## Introduction

This report contains complete individual income tax data for Tax Year (TY) 2019. The statistics are based on a stratified probability sample of individual income tax returns, selected before audit, which represents a population of 157.8 million U.S. Individual Income Tax Returns (Forms 1040 and 1040-SR), including electronic returns, filed for Tax Year 2019. Form 1040-SR was new for TY 2019 for seniors and could be used by taxpayers born before January 2, 1955.

Table A presents selected income and tax items for Tax Years 2015 through 2019 as they appear on the forms and provides the percentage change between 2018 and 2019 for each item. When comparing income and tax items for different years, it is important to consider any tax law changes that affect the data. The tax law changes are explained further later in this section. To assist year-to-year comparisons, Table A includes the items in both current dollars and constant 1990 dollars, as adjusted by the U.S. Department of Labor's consumer price index (CPI-U).

*Michael Parisi is responsible for the text and production of this publication. This report was prepared under the direction of Michael Strudler, Technical Project Manager, Individual and Tax-Exempt Branch, and Michael Weber, Acting Chief, Individual and Tax-Exempt Branch.*

For Tax Year 2019, the number of individual income tax returns filed grew by 4.0 million, or 2.6 percent. Adjusted gross income (AGI) rose 2.8 percent from 2018 to 2019. This increase in AGI was reflected in changes in most components of income, including increases in salaries and wages (4.6 percent), net capital gains less losses (2.2 percent), taxable Social Security income (6.8 percent), taxable interest (19.2 percent), and ordinary dividends (3.3 percent). (Qualified dividends increased 1.8 percent.) Taxable income also grew by 3.2 percent to \$9.2 trillion for 2019. Similarly, total tax liability rose by 2.5 percent to \$1.7 trillion.

This report is divided into nine sections. The remainder of this section (Section 1) explains the requirements for filing and changes in the law for 2019. Section 2 offers a brief analysis of the data; Section 3 discusses tax rates and computation of total income tax. Section 4 discusses tax shares of adjusted gross income and total income tax and is followed by tables of detailed aggregate statistics on individual tax returns (Section 5). Section 6 provides explanations of the terms used in the tables. Section 7 describes the sample of individual income tax returns upon which the statistics are based. The key individual income tax forms appear in Section 8, and the report ends with a subject index (Section 9).

**Requirements for Filing**

The filing requirements for Tax Year 2019 were based on gross income, marital status, age, and, to a lesser extent, dependency and blindness. Gross income comprised all income received in the form of money, goods, property, and services that was not expressly exempt from tax, including any income from sources outside the United States or from the sale of a taxpayer’s main home (even if the taxpayer could have excluded part or all of it). Generally, a citizen or resident of the United States was required to file a tax return if gross income for the year was at least as much as the amount shown for the appropriate filing status in Figure 1. Figure 2 shows the filing requirements for taxpayers who could be claimed as a dependent by another person (such as a parent).

In addition to the general filing requirements, an individual was obligated to file a return for Tax Year 2019 if the person met any of the following filing requirements:

1. Was liable for any of the following taxes:
  - a. Alternative minimum tax;

- b. ## Figure 2. Filing Requirements for Children and Other Dependents, Tax Year 2019

If someone (such as a parent) can claim the individual as a dependent, and any of the four conditions listed below applies, he or she must file a return.

In this chart **unearned income** includes taxable interest, ordinary dividends, and capital gain distributions. It also includes unemployment compensation, taxable social security benefits, pensions, annuities, and distributions of unearned income from a trust.

**Earned income** includes wages, tips, professional fees, and taxable scholarship and fellowship grants.

**Gross income** is the total of unearned and earned income.

### 1. Single dependents under 65 must file a return if-

- Earned income was more than \$12,200, or
- Unearned income was over \$1,100, or
- Gross income was more than the larger of (a) \$1,100 or (b) earned income (up to \$11,850) plus \$350.

### 2. Single dependents 65 or older or blind must file a return if-

- Earned income was more than \$13,850 (\$15,500 if 65 or older and blind), or
- Unearned income was more than \$2,750 (\$4,400 if 65 or older and blind), or
- Gross income was more than \$2,750 (\$4,400 if 65 or older and blind), or the total of earned income (up to \$11,850) plus \$2,000 (\$3,650 if 65 or older and blind), whichever is larger.

### 3. Married dependents under 65 must file a return if-

- Gross income was at least \$5 and spouse files a separate return and itemizes deductions.
- Earned income was more than \$12,200, or
- Unearned income was over \$1,100, or
- Gross income was more than the larger of \$1,100 or earned income (up to \$11,850) plus \$350.

### 4. Married dependents 65 or older or blind must file a return if-

- Earned income was more than \$13,500 (\$14,800 if 65 or older and blind), or

Data shown in this report include income tax returns of individuals who were not required to file but nevertheless did so for any number of possible reasons. For example, an individual might have filed a return to obtain a refund of tax withheld, or to claim the earned income credit, American opportunity credit, credit for Federal tax on fuels, or additional child tax credit.

### Changes in Law, Inflationary Adjustments, or Administrative Procedures

Major changes in effect for Tax Year 2019 that influenced the Statistics of Income data are listed below. (Section 5, Explanation of Terms, provides more detailed explanations and definitions of the terms used in this report.)

#### Alternative minimum tax (AMT)

The maximum AMT exemption amount increased from \$109,400 in 2018 to \$111,700 in 2019 for a married couple filing a joint return, from \$70,300 to \$71,700 for single filers and heads of household, and from \$54,700 to \$55,850 for a married person filing separately. In conjunction with this, the income levels at which the AMT exemption began to phase out increased from \$500,000 to \$510,300 (from \$1,000,000 to \$1,020,600 for a married couple filing a joint return or a qualifying widow(er)). Also, for 2019, the 26-percent tax rate applied to the first \$194,800 (\$97,400 if married filing separately) of AMT income. Previously it applied to the first \$191,100 (\$95,550 if married filing separately) of such income. AMTI is defined as the taxpayer's taxable income, determined after certain adjustments, and increased by the amount of the items of tax preference.

#### Earned income credit (EIC)

The maximum amount of the earned income credit was increased for inflation, as were the amounts of earned income and investment income an individual could receive and still claim the credit. The maximum credit for taxpayers with no qualifying children rose slightly, from \$519 to \$529. For these taxpayers, earned income and AGI had to be less than \$15,570 (\$21,370 if married filing jointly) to be eligible for the EIC. For taxpayers with one qualifying child, the maximum credit increased from \$3,461 to \$3,526, and, for taxpayers with two qualifying children, the maximum credit increased from \$5,716 to \$5,828. To be eligible for the credit, a taxpayer's earned income and AGI had to be less than \$41,094 (\$46,884 for married filing jointly) for one qualifying child, or less than \$46,703 (\$52,493 for married filing jointly) for two qualifying

children. The maximum credit for taxpayers with three or more qualifying children increased from \$6,431 to \$6,557. For these taxpayers, earned income and AGI had to be less than \$50,162 (\$55,952 if married filing jointly) to be eligible for the EIC. The maximum amount of investment income (interest, dividends, and capital gain income) a taxpayer could have and still claim the credit was \$3,600 for the year up from \$3,500 for 2018.

#### Extended tax provisions

Legislation extended certain tax benefits that had expired in 2017. Tax benefits extended in the Further Consolidated Appropriations Act, 2020, included the tuition and fees deduction, deduction for mortgage insurance premiums, exclusion of qualified residence indebtedness from gross income, nonbusiness property portion of the residential energy credit, alternative fuel vehicle refueling credit, and the Indian employment credit.

#### Foreign-earned income exclusion

For Tax Year 2018, the foreign-earned income exclusion increased to \$105,900; for 2019, it was \$103,900.

#### Foreign housing deduction

For Tax Year 2019, the foreign housing deduction was limited to \$31,770 for most locations; for 2018, it was limited to \$31,170.

#### Form 1040 and 1040-SR

Starting in 2019, the Form 1040-SR, U.S. Tax Return for Seniors was introduced. A taxpayer born before January 2, 1955, was eligible to use the Form 1040-SR. The form generally mirrored the Form 1040. A variation of the basic form is an electronically filed form. (This and other forms can be found in Section 7, 2019 Forms.) For 2019, there were only three numbered schedules instead of the six previously used for 2018. Schedules 2 and 4 were combined into Schedule 2 to report additional taxes. Schedules 3 and 5 were combined into Schedule 3 to report any credits not claimed on Form 1040 or Form 1040-SR. Schedule 6 is obsolete for 2019; the information requested is back on the Form 1040 or Form 1040-SR.

#### Health care individual responsibility pay

For 2019 a taxpayer no longer needed to make a shared responsibility payment or file Form 8965 if they didn't have minimal essential health care coverage for part or all of 2019.

#### Health savings account (HSA) deduction

A deduction for contributions to a health savings account was limited to \$3,500, or \$7,000 for family coverage. This was an increase from \$3,450 for self-only coverage and \$6,900 for family coverage from 2018. These limits were \$1,000 higher if

the taxpayer was age 55 or older (\$2,000 higher if both spouses were age 55 or older).

### **Individual retirement arrangement (IRA) deduction**

For taxpayers covered by a retirement plan, the traditional IRA deduction phased out between \$103,000 and \$123,000 of modified AGI for married persons filing jointly and surviving spouses; and between \$64,000 and \$74,000 for single filers, heads of household, or married filing separately taxpayers living apart. If one spouse was an active participant in an employer plan, but the other was not, the deduction for the IRA contribution of the spouse not covered by an employer plan phased out between a modified AGI of \$193,000 and \$203,000, up from \$189,000 and \$199,000 for 2018. The contributions were limited to the lesser of \$6,000 (\$12,000 if married filing jointly), or the taxpayer's compensation for the year was subject to an excise tax equal to 6 percent of the excess contribution. If any taxpayer was age 50 or older, these limits were \$1,000 higher per taxpayer.

### **Itemized deductions**

For 2019 (and retroactively for 2018 by filing an amended return), a taxpayer was able to take a deduction for mortgage insurance premiums. Also, in 2019, the increase in limitation on qualified contributions (to certain qualified organizations or gift for relief efforts of a federally declared disaster) was extended. If a taxpayer made a charitable contribution in exchange for a State or local tax credit and their charitable contribution deduction was reduced as a result of receiving the tax credit, the taxpayer may have qualified as a safe harbor and was allowed to treat some or all of the disallowed charitable contribution as a payment of State and local taxes.

### **Limitations on business losses**

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted. One section of this law

repealed the limitation on excess business losses of noncorporate taxpayers for Tax Years 2018, 2019, and 2020. Returns already filed had to file an amended return to remove this limitation.

### **Qualified Opportunity Fund**

New for 2019, taxpayers who invested in Qualified Opportunity Zone property through a Qualified Opportunity Fund could have temporarily deferred tax on the amount of eligible gains they invested. The new Form 8997, Initial and Annual Statement of Qualified Opportunity Fund (QOF) Investments was used for this purpose.

### **Retirement savings contribution credit**

A taxpayer could take a credit for qualified retirement savings contributions if their adjusted gross income was less than or equal to \$32,000 if single, qualified widow(er), or married filing separately (\$48,000 if head of household, \$64,000 if married filing jointly). For 2018, AGI had to be less than \$31,500 (\$47,250 if head of household, \$63,000 if married filing jointly). For 2019, the maximum credit was \$1,000 (\$2,000 for married filing jointly).

### **Standard deduction amount**

The basic standard deduction for people who did not itemize deductions on Schedule A of Form 1040 was increased in 2019 for all filers. This amount depended on the taxpayer's filing status, whether the taxpayer was age 65 or older, or whether the taxpayer was a dependent of another person. For 2019, the basic standard deduction increased to \$24,400 for joint filers, up from \$24,000 for 2018. For single filers and married filers filing separately, the deduction amount increased to \$12,200, up from \$12,000. For heads of households, the deduction was \$18,350, up from \$18,000.

### **Virtual currency**

If in 2019 a taxpayer engaged in a transaction involving virtual currency, the taxpayer needed to file Schedule 1.

## Section 2

# Individual Income Tax Returns, 2019

**T**axpayers filed 157.8 million individual income tax returns for Tax Year (TY) 2019, an increase of 2.6 percent from the 153.8 million returns filed for TY 2018. Total income reported on these returns totaled \$12.1 trillion, a 2.8-percent increase from the previous year. Salaries and wages, the largest component of total income (68.3 percent in 2019), rose 4.6 percent from 2018 to \$8.3 trillion. Statutory adjustments, which are subtracted from total income to arrive at adjusted gross income (AGI), increased 2.2 percent to \$144.9 billion. AGI rose 2.8 percent to \$12.0 trillion for the year. Total income tax rose 2.8 percent to \$1.6 trillion. After subtracting the refundable portions of refundable credits and the portions that offsets all other taxes from total income tax, total income tax was \$1.5 trillion, and the effective tax rate stayed the same as 2018 at 12.3 percent for 2019.

### Total Income

Total income increased 2.8 percent to \$12.1 trillion for 2019 (Figure A). Salaries and wages, the largest component of total income, increased 4.6 percent, from \$7.9 trillion to \$8.3 trillion. Within total income, the share of salaries and wages increased to 68.3 percent for 2019, up from 67.1 percent for 2018. One of the largest components of total income, net capital gains (less loss), showed a decrease of 6.7 percent for 2019. Capital gain distributions, a component of net capital gains, fell 30.6 percent. Taxpayers reported capital gain distributions on either Schedule D with other sales of capital assets or alone on Form 1040. For 2019, partnership and S corporation net income less loss was the second largest component of total income at 8.6 percent. For 2018, taxable Individual Retirement Account (IRA) distributions and taxable pensions and annuities were combined on Form 1040, thus resulting in being the second largest component of total income (9.2 percent). Taxable IRA distributions and taxable pensions and annuities in 2019 were reported on separate lines on Form 1040 as they were prior to 2018.

This increase in total income was reflected in increases in other components of income in addition to salaries and wages, including increases in taxable interest (19.2 percent), ordinary

dividends (3.3 percent), and business or profession net income less loss (1.7 percent). However, components of income that showed decreases included partnership and S corporation net income less loss (down 0.9 percent) and total rental and royalty income less loss (down 2.0 percent).

In general, all retirement income items increased from 2018. These retirement income items include the taxable portions of IRA, pensions and annuities (up 3.5 percent), and Social Security benefits (up 6.8 percent).

A notable change in other total income items was in unemployment compensation, which decreased 2.7 percent to \$21.4 billion as the number of returns claiming unemployment fell 3.4 percent to 4.4 million.

### Statutory Adjustments

Statutory adjustments increased 2.2 percent to \$144.9 billion for 2019 (Figure B). A major reason for the increase was the tuition and fees deduction taken on the 2019 tax return, whereas in 2018, after the deduction was reinstated, taxpayers had to file an amended return. The three largest adjustments were all related to self-employment (deductible part of self-employment tax, self-employed health insurance, and payments to a self-employed retirement plan). These three items together increased 0.9 percent and accounted for 62.5 percent of total statutory adjustments. Taxpayers subtracted these adjustments from total income when computing adjusted gross income. For 2019, taxpayers filed 157.8 million tax returns with a reported AGI of \$12.0 trillion, a 2.8-percent increase from the previous year.

### Deductions

Total deductions, the sum of standard deductions (comprised of the basic standard deduction, the additional standard deduction for the blind or the elderly, and the disaster loss standard deductions) and total itemized deductions, showed an increase of 3.4 percent to \$3.0 trillion for Tax Year 2019 (Figure C). Most tax returns (88.9 percent) claimed a standard deduction, and standard deductions accounted for 78.5 percent of total deductions. In 2018, the standard deduction was taken

on 88.5 percent of returns and accounted for 77.6 percent of total deductions. The total amount of the standard deduction claimed for Tax Year 2019 rose 4.5 percent, while the average standard deduction claimed increased from \$16,780 for 2018 to \$17,021 for 2019.

Taxpayers claimed itemized deductions on only 11.1 percent of all returns filed, representing 21.5 percent of the total deduction amount for the year. The average for total itemized

deductions was \$37,184 for 2019, up from the \$37,010 average total claimed for 2018. The number of returns with itemized deductions decreased 1.0 percent to 17.3 million returns. Table 2.1 presents detailed statistics for individual returns with itemized deductions, by type of deduction and size of AGI.

The largest itemized deduction for 2019 was interest paid, followed by charitable contributions and taxes paid. Interest paid, increased 5.0 percent from the previous year to \$207.4

For this reason, the sum of the number of returns with total itemized deductions and the number of returns with total standard deduction is less than the total number of returns for all filers.

billion. Mortgage interest accounted for 89.2 percent (\$185.0 billion) of the total interest paid deduction. In years prior to 2018, the total taxes paid, which includes State and local income and sales taxes, was the largest itemized deduction. However, tax law changes limited the deductions in 2018 and 2019 to a combined, total deduction for State and local income and sales and property taxes of \$10,000 (\$5,000 if married filing separately). For 2019, after the limit, total taxes paid decreased 4.8 percent to \$139.0 billion. Another itemized deduction, charitable contributions deduction, was down 3.5 percent to \$190.1 billion. The number of returns taking the deduction for charitable contributions decreased 2.6 percent.

Taxable income was calculated by subtracting the standard and itemized deductions and the qualified business income deduction from AGI. The qualified business income deduction could be valued up to 20 percent of qualified business income. This was reported by 22.2 million taxpayers (up 19.2 percent from 2018) taking \$155.2 billion (up 3.5 percent) of deductions. Taxable income increased 3.2 percent to \$9.2 trillion for 2019.

## Tax Credits

Tax credits are used to offset taxes. Certain tax credits are also refundable in that if the credit exceeds the total tax owed, the excess credit can be refunded to the taxpayer. Figure D lists tax credits in two groups—nonrefundable and refundable. Furthermore, for the refundable credits, the figure shows the amounts of credit that offset income taxes owed, the amount used to offset other taxes, and the amounts of refundable tax credits that are refundable.

Total tax credits (used to offset income tax before credits) increased 0.2 percent to \$138.0 billion for 2019. As noted above, these total tax credits exclude the “refundable” portions of the child tax credit, American opportunity tax credit, regulated investment company credit, earned income credit (EIC), and net premium tax credit, as well as any amount of these credits used to offset any other taxes.

Overall, the child and other dependent tax credit was the largest credit claimed and showed an increase of 2.0 percent to \$83.1 billion, accounting for 60.2 percent of the total tax credits used to offset income tax reported for 2019. The next

largest credit was the foreign tax credit, which increased by 2.1 percent to \$25.5 billion and accounted for 18.4 percent of the total tax credits reported for the year despite being claimed on only 6.0 percent (9.4 million) of all individual tax returns filed. The large 39.9-percent increase in the residential energy credit was due in part to the enactment of the *Taxpayer Certainty and Disaster Tax Relief Act of 2019*, which extended the nonbusiness portion of this credit.

Refundable credits were broken out into three parts: the portion used to offset income tax before credits, the portion used to offset all other taxes, and the refundable portion. The first portion, which was included in total tax credits, offsets income tax before credits. The second portion offsets all other taxes besides income tax, such as the self-employment tax. The IRS treated the last portion, the refundable portion, as a refund and paid it directly to taxpayers who had no tax against which to apply the credits, or whose credits exceeded income tax (and other income-related taxes). The last two portions of refundable credits were not included in total tax credits.

In total, taxpayers claimed \$108.3 billion in refundable tax credits. Of this, \$3.9 billion was applied against income taxes and \$10.8 billion was applied against all other taxes. The remaining \$93.6 billion in refundable credits was refunded to taxpayers. The portion applied against income taxes accounted for 3.6 percent of total refundable credits. Of this, the American opportunity credit accounted for 73.2 percent. The portion used to offset all other taxes accounted for 10.0 percent of the total, while the last portion, the refundable portion, was the largest component at 86.4 percent. The refundable amount of the additional child tax credit (\$33.7 billion), along with the EIC (\$55.7 billion), made up nearly all (95.5 percent) of this refundable portion.

A taxpayer could use a few other refundable credits besides the child tax credit and EIC to offset taxes. The largest of

these other credits was the American opportunity credit, which taxpayers claimed on 6.9 million returns for a total of \$6.1 billion. Of these returns, 3.6 million (a 4.4-percent decline from 2018) claimed a refundable amount of \$3.0 billion (3.2-percent decline from 2018).<sup>1</sup>

### Total Income Tax and Average Tax Rates

Total income tax, as presented in these statistics, is the sum of income tax after credits (including the subtraction of refundable credits such as the EIC, American opportunity credit, net premium tax credit, and regulated investment company credit) plus the net investment income tax and tax on accumulation distribution of trusts from Form 4970 and is limited to zero (it cannot be negative). This calculation does not account for the impact of refundable credits, which have the potential effect of creating a negative tax liability for some taxpayers. This was accounted for by subtracting the portion of refundable credits that offset all other taxes and the refundable portion of credits from total income tax. Total income tax minus refundable credits increased 3.0 percent to \$1.5 trillion for 2019 (Figure E).

With the increase in the AMT exemption amount and other tax law changes, the AMT decreased by 30.6 percent to \$2.8 billion. This is a continuation of the dramatic decline from 2017 levels of \$36.4 billion. The number of returns with AMT liability fell, declining 30.1 percent, from 244 thousand for 2018 to 170 thousand for 2019. Again, this represented a sharp decline from 2017 levels of 5.1 million returns. Like the AMT, the net investment income tax showed a decrease for 2019. The amount of this tax fell by 6.0 percent to \$28.3 billion, while the number of returns on which it was applied increased 8.1 percent.

The average tax rate (total income tax minus refundable credits divided by AGI for all returns) was 12.3 percent for 2019 (Figure F), the same as the 2018 level. All income groups had the same or higher average tax rates for 2019 as opposed to

NOTES: Detail may not add to totals because of rounding. An individual taxpayer may be in one AGI group in one year and in a different AGI group in the following year. The figure does not keep the group of taxpayers in an AGI group fixed and follow this fixed group across time. Consequently, differences between TY 2018 and TY 2019 in Figure F should only be interpreted as comparing the value of the variable for the taxpayers in the AGI group in TY 2019 to the value of the variable for a different group of taxpayers who happen to have had AGI in that range in TY 2018.

2018, except for the income group \$30,000 under \$50,000. The largest increase in average tax rates between 2018 and 2019 was in the \$1,000,000-under-\$1,500,000 and the \$1,500,000-under-\$2,000,000 income groups, 0.2 percentage points.

In 2019, average tax rates calculated incorporating refundable credits were similar to average tax rates without incorporating refundable credits for taxpayers with an AGI of \$50,000 or more. However, the rates calculated these two ways differed for taxpayers with an AGI under \$50,000. The greatest disparities in rates were in the \$1-under-\$10,000 AGI class (7.5-percentage-point difference) and \$10,000-under-\$20,000 AGI class (11.9-percentage-point difference). These were due to the propensity for refundable credits in these AGI classes.

Average tax rates peaked at 27.5 percent for returns in the AGI class \$2 million under \$5 million. For the classes above this level, the average tax rates declined to a low of 24.9 percent for taxpayers with AGI of \$10 million or more. The main reason for this decline was that individuals in the classes above \$10 million or more tended to report a larger percentage of their AGI as long-term capital gains (in excess of short-term losses) and qualified dividends, compared to individuals in the lower AGI classes. This income was taxed at a maximum rate of 20 percent (23.8 percent including the net investment tax) as opposed to up to a 37.0-percent rate for ordinary income (40.8 percent including the net investment tax). For example, while individuals reporting AGI of \$1.5 million under \$2 million averaged 19.5 percent of their income as capital gains and dividends facing lower rates, this share increased in each succeeding class, reaching 52.6 percent for those individuals reporting AGI of \$10 million or more. More historical data on average tax rates are available in Section 3, Individual Income Tax Rates. In addition, a historical overview of different tax periods is provided there for more perspective.

### Affordable Care Act

A major tax law change, the implementation of certain provisions of the *Affordable Care Act* (ACA) (Public Law 111–148) took effect in 2014. The ACA contained comprehensive health insurance reforms and included tax provisions that affected individuals. It also established the premium tax credit (PTC) for

taxpayers who enroll in a qualified health plan (QHP) offered through a Marketplace. The PTC provided financial assistance to help pay QHP premiums by reducing the amount of tax owed or providing a refund. The PTC was claimed at the time the taxpayer filed his or her return. The Advance Premium Tax Credit (APTC) was a payment during the year to the taxpayer's insurance provider that paid for part or all of the premiums. A taxpayer's APTC eligibility was based on the Marketplace's estimate of the PTC that the taxpayer would be able to claim on his or her tax return. Differences between the APTC that was paid during the year and final value of the PTC are reconciled on Form 8962, *Premium Tax Credit* filed with the taxpayer's return. If the APTC was more than the PTC, the taxpayer had to repay this excess, subject to a limit. If the PTC was more than the APTC, the excess was used to reduce the taxpayer's tax payment or increase the taxpayer's refund.

