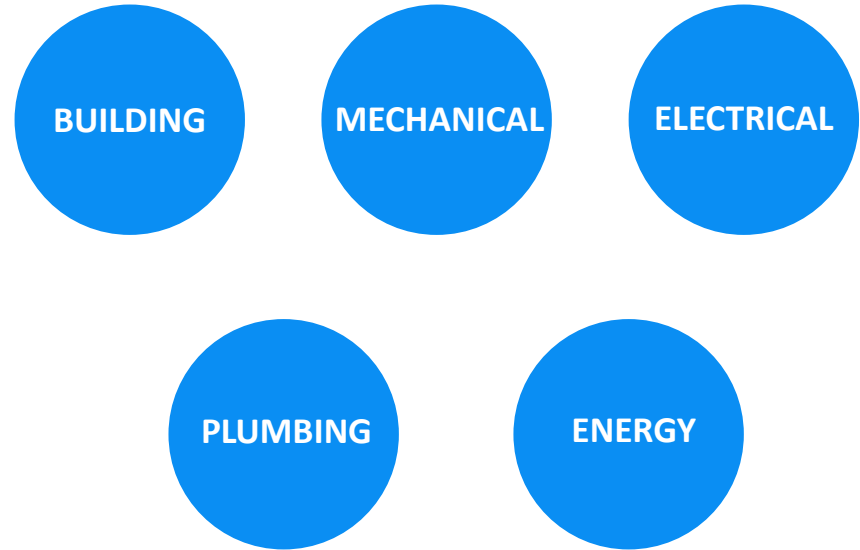

## What is the TTP?

- The program, started in 2009, formally introduces students to the codes associated with their trades.
- Students receive a nationally-recognized, stackable and transferable Certificate of Completion from ICC upon completion of any of the five disciplines and passing a final exam.

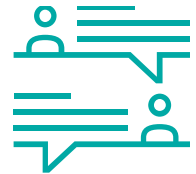

The Code Council's Technical Training Program (TTP) is a flexible educational program divided into five disciplines:

## Why the TTP?

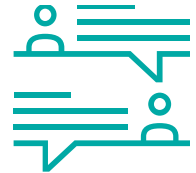

- The TTP enables a school to easily integrate one or more disciplines into current curriculum
- Students learn up-to-date code information and technical training that go hand-in-hand with practical training for the workplace
- The program includes the necessary course materials, exams and certificates to ensure easy implementation
- Students who earn a certificate of completion in all five disciplines will be better prepared for the Code Council's ICC National Residential Building Inspector Certification exam.

## How to Get Started

- Learn about the program, visit [iccsafe.org/ttp](https://iccsafe.org/ttp)
- Contact Alex Kerr, [ttp@iccsafe.org](mailto:ttp@iccsafe.org), 1-888-422-7233, ext. 4322
- Request a quote or invoice if needed

## TTP Costs

TTP Cost Overview	
Annual School ICC Membership (school year)	\$600.00 base cost
Participating Student	\$50 per student

- *There is a minimum annual cost (school year) of \$1,000*
- *New cost structure includes the cost of digital resources (2021 International Residential Code, 2021 IRC Study Companion, Basic Code Enforcement, and Inspector Skills)*

## TTP Costs

Example of Annual Cost to Operate TTP	
Annual School ICC Membership	\$600.00
25 Student Memberships @ \$50.00 each	\$1,250.00
<b>Total Cost for first year of TTP</b>	<b>\$1,850.00</b>

## TTP Instructor Resources

- TTP Syllabus/Curriculum Outline
- TTP Online Portal
- Guide on how to introduce your students to the IRC
- Digital Course Materials (IRC, IRC Study Companion, Inspector Skills, and Basic Code Enforcement)
- Exams for students upon completion of the course
- Students receive an industry recognized, digital ICC Certificate of Completion (COC) upon passing a final exam for any of the five disciplines at the end of the course.

## Student Benefits

- Access to TTP Online Portal content and digital resources
- Gain code knowledge and exposure to the International Codes
- Introduce dozens of career opportunities in the building safety realm
- Students receive an industry recognized, digital ICC Certificate of Completion (COC) upon passing a final exam for any of the five disciplines at the end of the course
- Students receive a complimentary 3-month ICC Participating Membership after program completion
