

Supporting Better Care Delivery with Faster, Lower Cost, and More Reliable Data Flow

How a Top 3 IDN went from 15 integration engines to 1

InterSystems HealthShare Health Connect is an integration engine helping a top 3 IDN better serve its mission of delivering efficient, compassionate, personalized care.

Here's how Health Connect helped one of the top 3 integrated delivery networks (IDNs) achieve smooth data migration and maximize value:

Faster

78%

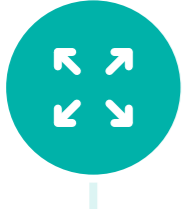

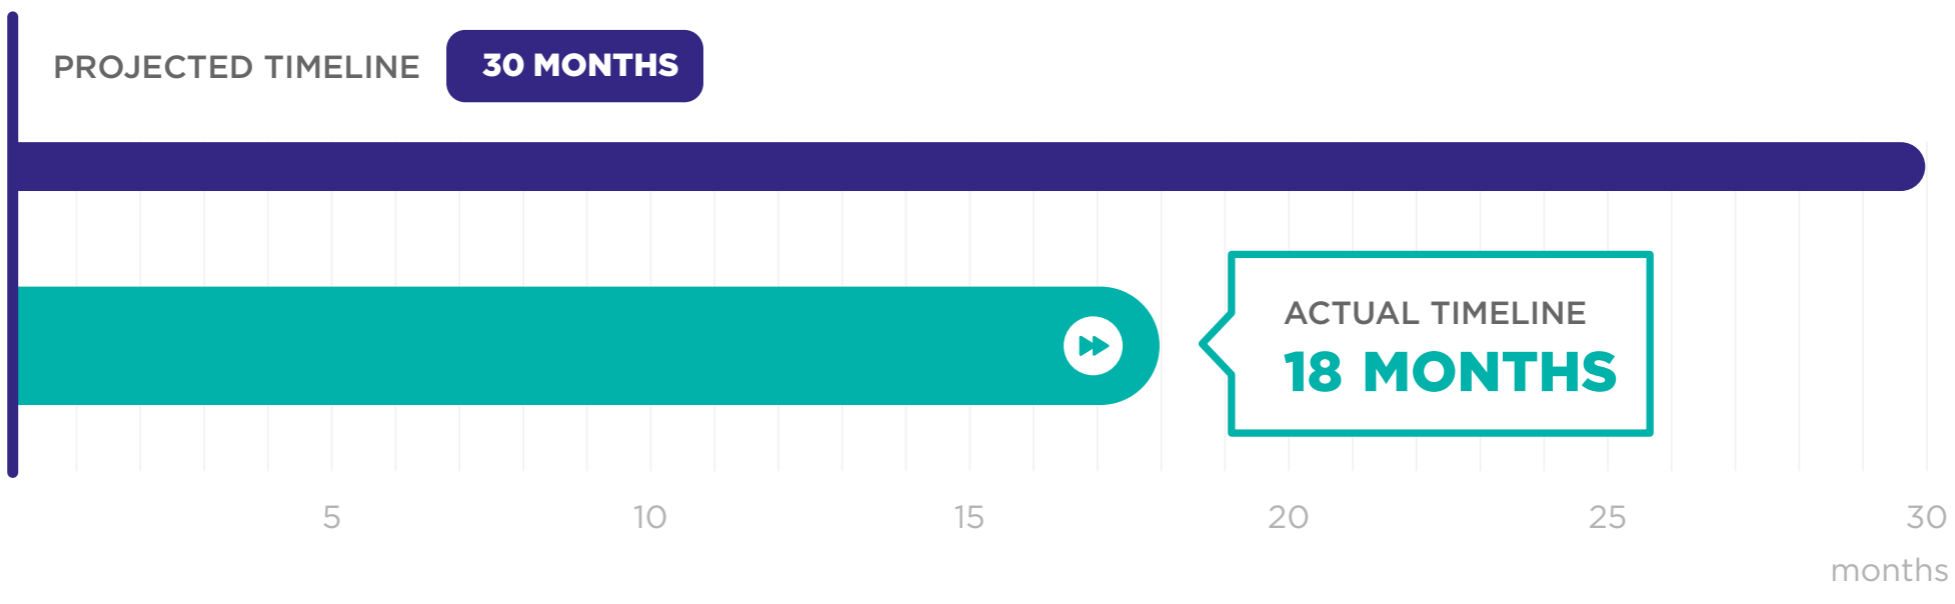

faster legacy interface conversion than competing products' benchmarks

Hours Conversion time per interface

Slashed project completion time by **40%**

More Scalable

2,000+ interfaces deployed in less than 2 years

More Reliable

0 hours of unscheduled downtime due to the software in 3.5 years

More Valuable

Saving **\$21+ million** in interface development costs alone

\$3,000 in development cost savings per interface **x** 7,000 interface conversions*

*And additional savings by terminating legacy software license