The total premium tax credit from Form 8962 was taken on 5.2 million returns for 2019 (a decrease of 3.4 percent from 2018), for a total of \$40.5 billion (down 3.0 percent) (Figure G). Also, for 2019, some 5.8 million returns (down 4.1 percent) reported an APTC on Form 8962, totaling \$44.4 billion (down 3.6 percent). When the PTC and APTC were reconciled, 2.2 million returns (a 4.5-percent decrease) received a net PTC totaling \$2.0 billion (up 6.9 percent), and 3.0 million returns (down 5.9 percent) had to repay excess APTCs of \$4.2 billion (down 4.9 percent). These data do not reflect amended returns or errors that were corrected after initial processing.

Beginning in 2019, a taxpayer no longer needed to make a shared responsibility payment or file Form 8965, *Health Coverage Exemptions* if they didn't have minimal essential health care coverage for part or all of 2019.

For more 2019 changes in law and Internal Revenue Service administrative changes, see Section 1 of this publication. In Section 5 find definitions for all items appearing in tables. Section 3 of this publication has more information on income tax rates and the alternative minimum tax. All the statistics are based on a sample of individual income tax returns (Form 1040 and Form 1040-SR, including electronically filed returns) filed during Calendar Year 2020. For more information on the data sources and limitations, see Section 6.

## Individual Income Tax Rates, 2019

**T**his section discusses the individual income tax rates and the computation of “total income tax” for 2019. It provides explanations of selected terms and describes the income tax structure, certain tax law changes, income and tax concepts (“modified” taxable income and marginal tax rates), and the computation of “alternative minimum taxable income.”

### Income Tax Rates

This part focuses on two distinct tax rates: average tax rates and marginal tax rates. *Average tax rates* are calculated by dividing some measure of tax by some measure of income. For the statistics provided here within, the average tax rate is “total income tax” (see Explanation of Terms section) divided by adjusted gross income (AGI) reported on returns showing income tax liability.

Measures of *marginal tax rates* focus on determining the tax rate imposed on the last (or next) dollar of income received by a taxpayer. They are the statutory rate at which the last dollar of taxable income received by a taxpayer is taxed. (See Income and Tax Concepts in this section for a more detailed explanation.) A more detailed description of the measurement of average and marginal tax rates and a discussion of the statistics based on these rates for 2019 are found below.

Figure A presents statistics for 1986 through 2019 on income (based on each year’s definition of AGI) and taxes reported. These tax years can be partitioned into ten distinct periods:

1) *Tax Year 1986*—This was the last year under the Economic Recovery Tax Act of 1981 (ERTA81). The tax bracket boundaries, personal exemptions, and standard deductions were indexed for inflation, and the maximum tax rate was 50 percent.

- 2) *Tax Year 1987*—This was the first year under the Tax Reform Act of 1986 (TRA86). For 1987, a 1-year, transitional, five-rate tax bracket structure was established with a partial phase-in of new provisions that broadened the definition of AGI. The maximum tax rate was 38.5 percent.
- 3) *Tax Years 1988 through 1990*—During this period there was effectively a three-rate tax bracket structure.<sup>1</sup> The phase-in of the provisions of TRA86 continued with a maximum tax rate of 33 percent.
- 4) *Tax Years 1991 and 1992*—These years brought a three-rate tax bracket structure (with a maximum tax rate of 31 percent), a limitation on some itemized deductions, and a phase-out of personal exemptions for some upper-income taxpayers.
- 5) *Tax Years 1993 through 1996*—This period had a five-rate tax bracket structure (with a maximum statutory tax rate of 39.6 percent), a limitation on some itemized deductions, and a phase-out of personal exemptions for some upper-income taxpayers.
- 6) *Tax Years 1997 through 2000*—These years were subject to the Taxpayer Relief Act of 1997, which added three new capital gain tax rates to the previous rate structure to form a new eight-rate tax bracket structure (with a maximum statutory tax rate of 39.6 percent). For a more detailed description of the capital gain rates, see Income and Tax Concepts below.
- 7) *Tax Years 2001 through 2008*—This period was affected mainly by two new laws, the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA) and the Jobs and Growth Tax Relief Reconciliation Act of 2003 (JGTRRA). EGTRRA included a new

<sup>1</sup> For Tax Years 1988 through 1990, the tax rate schedules provided only two basic rates: 15 percent and 28 percent. However, taxable income over certain levels was subject to a 33-percent tax rate to phase out the benefit of the 15-percent tax bracket (as compared to the 28-percent rate) and the deduction for personal exemptions. At the taxable income level where these benefits were completely phased out, the tax rate returned to 28 percent.

10-percent tax rate bracket, as well as reductions in tax rates for brackets higher than 15 percent of one-half percentage point for 2001 and 1 percentage point for 2002. It also included increases in the child tax credit and an increase in alternative minimum tax exemptions. Under JGTRRA, Tax Year 2003 saw additional rate reductions (accelerations of EGTRRA's phased-in reductions) in ordinary marginal tax rates higher than the 15-percent rate, as well as expansions to income thresholds in the rates from 15 percent and below. The rate for most long-term capital gains was reduced from 20 percent to 15 percent; further, qualified dividends were taxed at this same 15-percent rate. Beginning in 2004, the Working Families Tax Relief Act increased the additional child tax credit refundable rate from 10 percent to 15 percent. Under EGTRRA, beginning

in 2006, the complete phase-out of personal exemptions and the limitation on some itemized deductions for upper-income taxpayers were modified to limit the maximum phase-out to two-thirds of both the exemption amount and the itemized deduction limitation amount. For 2008, the limit was changed to one-third.

8) *Tax Years 2009 through 2012*—Beginning in 2009, the American Recovery and Reinvestment Act (ARRA) temporarily increased the earned income credit by modifying calculations on qualifying earned income amounts and phase-out ranges. The Act increased eligibility for receiving the refundable portion of the child tax credit for 2009 and 2010 by lowering the earned income floor from \$8,500 to \$3,000. For 2009 and 2010 the ARRA provided an American opportunity

tax credit of up to \$2,500 per student of the cost of tuition and related expenses. For those same years, ARRA also included other selected major individual income tax provisions: a temporary refundable first-time homebuyers credit of up to \$8,000, which expired July 31, 2011; a temporary suspension of Federal income tax on the first \$2,400 of unemployment compensation for 2009; an additional deduction for State sales and excise taxes on the purchase of certain motor vehicles; a \$250 credit for certain government retirees; an aggregate cap of \$1,500 on residential energy credits for 2009 and 2010; and a 2-year making-work-pay refundable tax credit of up to \$400 for working individuals and \$800 for working families. For 2011, the Tax Relief and Job Creation Act (TRJCA) of 2010 continued both the American Opportunity credit and increased eligibility for receiving the refundable portion of the child tax credit. At the same time, TRJCA reduced the maximum amount for residential energy credits from \$1,500 to a lifetime limit of \$500. The other provisions of the ARRA cited above have been eliminated for 2011 and beyond.

- 9) *Tax Years 2013 through 2017*—Beginning in 2013, a new tax law reinstated the top tax bracket of 39.6 percent. The 15-percent maximum tax rate on net capital gain and qualified dividends increased to 20 percent for certain high taxable income taxpayers. Additionally, in this period a new net investment income tax was created. Taxpayers paid a net investment income tax of 3.8 percent on the smaller of (a) net investment income or (b) the excess of the taxpayer's modified adjusted gross income over \$125,000 for married filing separately filers, \$250,000 for married filing jointly filers, and \$200,000 for single taxpayers or heads of household.
- 10) *Tax Years 2018 and 2019*—Beginning in 2018, a new tax law, Public Law 115-97, commonly referred to as the Tax Cuts and Jobs Act (TCJA), reduced most of the tax rates. The tax rates for ordinary (non-capital gain tax) income in 2018 and 2019 were 10, 12, 22, 24, 32, 35, and 37 percent. In 2017, the tax rates were 10, 15, 25, 28, 33, 35, and 39.6 percent. TCJA also increased the basic standard deduction for taxpayers who did not itemize deductions. The amount of increase depended on the taxpayer's filing status, whether the taxpayer was age 65 or older, or whether the taxpayer was a dependent of another person. For 2019, the basic

standard deduction increased to \$24,400 for joint filers, up from \$24,000 for 2018 and up from \$12,700 for 2017. For single filers and married filers filing separately, the deduction amount increased to \$12,200, up from \$12,000 in 2018 and up from \$6,350 for 2017. For heads of households, the deduction was \$18,350, up from \$18,000 in 2018 and up from \$9,350 for 2017. For 2018 and 2019, the deduction for all personal taxpayer and dependent exemptions was suspended. Also, the child tax credit was doubled to \$2,000 (\$1,400 for the refundable portion) and a new credit for other dependents of \$500 was introduced in 2018. The AGI levels where these were phased out increased to \$200,000 (\$400,000 if married filing jointly). Previously in 2017, these were set at \$75,000 (\$110,000 for married filing jointly and \$55,000 for married filing separately). For 2018 and 2019, a taxpayer's overall itemized deductions were no longer limited because adjusted gross income (AGI) was over a certain limit. There were multiple other law changes for itemized deductions in 2018 that continued in 2019, particularly limiting the deduction for State and Local taxes to \$10,000 (\$5,000 for married filing separately). TCJA increased the alternative minimum tax (AMT) exemption amount, which is subtracted from the alternative maximum taxable income (AMTI) prior to the application of the AMT tax rates. In conjunction with this, the income levels at which the AMT exemption began to phase out increased. Also, for 2019, the 26-percent tax rate applied to the first \$194,800 (\$97,400 if married filing separately) of AMTI. Previously it applied to the first \$191,100 (\$95,550) of such income. TCJA also created a qualified business income deduction for 2018 and 2019.

### Marginal Tax Rate Classifications

A return's marginal tax rate is the highest statutory tax rate bracket applicable to that tax return. The marginal tax rate statistics presented in this publication are based on all individual income tax returns, as well as returns that show a positive taxable income amount based on "tax generated" (see Explanation of Terms section) and items of income that were subject to the regular income tax, generally those included in AGI (Figure B, Table 3.4).<sup>2,3</sup> Income and Tax Concepts (below) provides an example showing how different portions of taxable income are taxed at different rates and explains the determination of the marginal tax rate bracket into which a return is assumed to fall. Table 3.5 contains additional data based on

<sup>2</sup> Marginal tax rate as cited in this article is the highest statutory rate on taxable income. It includes ordinary tax rates and capital gains tax rates. This concept does not include the effects of AMT, net investment tax, or tax credits.

<sup>3</sup> Tax generated does not include certain other taxes reported on the individual income tax return, such as self-employment tax (the Social Security and Medicare tax on income from self-employment); the Social Security tax on certain tip income; household employment taxes; tax from the recapture of prior-year investment, low-income housing, or other credits; penalty tax applicable to early withdrawals from an individual retirement arrangement (IRA) or other qualified retirement plans; and tax on trusts, accumulation, and distributions. The statistics for "total tax liability," shown in Table 3.3, include these taxes.

ordinary tax rates and presents statistics on the income and tax generated at each ordinary tax rate by size of AGI.

Figure B presents the amounts and percentages of modified taxable income and income tax generated (before alternative minimum tax and reduction by tax credits, including the earned income credit) by the marginal tax rate categories (defined in Income and Tax Concepts, below).

Returns in the “12-percent” (ordinary income) marginal tax rate bracket made up the largest share of returns for 2019 (33.8 percent). These returns reported 19.2 percent of modified taxable income for 2019 and generated 11.6 percent of income tax (before credits and excluding the AMT). Conversely, taxpayers’ highest “37-percent” (ordinary income) marginal rate accounted for only 0.6 percent of returns but reported 16.9

percent of the modified taxable income and 28.5 percent of the tax generated (the largest of any tax bracket). The “0-percent” (ordinary income) marginal rate bracket had the second largest share of returns at 21.3 percent. These returns had no modified taxable income and consequently generated zero tax dollars. With an 18.9-percent share of returns, the “22-percent” (ordinary income) marginal rate bracket reported the largest percentage (28.7 percent) of total modified taxable income and second highest percentage of income tax generated (23.0 percent). The “10-percent” (ordinary income) marginal rate bracket reported the fourth largest share of returns at 16.0 percent. However, such returns accounted for only 1.9 percent of modified income and 0.9 percent of income tax generated. Returns in the “24-percent” (ordinary income) marginal rate bracket represented only 5.9 percent of the total share of

## Components of Total Income Tax

### Regular Tax

Regular tax is generally tax determined from a taxpayer’s taxable income based on statutory tax rates. It does not include the alternative minimum tax (AMT), nor does it exclude allowable tax credits. Figure C illustrates the derivation of the aggregate tax generated for 2018 and 2019 returns. Table 3.4 includes two tax amounts: “tax generated” and “income tax after credits.” Figure A includes an additional measure of tax, “total income tax,” which also includes distributed tax on trust accumulations and the net investment income tax.

In 2019, the tax generated by applying statutory ordinary income and capital gain tax rates to modified taxable income

was \$1.69 trillion, a 2.8-percent increase from 2018 (Figure B and column 5 of Table 3.4). For most taxpayers, tax generated was equal to income tax before credits. However, for some taxpayers, income tax before credits included the AMT, an excess advance premium tax credit repayment, and/or special taxes on lump-sum distributions from qualified retirement plans (when a 10-year averaging method was used) (see Alternative Minimum Tax, below, for explanation).<sup>4</sup>

For returns with modified taxable income, Table 3.1 shows estimates of income tax before credits by type of tax computation. It compares the amount of tax before credits--assuming that all taxable income is subject to regular tax rates--with the amount of tax before credits actually computed after reflecting both regular tax rates and any special tax computations that the taxpayer is either permitted or required to make. In particular, qualified dividends and long-term capital gains are generally subject to lower tax rates, and certain dependent tax filers are required to compute their tax using the brackets and either the tax rates for estates and trusts or taxing unearned income at their parents' rates.<sup>5</sup> The capital gain computations generally reduce taxes; the special provision for certain dependent filers can only increase taxes.

For 2019, some 99.6 million returns had their tax before credits computed using only regular income tax rates; this was an increase of 3.3 percent over the 96.4 million for 2018 that used only regular tax computations. The top portion of Table 3.1 shows the data for these returns. Since these returns did not use any special tax computations, the difference due to special computation (shown in columns 4 and 8) is zero.

As shown in the bottom portion of Table 3.1, for 2019, the tax liability for 24.3 million returns decreased by Schedule D (capital gains) and dividend tax computations. Taxpayers filing these tax returns paid \$138.4 billion (column 8) less in tax before credits than they would have paid if they had not received the benefits of the lower tax rates for qualified dividends and capital gains. For these taxpayers, the average tax savings was \$5,701.

As shown in the middle portion of Table 3.1, for 2019, there were 0.3 million tax returns filed by dependents under age 18 (or under 24 for full-time students) with Form 8615, *Tax for Certain Children Who Have Unearned Income*, for reporting investment income greater than \$2,200. Form 8615 was used to compute the dependents' tax using the brackets and either the tax rates applied to estates and trusts or being taxed at their parents' rates. This mandatory calculation can result in no change or an increase in tax before credits; it cannot

lower the dependent's tax before credits. Thus, for Form 8615 filers, the difference in tax before credits due to special computations (column 8) reflects the combination of the lower tax from use of the special tax rates for dividends and capital gains and the possibly higher tax from the required Form 8615 tax computation. The combination of the two offsetting provisions increased taxes by \$27.6 million for 2019 due to a tax reduction of \$304.5 million from use of dividend and capital gains, and a tax increase of \$332.1 million from the Form 8615 tax computation (Table 3.1A).

### Alternative Minimum Tax

The Revenue Act of 1978 established the alternative minimum tax (AMT) to ensure that taxpayers who might otherwise be able to legally reduce or eliminate their tax burdens, paid a minimum amount of income tax. The AMT provisions may recapture some of the tax reductions under the ordinary income tax. Form 6251, *Alternative Minimum Tax—Individuals*, is used to calculate AMT. (See Computation of Alternative Minimum Taxable Income, below, for an explanation of the computation of income for AMT purposes.)

Tax law changes increased the AMT exemption amount, which is subtracted from AMTI prior to the application of the AMT tax rates. The maximum AMT exemption amount increased from \$109,400 in 2018 to \$111,700 in 2019 for a married couple filing a joint return, from \$70,300 to \$71,700 for single filers and heads of household, and from \$54,700 to \$55,850 for a married person filing separately. In conjunction with this, the income levels at which the AMT exemption began to phase out increased to \$510,300 from \$500,000 (\$1,020,600 from \$1,000,000 if married filing jointly or a qualifying widow(er)). Also, for 2019, the 26-percent tax rate applied to the first \$194,800 (\$97,400 if married filing separately) of alternative minimum taxable income. Previously it applied to the first \$191,100 (\$95,550 if married filing separately) of such income. Alternative Minimum Taxable Income (AMTI) is defined as the taxpayer's taxable income, determined after certain adjustments, and increased by the amount of the items of tax preference. Tax law changes to itemized deductions (including the limitation of State and local income, sales, and property taxes) and the standard deduction, and the introduction of the qualified business income deduction, all had effects on the taxpayer's taxable income. Law changes also made modifications to adjustments and tax preferences, which also affected AMTI.

Some taxpayers included or were required to include Form 6251 with their individual income tax returns, even though

<sup>4</sup> The income amounts on which these special computations for lump-sum distributions were based were not reflected in current-year AGI or current-year taxable income.

<sup>5</sup> Dependents with income over \$1,100 other than earned income could file their own returns but were required to calculate their tax on other than earned income in excess of \$1,100, using the brackets and tax rates that were applied to estates and trusts. Previously, for 2017, they calculated this tax as if it were their parent's or guardian's marginal income. Form 8615 was used to compute the higher tax. For dependents with only modest amounts of investment income (less than \$10,500), the parent or guardian could elect to include the dependent's income on the parent's tax return and fill out Form 8814 for the dependent's income, relieving the dependent of having to file his or her own tax return.

their tax liability was not increased due to the AMT (Figure D). For 2019, AMT liability decreased 30.6 percent to \$2.8 billion, from \$4.0 billion in 2018. The number of returns subject to paying the AMT decreased from 244 thousand in 2018 to slightly over 170 thousand returns in 2019 (down 30.1 percent).<sup>6</sup> Alternative minimum taxable income (AMTI) for all returns filing a Form 6251 decreased 23.0 percent to \$1.7 trillion for 2019.

## Net Investment Tax

In 2013, the Affordable Care Act created a new net investment income tax. Taxpayers paid a net investment income tax of 3.8 percent on the smaller of (a) net investment income or (b) the excess of the taxpayer's modified adjusted gross income over \$125,000 for married filing separately filers, \$250,000 for

married filing jointly filers, and \$200,000 for single filers or heads of household. For 2019, the net investment income tax totaled \$28.3 billion dollars (a 6.0 percent decrease from 2018 levels) and was taken on 5.4 million returns.

## Income Tax Structure

Taxpayers must file an income tax return if they meet certain minimum filing requirements. The filing requirements for 2019 were generally based on the amount of "gross income," filing status, age, dependency, and blindness (see Introduction and Changes in Law, section 1). Generally, for 2019, the minimum level of income for which a return was required to be filed equaled the standard deduction. In addition to the general filing requirements, individuals were required to file a return for Tax Year 2019 if they had net earnings from self-employment of

<sup>6</sup> Other tax returns may not have had AMT liability, but the size of their tax credits, for example their general business credits, may have been reduced because of the AMT.

at least \$400; liability for Social Security or Medicare tax on unreported tip income; Social Security, Medicare, or Railroad Retirement tax on reported tip income or group-term life insurance; “alternative minimum tax”; tax on qualified retirement plan distributions, including an individual retirement arrangement (IRA) or a medical savings account (MSA); tax on the recapture of investment credit, education credit, low-income housing credit, or a few other business credits; recapture tax on the disposition of a home purchased with a Federally subsidized mortgage; wages of \$108.28 or more from a church or qualified church-controlled organization that was exempt from Social Security taxes; or had advance payments of the premium tax credit made for the taxpayer, their spouse, or a dependent who enrolled in coverage through the Health Insurance Marketplace.

Gross income includes all income received as money, goods, property, or services that was not expressly exempt from tax.<sup>7</sup> Adjusted gross income (AGI) is equal to gross income less deductions for certain expenses. “Taxable income,” the base on which income tax before credits is computed, equals AGI less the amount for either total allowable itemized deductions for taxpayers who itemize deductions or the standard deduction (including the additional amounts for age and blindness) for all other taxpayers. Prior to 2018, personal exemptions were also subtracted from AGI to arrive at “taxable income;” in 2018, personal exemptions were eliminated. Starting with 2018, the qualified business income deduction was also subtracted from AGI in calculating taxable income. Income tax before credits is calculated from taxable income using: tax tables or tax rate schedules, both of which vary with taxpayer filing status (single, married filing jointly, surviving spouse, married filing separately, and head of household); Form 8615 or Form 8814 for children’s investment income; Schedule J for farmers and fishermen to income-average; foreign-earned income worksheet; Schedule D and Qualified Dividends worksheet for net long-term capital gains and qualified dividends; or some combination of the above (see Explanation of Terms for definitions for above items). The tax rates for each filing status were 0 percent, 10 percent, 12 percent, 22 percent, 24 percent, 32 percent, 35 percent, and a top tax of 37 percent. The tax rates of 0 percent, 15 percent, 20 percent, 25 percent, and 28 percent were used for qualified dividends and net long-term capital gains (in excess of net short-term capital losses), as well as ordinary income for the 0 percent rate. The 26-percent tax rate

was only for the alternative minimum tax. Income tax before credits includes any alternative minimum tax.<sup>8</sup>

To calculate their Federal income tax liability for 2019, taxpayers used either the tax table or the tax rate schedules. Taxpayers with taxable income less than \$100,000 were required to use the tax table, whereas those with taxable income of \$100,000 or more were required to use the tax rate schedules. The tax table was based on income tax “brackets” up to \$50 wide.<sup>9</sup> The tax within each bracket was based on the tax calculated at the midpoint of the bracket and then rounded to the nearest whole dollar. As a result, the tax tables and the tax rate schedules could produce different amounts of tax for the same amount of taxable income. Use of the tax tables could have produced either a slightly higher or lower amount of tax than that produced by the tax rate schedules.

## Income and Tax Concepts

As discussed in Income Tax Structure above, gross income is all income received that is not specifically excluded. Total income is the net amount of gross income after certain expenses (e.g., business or rent and royalty expenses) have been deducted. Adjusted gross income (AGI) is total income less statutory adjustments to income (e.g., deductible contributions to an IRA or Keogh plan).

## Modified Taxable Income

This concept is relevant only for “prior-year returns” (about 5.8 million returns), certain farm sole proprietor returns using income-averaging on Schedule J, *Income Averaging for Farmers and Fishermen* (Schedule J) (about 65,600 returns), those returns with foreign-earned income having to use a worksheet to determine their taxes (about 183,200 returns), returns with Form 962 election for domestic shareholder of foreign controlled corporations (about 44,300 returns), or returns reporting repatriated deferred (section 965) income as shareholders of certain foreign corporations (about 1,200 returns). For all other returns, modified taxable income is identical to taxable income.

This is the term used in the statistics to describe “income subject to tax,” the actual base on which tax is computed. Each year, a small number of returns for prior tax years are filed during the same calendar year in which the tax returns for the current tax year are being selected for the Statistics of Income

<sup>7</sup> As defined under section 61 of the Internal Revenue Code, gross income includes amounts from wages and salaries, interest and dividends, alimony, bartering income, canceled debt income, gambling winnings, rents and royalties, and gains from property sales or exchanges, as well as gross income from sole proprietorships and farming, income from partnerships and S corporations, and distributions from estates and trusts. This definition of gross income is slightly different from that of Form 1040, U.S. Individual Income Tax Return, and the concept of “total income,” which is a component of the adjusted gross income (AGI) calculation on Form 1040. Total income includes net amounts rather than gross amounts (income prior to deductions) from such items as business income and rents and royalties.

<sup>8</sup> Income tax before credits includes tax on lump-sum distributions from qualified retirement plans and excess advance premium tax credit repayment.

<sup>9</sup> For taxable income between \$0 and \$5 and between \$5 and \$25, the tax brackets were \$5 and \$10 wide, respectively. For taxable income between \$25 and \$3,000, the brackets were \$25 wide. For taxable income above \$3,000, the brackets were \$50 wide.

sample. Some of these returns are selected for the sample and act as proxies for returns for the current tax year that will be filed during a later calendar year. The tax on these returns is based on a previous year's tax law (which may reflect different tax rates and income concepts). For the statistics in this publication, the taxable incomes reported on these prior-year returns and those filed with a Schedule J or foreign-earned income or basing tax on Form 962 or Section 965 are modified to equal an amount necessary to generate the tax shown on these returns using current-year rates.

### Marginal Tax Rates

Under the progressive U.S. income tax rate structure, different portions of taxable income are taxed at different rates. Figure E illustrates how income tax is determined for a single taxpayer with AGI of \$525,000 and who used the standard deduction. As shown in the example, seven different tax rates were applied to the taxable income to arrive at total tax. For this example, the tax rate applied to the last dollar of income (given certain assumptions about which source of income provided the last dollar of income subject to tax) is the marginal tax rate for that return; the marginal tax rate is 37 percent.

Since the individual income tax structure includes various types of income, deductions, exclusions, credits, and taxes that are not subject to the same treatment under tax laws, the marginal tax rate is not always apparent. Calculating marginal tax rates for a specific individual income tax return generally depends both on the types and amounts of income reported and the assumptions made about the order in which the income is taxed, in particular, which type of income is assumed to be received "last." Additional complexity is added by the presence of such items as the alternative minimum tax and various tax credits.

For this publication, it is assumed that the income taxed at the marginal (highest) rate was the "last" income received. The alternative minimum tax and income tax credits, such as the earned income credit, are excluded in determining the marginal tax rates. The marginal tax rate is defined as follows:

- 1) If a return showed taxable income, the marginal tax rate of the return was the highest statutory rate at which any amount of taxable income reported on the return was taxed.
- 2) If the return had no taxable income except for net long-term capital gains or qualified dividends and that amount was less than or equal to the 12-percent tax bracket limit, the return was defined as having a "0-percent" marginal tax rate. If the return had taxable income (from other than net long-term capital gains) to which only the 12-percent tax rate applied, as well as net long-term capital gains to which the 15-percent, 20-percent or 25-percent rate on the net gain applied, the return was defined as having a marginal tax rate equal to the maximum rate at which the net gains were taxed. If the return had taxable income (from other than net long-term capital gains) to which the 24-percent tax rate applied as the highest rate, as well as net long-term capital gains to which the maximum 25-percent or 28-percent rate on net gain applied, the return was defined as having a "25-percent or 28-percent" marginal tax rate. However, if the return had taxable income (from other than net long-term capital gains) above the maximum amount to which the 24-percent rate applied, as well as net long-term capital gains to which the 25-percent or 28-percent rate on the net gain applied, the return was classified as having the highest rate at which any amount of taxable income reported on the return was taxed.
- 3) For returns of dependents with the Form 8615, *Tax for Certain Children Who Have Unearned Income* attached when use of this form resulted in taxation of some of the dependent's income at the estate tax brackets and rates or their parents' rates, the return was classified as having a "Form 8615" marginal tax rate (the returns in the Form 8615 classification are not distributed by tax rate).
- 4) For returns of parents choosing to report interest, dividend, and capital gain distribution income of their dependents under age 18 (or under 24 if students) on their own (i.e., the parents') return using Form 8814, *Parents Election To Report Child's Interest and Dividends*, when the dependent's income generated the only tax liability on the parents' return, the return was classified with a "Form 8814" marginal tax rate of 10 percent.

The classification of returns into marginal tax rate categories for Statistics of Income purposes was essentially a function of filing status, size of taxable income, presence of net long-term capital gains (in excess of net short-term capital losses) and/or qualified dividends, and presence of Form 8615 or Form 8814. Returns were classified into one of the following 15 mutually exclusive marginal tax rate categories: (1) 0-percent rate; (2) 0 percent (capital gains); (3) 10-percent rate; (4) Form 8814 (10-percent rate with no tax liability other than that generated by the dependent’s income); (5) 12-percent rate; (6) 15 percent (capital gains); (7) 20-percent rate (capital gains); (8) 22-percent rate; (9) 24-percent rate; (10) 25 percent (capital gains); (11) 28 percent (capital gains); (12) 32-percent rate; (13) 35-percent rate; (14) 37-percent rate; and (15) Form 8615 (with income taxed at any rate).

Table 3.4 presents statistics by marginal tax rate classification and filing status for returns with modified taxable income. For each marginal rate classification, modified taxable income and “income tax generated” were computed “at all rates” and “at marginal rate.” The “at all rates” computations (columns 3 and 5) show the total amount of modified taxable income or tax generated, tabulated by the marginal tax rate specified; each tax rate classification is mutually exclusive. The “at marginal rate” computations (columns 4 and 6) report the specific amounts of modified taxable income taxed and the tax generated at the marginal tax rate shown, for all returns in each of the marginal rate classifications. Although the alternative minimum tax (AMT) was not included in the determination of the marginal tax rate, we show at what rate individuals with AMT have been classified and the amount of AMT that was paid (columns 10 and 11).

For example, consider returns in the “returns of married persons filing jointly and returns of surviving spouses” filing status that were included in the “32-percent” marginal tax rate classification. The total modified taxable income for the estimated 726,032 returns in this classification “at all rates” was \$290.8 billion (column 3), and the total tax generated was \$61.9 billion (column 5). Approximately \$28.1 billion (column 4) of the modified taxable income was subject to tax at the marginal tax rate of 32 percent. This modified taxable income generated \$9.0 billion (column 6) in tax at the 32-percent tax rate with the remainder generated at some or all of the lower tax rates. Some 12,856 returns (1.8 percent) paid AMT.

Table 3.5 provides statistics on the tax generated (regular tax before credits), in total and at each tax rate bracket, for returns with modified taxable income. Returns in this table are classified by size of AGI. The tax generated at each tax rate was computed based on the modified taxable income for each individual return.

For example, the 7.3 million returns included in the “\$200,000 under \$500,000” income-size classification showed

total modified taxable income of \$1,831.6 billion and generated total tax of \$360.8 billion. Of this \$1,831.6 billion of modified taxable income, \$130.2 billion were taxed at 10-percent (ordinary tax rate); \$395.8 billion were taxed at 12-percent (ordinary tax rate); \$565.4 billion were taxed at the 22-percent (ordinary tax) rate; \$461.5 billion were taxed at the 24-percent (ordinary tax) rate; \$77.6 billion were taxed at the 32-percent rate; \$53.8 billion were taxed at the 35-percent rate; and \$0.9 billion were taxed at the 37-percent rate. Approximately \$6.9 billion were taxed at the 0-percent (capital gains) rate; \$137.4 billion were taxed at the 15-percent capital gain and qualified dividend rate; \$0.8 billion were taxed at the 20-percent capital gain rate; \$0.8 billion were taxed at the 25-percent capital gain rate; \$0.02 billion were taxed at the 28-percent capital gain rate; and the remainder from tax related to Forms 8814 and 8615.

Table 3.6 presents statistics on the income and tax generated at each tax rate, by filing status, for returns with modified taxable income. Almost 2.2 million of the 48.5 million returns of married persons filing jointly (including surviving spouses) with modified taxable income had some income taxed at the 32-percent tax rate. For these returns, the taxable income subject to this rate was \$152.7 billion, and the tax generated was \$48.9 billion.

**Computation of Alternative Minimum Taxable Income**

Alternative Minimum Taxable Income (AMTI) was computed by adding certain “tax preferences” (i.e., deduction or exclusion amounts identified as potential sources of tax savings disallowed for AMT purposes) and “adjustments” (i.e., regular tax deduction amounts recomputed or excluded for AMT purposes) to taxable income. Prior to 2018, any deductions for personal exemptions were then subtracted (Figures F and G). In 2018 personal exemptions were eliminated. The “net operating loss deduction” was recomputed to allow for the exclusion of the “tax preference items” and “adjustments” used to reduce regular tax liability. The recomputed net operating loss

deduction, termed the “alternative net operating loss deduction,” was limited to 90 percent of AMTI (with certain minor exceptions for 2019).

AMTI was reduced by an exemption amount that depended on the filing status of the individual and was subject to phase-out at higher AMTI levels (see Alternative Minimum Tax definition in Explanation of Terms). The maximum AMT exemption amount increased from \$109,400 in 2018 to \$111,700 in 2019 for a married couple filing a joint return, from \$70,300 to \$71,700 for single filers and heads of household, and from \$54,700 to \$55,850 for a married person filing separately. In conjunction with this, the income levels at which the AMT exemption began to phase out increased to \$510,300 from \$500,000 (\$1,020,600 from \$1,000,000 if married filing jointly or a qualifying widow(er)). After reduction by the exemption, the first \$194,800 (\$97,400 if married filing separately) of the remaining AMTI was subject to tax at a 26-percent rate, with

any excess taxed at a 28-percent rate. However, capital gains and qualified dividends (recalculated for AMT purposes) that were taxed at lower rates (0 percent, 15 percent, 20 percent, and 25 percent) were taxed at these same rates for the AMT, with the rest of AMTI being taxed at the rates mentioned above (26 percent or 28 percent). The resulting tax was reduced by the “alternative minimum tax foreign tax credit,” which produced a “tentative minimum tax.” Tentative minimum tax was further reduced by the individual’s regular tax before credits (excluding tax on lump-sum distributions from qualified retirement plans) less the foreign tax credit (for regular tax purposes) to yield the alternative minimum tax.

For 2019 and retroactively for 2018, dependents filing Form 6251 calculated AMT exemptions the same as all taxpayers. Prior to this, dependents filing their own returns were limited to an AMT exemption of \$7,500 plus their “earned incomes.”

## Section 4

# Individual Income Tax Shares, Tax Year 2019

**T**his section discusses Tax Year 2019 individual income tax shares for all individual returns excluding dependents. It provides the shares of adjusted gross income (AGI) and income tax for different percentile classes.

### Income and Tax Shares

Tables 4.1 and 4.2 present statistics on AGI and income tax, by cumulative percentiles of returns 2001–2019. (All tables and figures included in this article are for total individual income tax returns filed excluding dependent returns. See Table 1.7 for details on dependent tax returns.) The tables show distributions of AGI for each tax year, by descending and ascending cumulative percentiles of returns, respectively, and can be used to make comparisons across cumulative percentile classes within each year. Table 4.1 shows percentiles of returns cumulated downward, starting with the highest income returns, and presents data for 14 different percentiles, from the top 0.001 percent through the top 50 percent of all returns. Table 4.2 shows percentiles of returns cumulated upward, starting with the lowest income returns, and presents data for the bottom 5 percentiles: 50 percent, 75 percent, 90 percent, 95 percent, and 99 percent of all returns.

For TY 2019, nondependent taxpayers filed 148.2 million individual income tax returns (Table 4.1), an increase of 2.7 percent from the 144.3 million returns filed for TY 2018. Total AGI increased 2.8 percent to \$11.9 trillion in 2019; similarly, total income tax increased 2.8 percent to \$1.6 trillion.

For TY 2019, the top 0.001 percent of individual income tax returns had an AGI of at least \$60.7 million, which was a decrease of 12.0 percent from the previous year when the top 0.001 percent of tax returns had an AGI of at least \$68.9 million (Figure A). These returns accounted for 1.8 percent of total AGI in TY 2019, down from 2.1 percent in TY 2018; and they also accounted for 3.1 percent of the total income tax in TY 2019 (Figure B), down from 3.6 percent in TY 2018. Total AGI for the 0.001 percentile decreased by 11.4 percent from \$242.0 billion in 2018 to \$214.5 billion in 2019. The average AGI for this percentile was \$144.7 million in 2019, a

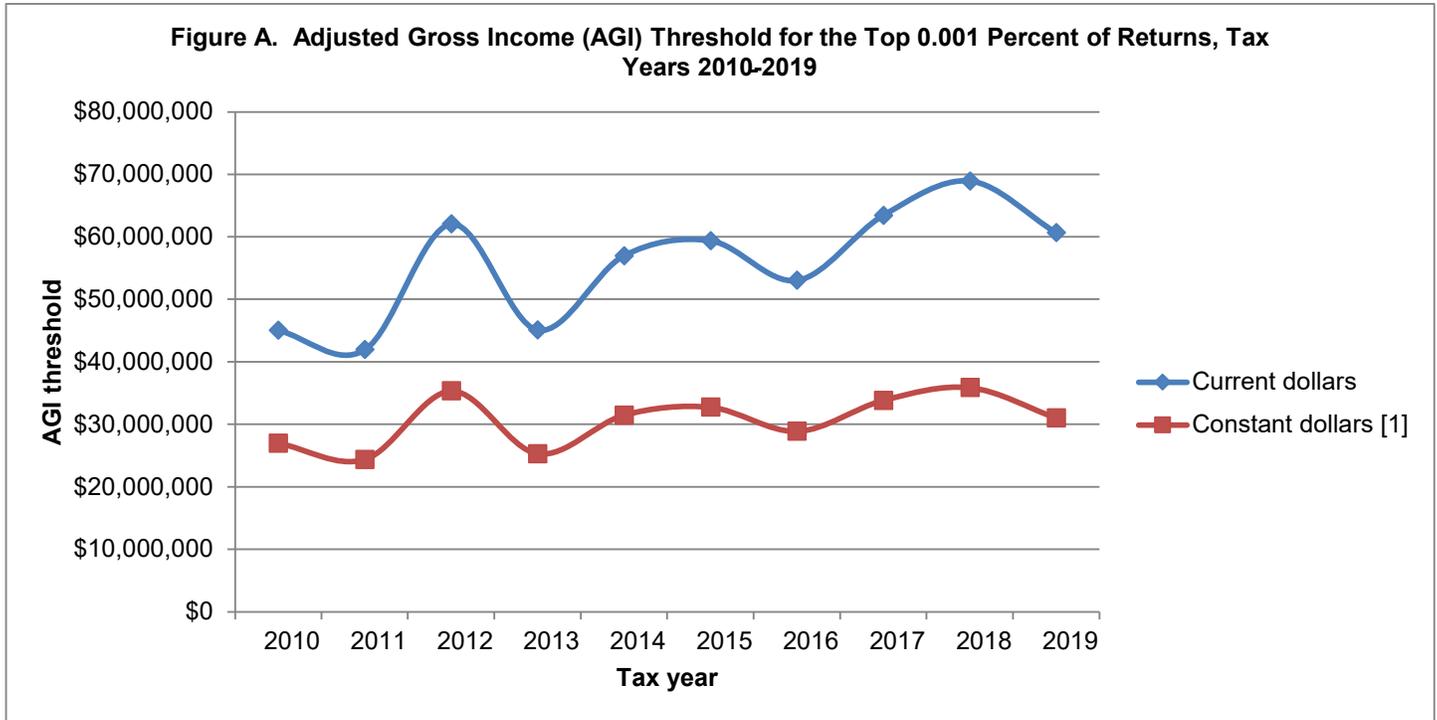

significant drop from 2018 when the average AGI was \$167.7 million (Figure C). The average AGI reported on all returns was \$80,156 in comparison with \$80,128 for the previous year.

For TY 2019, the average tax rate for the top 0.001 percent of tax returns was 22.9 percent, approximately the same rate it was for TY 2018. As has been the case for all 10 years presented (Figure D), the average tax rate for the top 0.001 percent remained lower than the average tax rates of all percentiles from the top 0.01 percent through the top 3 percent of returns. Taxpayers in the top 0.1 percent paid the highest average tax rate (26.1 percent), and each successive percentile paid lower average tax rates, falling to 14.6 percent for the top 50 percent of returns.

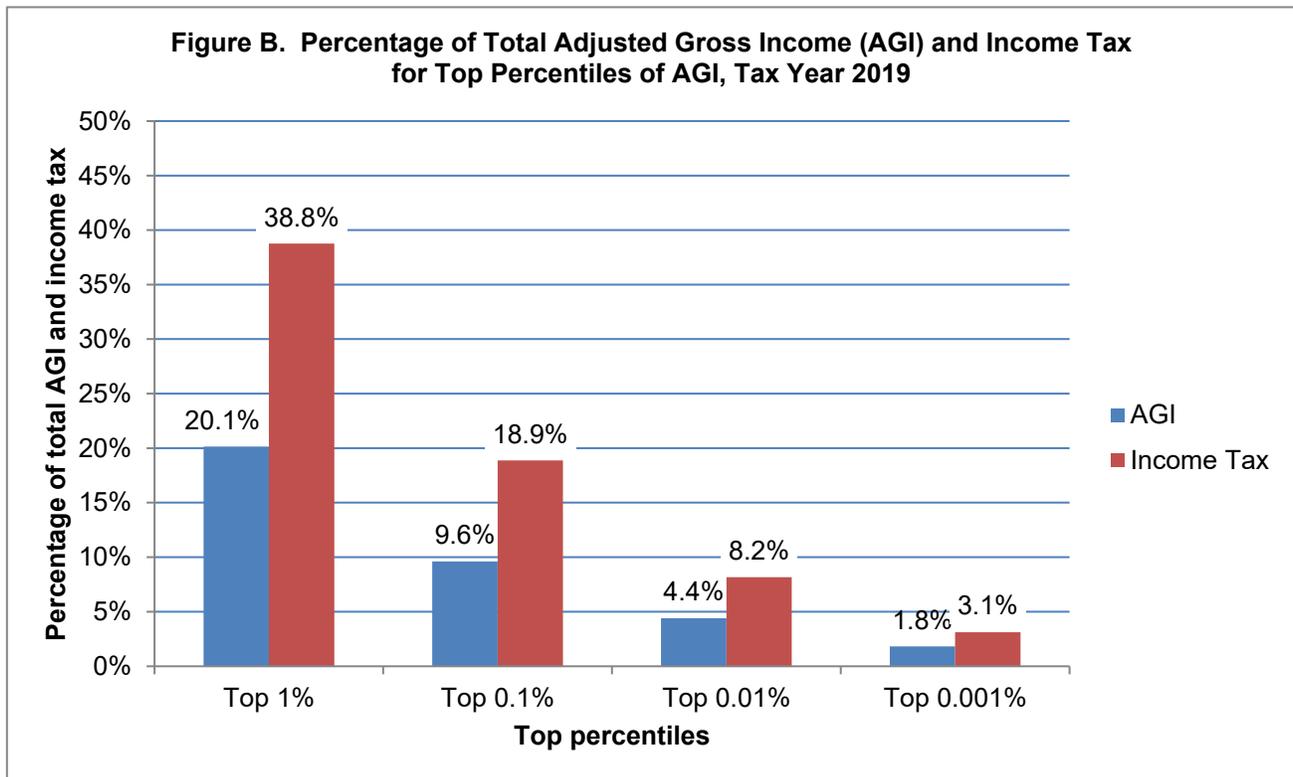

For TY 2019, taxpayers filing returns that were in the top 1 percent reported an AGI of \$546,434 or more, an increase from the AGI floor for this group for TY 2018 (\$540,009) (Figure E). These taxpayers accounted for 20.1 percent of total AGI and 38.8 percent of the total income tax (Figure F), a decrease from 20.9 percent and 40.1 percent for 2018, respectively. Furthermore, the top 1 percent of taxpayers paid an average tax rate of 25.6 percent for 2019, while in contrast to this percentile, the bottom 50 percent of returns reported less total AGI (11.5 percent) and less total income tax (3.1 percent) that year. The bottom 50 percent of returns also had a much lower average tax rate (3.5 percent) for 2019 (Table 4.2).

In constant dollars, the AGI threshold for the top 50 percent of returns was trending downward between 2010 and 2011, going from a threshold of \$20,586 (2010) to \$20,234 (2011) (Figure G and Table 1). Between 2012 and 2018, however, the AGI threshold steadily increased, reaching \$22,704 in 2018. In 2019, for the first time since 2011, the AGI threshold for the top 50 percent of returns decreased from the prior year to \$22,632.

As expected for a graduated income tax system, the top 0.001 percent through the top 50 percent of returns recorded larger shares of the income tax compared to their respective shares of AGI. For TY 2019, the top 0.001 percent reported a

0.29 percentage point decrease for its share of total AGI and a 0.49 percentage point decrease for its share of total income tax. The top 0.01 percent of returns reported a 0.53 percentage point decrease in its share of total AGI and showed a larger (0.92 percentage point) decrease in its share of total income tax. All other percentiles through the top 30 percent also experienced decreases in their respective shares of total AGI accompanied by decreased shares in total income tax. The top 40 percent and 50 percent experienced slight increases in shares of total AGI along with decreases in shares of total income tax. For TY 2019, the amount of AGI needed for inclusion in the top 50

percent of returns (i.e., the AGI threshold) was \$44,269. These returns accounted for 88.5 percent of total AGI and paid 96.9 percent of total income tax.

For TY 2019, The portion of total AGI earned through salaries and wages for all returns was 69.0 percent (Table 4.3). The top 0.001 percent of returns earned only 9.8 percent of AGI through salaries and wages. Conversely, sales of capital assets accounted for 56.1 percent of AGI for the top 0.001 percent of returns while only accounting for 7.3 percent of AGI for all returns.

\* Estimate should be used with caution due to the small number of sample returns on which it is based.  
 \*\* Data combined to avoid disclosure of information for specific taxpayers.  
 [1] Not included in total income.  
 [2] These data do not include any taxable Individual Retirement Arrangement distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA, pensions and annuities were excluded.  
 [3] Includes current year returns with refundable credits such as the health coverage tax credit, regulated investment company credit, net premium tax credit, and prior-year returns with the refundable prior-year minimum tax credit. These credits are not shown separately.  
 NOTE: Detail may not add to totals because of rounding.

\* Estimate should be used with caution because of the small number of sample returns on which it is based.

\*\* Data combined to avoid disclosure of information for specific taxpayers.

[1] Not included in total income.

[2] See table 1.4A for more detail of sales of capital assets reported on Form 1040, Schedule D.

[3] These data do not include any taxable Individual Retirement Arrangement distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA, pensions and annuities were excluded.

NOTE: Detail may not add to totals because of rounding.

 \*\* Data combined to avoid disclosure of information for specific taxpayers.  
 [1] Not included in total income.  
 [2] These data do not include any taxable Individual Retirement Arrangement (IRA) distributions and pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

\* Estimate should be used with caution because of the small number of sample returns on which it is based.

\*\* Data combined to avoid disclosure of information for specific taxpayers.

[1] Not included in total income.

[2] These data do not include any taxable individual Retirement Arrangement distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

\* Estimate should be used with caution because of the small number of sample returns on which it is based.

\*\* Data combined to avoid disclosure of information for specific taxpayers.

[1] Age for joint returns was based on the primary taxpayer's age.

[2] Not included in total income.

[3] These data do not include any taxable Individual Retirement Arrangement distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

NOTE: Detail may not add to totals because of rounding.

\* Estimate should be used with caution due to the small number of sample returns on which it is based.

\*\* Data combined to avoid disclosure of information for specific taxpayers.

[1] Not included in total income.

[2] These data do not include any taxable Individual Retirement Arrangement (IRA) distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

[3] Less than \$500.

[2] These data do not include any taxable Individual Retirement Arrangement (IRA) distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

\* Estimate should be used with caution due to the small number of sample returns on which it is based.

\*\* Data combined to avoid disclosure of information for specific taxpayers.

[1] Not included in total income.

[2] These data do not include any taxable Individual Retirement Arrangement (IRA) distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

\* Estimate should be used with caution due to the small number of sample returns on which it is based.

\*\* Data combined to prevent disclosure of specific taxpayer information.

[1] Not included in total income.

[2] These data do not include any taxable IRA distributions and pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

[3] Includes current-year returns with refundable credits such as the health coverage tax credit, regulated investment company credit and net premium tax credit, and prior-year returns with the refundable prior-year minimum tax credit. These credits are not shown separately.

NOTE: Detail may not add to totals because of rounding.

\* Estimate should be used with caution due to the small number of sample returns on which it is based.

\*\* Data combined to avoid disclosure of information for specific taxpayers.

[1] Age for joint returns was based on the primary taxpayer's age.

[2] Not included in total income.

[3] These data do not include any taxable individual Retirement Arrangement distributions or pensions and annuities from 2018 because these items were combined on one line on that year's tax form. Therefore, \$15.9 billion of taxable IRA distributions and pensions and annuities were excluded.

NOTE: Detail may not add to totals because of rounding.

[1] For Table 4.1, constant dollars were calculated using the U.S. Bureau of Labor Statistics' consumer price index for urban consumers (CPI-U, 1990=100). For 2019 the CPI-U = 255.657

[2] Total income tax was the sum of income tax after credits (including the subtraction of excess advance premium tax credit repayment, the earned income credit, American opportunity credit, health coverage tax credit, and the regulated investment credit credit) limited to zero plus net investment income tax from Form 8960 and the tax from Form 4970, *Tax on Accumulation Distribution of Trusts*. It does not include any refundable portions of these credits.

[3] The average tax rate was computed by dividing total income tax (see footnote 2) by adjusted gross income.

[4] The total number of returns does not include the returns filed by individuals to only receive the economic stimulus payment and who had no other reason to file.

[1] Total income tax was the sum of income tax after credits (including the subtraction of excess advance premium tax credit repayment, the earned income credit, American opportunity credit, health coverage tax credit and the regulated investment credit credit) limited to zero plus net investment income tax from Form 8960 and the tax from Form 4970, *Tax on Accumulation Distribution of Trusts*.

[2] The average tax rate was computed by dividing total income tax (see footnote 1) by adjusted gross income.

[3] The total number of returns does not include the returns filed by individuals to only receive the economic stimulus payment and who had no other reason to file.

## Explanation of Terms

**T**he Explanation of Terms section is designed to clarify the statistical content of this report and should not be construed as an interpretation of the Internal Revenue Code, related regulations, procedures, or policies.

Explanation of Terms relates to column or row titles used in one or more tables in this report. It provides the background or limitations necessary to interpret the related statistical tables. For each title, the line number of the tax form on which it is reported appears after the title. Definitions marked with the symbol  $\Delta$  have been revised for 2019 to reflect changes in the law.

### **Additional Child Tax Credit**

(line 18b, Form 1040)

See “Child and Other Dependent Tax Credit.”

### **Additional Medicare Tax**

(line 8a, Schedule 2)

Starting in 2013, a 0.9 percent Additional Medicare Tax was applied to Medicare wages, railroad retirement compensation, and self-employment income that were more than \$200,000 for single, head of household, or qualifying widow(er) (\$250,000 for married filing jointly, or \$125,000 for married filing separately). Medicare wages and self-employment were combined to determine if a taxpayer exceeded these thresholds; however, a self-employment loss was not considered for purposes of this tax. RRTA compensation was separately compared to this threshold. A taxpayer’s employer was responsible for withholding the 0.9 percent Additional Medicare Tax on Medicare wages or RRTA compensation paid in excess of \$200,000 regardless of a taxpayer’s filing status. If a taxpayer was married filing jointly and either the taxpayer or spouse had wages or RRTA compensation of more than \$200,000, the taxpayer may have been able to get a refund of the tax withheld. Besides the Additional Medicare Tax, withholding reconciliation was calculated on Form 8959 and added to Schedule 2, line 8a, as part of income tax withheld.

### **Additional Standard Deduction**

(included in line 9, Form 1040)

See “Standard Deduction.”

### **Additional Taxes**

(line 12 a(2), Form 1040)

Taxes calculated on Form 4972, Tax on Lump-Sum Distributions, were reported here.

### **Adjusted Gross Income Less Deficit $\Delta$**

(line 8b, Form 1040)

Adjusted gross income (AGI) is defined as total income (line 7b, Form 1040) minus statutory adjustments (line 22, Schedule 1, and line 8a, Form 1040). Total income included:

- Compensation for services, including wages, salaries, fees, commissions, tips, taxable fringe benefits, and similar items;
- Taxable interest received;

- Taxable refunds of State and local income taxes;
- Alimony and separate maintenance payments;
- Net income or loss derived from a business, profession, or farm;
- Net gain or loss from the sale of capital assets;
- Net gain or loss from the sale of business property;
- Taxable amounts of annuities, pensions, and individual retirement arrangement (IRA) distributions;
- Rents and royalties;
- Distributive share of partnership or S corporation net income or loss;
- Net income or loss from an estate or trust;
- Unemployment compensation;
- Taxable amounts of Social Security and railroad retirement (Tier 1) payments;
- Taxable distributions from a Coverdell education savings account or qualified tuition program;
- Taxable distributions from a health savings account (HSA) or Archer MSA;

- Section 965 income;

- Loss on certain corrective distributions of excess deferrals;
- Dividends on insurance policies if they exceeded the total of all net premiums paid;
- Recapture of a charitable contribution deduction relating to the contribution of a fractional interest in tangible personal property;
- Recapture of a charitable contribution deduction if the charitable organization disposed of the donated property within 3 years of the contribution;
- Cancelled debts; and
- Taxable part of disaster relief payments.

Some reported income was fully or partially excluded from total income for 2019. The following is a list of such items:

- The cost basis of pension, annuity, or IRA payments or distributions;
- Tax-exempt interest;
- Limited exclusion of Social Security benefits and railroad retirement benefits (only required to be reported if there was also a taxable amount);
- Limited exclusion of qualified foreign-earned income; and
- Exclusion of part or all of the gain from the sale of principal residence up to \$250,000 (\$500,000 on joint returns).

The following statutory adjustments (lines 10 through 22, Schedule 1) were subtracted from total income to arrive at adjusted gross income (line 8b, Form 1040):

- Educator expenses;

- Certain business expenses of reservists, performing artists, and fee-basis government officials;
- Health savings account deduction;
- Moving expenses for members of the Armed Forces;
- Deductible part of self-employment tax;

- Nontaxable amount of the value of Olympic and Paralympic medals and USOC prize money;
- Forestation or reforestation expenses;
- Foreign housing exclusion;
- Repayments of supplemental unemployment compensation;
- Contributions to section 501(c)(18)(D) pension plans;
- Contributions by certain chaplains to section 403(b) plans;
- Attorney fees and court costs paid for actions involving certain unlawful discrimination claims, but only to the extent of gross income from such actions; and
- Attorney fees and court costs paid in connection with an award from the IRS for information provided that helped the IRS detect tax law violations, but only to the amount of the award includable in gross income.

A deficit occurred if the allowable exclusions and deductions exceeded gross income, i.e., the amount on line 22, Schedule 1, was greater than the amount on line 7b, Form 1040, or if line 9, Schedule 1, was negative due to negative business or other income.

**Adjusted Gross Income or Loss**

See “Adjusted Gross Income Less Deficit.”

**Adjustments**

See “Statutory Adjustments.”

**Adoption Credit  $\Delta$** 

(line 6c, Schedule 3)

This credit was available to taxpayers who paid qualified adoption expenses in 2019 for an adoption that was not final at the end of 2019, or for qualified expenses paid in 2019 for an adoption that was final in or before 2019. The credit could have been as much as \$14,080 for each eligible child. The credit began to phase out if a taxpayer had a modified adjusted gross income in excess of \$211,160 and was completely phased out for a modified adjusted gross income of \$251,160 or more. The adoption credit stopped being refundable at the end of 2011. (Form 8839 was used to figure the adoption credit and any employer-provided adoption benefits that could be excluded from the taxpayer’s income.)

**Advance Payment of Premium Tax Credit**

(line 25, Form 8962)

A taxpayer may have been eligible for the premium tax credit if they, their spouse, or a dependent enrolled in health insurance through the Health Insurance Marketplace. The premium tax credit was used to help pay for this health insurance. The taxpayer may have elected to have all or part of the credit paid in advance, during the year, to the insurer. Advance payments were based on an estimate of the taxpayer’s income and family size for the coverage year. If advance payments of the premium tax credit were made, taxpayers must have filed a 2019 tax return and Form 8962 to reconcile the amount paid in advance with the amount of premium tax credit for which the taxpayer is eligible, based on the taxpayer’s actual income and family size for the year.

**Alimony Paid**

(line 18a, Schedule 1)

Payments made as alimony or separate maintenance counted as a deduction (an adjustment to total income) for the person paying them.

**Alimony Received**

(line 2a, Schedule 1)

Payments received as alimony or separate maintenance were income to the person receiving them.

**All Other Taxes  $\Delta$** 

(individually at lines 3, 4, 5a, 5b, 6, 7a, 7b, 8a, 8c, Schedule 2)

In this report, this amount includes the sum of the excess advance premium tax credit repayment; self-employment tax; unreported Social Security and Medicare taxes on tip income and wages; penalty tax on qualified retirement plans;

household employment taxes; repayment of the first-time homebuyer credit; Additional Medicare Tax; additional taxes on health savings accounts; additional tax on Archer MSA distributions; additional tax on Medicare Advantage MSA distributions; tax from the recapture of the investment credit, the low-income housing credit, the Indian employment credit, the new markets credit, credit for employer-provided child care facilities, alternative motor vehicle credit, the alternative fuel vehicle refueling credit, and the qualified plug-in electric drive motor vehicle credit; recapture of Federal mortgage subsidy; COBRA premium assistance; section 72 penalty taxes; other unspecified taxes, which included uncollected FICA (or Social Security) tax on tips; excess golden parachute payments; excise tax on stock compensation from an expatriated corporation; interest on the tax due from the sale of residential lots and timeshares; interest on the deferred tax on gain from certain installment sales; additional tax on recapture of a charitable deduction relating to a fractional interest in tangible personal property; look-back interest; repayment of ineligible advance payments of the health coverage tax credit; an additional tax on income or compensation from a nonqualified deferred compensation plan; any interest relating to distributions from stock of a section 1291 fund; tax on noneffectively connected income for any part of the year taxpayer was a nonresident alien and tax from recapture of education credits. In this report, the “other taxes” portion differs from Form 1040, which included the taxes listed above (except the excess advance premium tax credit repayment) plus tax from Form 4970, *Tax on Accumulation Distribution of Trusts*, and tax from Form 8960, *Net Investment Tax*. These are instead included in “total income tax.” (See also “Taxable and Nontaxable Returns” and “Total Income Tax.”)

**Alternative Fuel Vehicle Refueling Property Credit**

(line 6c, Schedule 3)

Taxpayers could have claimed this credit for any nondepreciable alternative fuel vehicle refueling property placed in service during the tax year. Qualified alternative fuel vehicle refueling property is any property used to store or dispense an alternative fuel at the point where the fuel is delivered into a fuel tank of a motor vehicle propelled by the fuel. This credit was calculated on Form 8911.

**Alternative Minimum Tax  $\Delta$** 

(line 1, Schedule 2)

The Revenue Act of 1978 established the alternative minimum tax (AMT) to ensure that a minimum amount of income tax was paid by taxpayers, who might otherwise be able to legally reduce, or totally eliminate, their tax burdens. The AMT was levied on income, including benefits received in the form of deductions and exclusions, which reduced an individual’s regular effective tax rate. These benefits, known as “alternative minimum tax preferences and adjustments,”

resulted from the treatment that the tax law gave to particular income and expense items.

Alternative minimum taxable income (AMTI) (line 4, Form 6251) was defined as taxable income for ordinary income tax purposes adjusted for net operating losses from other tax years, plus adjustments and preferences. AMTI was then reduced by an exemption amount determined by filing status and AMTI. If the return was filed jointly by a married couple or a surviving spouse, the maximum amount of the exemption was \$111,700. The maximum amount for a single or head of household taxpayer was \$71,700, and for a married couple filing separately, \$55,850. The AMT exclusion was phased out if AMTI exceeded certain levels. For single taxpayers, the phase-out began at \$510,300 and ended at \$797,100. For joint returns, the range was \$1,020,600 to \$1,467,400. For married couples filing separately, it began at \$510,300 and was phased out at \$733,700.

If there was an amount remaining after subtracting the exemption, the first \$194,800 (the first \$97,400 if married filing separately) was taxed at a 26-percent rate; any excess was taxed at a 28-percent rate, except capital gains, which were taxed at the same rates under the AMT as under the regular income tax. This amount was then reduced by the recalculated AMT foreign tax credit and regular income tax before credits (line 12a, Form 1040, minus the regular foreign tax credit, line 1, Schedule 3) to arrive at the alternative minimum tax.

Personal credits (such as the child tax credit, child care credit, etc.) and certain eligible small business credits could be taken against the AMT.

### **Alternative Motor Vehicle Credit**

(included in line 6c, Schedule 3)

Taxpayers could have used Form 8910 to claim a credit for an alternative motor vehicle put into service during the tax year. An alternative motor vehicle is a new qualified fuel-cell vehicle with at least four wheels.

### **American Opportunity Credit**

(line 18c, Form 1040)

For these statistics, the American opportunity credit was divided into three parts: the amount used to offset income tax before credits; the amount used to offset all other taxes; and the refundable portion. (See also “Education Credits.”)

### **Archer Medical Savings Account (MSA) Deduction Δ**

(included in line 22, Schedule 1)

Certain taxpayers who were covered only by a high deductible health plan were able to participate in the Archer medical savings account program. The taxpayer was allowed to take a deduction of up to \$2,275 (\$5,250 for a family) a year for contributions to a medical savings account. The Archer medical savings accounts were used to pay for medical expenses not reimbursable by medical insurance. Form 8853, *Archer MSAs*

and *Long-Term Care Insurance Contracts*, was used for the medical savings accounts.

### **Basic Standard Deduction**

(included in line 9, Form 1040)

See “Standard Deduction.”

### **Business or Profession Net Income or Loss**

(line 3, Schedule 1)

This source of income or loss was reported by individuals who were sole proprietors of a nonfarm business, including self-employed members of a profession.

If two or more sole proprietorships were operated by the same taxpayer, the single amount of net income or loss included in the adjusted gross income represented the combined net income and loss from all sole proprietorships. The proprietor was required to exclude investment income from business profits and include it, instead, with the various types of investment income for which separate provisions were made on the individual income tax return.

Total expenses (line 28, Schedule C) were deducted from gross income (line 7, Schedule C) to arrive at a tentative profit or loss. Expenses for business use of the taxpayer’s home (line 30, Schedule C) were then deducted to arrive at net income or loss. Starting for 2013, the IRS provided a simplified method to determine a taxpayer’s expenses for business use of a home. Under the new method, taxpayers were able to multiply the area (measured in square feet) used by \$5. Proprietor compensation was included in computing net income and not allowed as a business deduction. The deduction of net operating losses from previous years was not considered a business expense but was offset against “Other Income” (line 8, Schedule 1).

### **Business or Profession Net Income Less Loss**

See “Business or Profession Net Income or Loss.”

### **Cancellation of Debt**

(included in line 8, Schedule 1)

Taxpayers had to report any nonbusiness debt that was cancelled or forgiven as income on Schedule 1, line 8. Taxpayers also had to include any forgiven interest on the forgiven debt if the interest would not have been deductible. If the interest would have been deductible, taxpayers did not have to include it as income. Also, a taxpayer did not have to report forgiven debt as income if the forgiven amount was intended as a gift.

### **Capital Assets**

See “Sales of Capital Assets, Net Gain or Loss.”

### **Capital Construction Fund Reduction**

(included in line 11b, Form 1040)

The Capital Construction Fund (CCF) is a special investment program administered by the National Marine Fisheries Service and the Internal Revenue Service. This program allows fishermen to defer paying income tax on certain income they invest in a CCF account and later use to acquire, build, or rebuild fishing vessels. This amount is subtracted from taxable income to calculate taxable income.

### Capital Gain Distributions Reported on Form 1040

(included in line 6, Form 1040)

Taxpayers who had capital gains strictly from capital gain distributions could enter the amount directly on line 6, Form 1040. These were treated as long-term capital gains and, therefore, were eligible for the reduced capital gains rates including the higher 20-percent capital gains tax rate if the taxpayer's taxable income exceeded certain levels. (See also "Sales of Capital Assets, Net Gain or Loss.")

### Capital Gain Distributions Reported on Schedule D

(line 13, Schedule D)

See "Sales of Capital Assets, Net Gain or Loss."

### Capital Gains and Losses

See "Sales of Capital Assets, Net Gain or Loss."

### Cash Contributions

(line 11, Schedule A)

See "Contributions Deduction."

### Casualty or Theft Loss Deduction, Nonbusiness $\Delta$

(line 15, Schedule A)

Nonbusiness casualty and theft losses were deductible, as an itemized deduction, from adjusted gross income to the extent that the nonreimbursable net loss for each such casualty or theft exceeded \$100, and the combined amount for all net losses during the year exceeded 10 percent of adjusted gross income (claimed on Form 4684). As was true for the previous year, for 2019, these were only allowed for losses from a federally declared disaster area. (See also "Total Itemized Deductions.")

### Casualty or Theft Loss of Income-Producing Property

(included in line 16, Schedule A)

These losses were calculated using Form 4684, Casualty and Thefts, or Form 4797, Sales of Business Property, and then brought to Schedule A. (See "Miscellaneous Itemized Deductions.")

### Certain Business Expenses of Reservists, Performing Artists, and Fee-basis Government Officials

(line 11, Schedule 1)

Qualified business expenses were deductible as an adjustment to income for reservists, performing artists, and fee-basis State or local government officials, whether or not the taxpayer itemized deductions (claimed on Form 2106).

### Child Care Credit

(line 2, Schedule 3)

This credit could be claimed by taxpayers who, while employed or looking for work, incurred expenses for the care of dependent children under age 13, or disabled dependents of any age (claimed on Form 2441). Qualified expenses included those for services performed within the home by nondependent baby-sitters, maids, or cooks. Expenditures to care for children under the age of 13 or any other qualified individuals for out-of-home, noninstitutional care qualified for the child care credit. If the taxpayer omitted or used an invalid Social Security number or employer identification number (EIN) for the child care provider, the IRS used mathematical error procedures to change the child care credit.

The maximum amount of care-related expenses on which the credit could be based with one qualifying child or dependent, was the smaller of earned income or \$3,000; with more than one dependent, the credit was based on the smaller of earned income or \$6,000. For returns of married couples filing jointly, earned income refers to the earnings of the spouse with the lesser earned income. Exceptions were allowed if the spouse was disabled or a full-time student.

The credit was equal to 35 percent of eligible expenses for taxpayers with an adjusted gross income of \$15,000 or less. The credit was reduced by 1 percentage point for each \$2,000, or fraction thereof, of adjusted gross income in excess of \$15,000, up to \$43,000. The credit remained at 20 percent of expenses for individuals with an adjusted gross income over \$43,000.

The amount of the credit which could be claimed was limited to income tax before credits, and any excess was not refundable.

### Child and Other Dependent Tax Credit $\Delta$

(line 13a, Form 1040)

A credit was allowed for each qualifying child under age 17. To be a qualifying child, the person had to be a son, daughter, stepchild, adopted child, qualifying foster child, brother, sister, stepbrother, stepsister, or a descendant of any of them (for example, grandchild, nephew, niece) for whom the taxpayer claimed a dependent exemption. The taxpayer could

claim up to \$2,000 in 2019 for each child meeting the AGI phase-out guidelines. The credit was phased out by \$50 for each \$1,000, or fraction thereof, that AGI exceeded: \$400,000 for taxpayers filing jointly; \$200,000 for married filing separately; single filers, heads of households, or widows(ers). Also, in 2019, a tax credit was available for other dependents. If a taxpayer had a dependent who couldn't be claimed for the child tax credit, the person may have been eligible for a nonrefundable credit of up to \$500 for the dependent.

An additional child tax credit was refundable if the taxpayer met both the general requirements and some additional requirements (claimed on Schedule 8812). The additional child tax credit was not included in credits but as a payment instead (line 18b, Form 1040). Members of the U.S. Armed Forces who served in a combat zone had their nontaxable combat pay count as earned income in figuring this credit. For the statistics, this amount was broken down into the additional child tax credit to offset other taxes and the refundable amount.

### Contributions Deduction $\Delta$

(lines 11-14, Schedule A)

Taxpayers could deduct contributions to certain organizations that were religious, charitable, educational, scientific, or literary in purpose. Contributions could be in cash, property, or out-of-pocket expenses that a taxpayer paid in doing volunteer work for a qualified organization. Contributions were allowed as an itemized deduction on Schedule A. For 2019, there were higher limitations for certain charitable contributions. For most gifts by cash or check, the total amount of contributions that a taxpayer could deduct was limited to 60 percent of the contribution base. Contributions of capital gain property were generally limited to 30 percent (20 percent in certain cases) of the taxpayer's AGI. There was no overall limitation on itemized deductions. For all charitable contributions of \$250 or more, a written acknowledgment from the qualified recipient organization was required. If other than cash contributions (i.e., clothing, cars, stock, etc.) was \$500 or more, Form 8283, *Noncash Charitable Contributions*, had to be filed in order to itemize these. For 2019, disaster tax relief was extended to provide a tax benefit for those impacted by certain Presidentially declared disasters in that qualified charitable contributions weren't subject to the 60 percent AGI limit. Also, qualified conservation contributions of certain farmers and ranchers were also not subject to this limit.

Taxpayers were able to make a tax-free distribution from an Individual Retirement Account to certain charitable organizations if they were at least 70½ years old. However, the taxpayer could not take a charitable deduction on Schedule A for the same contribution.

### Contributions Carryover from Prior Year

(line 13, Schedule A)

See "Contributions Deduction."

### Credit for Federal Tax on Gasoline and Special Fuels

(line 12, Schedule 3)

This refundable credit (claimed on Form 4136) was allowed for Federal excise taxes paid on gasoline and special fuels, such as gasohol and diesel fuel, provided the fuel was used for certain purposes (such as farm or nonhighway use in a trade or business), bought at a price that included the tax, and a refund of the tax was not requested or received. The credit could reduce unpaid total tax liability or be refunded.

### Credit for the Elderly or Disabled

(line 6c, Schedule 3)

A credit (claimed on Schedule R) for the elderly or permanently and totally disabled was available to taxpayers age 65 or older (within certain income limitations), and to those taxpayers under age 65 who had retired with a permanent and total disability and received taxable income from a public or private employer because of that disability. The income to which the credit could be applied was reduced by nontaxable amounts of Social Security and railroad retirement benefits, veterans' pensions, and any other pension, annuity, or disability benefits excluded from income under any other provisions of the law.

An individual was considered permanently and totally disabled when he or she could not engage in any substantial gainful activity because of a physical or mental condition which had lasted, or was expected to last, at least 12 months, or was determined to be terminal.

The maximum credit available (\$1,125) was limited to total income tax with any excess not refundable, and this credit was reduced if the taxpayer's income exceeded certain levels. Generally, if a taxpayer's income was high enough to require reporting Social Security benefits as taxable income, the taxpayer could not take the credit.

### Credit from Regulated Investment Companies

(line 13a, Schedule 3)

Taxpayers were required to include in total income any amounts which were allocated to them as undistributed long-term capital gains of regulated investment companies. If investment companies paid tax on the capital gain, taxpayers were entitled to claim a refundable credit (claimed on Form 2439, *Notice to Shareholder of Undistributed Long-Term Capital Gain*) for their proportionate share of the tax paid. For these statistics, the credit from regulated investment companies was divided into three parts: the amount used to offset income tax before credits; the amount used to offset all other taxes; and the refundable portion.

### Credit to 2020 Estimated Tax

(line 22, Form 1040)

This amount was the part of the overpayment of 2019 tax that taxpayers specifically requested to be credited to

their estimated tax for 2020. (See also “Overpayment” and “Estimated Tax Payments.”)

### Deductible Points

(line 8c, Schedule A)

See “Interest Paid Deduction.”

### Deductible Part of Self-Employment Tax

(line 14, Schedule 1)

If a taxpayer had income from self-employment and owed self-employment tax, part of that tax was deductible for income tax purposes. The amount was subtracted as an adjustment to total income in the calculation of AGI. (See also “Self-Employment Tax.”)

### Disaster Loss Deduction $\Delta$

(included in line 9, Form 1040)

For 2019, disaster tax relief was extended for those impacted by certain Presidentially declared disasters. One benefit was an increased standard deduction based on a taxpayer’s qualified disaster losses. If a taxpayer had a net qualified disaster loss on Form 4684, *Casualties and Thefts*, and was not itemizing their deductions, they could have claimed an increased standard deduction. (See also “Standard Deduction.”)

### Dividends

(lines 3a and 3b, Form 1040)

Ordinary dividend income consisted of distributions of money, stock, or other property received by taxpayers from domestic and foreign corporations, either directly or passed through estates, trusts, partnerships, or regulated investment companies. Ordinary dividends also included distributions from money market mutual funds. If ordinary dividends exceeded \$1,500, or the taxpayer received, as a nominee, ordinary dividends that actually belonged to someone else, the taxpayer had to fill out Schedule B to supply the details.

Ordinary dividends did not include nontaxable distributions of stock or stock rights, returns of capital, capital gains, or liquidation distributions. Taxpayers were also instructed to exclude amounts paid on deposits or withdrawable accounts in banks, mutual savings banks, cooperative banks, savings and loan associations, and credit unions, which were treated as interest income.

Qualified dividends are the ordinary dividends received in tax years beginning after 2002 that met certain conditions. These included: the dividend must have been paid by a U.S. corporation or a “qualified” foreign corporation; the stock ownership must have met certain holding period requirements; the dividends were not from certain institutions, such as mutual savings banks, cooperative banks, credit unions, tax-exempt organizations, or farmer cooperatives; and the dividends were not for any share of stock that was part of an employee stock ownership plan (ESOP). The maximum tax rate for qualified dividends increased 5 percent to 20 percent

in 2013. Beginning in 2008, the 5-percent tax rate for qualified dividends (generally taxpayers whose other income was taxed at the 10-percent or 15-percent rate) was reduced to zero. Also beginning in 2013, ordinary dividends may have also been subject to the Net Investment Income Tax of 3.8 percent.

### Domestic Production Activities Deduction $\Delta$

(included in line 22, Schedule 1)

Starting with Tax Year 2018, the domestic production activities deduction was repealed with limited exceptions. For 2019, these were only for some specified agricultural and horticultural cooperatives.

### Earned Income Credit $\Delta$

(line 18a, Form 1040)

The earned income credit (EIC) for 2019 was a maximum of \$529 for taxpayers with no qualifying children, \$3,526 for one qualifying child, \$5,828 for two qualifying children, and \$6,557 for taxpayers with three or more qualifying children. To be eligible for the credit with children, the taxpayers, other than married taxpayers filing jointly, must have had a qualifying child living with them for more than half the year, and have had earned income and adjusted gross income each less than \$41,094 (\$46,703 if two qualifying children, and \$50,162 if three or more qualifying children). For married filing jointly, earned income and adjusted gross income had to be less than \$46,884 for one child, \$52,493 for two children, and \$55,952 for three children or more. To be eligible for the credit without children, the taxpayer must have had earned income and adjusted gross income less than \$15,570 (\$21,370 for married filing jointly), and the taxpayer (or their spouse) must have been at least 25 years of age and less than 65 years old. The credit was generally based on earned income, consisting of wages, salaries, and other employee compensation, plus net earnings from self-employment. Members of the U.S. Armed Forces who served in a combat zone had certain pay excluded from their income. These taxpayers could have elected to include this pay in earned income when figuring the EIC. Taxpayers with investment income totaling more than \$3,600 were not eligible to receive the EIC. Investment income included interest income (taxable and tax-exempt), dividend income, plus interest and dividend income from Form 8814, and capital gain net income. As in previous years, taxpayers could not take the credit if their filing status was married filing separately, or if they claimed the foreign-earned income exclusion. If two taxpayers could have claimed a qualifying child, the taxpayer that did not claim the qualifying child was now able to claim the EIC without a qualifying child. Also, for 2019, disaster tax relief allowed an election for taxpayers to have used 2018 earned income to figure their 2019 earned income credit.

For this report, the earned income credit is divided into three parts: the amount used to offset income tax before credits (limited to the amount needed to reduce income tax after credits to zero); the amount used to offset all other taxes (limited

to the amount needed to reduce total tax liability to zero); and the refundable portion.

### **Earned Income Credit, Refundable Portion**

### **Education Credits $\Delta$**

(line 18c, Form 1040, and line 3, Schedule 3)

There were two credits available, the Lifetime Learning credit and the American Opportunity credit. A taxpayer was only able to claim one of the credits per student. The Lifetime Learning credits were phased out for AGI between \$58,000 and \$68,000 (\$116,000 and \$136,000 for married filing jointly). The American Opportunity credit was phased out for AGI between \$80,000 and \$90,000 (\$160,000 and \$180,000 if married filing jointly). A taxpayer could not take any of the credits if they were claimed as a dependent on another return, married filing separately, or claimed a deduction for tuition and fees for the same student.

The Lifetime Learning credit could have been used for tuition and expenses for undergraduate, graduate, and professional degree courses. The credit could have been taken for an unlimited amount of time, as long as the taxpayer or dependents were enrolled in postsecondary education. The Lifetime Learning credit was a maximum of 20 percent of the first \$10,000 of eligible expenses, or \$2,000 per return.

The American Opportunity credit could have been used for tuition and expenses for an undergraduate or other recognized education credential. The credit could only have been used for the first 4 years of postsecondary education, as long as the taxpayer or dependents were enrolled at least half time. The maximum credit per student was \$2,500 (100 percent of the first \$2,000 and 25 percent of the next \$2,000 of qualified education expenses). The credit was available for the first 4 years of postsecondary education, and 40 percent of the credit (up to \$1,000) was refundable. (See also “American Opportunity Credit.”) Both of these credits were calculated using Form 8863, *Education Credits*.

### **Education IRA (Coverdell Education Savings Accounts)**

Taxpayers could have made nondeductible contributions up to \$2,000 annually to an educational IRA for a child under age 18. The earnings and withdrawals were tax-free to the extent that withdrawals did not exceed the beneficiary’s qualified

higher education expenses for the year. The educational IRA contribution was phased out for modified AGI between \$95,000 and \$110,000 (between \$190,000 and \$220,000 for taxpayers married filing jointly). (See also “Individual Retirement Arrangement Deductible Payments.”)

### **Educator Expenses Deduction**

(line 10, Schedule 1)

If a taxpayer was an eligible educator in kindergarten through grade 12 in 2019, a deduction of \$250 (\$500 for two educators filing jointly) of qualified expenses could have been taken, even if the taxpayer did not itemize deductions.

### **Employee Business Expense**

See “Unreimbursed Employee Business Expenses.”

### **Estate and Trust Net Income or Loss**

(line 37, Schedule E, Part III)

This was the beneficiary’s share of fiduciary income (with the exception of the items described below, which were reported separately) from any estate or trust. Income from estates or trusts included amounts required to be distributed, amounts credited to beneficiaries’ accounts from current-year fiduciary income (whether or not actually distributed), and any other amounts which were properly paid, credited, or required to be distributed for that year.

Taxpayers excluded their share of dividends and gains or losses from sales of capital assets or other property from estate or trust income. Such income (which usually makes up the largest portion of income from estates or trusts) was included on the tax return on the separate lines provided for these income types and was not separately identified for the statistics. A loss from an estate or trust was allocated to the beneficiary only upon settlement or termination of an estate or trust and was limited by the “passive loss” rules.

The columns labeled “net income” and “net loss” represent the sum of all income and losses reported from all estates or trusts, i.e., the net amount computed on a return-by-return basis.

### **Estate and Trust Net Income Less Loss**

See “Estate and Trust Net Income or Loss.”

### **Estimated Tax Payments $\Delta$**

(line 8, Schedule 3)

This figure represents the total tax payments made for 2019 using Form 1040-ES, and any overpayment from the taxpayer’s 2018 return that was applied to the 2019 estimated tax. Generally, individuals were required to make estimated tax payments if they expected to owe, after subtracting withholding and credits, at least \$1,000 in tax for 2019, and they expected withholding and credits to be less than the smaller of: (a) 90 percent of the tax shown on Form 1040 for 2019, or

(b) 100 percent of the tax shown on Form 1040 for 2018 (110 percent of the tax shown on Form 1040 for 2018 for taxpayers with adjusted gross income greater than \$150,000 (\$75,000 for married filing separately)).

### **Excess Advance Premium Tax Credit Repayment**

(line 2, Schedule 2)

Beginning in 2014, a taxpayer may have been eligible for the premium tax credit if they, their spouse, or a dependent enrolled in health insurance through the Health Insurance Marketplace. The premium tax credit was used to help pay for this health insurance. The taxpayer may have elected to have all, or part of the credit paid in advance, during the year, to the insurer. Advance payments were based on an estimate of the taxpayer's income and family size for the coverage year. If advance payments of this credit were more than the premium tax credit a taxpayer could claim, the excess amount, subject to certain limitations based on household income and filing status, was reported here. This was calculated using Form 8962, *Premium Tax Credit*. For these statistics, this amount was excluded from "total income tax" and included instead in "all other taxes." (See also "Advance Payment of Premium Tax Credit," "Net Premium Tax Credit," "Total Premium Tax Credit," "Total Income Tax," and "All Other Taxes.")

### **Excess Social Security Taxes Withheld $\Delta$**

(line 11, Schedule 3)

If a taxpayer earned more than \$132,900 in total wages from two or more employers in 2019, too much Social Security (FICA) or Railroad Retirement Tax Act (RRTA) tax may have been withheld from his or her wages. (There was no wage base limitation for Medicare tax; therefore, all covered wages were subject to Medicare tax.) Filers claimed credit for such overpayment on their income tax returns. Excess FICA or RRTA tax withheld could be taken as a credit toward payment of the taxpayer's income tax or be refunded. In the case of a joint return, the credit was computed separately for each taxpayer.

### **Farm Net Income or Loss**

(line 6, Schedule 1)

This source of income or loss was reported by individuals who were sole proprietors of farms. When there were two or more farms operated by the same taxpayer, the single amount of profit or loss included in the adjusted gross income represented the combined profit and loss from all farming activities. Farm business total expenses (line 33, Schedule F) were deducted from farm gross income (line 9, Schedule F) to arrive at farm net profit or loss.

Gains from certain sales of livestock and crops that qualified for capital gains treatment were excluded from farm net profit or loss and included in capital gains. Farm rental income was included in total rental net income or loss. (See also "Farm Rental Net Income or Loss.")

### **Farm Rental Net Income or Loss**

(line 40, Schedule E)

Taxpayers were required to report farm rental income and expenses separately from other farm profit or loss if they: a) received income based on crops or livestock produced by the tenant, and b) did not manage or operate the farm to any great extent. These income and expenses were reported on Form 4835, with net income less loss then reported on Schedule E. (See also "Total Rental and Royalty Income or Loss.")

### **Farm Rental Net Income Less Loss**

See "Farm Rental Net Income or Loss."

### **Filing Status**

See "Marital Filing Status."

### **First-time Homebuyer Credit Repayment**

(line 13d, Schedule 3)

Taxpayers claiming the first-time homebuyer credit for a home bought in 2008 generally had to begin repaying it on their 2010 return. In addition, taxpayers generally must repay any credit claimed for a home bought after 2008 if the taxpayer disposed of the home, or it ceased to be their main home during the 36-month period that began on the purchase date.

### **Foreign-Earned Income Exclusion $\Delta$**

(included in line 8, Schedule 1)

Qualified taxpayers could exclude from total income a certain amount of foreign-earned income and employer-provided foreign housing expenses if their home, for tax purposes, was in a foreign country (claimed on Forms 2555). Taxpayers had to refigure their tax using the foreign-earned income worksheet. The refigured tax was based on non-excluded income using the tax tables that would have applied had they not claimed the exclusion. Beginning in 2019, all taxpayers had to claim the foreign income exclusion on Form 2555. Furthermore, 2555-EZ was no longer available to make the exclusion of foreign-earned income and foreign housing cost amount.

Qualifying individuals were limited to the lesser of a \$105,900 exclusion or their total foreign-earned income. Also, they could elect to exclude a portion of employer-provided foreign housing expenses. If the taxpayer elected to take both the foreign-earned income and foreign housing exclusions, the total amount of both exclusions was limited to the taxpayer's total foreign earned income. The foreign-earned income exclusion was entered as a negative amount on this line by the taxpayer but edited into a separate field during service center processing. The employer-provided foreign housing exclusion was left as part of other income. (See also "Other Net Income or Net Loss.")

### **Foreign Housing Deduction $\Delta$**

(included in line 22, Schedule 1)

Qualified taxpayers who had foreign housing expenses that were not provided by their employer were eligible to deduct these expenses from total income (claimed on Form 2555). This deduction was limited to \$31,770, with exceptions based on the location of the foreign housing. This deduction, together with the foreign-earned income exclusion, was limited to the total amount of foreign-earned income for 2019.

### Foreign Tax Credit

(line 1, Schedule 3)

Individuals who paid income or excess profit taxes to a foreign country or U.S. possession could claim either this credit against Federal income tax liability or take an itemized deduction for the amount of the foreign tax payment. Depending on the taxpayer's income and taxes, the foreign tax credit could be less than the amount of foreign tax paid. Qualifying foreign taxes paid in excess of the allowable amount for Tax Year 2019 could be carried back 1 year and then forward 10 years. If this credit was more than \$300 (\$600 for married filing a joint return), the taxpayer had to file Form 1116 to get this credit.

### Forms 1040 and 1040-SR $\Delta$

The individual income tax system utilizes the Form 1040 to collect income and tax information. Starting in 2019, the Form 1040-SR, *U.S. Tax Return for Seniors*, was introduced. A taxpayer born before January 2, 1955, was able to use Form 1040-SR. The form generally mirrors Form 1040. A variation of the basic form is an electronically filed form. (The forms can be found in Section 7, 2019 Forms.) For 2019, there were only three numbered schedules instead of the six used in 2018. Schedules 2 and 4 were combined into Schedule 2 to report additional taxes. Schedules 3 and 5 were combined into Schedule 3 to report any credits and payments not claimed on Form 1040 or Form 1040-SR. Schedule 6 is obsolete; the information previously requested on that schedule is now reported on Forms 1040.

### Form 8814

See "Parents' Election To Report Child's Interest and Dividends."

### Gambling Earnings

(included in line 8, Schedule 1)

Gambling earnings include proceeds from lotteries, raffles, etc., and are included in line 8, Schedule 1. These gambling earnings were edited into a separate field during service center processing. Gambling losses were not allowed to offset winnings on line 8. Instead, gambling losses were an itemized deduction reported on Schedule A. (See also "Gambling Loss Deduction" and "Other Net Income or Net Loss.")

### Gambling Loss Deduction

(included in line 16, Schedule A)

Gambling losses (to the extent of gambling winnings) were fully deductible for taxpayers who itemized deductions. (See also "Gambling Earnings," "Total Itemized Deductions," and "Miscellaneous Itemized Deductions.")

### General Business Credit $\Delta$

(line 6a, Schedule 3)

The general business credit consists of the:

- investment credit;
- research credit;
- low-income housing credit;
- disabled access credit;
- renewable electricity production credit;
- Indian employment credit;
- orphan drug credit;
- new markets credit;
- small employer pension plan startup credit;
- employer-provided child care facilities and services credit;
- biodiesel fuels credit;
- low sulfur diesel fuel production credit;
- distilled spirits credit;
- nonconventional source fuel credit (carryforward only);
- energy-efficient home credit;
- energy-efficient appliance credit (carryforward only);
- alternative motor vehicle credit;
- alternative fuel vehicle refueling property credit;
- enhanced oil recovery credit;
- mine rescue team training credit;
- agricultural chemicals security credit (carryforward only);
- credit for employer differential wage payments;
- carbon dioxide sequestration credit;
- qualified plug-in electric drive motor vehicle credit;
- qualified plug-in electric vehicle credit (carryforward only);
- employee retention credit;
- new hire retention credit (carryforward only);
- credit from electing large partnerships (carryforward only); and

- oil and gas production from marginal wells credit.

Taxpayers claiming more than one of these credits were required to summarize them on Form 3800, *General Business Credit*. The general business credit was limited to 100 percent of the first \$25,000 (\$12,500 for a married couple filing separately) of tax liability, and 25 percent of the excess over \$25,000. If the current year general business credit exceeded the tax liability limitation, the excess amount could be carried back to the preceding tax year, then forward 20 years.

Starting in 2008, the general business credit was expanded to accommodate certain general business credits allowed against the alternative minimum tax. These credits consisted of the:

- investment credit;
- work opportunity credit;
- alcohol and cellulosic biofuel fuels credit;
- low-income housing credit;
- renewable electricity, refined coal, and Indian coal production credit;
- credit for employer Social Security and Medicare taxes paid on certain employee tips;
- qualified railroad track maintenance credit;
- credit for small employer health insurance premiums;
- credit for increasing research activities; and
- employer credit for paid family and medical leave.

Starting in 2010, the *Small Business Jobs Act of 2010* allowed general business credits for eligible small businesses to offset both the regular and alternative minimum tax (AMT). Such eligible small business credits determined for the first tax year in 2010 are carried back 5 years. For purposes of the statistics in this publication, an eligible small business is a sole proprietorship with average gross receipts (reduced by returns and allowances) of less than \$50 million for the 3-tax-year period preceding the tax year of the credits. For 2013 and forward, taxpayers could only take carryforwards of these eligible small business credits.

### General Sales Tax Deduction

See “Sales Tax Deduction.”

### Global Intangible Low Tax Income Amount

(included in line 8, Schedule 1)

A taxpayer who was a U.S. shareholder (including a partner of a domestic partnership) and who owned stock in one or more controlled foreign corporations had to include certain portions of their global intangible low-taxed income in gross income. This amount was included in line 8 on Schedule 1.

### Health Care: Individual Responsibility $\Delta$

For 2019 a taxpayer no longer needed to make a shared responsibility payment or file Form 8965 if they didn't have minimal essential health care coverage for part or all of 2019.

### Health Coverage Tax Credit (formerly Health Insurance Credit)

(line 13c, Schedule 3)

The health coverage tax credit, which had expired at the end of 2013, was reinstated retroactive to January 1, 2014. A taxpayer who was an eligible trade adjustment assistance (TAA), alternate TAA, or Pension Benefit Guaranty Corporation pension recipient was able to take this credit (claimed on Form 8885). A taxpayer could not take the credit if he or she was covered under any employer-sponsored health plan. The credit was equal to 72.5 percent of the amount the taxpayer paid for qualified health insurance, minus any Archer medical savings account and health savings account (HSA) distributions used to pay the amount. For these statistics, the health coverage credit was divided into three parts: the amount used to offset income tax before credits; the amount used to offset all other taxes; and the refundable portion.

### Health Savings Account Deduction $\Delta$

(line 12, Schedule 1)

A deduction for contributions to a health savings account (HSA) was limited to \$3,500; \$7,000 for family coverage (claimed on Form 8889). These limits were \$1,000 higher if the taxpayer was age 55 or older. A taxpayer could not contribute to an HSA starting the first month that he or she was enrolled in Medicare. A taxpayer was able to exclude from income a qualified funding distribution made from an IRA to an HSA. This was a one-time distribution made directly by the trustee of the taxpayer's IRA to the HSA. In addition, an employer was able to make a rollover contribution to an employee's HSA from a qualified health flexible spending arrangement or a qualified health reimbursable arrangement.

### Home Mortgage Interest Deduction

(lines 8a+8b, Schedule A)

The total home mortgage interest deduction consists of interest paid to financial institutions on Schedule A, line 8a, and interest paid to individuals on Schedule A, line 8b. (See also “Interest Paid Deduction.”)

### Home Mortgage Interest Paid to Financial Institutions

(line 8a, Schedule A)

See “Home Mortgage Interest Deduction.”

### Home Mortgage Interest Paid to Individuals

(line 8b, Schedule A)

See “Home Mortgage Interest Deduction.”

## Household Employment Tax

(line 7a, Schedule 2)

Taxpayers paying domestic employees more than \$2,100 annually generally had to pay Social Security, Medicare, and Federal unemployment taxes for these employees by filing Schedule H, Household Employment Taxes, with their income tax return. For 2019, the Federal Unemployment Tax (FUTA) tax rate was 6.0 percent, but the taxpayer could subtract up to 5.4 percent of this if they paid State unemployment taxes. The rate for the employee and employer portion of Social Security tax was 6.2 percent each, or 12.4 percent in total. The Medicare tax rate was 1.45 percent each. Beginning in 2013, taxpayers had to withhold a 0.9 percent Additional Medicare Tax from wages they paid to an employee in excess of \$200,000 in a calendar year. The Additional Medicare Tax was only imposed on the employee.

## Income Subject to Tax

See “Modified Taxable Income.”

## Income Tax After Credits

(line 12b, Form 1040 minus part or all of lines 13a and 13b, 18a, 18b and 18c, Form 1040; 2, Schedule 2; 9 and 13a, Schedule 3)

To arrive at income tax after credits, taxpayers deducted total credits (line 13a and 13b, Form 1040) from income tax before credits (line 12b, Form 1040). For these statistics, tax was further reduced by the excess advance premium tax credit repayment (line 2, Schedule 2) and the portion of the earned income credit (line 18a, Form 1040), additional child tax credit (18b, Form 1040), American opportunity credit (line 18c, Form 1040), net premium tax credit (line 9, Schedule 3), the regulated investment company credit (line 13a, Schedule 3), and health coverage credit (line 13c, Schedule 3) which did not result in a negative tax. These portions of the earned income credit, American opportunity credit, net premium tax credit, the regulated investment company credit, and health coverage credit were included in the total refundable credits used to offset income tax before credits. Any tax remaining after subtraction of all credits, including the credits mentioned above, was tabulated as “income tax after credits.”

## Income Tax Before Credits

(line 12b, Form 1040)

In this report, this amount consisted of the tax liability on taxable income, computed by using the tax tables, tax rate schedules, Schedule D Tax worksheet, foreign-earned income worksheet, Schedule J, *Income Averaging for Farmers and Fishermen*, or Form 8615, plus Form(s) 8814 (line 11a(1), Form 1040), any additional taxes from Form 4972 (line 11a(2), Form 1040), 962 election (line 11a(3), Form 1040), the alternative minimum tax (line 1, Schedule 2), and the excess advance premium tax credit repayment (line 2, Schedule 2). If income included any repatriated (section 965) income, some taxpayers deducted the amounts deferred to other tax years from income tax before credits. (See also “Repatriated Deferred Income.”)

## Income Tax Withheld

(line 17, Form 1040)

“Income tax withheld” included amounts deducted from salaries, wages, and tips, as reported on Form W-2; amounts deducted from pensions, annuities, and certain gambling winnings as reported on Forms 1099-R and W-2G; and amounts withheld from distributions of profit-sharing, retirement plans, and individual retirement accounts, as reported on Form 1099-R.

In some cases, a backup withholding rate of 28 percent was required for interest, dividend, and royalty payments which, generally, were not subject to withholding.

## Individual Retirement Arrangement (Deductible) Payments $\Delta$

(line 19, Schedule 1)

An individual retirement arrangement (IRA) is a savings program that generally allows a taxpayer to set aside money for retirement. In addition to the traditional IRA, there were two other plans available: the education IRA and the Roth IRA. Information on these two IRAs can be found under their separate headings.

Taxpayers not covered by an employment retirement plan may have been able to deduct all contributions to a traditional IRA. For taxpayers covered by a retirement plan at work, the traditional IRA deduction phased out between \$103,000 and \$123,000 of modified AGI for married persons filing jointly and surviving spouses; between \$64,000 and \$74,000 for single filers, heads of households, or married filing separately taxpayers living apart; and between \$0 and \$10,000 for married filing separately taxpayers living together. If one spouse was an active participant in an employer plan but the other was not, the deduction for the IRA contribution of the spouse not covered by an employer plan phased out between modified AGI of \$193,000 and \$203,000. Deductible contributions could be subtracted from the employee’s total income in arriving at adjusted gross income.

Contributions to an IRA (whether or not it was deductible) were limited to the lesser of: (a) the individual’s taxable compensation for the year, or (b) \$6,000 (\$7,000, if age 50 or older). Married couples filing a joint return could contribute up to \$6,000 (\$7,000, if age 50 or older) to each spouse’s IRA, even if one spouse had minimal or no compensation. Therefore, the total combined IRA contributions could be up to \$12,000 (\$14,000, if age 50 or older) for a year.

Unless they were disabled, taxpayers could not start withdrawing funds from the traditional IRA account until they reached age 59½. After age 70½, taxpayers were required to begin withdrawals. Penalty taxes were assessed if the taxpayer failed to comply with these limitations. The additional tax on early withdrawals from a traditional IRA was eliminated if the distributions were used for qualified higher education expenses. This additional tax was also eliminated on distributions

up to \$10,000 from traditional or Roth IRAs if the distributions were used to buy, build, or rebuild a qualified first home. A taxpayer was able to exclude from income a qualified funding distribution made from an IRA to an HSA. Payments to an IRA for a particular taxable year had to be made no later than the due date of the individual's return for that year. (See also "Roth IRA" and "Education IRA.")

### Individual Retirement Arrangement Taxable Distributions $\Delta$

(line 4b, Form 1040)

For 2019, the Individual Retirement Arrangement and pensions and annuities were separated into different lines on 1040 as in Tax Year 2017 and prior. In 2018, the Individual Retirement Arrangement and pensions and annuities were combined into one line. Any money or property received from a taxpayer's IRA account was considered a distribution and, generally, had to be included in the taxpayer's total income in the year received. Exempted from this rule were tax-free roll-over distributions from one retirement account to another, distributions where the payout represented previously taxed nondeductible IRA contributions, distributions from a Roth IRA, distribution made to the taxpayer's HSA account, and distributions from an IRA made directly by the trustee to a qualified charitable organization if the taxpayer was at least 70½ when the distribution was made. If a taxpayer converted from a traditional IRA to a Roth IRA, the taxpayer was required to include in gross income the amount that would have been reported in income if a withdrawal from this IRA had been made. The taxpayer did not include in gross income any part of the conversion that was a nondeductible contribution in a traditional IRA.

Starting in 2010, the \$100,000 modified AGI limit on roll-overs and conversions from eligible retirement plans to Roth IRAs was eliminated. Also, married taxpayers filing separately were allowed to roll over or convert amounts to a Roth IRA.

### Interest Paid Deduction

(line 10, Schedule A, includes lines 8e and 9)

The rules for deducting home mortgage interest for 2019 were: (1) if a taxpayer took out a mortgage before October 13, 1987, secured by the taxpayer's main or second home, all the interest was deductible; (2) if the taxpayer's mortgage was after October 13, 1987, and the funds were used to buy, build, or improve that home, all interest could be deducted if the total of all mortgages on the property was \$750,000 or less (\$375,000 if married filing separately); and (3) taxpayers could no longer deduct any of the interest on home equity loans on their main or second home other than to buy, build, or improve that home.

Generally, investment interest (interest paid on money borrowed that is allocable to property held for investment) was

fully deductible up to the amount of net investment income. Beginning in 1993, the net investment income that was to be compared to investment interest could not include any net capital gains or qualified dividends that were taxed on the capital gains tax rates. Interest relating to business, royalty, and rental income was deducted directly from these items and was not reflected in the interest paid statistics.

Taxpayers could deduct mortgage insurance premiums for mortgage insurance contracts issued after December 31, 2006. They also could include in interest deductible points, which were points not reported on Form 1098.

### Interest Received

See "Taxable Interest Received."

### Interest, Tax-Exempt

See "Tax-Exempt Interest."

### Investment Interest Expense Deduction

(line 9, Schedule A)

See "Interest Paid Deduction" and "Total Itemized Deductions."

### Itemized Deduction Limitation

See "Total Itemized Deductions."

### Itemized Deductions

See "Total Itemized Deductions" and specific itemized deductions.

### Limitation on Business Losses $\Delta$

(included in line 8, Schedule 1)

Taxpayers had their business losses limited to their total gross income and gains attributable to those trades or businesses plus \$250,000 (or \$500,000 in the case of a joint return). The excess amount was reported as other income on Form 1040, Schedule 1, and could be treated as net operating loss for the following tax year. With the enactment of the *CARES Act* on March 27, 2020, these losses were no longer limited.

### Limited State and Local Taxes

(line 5e, Schedule A)

The deduction for State and local income, sales, and property taxes was limited to a combined, total deduction of \$10,000 (\$5,000 if married filing separately).

### Long-Term Loss Carryover

(line 14, Schedule D)

Long-term capital losses from the prior-year Schedule D that are not included in taxable income are carried over to the current year. (See "Sales of Capital Assets, Net Gain or Loss.")

## Marginal Tax Rates

“Marginal tax rate” as cited in this publication is the highest statutory rate on taxable income. It includes ordinary tax rates and capital gains tax rates. This concept does not include the effects of AMT, Net Investment Income Tax, or tax credits. Also, for some taxpayers, the statutory marginal tax rate may differ from the effective marginal tax rate. For example, extra income received by certain taxpayers resulted in the phase-out of deductions and credits (i.e., student loan interest deduction, education credit, etc.). Therefore, an extra \$1 of income could have added more than \$1 of taxable income. While this taxpayer could face a statutory marginal tax rate of 37.0 percent, the effective marginal rate faced by the taxpayer would be somewhat higher. (See also “Tax Generated.”)

## Marital Filing Status

(header, Form 1040)

The five marital filing status classifications were:

- (1) single person (not head of household or surviving spouses);
- (2) married person filing jointly;
- (3) married person filing separately;
- (4) head of household; and
- (5) surviving spouse.

Marital filing status was usually determined as of the last day of the tax year. The exception was, if a spouse died during the tax year, the surviving spouse was considered married for the entire year. If a taxpayer was divorced during the tax year and did not remarry, the taxpayer was considered to be unmarried for the entire year. Surviving spouse status could only be used by those taxpayers with a qualifying dependent whose spouse died in 2017 or 2018. Starting in 2013, if a taxpayer had a same-sex spouse and had been legally married in a State (or foreign country), the taxpayer and his or her spouse generally had to use the married filing jointly or married filing separately filing status.

## Medical and Dental Expenses

(line 1, Schedule A)

See “Medical and Dental Expenses Deduction.”

## Medical and Dental Expenses Deduction

(lines 1–4, Schedule A)

Qualified medical expenses included non-reimbursed payments made for the diagnosis, treatment, or prevention of disease, or for medical or dental insurance. However, taxpayers who took the self-employed health insurance adjustment had to reduce their total premium deduction by the amount of the adjustment (see “Self-Employed Health Insurance”). In general, medical and dental expenses could be claimed as an itemized deduction to the extent that they exceeded 7.5 percent of adjusted gross income in 2019. Amounts paid for medicine and

drugs were deductible only if they were available by prescription only, or they were for insulin. Taxpayers could deduct costs for transportation to obtain medical care, and also a maximum of \$50 per day for certain lodging expenses incurred while traveling to obtain medical care. Capture of data for these lines was limited to those taxpayers that had a value on line 4, medical and dental expenses deduction. (See also “Total Itemized Deductions.”)

## Medical and Dental Expenses Limitation

(line 3, Schedule A)

See “Medical and Dental Expenses Deduction” and “Total Itemized Deductions.”

## Medical Savings Account Deduction

See “Archer Medical Savings Account Deduction.”

## Minimum Tax Credit

(line 6b, Schedule 3)

See “Prior-Year Minimum Tax Credit.”

## Miscellaneous Deductions Other Than Gambling

(included in line 16, Schedule A)

Other fully deductible expenses included such items as impairment-related work expenses for disabled persons, and amortizable bonds. (See also “Total Itemized Deductions.”)

## Modified Taxable Income

“Modified taxable income” is the term used to describe “income subject to tax,” the actual base on which tax is computed for the statistics in Tables 3.4, 3.5, and 3.6. For most taxpayers filing current-year returns, modified taxable income is identical to “taxable income.” For those returns with a Form 8814, Parents’ Election To Report Child’s Interest and Dividends, attached, modified taxable income includes the sum of all children’s interest and dividend income taxed at a 10-percent rate, as well as the parent’s taxable income.

For prior-year returns included in the 2019 statistics, a modified taxable income was calculated by using the tax rate schedule for 2019 to impute a hypothetical taxable income amount necessary to yield the given amount of tax reported. The same was done for returns that used the foreign-earned income worksheet, Schedule J, *Income Averaging for Farmers and Fishermen*, 962 election, or had any tax from repatriated (section 965) income deferred to other tax years when reporting income tax before credits. In most cases, a person who has no tax will have no modified taxable income. Since the tax rate schedule is used to generate the modified taxable income, it is possible for a person to have up to \$4 of taxable income but have no modified taxable income, because the tax reported would be zero. The exception is for certain taxpayers who only have income taxed at the long-term capital gains rates, and that income is less than the cutoff for the beginning of the

24-percent tax bracket. In this case, the taxpayer would have no tax and would have modified taxable income that was taxed at 0 percent.

### **Mortgage Insurance Premiums $\Delta$**

(line 8d, Schedule A)

Taxpayers for 2019 (and retroactively to 2018 with an amended return) were able to take a deduction for mortgage insurance premiums. The deduction was phased out for taxpayers with AGI between \$100,000 and \$109,000 (\$50,000 and \$54,500 for married filing separately). If a taxpayer's adjusted gross income was more than \$109,000 (\$54,000 if married filing separately), the amount of deduction was limited to \$0. Taxpayers may have been able to treat mortgage insurance premiums paid in connection with home acquisition debt as home mortgage interest. Taxpayers could deduct mortgage insurance premiums for mortgage insurance contracts issued after December 31, 2006.

### **Mortgage Interest Credit**

(line 6c, Schedule 3)

Taxpayers could claim this credit only if they were issued a qualified Mortgage Credit Certificate (MCC) by a State or local governmental unit. This credit was calculated by using Form 8396, *Mortgage Interest Credit*.

### **Net Investment Income Tax**

(lines 8b, Schedule 2)

Beginning in 2013, taxpayers may have been subject to a Net Investment Income Tax (NIIT). The NIIT is 3.8 percent of the smaller of a taxpayer's net investment income or the excess of a taxpayer's modified adjusted gross income over \$200,000 if single or head of household (\$250,000 if married filing jointly or qualifying widow(er), or \$125,000 if married filing separately). For these statistics, the NIIT was excluded from "All Other Taxes" and instead included in "Total Income Tax." The NIIT was calculated on Form 8960, *Net Investment Income Tax—Individuals, Estates, and Trusts*.

### **Net Long-Term Adjustment**

(lines 8b(g) -10(g), Schedule D)

See "Sales of Capital Assets, Net Gain or Loss"; also "Net Long-Term Capital Gain or Loss from Sales of Capital Assets."

### **Net Long-Term Capital Gain or Loss**

(line 15, Schedule D)

This includes gain or loss from sales of capital assets, gain or loss from other forms, gain or loss from a partnership/S corporation, estates and trust held more than 1 year, and capital gain distributions less any long-term loss carryover. (See also "Sales of Capital Assets, Net Gain or Loss.")

### **Net Long-Term Cost or Basis**

(lines 8a(e)-10(e), Schedule D)

See "Sales of Capital Assets, Net Gain or Loss"; also "Net Long-Term Capital Gain or Loss from Sales of Capital Assets."

### **Net Long-Term Gain or Loss from Other Forms**

(line 11, Schedule D)

The other forms include:

- Long-term gains from Forms 4797, 2439, and 6252;
- Long-term gain or loss from Forms 4684, 6781, and 8824.

See "Sales of Capital Assets, Net Gain or Loss."

### **Net Long-Term Gain or Loss from Partnership/S Corporation**

(line 12, Schedule D)

See "Sales of Capital Assets, Net Gain or Loss"; also "Net Long-Term Capital Gain or Loss."

### **Net Long-Term Gain or Loss from Sales of Capital Assets**

(lines 8a(h) -10(h), Schedule D)

These include gains or losses from sales of capital assets, such as stocks, bonds, mutual funds, etc., held more than 1 year. Starting in 2013, taxpayers could combine certain transactions on line 8a of Schedule D without completing Form 8949. Taxpayers must have received a Form 1099-B that shows basis was reported to the IRS and does not show a non-deductible wash sale loss in box 5, and the taxpayers did not need to make any adjustments to the basis or type of gain or loss reported on Form 1099-B or to their gain or loss. For all other transactions not summarized on line 8a, taxpayers had to report these on Form 8949, *Sales and Other Dispositions of Capital Assets*, into three categories: Transactions reported on Form 1099-B with basis reported to the IRS; transactions reported on Form 1099-B but basis not reported to the IRS; or transactions without a Form 1099-B. In addition to these three categories, taxpayers had to report the transactions' net long-term sales price, cost or basis and adjustments to gain or loss on lines 8b through 10 of the Schedule D. (See "Sales of Capital Assets, Net Gain or Loss"; also "Net Long-Term Capital Gain or Loss.")

### **Net Long-Term Sales Price**

(lines 8a(d)-10(d), Schedule D)

See "Sales of Capital Assets, Net Gain or Loss"; also "Net Long-Term Capital Gain or Loss from Sales of Capital Assets."

### **Net Operating Loss**

(included in line 8, Schedule 1)

"Net operating loss" was the excess loss of a business when taxable income for a prior year was less than zero. The loss could be applied to the AGI for the current year and

carried forward up to 20 years. (See also “Other Net Income or Net Loss.”)

### Net Premium Tax Credit

(line 9, Schedule 3)

Beginning in 2014, a taxpayer may have been eligible for the premium tax credit if they, their spouse, or a dependent enrolled in health insurance through the Health Insurance Marketplace. The premium tax credit was used to help pay for this health insurance. If the total premium tax credit that a taxpayer was eligible for was greater than the advance payments of the premium tax credit that the taxpayer had already received, then the taxpayer claimed the difference as a net premium (refundable) tax credit. If advance payments of the premium tax credit were more than the premium tax credit the taxpayer could claim, the taxpayer had to pay an excess advance premium tax credit repayment. These calculations were made using Form 8962, *Premium Tax Credit*. (See also “Advance Payment of Premium Tax Credit,” “Excess Advance Premium Tax Credit Repayment,” “Total Premium Tax Credit,” and Total Refundable Credits.”)

### Net Short-Term Adjustment

(lines 1b(g)-3(g), Schedule D)

See “Sales of Capital Assets, Net Gain or Loss”; also “Net Short-Term Capital Gain or Loss from Sales of Capital Assets.”

### Net Short-Term Capital Gain or Loss

(line 7, Schedule D)

This included gain or loss from sales of capital assets, gain or loss from other forms, and gain or loss from a partnership/S corporation, estates and trusts held 1 year or less, minus any short-term loss carryover. (See also “Sales of Capital Assets, Net Gain or Loss.”)

### Net Short-Term Cost or Basis

(lines 1a(e)-3(e), Schedule D)

See “Sales of Capital Assets, Net Gain or Loss”; also “Net Short-Term Capital Gain or Loss from Sales of Capital Assets.”

### Net Short-Term Gain or Loss from Other Forms

(line 4, Schedule D)

The other forms include:

- Short-term gains from Form 6252;
- Short-term gain or loss from Forms 4684, 6781, and 8824.

(See “Sales of Capital Assets, Net Gain or Loss.”)

### Net Short-Term Gain or Loss from Partnership/S Corporation

(line 5, Schedule D)

See “Sales of Capital Assets, Net Gain or Loss”; also “Net Short-Term Capital Gain or Loss.”

### Net Short-Term Gain or Loss from Sales of Capital Assets

(lines 1a(h)-3(h), Schedule D)

These include gains or losses from sales of capital assets, such as stock, bonds, mutual funds, etc., held 1 year or less. Starting in 2013, taxpayers could combine certain transactions on line 1a of Schedule D without completing Form 8949. A taxpayer must have received a Form 1099-B that shows basis was reported to the IRS and does not show a nondeductible wash sale loss in box 5, and the taxpayer did not need to make any adjustments to the basis or type of gain or loss reported on Form 1099-B or to their gain or loss. For all other transactions not summarized on 1a, taxpayers had to report these on Form 8949, *Sales and Other Dispositions of Capital Assets*, into three categories: Transactions reported on Form 1099-B with basis reported to the IRS; transactions reported on Form 1099-B but basis not reported to the IRS; or transactions without a Form 1099-B. In addition to these three categories, taxpayers had to report the transactions’ net short-term sales price, cost or basis, and adjustments to gain or loss on lines 1b through 3 of Schedule D. (See “Sales of Capital Assets, Net Gain or Loss”; also “Net Short-Term Capital Gain or Loss.”)

### Net Short-Term Sales Price

(lines 1a(d)-3(d), Schedule D)

See “Sales of Capital Assets, Net Gain or Loss”; also “Net Short-Term Capital Gain or Loss from Sales of Capital Assets.”

### Nondeductible Passive Losses

(calculated on Form 8582)

Nondeductible passive losses were calculated by subtracting deductible passive losses reported on Form 8582 (line 16) from total current-year passive losses (lines 1b+2a+3b) and were limited to zero.

### Nontaxable Combat Pay Election

(line 18a, Form 1040; line 6b, Schedule 8812)

Members of the U.S. Armed Forces who served in a combat zone could have excluded certain pay from their income. The qualified taxpayer’s entitlement to the pay must have been fully accrued in a month during which they served in a combat zone or were hospitalized because of wounds, disease, or injury incurred while serving in the combat zone. However, this nontaxable pay was used to gain benefits for both the EIC and additional child tax credit purposes.

### Nontaxable Returns

See “Taxable and Nontaxable Returns.”

### Nonrefundable Education Credits

(line 3, Schedule 3)

See “Education Credits.”

**One-Half of Self-Employment Tax**

See “Deductible Part of Self-Employment Tax.”

**Ordinary Dividends**

(line 3b, Form 1040)

See “Dividends.”

**Other Adjustments**

(included in line 22, Schedule 1)

See “Statutory Adjustments.”

**Other Income Less Loss**

See “Other Net Income or Net Loss.”

**Other Net Income or Net Loss**

(line 8, Schedule 1)

Included in “other income” were items such as taxable distributions from a Coverdell education savings account, distributions from qualified tuition programs (though some may be excluded if not more than the taxpayer’s qualified higher education expenses), taxable distributions from Archer MSAs, prizes, awards, jury duty fees, Alaska permanent fund dividends, alternative trade adjustment assistance payments, reimbursements for medical expenses, real estate taxes, or home mortgage interest taken as a deduction in a previous year, children’s interest and nonqualified dividends (including Alaska permanent fund dividends) from Form 8814, and any other income subject to tax for which no specific line was provided on the return form. Any foreign-earned income exclusions or “net operating loss” in an earlier year (that was carried forward and deducted for 2018) were entered as a negative amount on this line by the taxpayer but edited into separate fields during service center processing. However, any employer-provided foreign housing exclusions were included in other income (as a negative amount). Gambling earnings, cancellation of debt, global intangible low tax income amount, and limitation on business losses which were entered on this line by the taxpayer, were also edited into a separate field during service center processing.

**Other Payments**

(line 13d, Schedule 3)

“Other payments” is a residual category included in the total of “tax payments,” but not shown separately. (See also “Tax Payments,” “Credit from Regulated Investment Companies,” and “Health Coverage Tax Credit” (formally known as “Health Insurance Credit”).)

**Other Tax Credits**

(included in lines 6c, 13d, Schedule 3)

“Other tax credits” is a residual category in the statistics. It includes other miscellaneous credits that did not belong in any other category and were used to offset income tax before credits.

**Other Taxes**

(line 8c, Schedule 2)

See “All Other Taxes,” “Additional Medicare Taxes,” and “Net Investment Income Tax.”

**Other Taxes Deduction**

(line 6, Schedule A)

“Other taxes” consisted of any deductible tax other than State and local income taxes, real estate taxes, and personal property taxes. One example is taxes paid to a foreign country or U.S. possession. (See also “Taxes Paid Deduction.”)

**Other Than Cash Contributions**

(line 12, Schedule A)

See “Contributions Deduction.”

**Overpayment**

(line 20, Form 1040)

An overpayment of tax occurred when “total tax payments” exceeded “total tax.” Overpayments included the amount of any “refundable portion” of the refundable credits. An overpayment could be refunded or credited toward the estimated tax for the following year. (See also “Credit to 2020 Estimated Tax” and “Refund.”)

**Overpayment Refunded**

(line 21a, Form 1040)

See “Overpayment” and “Refund.”

**Parents’ Election To Report Child’s Interest and Dividends**

(calculated on Form 8814)

A parent could elect to report on his or her return income received by his or her child. If the election were made, the child was not required to file a return. A parent could make this election if the child:

- was under age 19 (or under 24 if full-time student) at the end of 2019;
- had income only from interest and dividends, including Alaska permanent fund dividends and capital gain distributions;
- had gross income for 2019 that was less than \$11,000;
- did not file a joint return;
- had no estimated tax payments for 2019;
- did not have any overpayment of tax shown on his or her 2018 return applied to the 2019 return; and
- had no Federal income tax withheld from his or her income (backup withholding).

If the parents were not filing a joint return, special rules applied to determine which parent could make the election.

(See also “Modified Taxable Income” “Income Tax Before Credits”, and “Other Net Income or Net Loss.”)

### Partnership and S Corporation Net Income or Loss

(line 32, Schedule E)

Partnerships and S Corporations (formerly Subchapter S Corporations) are not taxable entities; therefore, tax on their net profit or loss was levied, in general, directly on the members of the partnership or shareholders of the S Corporation. The profit or loss shown in the statistics was the taxpayer’s share of the ordinary gain or loss of the enterprise, and certain payments made to the taxpayer for the use of capital or, for partnerships, as salary. Net long-term capital gains received from partnerships and S Corporations were reported on Schedule D.

If a return showed net income from one partnership or S Corporation and a net loss from another, the two were added together, and the return was tabulated by the net amount of income or loss in the appropriate column. Beginning in 1987, net income and net loss were reported separately for passive and non-passive partnership and S Corporation activities. Passive losses were limited to the amount that could offset passive income.

### Partnership and S Corporation Net Income Less Loss

See “Partnership and S Corporation Net Income or Loss.”

### Passive-Activity Losses

Losses generated by any “flow-through” business activity (such as partnerships or S Corporations for which profits and certain other amounts were passed directly through to the owners), in which the taxpayer did not “materially participate” (i.e., was not involved regularly and substantially in the operations of the activity), qualified as passive-activity losses. (See also “Nondeductible Passive Losses.”)

### Payments to a Keogh Plan

(line 15, Schedule 1)

Self-employed individuals were allowed to contribute to a Keogh retirement plan or a simplified employment pension plan and to deduct all or part of such contributions in computing adjusted gross income. The deductible amount was based on net earnings from self-employment.

### Payment with Request for Extension of Filing Time

(line 10, Schedule 3)

This payment was made when the taxpayer filed Form 4868, *Application for Automatic Extension of Time to File U.S. Individual Income Tax Return*. The extension granted the taxpayer additional time to file a tax return but did not extend the time for paying the expected tax. Full payment of any tax due had to be made with the application for extension.

### Penalty on Early Withdrawal of Savings

(line 17, Schedule 1)

Taxpayers who paid penalties for the premature withdrawal of funds from time savings accounts or deposits could deduct those penalties as an adjustment to total income.

### Penalty Tax on Qualified Retirement Plans

(line 6, Schedule 2)

If taxpayers withdrew any funds from an Individual Retirement Arrangement or qualified retirement plan before they were either age 59½ or disabled, they were subject to a penalty tax equal to 10 percent of the premature distribution. Any taxpayer who failed to withdraw the minimum required distribution after reaching age 70½ had to pay a 50-percent excise tax on the excess accumulation. Contributions to an IRA in excess of the legal limitation for the year (the lesser of \$6,000, \$12,000 if married filing jointly, or the taxpayer’s compensation for the year) were subject to an excise tax equal to 6 percent of the excess contribution. If the taxpayer(s) were over 50, these limits were \$1,000 higher per taxpayer. A taxpayer, if required, filed a Form 5329, *Additional Taxes on Qualified Plans (Including IRAs) and Other Tax-Favored Accounts*, to report these withdrawals and calculate any tax penalty.

### Pensions and Annuities Δ

(line 4c and 4d, Form 1040)

For 2019, the Individual Retirement Arrangement and pensions and annuities were separated into different lines on 1040 as in Tax Year 2017 and prior. In 2018, the Individual Retirement Arrangement and pensions and annuities were combined into one line. Generally, pensions are periodic income received after retirement for past services with an employer, while annuities are income payable at stated intervals after payment of a specific premium. A taxpayer could acquire a pension or annuity either by purchase from a commercial organization (usually life insurance, endowment, or annuity contracts) or under a plan or contract connected with the taxpayer’s employment. Those pensions or annuities obtained in connection with employment could be purchased entirely by the taxpayer or financed in part (a contributory plan) or in whole (a noncontributory plan) through employer contributions.

Since a noncontributory plan was paid for entirely by an employer, the amount received by the employee was fully taxable. This fully taxable pension was included on lines 4c and 4d. For the taxpayer who participated in a contributory retirement plan while employed, the amount received was only partially taxable. In general, the amount excludable from gross income, the nontaxable portion, represented the taxpayer’s contributions under the plan, while the taxable portion represented the employer’s contribution and earnings on the entire investment. The nontaxable contribution had to be amortized over the expected lifetime of the taxpayer.

The entire amount of pensions and annuities received for the year was reported on line 4c of Form 1040. The taxable

portion was computed on a separate worksheet and entered on line 4d.

### Personal Property Taxes Deduction

(line 5c, Schedule A)

Personal property tax could be included as a deduction if the tax was an annual tax based on value alone. (See also “Taxes Paid Deduction.”)

### Predetermined Estimated Tax Penalty $\Delta$

(line 24, Form 1040)

If a return showed taxes of \$1,000 or more owed on line 23 (tax due at time of filing) and this amount was more than 10 percent of the total tax, the taxpayer could owe a penalty, unless tax payments in the current year equaled or exceeded prior-year tax liability. Also, taxpayers could owe a penalty if they underpaid their 2019 estimated tax liability for any payment period. Form 2210, *Underpayment of Estimated Tax by Individuals, Estates, and Trusts* was used to determine the amount of a penalty, if any. For 2019, if a taxpayer’s withholding and estimated payments were at least 80 percent of total tax, the taxpayer could apply for a waiver of this penalty.

For this report, the predetermined estimated tax penalty includes only the amount calculated by the taxpayer when the return was initially filed.

### Prior-Year Minimum Tax Credit

(line 6b, Schedule 3)

A minimum tax credit could be taken for 2019 by certain taxpayers who paid alternative minimum tax for 2018 or prior years. If all of the minimum tax credit (claimed on Form 8801) could not be used for 2019, the excess could be carried forward to later years. Beginning in 2013, a refundable credit was no longer available to taxpayers with a credit carryforward from earlier years.

### Qualified Dividends

(line 3a, Form 1040)

See “Dividends.”

### Qualified Business Income Deduction $\Delta$

(line 10, Form 1040)

A taxpayer was able to deduct up to 20 percent of qualified business income from a qualified trade or business, plus 20 percent of qualified REIT (real estate investment trust) dividends and qualified PTP (publicly traded partnership) income. The deduction could have been taken in addition to a standard deduction or itemized deductions. The simplified worksheet for a taxpayer to figure the qualified business income deduction was Form 8995, *Qualified Business Income Deduction Simplified Computation*. If the taxpayer didn’t meet the taxable income requirements (more than \$163,000 for all but married filing jointly which was \$326,600) to file a Form 8995 or were a

patron in a specified agricultural or horticultural cooperative, the taxpayer used Form 8995-A, *Qualified Business Income Deduction*.

### Qualified Electric Vehicle Credit

(line 6c, Schedule 3)

Taxpayers could have only claimed this credit if they had any qualified electric vehicle passive activity credits from prior years that were allowed for the current tax year. This credit was calculated first on Form 8582-CR and then on Form 8834.

### Qualified Plug-In Electric Vehicle Credit

(line 6c, Schedule 3)

Taxpayers could have claimed this credit for any nondepreciable qualified plug-in electric vehicle placed in service during the tax year. A qualified plug-in electric vehicle is generally any vehicle that is propelled to a significant extent by an electric motor that draws electricity from a battery that can be recharged from an external source. This credit was calculated by using Form 8936 and brought to Schedule 3, line 6c, for personal use of a vehicle. Any credit for business use of a vehicle was brought to Form 3800, *General Business Credit*.

### Real Estate Taxes

(line 5b, Schedule A)

This amount included taxes paid on real estate that was owned and not used for business by the taxpayer. The real estate taxes could only be used as a deduction if the taxes were based on the assessed value of the property. Also, the assessment had to be made uniformly on property throughout the community, and the proceeds had to be used for general community or governmental purposes. (See also “Taxes Paid Deductions.”)

### Recapture Taxes

(included in line 8c, Schedule 2)

The investment tax credit provisions of the law included a recapture rule which required taxpayers to pay back some or all of any investment credit previously taken on property disposed of before the end of the useful life claimed in computing the credit. The law specified that if property qualifying for the credit was disposed of before the end of its useful life, the tax for the year of disposal was increased by the difference between the credit originally claimed and the credit that would have been allowed based on the shorter actual life. Tax credits could not be applied against this additional tax. Also, tax from recapture of an education credit, the low-income housing credit, the Indian employment credit, the new markets credit, credit for employer-provided child care facilities, alternative motor vehicle credit, the alternative fuel vehicle refueling credit and the qualified plug-in electric drive motor vehicle credit, recapture of Federal mortgage subsidy, and COBRA premium assistance were reported here.

**Refund**

(line 21a, Form 1040)

A tax refund included all overpayment of income taxes not applied by the taxpayer as a credit to the next year's estimated tax. (See also "Overpayment.")

**Refundable Credits**

See "Total Refundable Credits."

**Refund Credited to Next Year**

(line 22, Form 1040)

See "Credit to 2020 Estimated Tax."

**Regular Tax Computation**

Typically, the taxpayer, in determining the amount of "tax generated," first computed taxable income. Depending on marital status and size of taxable income, the taxpayer then used the tax table or applied the rates from one of four tax rate schedules to determine tax. Also, returns of taxpayers who had taxes computed by the Internal Revenue Service were classified under the regular tax computation method. If a taxpayer filed a Form 8615 or had any long-term capital gains, or qualified dividends taxed at a rate less than the tax tables, then the returns were not considered as having regular tax computations.

**Rent Net Income or Net Loss**

(line 21, Schedule E, columns A, B, C)

Rent net income or net loss was determined by deducting from gross rent the amounts for depreciation, repairs, improvements, interest, taxes, commissions, advertising, utilities, insurance, janitorial services, and any other allowable expenses related to the rented property. In these statistics, total rental net loss includes passive losses that were not deductible in figuring AGI. (See also "Passive Activity Losses" and "Total Rental and Royalty Income or Loss in AGI.")

**Rent Net Income Less Loss**

See "Rent Net Income or Net Loss."

**Repatriated Deferred (Section 965) Income as Shareholders of Certain Foreign Corporation Income**

(line 8, Schedule 1)

A taxpayer who owned (directly or indirectly) certain foreign corporations, may have had to include certain deferred foreign income on their individual income tax returns. The taxpayer may have paid the entire amount of tax due with respect to this deferred foreign income in 2019 or elected to make payments in eight installments or in the case of certain stock owned through an S corporation, elect to have deferred payment until the occurrence of a triggering event. The income was included on the Schedule 1, line 8, other net income or loss.

**Repatriated Deferred (Section 965) Income as Shareholders of Certain Foreign Corporation Future Installments**

(line 13d, Schedule 3)

Taxpayers were allowed to make payments for the section 965 net tax liability portion of their overall income tax liability over annual installments. The amount deferred was reported on line 13d as a credit against total taxes.

**Residential Energy Credits**

(line 5, Schedule 3)

The residential energy credit consisted of the nonbusiness energy property credit and the residential energy-efficient property credit. For the nonbusiness energy property credit, taxpayers were able to take a credit of 10 percent of the costs paid or incurred in 2019 for qualified energy-efficient improvements and residential energy property. Starting in 2011, the nonbusiness credit was limited to a lifetime total of \$500. For the residential energy-efficient property credit, taxpayers could have taken a credit of 30 percent of their costs of qualified solar electric property, solar water heating property, small wind energy property, geothermal heat pump property, and fuel cell property. Both of these are calculated using Form 5695, *Residential Energy Credits*.

**Retirement Savings Contribution Credit (Saver's Credit)**

(line 4, Schedule 3)

A taxpayer could take a credit of up to \$1,000 (\$2,000 if married filing jointly) for qualified retirement savings contributions, if their adjusted gross income was less than or equal to \$32,000 (\$48,000 if head of household, \$64,000 if married filing jointly). This credit was calculated by using Form 8880.

**Roth IRA  $\Delta$** 

(lines 16-25, Form 8606)

Similar to traditional IRAs, Roth IRAs were generally used for retirement. Unlike traditional IRAs, contributions to a Roth IRA were not deductible. However, qualified distributions from a Roth IRA were tax exempt. The contribution limit for Roth IRAs was the lesser of \$6,000 (\$7,000 if age 50 or older), \$12,000, \$13,000, or \$14,000 (depending whether none, one, or two of the taxpayers were age 50 or older and married filing jointly), or the individual's taxable compensation, unless the taxpayer contributed to both Roth and traditional IRAs. In that case, the contribution limit for Roth IRAs was reduced by all contributions (other than employer contributions) to traditional IRAs for the taxable year. The eligibility for Roth IRAs was phased out for joint filers with modified AGI between \$193,000 and \$203,000, married taxpayers filing separately and living with their spouses with modified AGI between \$0 and \$10,000, and all other filers (single, head of household, and married filing separately and not living with their spouse at any

time during the year) with modified AGI between \$122,000 and \$137,000. Roth IRA contributions could be made after the taxpayer reached the age of 70½. Also, the minimum distribution rules did not apply to living taxpayers as they did for traditional IRAs.

Starting in 2010, all taxpayers (including married taxpayers filing separately) were eligible to make taxable rollovers of traditional IRAs to Roth IRAs without paying the 10-percent tax on early withdrawals. When a taxpayer converted an amount from a traditional IRA to a Roth IRA, they were required to include in gross income the amount that they would have reported in income if they had made a withdrawal from this IRA. The taxpayer did not include in gross income any part of the conversion that was a nondeductible contribution in a traditional IRA. (See also “Individual Retirement Arrangement Taxable Distributions.”)

### Royalty Net Income or Net Loss

(line 21, Schedule E, columns A, B, C)

Net royalties consisted of gross royalties less deductions for depletion, depreciation, office rent, legal fees, clerical help, interest, taxes, and similar items. Gross royalties included revenues from oil, gas, and other mineral rights; revenue from patents; and revenue from literary, musical, or artistic works. Certain royalties received under a lease agreement on timber, coal, and domestic iron ore were eligible for capital gains or ordinary loss treatment under Internal Revenue Code section 1231. As a result of the separate computation, those royalties are reflected in the statistics for “sales of capital assets” and “sales of property other than capital assets.” (See also “Total Rental and Royalty Net Income or Loss.”)

### Royalty Net Income Less Loss

See “Royalty Net Income or Net Loss.”

## S Corporations

See “Partnership and S Corporation Net Income or Loss.”

## Salaries and Wages

(line 1, Form 1040)

Salaries and wages, as reported on the tax return, were amounts of compensation primarily for personal services. The following items were included:

- salaries;
- wages;
- commissions;
- bonuses;
- tips;
- fees;
- excess reimbursement of employee business expenses;

- moving expenses allowances;
- the difference between the fair market value of certain property and the discount price for which it was purchased by a taxpayer from his or her employer;
- severance pay;
- sick pay;
- the value of exercising a stock appreciation right;
- directors’ fees;
- vacation allowances;
- most disability payments;
- strike and lockout benefits;
- the value of certain nonmonetary payments for services (e.g., merchandise, accommodations, certain meals or lodging, certain stock purchase plans, or property);
- dependent care benefits;
- employer-provided adoption benefits; and
- scholarship and fellowship grants.

Identifiable amounts for any of these categories, which may have been reported by taxpayers as “other income,” are treated as salaries and wages for these statistics.

## Sales of Capital Assets, Net Gain or Loss

(line 6, Form 1040)

In general, capital assets for tax purposes included all property held for personal use or investment. Examples include homes, furniture, automobiles, and stocks and bonds. Most assets used for business activities were specifically excluded from treatment as capital assets. (See also “Sales of Property Other Than Capital Assets, Net Gain or Loss.”)

The following concepts are used in the computation of net capital gain or loss for this report:

*Long term or short term:* If the holding period was 1 year or less, the asset was considered short term; otherwise, it was considered long term. All capital gain distributions (distributions from mutual funds on the profit of sale of stock or bonds to the taxpayer) were considered long term. Short-term capital gains were taxed at ordinary rates.

*Net capital gain:* If the combination of net short-term gain or loss and net long-term gain or loss resulted in a positive amount, the taxpayer had a net capital gain. The full amount of this gain, whether short term or long term, was included in adjusted gross income.

*Net capital loss:* If the combination of net short-term gain or loss and net long-term gain or loss resulted in a negative amount, the taxpayer showed a net capital loss. The amount of net capital loss included in adjusted gross income was limited to the smaller of the actual net capital loss or \$3,000 (\$1,500

for married persons filing separately). Any excess capital losses over the \$3,000 limit could be carried over to subsequent tax years. (See “Long-Term Loss Carryover” and “Short-Term Loss Carryover.”)

The maximum rate for most long-term net capital gains was 20 percent for taxpayers in the top ordinary income bracket. For taxpayers between the 15-percent ordinary income bracket and the top ordinary income bracket of 37 percent, the capital gain rate was 15 percent, and for taxpayers in the 15-percent ordinary income bracket or lower, the capital gain rate was 0 percent. Collectible gains and up to 50 percent of eligible gains on qualified small business stock were taxed at the 28-percent rate. Gains from the sale of certain depreciable real property were taxed at a 25-percent rate. Therefore, the long-term capital gain tax rate could be 0 percent, 15 percent, 20 percent, 25 percent, or 28 percent. Taxpayers were generally able to exclude from income up to \$250,000 (\$500,000 for married couples filing a joint tax return) of the gain on the sale of their homes.

### Sales of Capital Assets Reported on Schedule D

See “Sales of Capital Assets, Net Gain or Loss.”

### Sales of Property Other Than Capital Assets, Net Gain Less Loss

(line 4, Schedule 1)

Property other than capital assets generally included property of a business nature, in contrast to personal or investment property, which were capital assets. Some types of property specifically included in this group were:

- (1) certain depreciable, depletable, and real business property;
- (2) accounts and notes receivable in the ordinary course of business generated from the sale of goods and services ordinarily held for sale by the business or includable in the inventory of the business;
- (3) certain copyrights, literary, musical, or artistic compositions, or similar properties; and
- (4) amounts resulting from certain “involuntary conversions,” including net losses from casualty and theft.

Taxpayers reported all gains and losses not treated as capital gains on Form 4797, *Sales of Business Property*. In some cases, these were reported on Form 4684, *Casualties and Thefts*, and then brought to line 14 of Schedule 4797.

### Sales Tax Deduction

(line 5a, Schedule A)

Taxpayers could have elected to deduct State and local general sales taxes instead of State and local income taxes as an itemized deduction on Schedule A. The taxpayer could have used either actual expenses or the optional State sales tax tables.

### Saver’s Credit

See “Retirement Savings Contribution Credit.”

### Schedule D Capital Gain Distributions

(line 13, Schedule D)

See “Sales of Capital Assets, Net Gain or Loss.”

### Self-Employed Health Insurance Deduction

(line 16, Schedule 1)

Self-employed persons, or owners of more than 2 percent of outstanding stock of an S Corporation, if they were not eligible for health coverage under an employer-provided plan, were allowed to deduct, in the calculation of AGI, up to 100 percent of the amount paid for health insurance for themselves and their families.

### Self-Employed SEP, SIMPLE, and Qualified Plans

See “Payments to a Keogh Plan.”

### Self-Employment Tax $\Delta$

(line 4, Schedule 2)

All net earnings greater than \$400 (\$108.28 for church employees) were subject to the self-employment tax. The ceiling for the Social Security tax on taxable self-employment income for 2019 was \$132,900. The limit did not apply for purposes of the Medicare tax. This tax was calculated on Schedule SE.

Beginning in 2013, the self-employment tax rate reverted back to 15.3 percent from 13.3 percent. The Medicare portion of the self-employment tax remained at 2.9 percent, while the Social Security portion was increased to 12.4 percent from 10.4 percent. Also beginning in 2013, a 0.9 percent Additional Medicare Tax applied to self-employment income above \$200,000 for single, head of household, or qualifying widow(er) (\$250,000 if married filing jointly or if married filing separately). (See also “Total Tax Liability.”)

### Short-Term Loss Carryover

(line 6, Schedule D)

These are short-term capital losses from the prior-year Schedule D that were carried over to the current year. (See “Sales of Capital Assets, Net Gain or Loss.”)

### Size of Adjusted Gross Income

(line 8b, Form 1040)

The amount of adjusted gross income reported by the taxpayer on the return was the basis for classifying data by size of adjusted gross income. Returns without positive adjusted gross income, such as deficit returns or returns on which income and loss were equal, were classified as having “no adjusted gross income” and appear as a separate class in most basic tables. The absence of a class labeled “no adjusted gross income” indicates that any deficit or break-even returns in a table were included

in the lowest income-size class. (See “Adjusted Gross Income Less Deficit.”)

### **Social Security and Medicare Taxes $\Delta$**

For 2019, the maximum wage subject to Social Security tax was \$132,900. All wages were subject to Medicare tax. Beginning in 2013, the Social Security tax reverted back to 6.2 percent from 4.2 percent. The Medicare tax portion remained at 1.45 percent. Also beginning in 2013, a 0.9 percent Additional Medicare Tax applied to Medicare wages, railroad retirement compensation, and self-employment income above \$200,000 for single, head of household, or qualifying widow(er) (\$250,000 if married filing jointly or if married filing separately).

### **Social Security and Medicare Tax on Unreported Tip Income**

(line 5a, Schedule 2)

Cash tips amounting to \$20 or more received by the taxpayer in a month while working for any one employer were subject to withholding of income tax, Social Security tax (or the equivalent railroad retirement tax), and Medicare tax. If the employer was unable to withhold the Social Security and Medicare tax, the amount of uncollected Social Security tax on tips was indicated on the employee’s Form W-2, and the employee was required to report the uncollected tax and pay it with the Form 1040. If the employee did not report the tips to the employer, the employee was required to compute the Social Security and Medicare tax on unreported tips on Form 4137 and attach it to Form 1040.

### **Social Security Benefits**

(lines 5a, 5b, Form 1040)

“Social Security benefits” included any monthly benefit under Title II of the Social Security Act or the part of a “tier 1 railroad retirement benefit” that was equivalent to a Social Security benefit. Social Security benefits were not taxable unless the taxpayer’s total income (including tax-exempt interest) plus one-half of total Social Security benefits exceeded certain levels. The maximum taxable amount was up to 85 percent of the net Social Security benefits received. Social Security benefits received were reported on Form 1040, line 5a, and the taxable portion was reported on line 5b. Taxpayers were required to report gross Social Security benefits on line 5a even if the taxpayer had no taxable Social Security benefits.

### **Standard Deduction $\Delta$**

(included in line 9, Form 1040)

For 2019, the basic standard deduction was increased for all filers. Taxpayers who were age 65 or over or blind could claim an additional standard deduction amount of \$1,300 or \$1,650, based on filing status. Both the basic and additional standard deductions were determined by marital filing status, as shown below:

#### *Single*

Basic deduction of \$12,200;

Each taxpayer 65 or over or blind was allowed an additional \$1,650 deduction each for age and blindness.

#### *Married filing jointly or surviving spouses*

Basic deduction of \$24,400;

Each taxpayer 65 or over or blind was allowed an additional \$1,300 deduction each for age and blindness.

#### *Married, filing separately*

Basic deduction of \$12,200;

Each taxpayer 65 or over or blind was allowed an additional \$1,300 deduction each for age and blindness.

#### *Head of Household*

Basic deduction of \$18,350;

Each taxpayer 65 or over or blind was allowed an additional \$1,650 deduction each for age and blindness.

The basic standard deduction claimed by filers who were dependents of other taxpayers was the greater of \$1,100 or the dependent’s earned income plus \$350 (but not more than the regular standard deduction amount).

In these statistics, the basic standard deduction is tabulated for all taxpayers who claimed it, including those who were 65 or over and/or blind. The “additional standard deduction” total includes only the additional amount that was taken by those taxpayers who were 65 or over and/or blind.

### **State and Local Income Taxes**

(included in line 5a, Schedule A)

State and local income taxes paid could be used as an itemized deduction if a taxpayer had State and local income taxes withheld from their salary during 2019; had paid State and local income taxes directly during 2019 for a prior year; or had made mandatory contributions to specific State disability funds. (See also “Taxes Paid Deduction.”)

### **State and Local Taxes**

(line 5a, Schedule A)

This is the total of “State and local income taxes” or “sales tax deduction.” The taxpayer could elect to use either, but not both.

### **State Income Tax Refund**

(line 1, Schedule 1)

If a taxpayer received a refund, credit, or offset of State or local income taxes in 2019 that was paid or deducted before 2019, all or part of that amount had to be reported as income to the extent that an itemized deduction for State and local income taxes had previously resulted in a tax benefit.

## Statutory Adjustments $\Delta$

(lines 10-22, Schedule 1)

Certain adjustments to total income were allowed as deductions in the calculation of adjusted gross income. For 2019, statutory adjustments included educator expenses; certain business expenses of reservists, performing artists, and fee-basis government officials; health savings account deductions; moving expenses for members of the Armed Services; the deductible part of self-employment tax, payments to a self-employed Keogh retirement plan or a simplified employee pension (SEP), and the self-employed health insurance deduction; penalty on early withdrawal of savings; alimony paid; payments to an IRA; student loan interest deductions; deduction for certain domestic production activities; Archer MSA deductions; and the foreign housing deduction. Each of the above items is described separately in this section. In addition, statutory adjustments included: jury duty pay, deductible expenses related to income of personal property, the forestation/reforestation amortization deduction, the repayment of supplemental unemployment benefits under the *Trade Act of 1974*, contributions to section 501(c)(18)(D) pension plans, contributions by certain chaplains to section 403(b) plans, attorney fees and court costs paid for actions involving certain unlawful discrimination claims, and attorney fees and court costs paid in connection with an award from the IRS for information provided that helped the IRS detect tax law violations. If not listed separately, these amounts are included in the “other adjustments” category in the statistics.

## Student Loan Interest Deduction $\Delta$

(line 20, Schedule 1)

For 2019, eligible taxpayers were allowed to deduct up to \$2,500 for interest paid on qualified higher-education loans. The deduction was phased out for taxpayers with modified AGI between \$70,000 to \$85,000 (\$140,000 to \$170,000 for taxpayers filing a joint return).

## Tax Credits

See “Total Tax Credits.”

## Tax Due at Time of Filing

(line 23, Form 1040)

“Tax due” was reported on returns on which total tax liability exceeded total tax payments.

## Tax from Recomputing Prior-Year Investment Credit

(included in line 8c, Schedule 2)

See “Recapture Taxes.”

## Tax Generated $\Delta$

This amount was the tax computed on “modified taxable income.” The tax rates for 2019 were 10, 12, 22, 24, 32, 35, and 37 percent. The 10-percent bracket applied to taxable income equal to or below \$9,700 for single filers and married persons

filing separately; \$19,400 for joint filers or surviving spouses; and \$13,850 for heads of households. The 12-percent bracket applied to taxable income in excess of the 10-percent bracket ceiling and equal to or below \$39,475 for single filers and married persons filing separately; \$78,950 for joint filers or surviving spouses; and \$52,850 for heads of households. The 22-percent tax bracket applied to taxable income in excess of the 12-percent bracket ceiling and equal to or below \$84,200 for single filers, heads of households, and married persons filing separately, and \$168,400 for joint filers or surviving spouses. The 24-percent tax rate applied to taxable income in excess of the 22-percent tax bracket ceiling and equal to or below \$160,725 for single filers and married persons filing separately, \$160,700 for heads of households, and \$321,450 for joint filers or surviving spouses. The 32-percent tax rate applied to taxable income in excess of the 24-percent tax bracket ceiling and equal to or below \$204,100 for single filers, married persons filing separately, and heads of households, and \$408,200 for joint filers or surviving spouses. The 35-percent tax rate applied to taxable income in excess of the upper boundary for the 32-percent tax bracket ceiling equal to or below \$510,300 for single filers and heads of households, \$612,350 for joint filers or surviving spouses, and \$306,175 for married persons filing separately. The 37-percent tax rate applied to taxable income in excess of the upper boundary for the 35-percent tax bracket. The tax generated at each of these tax rates is shown in Tables 3.4, 3.5, and 3.6.

If children under age 19, or under 24 if they were a full-time student, had investment (unearned) income that exceeded \$2,100, there were two methods of reporting this income. In 2018, there was a new law that retroactively altered the rules on Form 8615 on how the tax for certain children who have unearned income was elected to be calculated either using the rate of the estate and trust or based on the rate of the parents, whichever was lower. If the taxpayer elected the method using the tax rate of the estates or trust, the rates when using Form 8615 to report unearned income were: 10 percent (unearned income \$2,600 and under), 24 percent (unearned income \$2,601 to \$9,300), 35 percent (unearned income \$9,301 to \$12,750), and 37 percent (unearned income over \$12,750). Under the *Tax Cuts and Jobs Act*, only these estate and trust brackets and rates could be used. Thus, the choice to use the parents’ rates for 2018 were only used for amended returns. However, for 2019, taxpayers had this choice available to them. The data were tabulated separately in Tables 3.4, 3.5, and 3.6. If the parents elected to report the child’s investment income on their return, they attached a Form 8814. The investment income in excess of \$2,100 was included on either Form 1040, line 21, or in the case of capital gain distributions on either Form 1040, line 13, or Schedule D, line 13, or qualified dividends on Form 1040, line 9b. The remaining investment income in excess of the \$1,050 standard deduction was taxed at the child’s rate, added to the parents’ tax on Form 1040, and was also tabulated separately in Tables 3.4, 3.5, and 3.6.

On most returns, except those with additional taxes from special computations, “tax generated” equaled “income tax before credits.” (See also “Modified Taxable Income.”)

## Tax Payments

(lines 17, Form 1040; 8, 10, 11, 12, 13, and 14, Schedule 3)

These payments were generally made before the return was filed and were applied against tax liability to determine any amount payable or refundable at the time of filing. They consisted of the following:

- (1) income tax withheld, including backup withholding;
- (2) estimated tax payments (including those from overpayment on 2018 return);
- (3) payment with request for extension of filing time;
- (4) excess Social Security, Medicare, or railroad retirement tax withheld;
- (5) credit for tax on certain gasoline, fuel, and oil; and
- (6) other payments.

Each of the above is described under a separate heading in this section.

Although the earned income credit, additional child tax credit, American opportunity credit, net premium tax credit, regulated investment company credit, and health coverage credit were included with tax payments on the tax return itself (lines 18a, 18b, and 18c Form 1040; 9, 13a, and 13c, Schedule 3), for the statistics they are treated partly as a credit against income tax liability and partly as a refundable amount. (See also “Earned Income Credit,” “Additional Child Tax Credit,” “Education Credits,” “Net Premium Tax Credit,” “Credit from Regulated Investment Companies,” and “Health Coverage Credit.”)

## Tax Penalty

(line 24, Form 1040)

See “Predetermined Estimated Tax Penalty.”

## Tax Rates, Tax Rate Classes

See “Tax Generated.”

## Tax Withheld

(line 17, Form 1040)

See “Income Tax Withheld.”

## Taxable and Nontaxable Returns

The taxable and nontaxable classification of a return for this report is determined by the presence of “total income tax.” Some returns classified as “nontaxable” may have had a liability for other taxes, such as excess advance premium tax credit repayment, self-employment tax, uncollected employee Social Security and Medicare tax on tips, tax from

recomputing prior-year investment credit, penalty taxes on individual retirement accounts, Section 72 penalty taxes, household employment taxes, Additional Medicare Taxes, or golden parachute payments. These taxes, however, were disregarded for the purposes of this classification, since four of the above taxes were considered Social Security (rather than income) taxes, and the remaining ones were either based on prior year’s income or were penalty taxes. The advance premium tax credit repayment was not an income tax but a repayment of money previously advanced to taxpayers for paying for health insurance purchased on a health care exchange. Net Investment Income Tax from Form 8960 was added to income tax after credits to create income tax.

For this report, the earned income credit, additional child credit, American opportunity credit, premium tax credit, regulated investment company, and health coverage credit are treated first as an amount used to offset income tax before credits. Since they were refundable, they were subtracted from income tax (for the statistics) after reduction by all other statutory credits. As a result, some returns became nontaxable strictly because of the refundable credits when the refundable credits equaled or exceeded income tax before credits reduced by any other credits.

It should be noted that classification as taxable or nontaxable was based on each return as it was filed and does not reflect any changes resulting from audit or other enforcement activities. (See also “Total Income Tax.”)

## Taxable Income

(line 11b, Form 1040)

Taxable income was derived by subtracting from adjusted gross income any qualified business income deduction and either total itemized deductions or the standard deduction. (See “Modified Taxable Income.”)

## Taxable Interest Received

(line 2b, Form 1040)

This amount was the taxable portion of interest received from bonds, debentures, notes, mortgages, certain insurance policy proceeds, personal loans, bank deposits, savings deposits, tax refunds, and U.S. savings bonds. Also included as interest were “dividends” on deposits or withdrawable accounts in mutual savings banks, savings and loan associations, and credit unions. Interest on State or local government obligations remained tax exempt, but the total tax-exempt interest had to be reported on line 2a of Form 1040. It was not included in the taxpayer’s income for tax purposes. If taxable interest exceeded \$1,500, the taxpayer had to fill out Schedule B to supply the details for taxable interest. (See also “Tax-Exempt Interest.”)

## Taxable IRA Distributions

(included in line 4b, Form 1040)

See “Individual Retirement Arrangements, Pensions and Annuities Taxable Distributions.”

### Taxable Net Capital Gain

(line 16, Schedule D, included in line 6, Form 1040)

See “Sales of Capital Assets, Net Gain or Loss.”

### Taxable Net Capital Loss

(line 21, Schedule D, included in line 6, Form 1040)

See “Sales of Capital Assets, Net Gain or Loss.”

### Taxable Pensions and Annuities

(include in line 4d, Form 1040)

See “Individual Retirement Arrangements, Pensions and Annuities Taxable Distributions.”

### Taxable Social Security Benefits

(line 5b, Form 1040)

See “Social Security Benefits.”

### Taxes from Special Computation

(line 12 a(2), Form 1040)

Taxes from special computation are the additional taxes from lump-sum distributions on Form 4972, *Tax on Lump-Sum Distributions*.

### Taxes Paid Deduction

(lines 5-7, Schedule A)

Taxes allowed as an itemized deduction from adjusted gross income included: personal property taxes, State and local income taxes or general sales taxes, taxes paid to foreign countries or U.S. possessions (unless a foreign tax credit was claimed), and real estate taxes except those levied for improvements that tended to increase the value of the property. The deduction for State and local income, sales, and property taxes was limited to a combined, total deduction of \$10,000 (\$5,000 if married filing separately). Mandatory employee contributions to a State disability fund and employee contributions to a State unemployment fund were also included. However, foreign real estate taxes were no longer deductible. Also, Federal taxes were not deductible. Taxes paid on business property were deducted separately on the schedules for business, rent, royalty, and farm income and are excluded from the “taxes paid” statistics in this report.

### Tax-Exempt Interest

(line 2a, Form 1040)

Tax-exempt interest included interest on certain State and municipal bonds, as well as any tax-exempt interest dividends from a mutual fund or other regulated investment company. This was an information reporting requirement and did not convert tax-exempt interest into taxable interest. It is included as income for certain programs, for example for the earned income credit or taxability of Social Security benefits.

### Total Income

(line 7b, Form 1040)

“Total income” was the sum of the individual income items (lines 1 through 7a) before adjustments.

### Total Income Tax

(line 14, Form 1040—any excess advance premium tax credit repayment on line 2, Schedule 2 + any Net Investment Income Tax on line 8b, Schedule 2 + any Form 4970 tax on line 8c, Schedule 2 - line 18a, Form 1040—line 18b, Form 1040—line 18c, Form 1040—line 13a, Schedule 3 - line 13c, Schedule 3 - portion on line 13d, Schedule 3 related to tax on repatriated income, limited to zero.)

“Total income tax” was the sum of income tax after credits (including the subtraction of the excess advance premium tax credit repayment, earned income credit, additional child tax credit, American opportunity credit, regulated investment company credit, and health coverage credit) less any deferred tax on repatriated (965) income plus the Net Investment Income Tax from Form 8960 and the tax from Form 4970. It did not include any of the other taxes that made up total tax liability. Total income tax was the basis for classifying returns as taxable or nontaxable.

### Total Income Tax Minus Refundable Credits

“Total income tax minus refundable credits” was the sum of total income tax minus the part of refundable credits used to offset other taxes and the refundable part of the credits. This amount can be negative.

### Total Itemized Deductions Δ

(included in line 9, Form 1040)

Itemized deductions from adjusted gross income could be claimed for medical and dental expenses, certain taxes paid, interest paid, charitable contributions, casualty and theft losses, and miscellaneous deductions. Taxpayers could deduct mortgage insurance premiums for mortgage contracts issued after December 31, 2006. However, these were retroactively extended for 2018, and, therefore, could only be deducted on amended returns for that tax year. Itemized deductions were claimed only if they exceeded the total standard deduction, with three exceptions. First, if a taxpayer was married and filing separately, and his or her spouse itemized deductions, the spouse was required to itemize as well. Second, taxpayers in several States were required to itemize deductions on their Federal tax returns if they wished to itemize on their State returns. Third, if a taxpayer benefitted for alternative minimum tax purposes, they might itemize even though the standard deduction was larger. The total amount of itemized deductions was tabulated only from returns showing positive adjusted gross income.

### Total Miscellaneous Deductions

See “Miscellaneous Itemized Deductions.”

**Total Mortgage Interest and Points**

(line 8e, Schedule A)

“Total mortgage interest and points” was the sum of home mortgage interest paid to individuals, paid to financial institutions, deductible points, and mortgage insurance premiums. (See also “Home Mortgage Interest Deduction,” “Qualified Mortgage Insurance Premiums,” and “Deductible Points.”)

**Total Pensions and Annuities**

(line 4c, Form 1040)

See “Individual Retirement Arrangements, Pensions and Annuities.”

**Total Premium Tax Credit**

(line 24, Form 8962)

A taxpayer may have been eligible for the premium tax credit if they, their spouse, or a dependent enrolled in health insurance through the Health Insurance Marketplace. The premium tax credit was used to help pay for this health insurance. The total premium tax credit was the amount that a taxpayer was eligible to receive. The eligible amount was calculated by using taxpayers’ modified AGI, family size, and the amount of the premiums paid. If the total premium tax credit that a taxpayer was eligible for was greater than the advance payments of the premium tax credit that the taxpayer had already received, then the taxpayer claimed the difference as a refundable credit in the form of the net premium tax credit. If advance payments of the premium tax credit were more than the premium tax credit the taxpayer could claim, the taxpayer had to pay an excess advance premium tax credit repayment. (See also “Advance Payment of Premium Tax Credit,” “Excess Advance Premium Tax Credit Repayment,” and “Net Premium Tax Credit.”)

**Total Refundable Credits**

Refundable credits were separated into three categories for their treatment on income tax for the statistics. The first category was the portion of the credit used to offset income tax before credits. If there was any unused credit amount after offsetting income tax, the next portion offset all other taxes. Any remaining amount, after offsetting all other taxes, was put into the last category, called the refundable portion. A taxpayer claiming these credits could potentially have those credits broken down into one, two, or all three of these categories. For 2019, credits broken down this way included the EIC, additional child tax credit, American opportunity credit, net premium tax credit, regulated investment company credit, and health coverage credit.

**Total Refundable Credits, Refundable Portion**

See “Total Refundable Credits.”

**Total Refundable Credits Used To Offset All Other Taxes**

See “Total Refundable Credits.”

**Total Refundable Credits Used To Offset Income Tax Before Credits**

See “Total Refundable Credits.”

**Total Rental and Royalty Net Income or Loss**

(line 26 plus lines 39 and 40, Schedule E)

This income concept consisted of all rent and royalty income and loss that were used in computing adjusted gross income, including farm rental income and suspended rental loss carry-over from prior years. It excluded the portion of rental losses that was not deductible in computing adjusted gross income due to the passive loss rules. Income or loss from real estate mortgage investment conduits was also included in this concept.

**Total Social Security Benefits**

(line 5a, Form 1040)

See “Social Security Benefits.”

**Total State and Local Taxes**

(line 5d, Schedule A)

“Total state and local taxes” was the sum of income taxes or general sales taxes, real estate taxes, and personal property taxes. (See also “State and Local Taxes,” “Real Estate Taxes,” and “Personal Property Taxes.”)

**Total Statutory Adjustments  $\Delta$** 

(line 22, Schedule 1)

“Total statutory adjustments” was the sum of the individual adjustments to income (lines 10-22). (Note: foreign housing, Archer MSA, and other adjustments were reported on line 22.) (See also “Statutory adjustments.”)

**Total Tax Credits**

(lines 7, 9, 13a, and 13c Schedule 3; 18a, 18b, and 18c, Form 1040)

For this report, total tax credits consist of the following:

- (1) foreign tax credit;
- (2) child care credit;
- (3) education credits;
- (4) retirement savings contributions credit;
- (5) child and other dependent tax credit;
- (6) mortgage interest credit;
- (7) residential energy credits;

- (8) general business credit;
- (9) minimum tax credit;
- (10) credit for the elderly and disabled;
- (11) adoption credit;
- (12) qualified plug-in electric drive motor vehicle credit;
- (13) qualified electric vehicle credit;
- (14) alternative motor vehicle credit;
- (15) alternative fuel vehicle refueling property credit;
- (16) other tax credits;
- (17) earned income credit (EIC) used to offset income tax before credits;
- (18) additional child tax credit used to offset income tax before credits;
- (19) American opportunity credit used to offset income tax before credits;
- (20) net premium tax credit used to offset income tax before credits;
- (21) regulated investment company credit used to offset income tax before credits; and
- (22) health coverage credit used to offset income tax before credits.

These amounts were deducted from income tax before credits to arrive at income tax after credits. For the statistics, the portion of the EIC, additional child tax credit, American opportunity credit, net premium tax credit, regulated investment company credit, and health coverage credit that did not result in a negative amount is tabulated as “earned income credit used to offset income tax before credits,” “additional child tax credit used to offset income tax before credits,” “American opportunity credit used to offset income tax before credits,” “net premium tax credit used to offset income tax before credits,” “regulated investment company credit used to offset income tax before credits,” and “health coverage credit used to offset income tax before credits.” Any remaining EIC, additional child tax credit, American opportunity credit, net premium tax credit, regulated investment company credit, and health coverage credit amount could be refunded or applied to other taxes, and is classified separately as “earned income credit refundable portion,” “additional child tax credit refundable portion,” “American opportunity credit refundable portion,” “net premium tax credit refundable portion,” “regulated investment company credit refundable portion,” and “health coverage credit refundable portion,” or “earned income credit used to offset other taxes,” “additional child tax credit used to offset other taxes,” “American opportunity credit used to offset other taxes,” “net premium tax credit used to offset other taxes,” “regulated investment company credit used to offset other taxes,” and “health coverage credit used to offset other taxes.”

All other credits were limited to the amount needed to offset income tax before credits and were not refundable (except the child tax credit) or used to offset any other taxes. (See “Child Tax Credit.”)

### Total Tax Liability

(line 16, Form 1040 modified by the earned income credit, additional child tax credit, American opportunity credit, net premium tax credit, regulated investment company credit, and health coverage credit)

“Total tax liability” was the sum of income tax after credits, self-employment tax, Social Security and Medicare tax on tip income and wages, penalty tax on qualified retirement plans, household employment taxes, repayment of the first-time homebuyer credit, Additional Medicare Taxes, Net Investment Income Tax, additional tax on HSA and MSA distributions, additional tax on Medicare Advantage MSA distributions, tax from recapturing prior-year investment credits, low-income housing credit, Indian employment credit, new markets credit, employer-provided child care facilities credit, alternative motor vehicle credit, alternative fuel vehicle refueling property credit, and the qualified plug-in electric drive motor vehicle credit, tax from recapture of Federal mortgage subsidy COBRA premium assistance, Section 72 penalty taxes, other unspecified taxes which included uncollected FICA (or Social Security) tax on tips, tax on golden parachute payments, Form 4970 tax, excise tax on insider stock compensation from an expatriated corporation, additional tax on income from a nonqualified deferred compensation plan, interest on tax due on installment income from sale of residential lots and timeshares, interest on the deferred tax gain from certain installment sales, additional tax on recapture of a charitable deduction relating to a fractional interest in tangible personal property, look-back interest, repayment of ineligible advance payments of the health coverage tax credit, and the statistics included tax from recapture of education credits. These taxes were then reduced by the earned income credit used to offset all other taxes, additional child tax credit used to offset all other taxes, American opportunity credit used to offset all other taxes, net premium tax credit used to offset all other taxes, regulated investment company credit used to offset all other taxes, and health coverage credit used to offset all other taxes, limited to zero.

### Total Tax Payments

See “Tax Payments.”

### Total Taxable IRA Distributions

See “Individual Retirement Arrangement, Pensions and Annuities Taxable Distributions.”

### Total Unlimited Miscellaneous Deductions

(line 16, Schedule A)

See “Miscellaneous Itemized Deductions,” “Gambling Loss Deduction,” and “Miscellaneous Deductions Other Than Gambling.”

**Tuition and Fees Deduction**

(line 21, Schedule 2)

A taxpayer was able to deduct up to \$4,000 of the qualified tuition and fees paid for themselves, a spouse, or dependents if the taxpayer's modified AGI was under \$65,000 (\$130,000 if married filing jointly). A taxpayer was able to deduct up to \$2,000 if their AGI was higher than the limit but not more than \$80,000 (\$160,000 if married filing jointly). This deduction (calculated on Form 8917) could not be taken if the person could be claimed as a dependent on another taxpayer's return, or if they claimed the education credit for the same student.

**Type of Tax Computation**

(line 12, Form 1040)

Tabulations in Table 3.1 include three methods of computing the tax on income subject to tax. These methods were:

- (1) Regular tax, as computed from the tax tables or tax rate schedules accompanying the Form 1040. Schedule J, *Income Averaging for Farmers and Fishermen*,

foreign-earned income exclusion, 962 election and 965 repatriated income returns are included with regular tax. (See also "Regular Tax Computation.");

- (2) Form 8615, used to compute the tax on investment income of children under 19, or under 24 if they were a student (see also Table 3.1A); and
- (3) Schedule D, Form 1040, used to compute the tax on long-term capital gains (in excess of short-term capital losses). These include returns with capital gain distributions reported on Form 1040 or qualified dividends, also. This tax could be at various rates: 0, 15, 20, 25, or 28 percent.

**Unemployment Compensation**

(line 7, Schedule 1)

All unemployment compensation received was taxable. It did not include any supplemental unemployment benefits received from a company-financed supplemental unemployment benefit fund, which were included in salaries and wages.

# Section 7

## Description of the Sample

This section describes the domain of the study, the sample design and selection, data capture and cleaning, the method of estimation, the sampling variability of the estimates, the methodology of computing confidence intervals, and the table presentation.

### Domain of Study

The statistics in this report are estimates from a probability sample of unaudited *Individual Income Tax Returns* (Form 1040 and 1040-SR (including electronic returns)) filed by U.S. citizens and residents during Calendar Year 2020.

All returns processed during 2020 were subjected to sampling except tentative and amended returns. Tentative returns were not subjected to sampling because the revised returns may have been sampled later, while amended returns were excluded because the original returns had already been subjected to sampling. A small percentage of returns were not identified as tentative or amended until after sampling. These returns, along with those that had no income information, frivolous income information, or fraudulent income information, when recognized, were excluded in calculating estimates.

The estimates in this report are intended to represent all returns filed for Tax Year 2019. While most of the returns processed during Calendar Year 2020 were filed for Tax Year 2019, the remaining returns were mostly for prior years, and a few for noncalendar years ending during 2018 and 2019.

### Sample Design and Selection

The sample design is a stratified probability sample in which the population of tax returns is classified into subpopulations, called strata, and an independent sample is randomly selected from each stratum. Strata are defined by the following characteristics:

- (1) Nontaxable (including no alternative minimum tax) with adjusted gross income or expanded income of \$200,000 or more.

- (2) High business receipts of \$50,000,000 or more.
- (3) Presence or absence of special forms or schedules (Form 2555, Form 1116, Form 1040 Schedule C, and Form 1040 Schedule F).
- (4) Indexed positive or negative income. Sixty variables are used to derive positive and negative incomes. These positive and negative income classes are deflated using the Chain-Type Price Index for the Gross Domestic Product to represent a base year of 2016. (See footnote [1] for details.)

Table C shows the population and sample count for each stratum. (See references [1] and [2] for details.) The sampling rates range from 0.10 percent to 100 percent.

Tax data processed to the IRS Individual Master File at the Enterprise Computing Center at Martinsburg during Calendar Year 2020 were used to assign each taxpayer's record to the appropriate stratum and to determine whether the record should be included in the sample. Records are selected for the sample either if they possess certain combinations of the four ending digits of their Social Security number (SSN), or if their five ending digits of an eleven-digit number generated by a mathematical transformation of the SSN is less than or equal to the stratum sampling rate times 100,000. (See reference 3 for details.)

### Data Capture and Cleaning

Data capture for the SOI sample begins with the designation of a sample of administrative records. While the sample was being selected, the process was continually monitored for sample selection and data collection errors. In addition, a small subsample of returns was selected and independently reviewed, analyzed, and processed for a quality evaluation.

The administrative data and controlling information for each record designated for this sample were loaded into an online submission processing database. Computer data for the selected administrative records were then used to identify inconsistencies, questionable values, and missing values, as well as any additional variables that an editor needed to extract for each record.

*Valerie Testa and Tracy Haines designed the sample and prepared the text and the tables in this section under the direction of Tammy Rib, Chief, SOI Program Support, Statistical Services Branch.*

After the completion of the submission processing center review, data were further validated, tested, and balanced. Adjustments and imputations for selected fields based on prior-year data and other available information were used to make each record internally consistent. Finally, prior to publication, all statistics and tables were reviewed for accuracy and reasonableness considering the provisions of the tax law, taxpayer reporting variations and limitations, economic conditions, and comparability with other statistical series.

Some returns designated for the sample were not available for SOI processing because other areas of IRS needed the return at the same time. For Tax Year 2019, about 0.5 percent of the sample returns were unavailable.

Due to the COVID-19 pandemic, delays in processing Tax Year 2019 returns occurred because of the temporary closing of submission processing centers. Approximately 5.8 million returns were ultimately processed during the beginning of Tax Year 2020. These returns were moved into the Tax Year 2019 study. There were also approximately 8.6 million returns filed for the purpose of receiving Economic Incentive Payments due to COVID-19. These returns had no significant income information included and were excluded in calculating estimates.

### Method of Estimation

Weights were obtained by dividing the population count of returns in a stratum by the number of sampled returns for that stratum. The weights were adjusted to correct for misclassified returns and were then applied to the sample data to produce all the estimates in this report.

### Sampling Variability and Confidence Intervals

The sample used in this study is one of a large number of samples that could have been selected using the same sample design. The estimates calculated from these different samples would vary. The standard error (SE) of an estimate is a measure of the variation among the estimates from the possible samples and, thus, is a measure of the precision with which an estimate from a particular sample approximates the average of the estimates calculated from all possible samples.

The standard error may be expressed as a percentage of the value being estimated. This ratio is called the coefficient of variation (CV). Tables 1.4CV, 2.1CV, and 3.3CV contain CVs calculated for the estimates included in Tables 1.4, 2.1, and 3.3 of this report.

The sample estimate and an estimate of its standard error permit the construction of interval estimates with prescribed confidence that the interval includes the population value. If all possible samples were selected under essentially the same conditions and an estimate and its estimated standard error were

calculated from each sample, then 95 percent of the intervals from 1.96 standard errors below the estimate to 1.96 standard errors above the estimate would include the population value. This is a 95-percent confidence interval (CI).

Tables 1.4CI, 2.1CI, and 3.3CI contain estimated 95-percent confidence intervals for the estimates included in Tables 1.4, 2.1, and 3.3 of this report.

### Table Presentation

Whenever an unweighted frequency is less than 3, the estimate and its corresponding amount are either combined or deleted to avoid disclosure of information about specific taxpayers. (The combined or deleted data, if any, are included in the corresponding column totals.) These combinations and deletions are indicated by a double asterisk (\*\*). Estimates based on less than 10 sampled returns are considered unreliable. These estimates are noted by a single asterisk (\*) to the left of the data.

In the tables, a dash (-) in place of a frequency or an amount indicates that either no returns in the population had the characteristic or the characteristic was so rare that it did not appear on any of the sampled returns.

### Footnote

- [1] Indexing of positive and negative income is performed by dividing each by the ratio of the Chain-Type Price Index for the Gross Domestic Product (GDP) for the third quarter of 2019 to that for the third quarter of the base year of 2016 [4].

This also includes approximately 8.6 million filed for the purpose of Economic Incentive Payments. These returns had no significant income information and were excluded.

**Reporting Excess Deductions on Termination of an Estate or Trust on Forms 1040, 1040-SR, and 1040-NR for Tax Year 2018 and Tax Year 2019**

Under [Proposed Regulations 1132095-18](#), an excess deduction on termination of an estate or trust allowed in arriving at adjusted gross income (Internal Revenue Code (IRC) section 67(e) expenses) is reported as an adjustment to income on Forms 1040, 1040-SR, and 1040-NR; non-miscellaneous itemized deductions are reported, as applicable, on Schedule A (Form 1040 or 1040-SR) or Schedule A (Form 1040-NR); and miscellaneous itemized deductions are not deductible. Taxpayers may rely on the proposed regulations for tax years of beneficiaries beginning after 2017 and before the final regulations are published.

For tax year 2019, an excess deduction for IRC section 67(e) expenses is reported as a write-in on Schedule 1 (Form 1040 or 1040-SR), Part II, line 22, or Form 1040-NR, line 34. On the dotted line next to line 22 or line 34 (depending on which form is filed), enter the amount of the adjustment and identify it using the code "ED67(e)". Include the amount of the adjustment in the total amount reported on line 22 or line 34.

For tax year 2018, an excess deduction for IRC section 67(e) expenses is reported as a write-in on Schedule 1 (Form 1040), line 36, or Form 1040-NR, line 34. On the dotted line next to line 36 or line 34 (depending on which form is filed), enter the amount of the adjustment and identify it using the code "ED67(e)". Include the amount of the adjustment in the total amount reported on line 36 or line 34.

# Form 1040 and 1040-SR IRS Helpful Hints

For 2019, you will use Form 1040 or, if you were born before January 2, 1955, you have the option to use new Form 1040-SR.

You may only need to file Form 1040 or 1040-SR and none of the numbered schedules. Schedules 1 through 3. However, if your return is more complicated (for example, you claim certain deductions or credits or owe additional taxes), you will need to complete one or more of the numbered schedules. Below is a general guide to which schedule(s) you will need to file based on your circumstances. See the instructions for the schedules for more information.

If you e-file your return, you generally won't notice much of a change and the software you use will generally determine which schedules you need.

## Affordable Care Act—What You Need To Know

### Requirement To Reconcile Advance Payments of the Premium Tax Credit

The premium tax credit helps pay premiums for health insurance purchased from the Marketplace. Eligible individuals may have advance payments of the premium tax credit made on their behalf directly to the insurance company.

If you or a family member enrolled in health insurance through the Marketplace and advance payments of the premium tax credit were made to your insurance company to reduce your monthly premium payment, you must attach **Form 8962** to your return to **reconcile** (compare) the advance payments with your premium tax credit for the year.

The Marketplace is required to send **Form 1095-A** by **January 31, 2020**, listing the advance payments and other information you need to complete **Form 8962**.

1. You will need **Form 1095-A** from the Marketplace.
2. Complete **Form 8962** to claim the credit and to reconcile your advance credit payments.
3. Include **Form 8962** with your **Form 1040**, **Form 1040-SR**, or **Form 1040-NR**. (Don't include Form 1095-A.)

### Health Coverage Reporting

If you or someone in your family was an employee in 2019, the employer may be required to send you **Form 1095-C**. **Part II of Form 1095-C** shows whether your employer offered you health insurance coverage and, if so, information about the offer. You should receive **Form 1095-C** by early **March 2020**. This information may be relevant if you purchased health insurance coverage for 2019 through the Health Insurance Marketplace and wish to claim the premium tax credit on **Schedule 3, line 9**. However, you don't need to wait to receive this form to file your return. You may rely on other information received from your employer. If you don't wish to claim the premium tax credit for 2019, you don't need the information in **Part II of Form 1095-C**. For more information on who is eligible for the premium tax credit, see the Instructions for Form 8962.

**Reminder: Health care coverage.** If you need health care coverage, go to [www.HealthCare.gov](http://www.HealthCare.gov) to learn about health insurance options for you and your family, how to buy health insurance, and how you might qualify to get financial assistance to buy health insurance.

## What's New

**Form 1040-SR.** Form 1040-SR, U.S. Tax Return for Seniors, has been introduced for 2019. You can use this form if you were born before January 2, 1955. The form generally mirrors Form 1040.

These instructions cover both Forms 1040 and 1040-SR.

**Fewer numbered schedules.** This year, there are only 3 numbered schedules instead of 6. Schedules 2 and 4 were combined into Schedule 2, and it's where you will report any additional taxes you may owe. Schedules 3 and 5 were combined into Schedule 3 and it's where you will report any credits that you didn't claim on Form 1040 or 1040-SR.

**IRA and pension reporting.** You will now report your IRA distributions and pensions and annuities on separate lines. Use lines 4a and 4b on Form 1040 or 1040-SR to report IRA distributions and the taxable amount. Use new lines 4c and 4d to report pensions and annuities and the taxable amount. See the instructions for *Lines 4c and 4d* and *Lines 4e and 4d*, later.

**Capital gain or (loss) is now reported on line 6.** In 2018, capital gain or (loss) was reported on Schedule 1 (Form 1040), line 13. In 2019, it will be reported on Form 1040 or 1040-SR, line 6.

**Health care coverage shared responsibility payment.** For 2019 you no longer need to either make a shared responsibility payment or file Form 8965 if you don't have minimum essential health care coverage for part or all of 2019. The "Full-year health care coverage or exempt" box has been removed from Form 1040.

**Standard deduction amount increased.** For 2019, the standard deduction amount has been increased for all filers. The amounts are:

- Single or Married filing separately—\$12,200.

For information about any additional changes to the 2019 tax law or any other developments affecting Form 1040 or 1040-SR or the instructions, go to [IRS.gov/Form1040](https://www.irs.gov/Form1040).

- Married filing jointly or Qualifying widow(er)—\$24,400.
- Head of household—\$18,350.

**Qualified business income deduction.** The simplified worksheet for figuring your qualified business income deduction is now Form 8995. Qualified Business Income Deduction Simplified Computation. If you don't meet the requirements to file Form 8995, use Form 8995-A, Qualified Business Income Deduction. For more information, see each form's instructions.

**Alternative minimum tax (AMT) exemption amount increased.** The AMT exemption amount is increased to \$71,700 (\$111,700 if married filing jointly or qualifying widow(er); \$55,850 if married filing separately). The income levels at which the AMT exemption begins to phase out have increased to \$510,300 (\$1,020,600 if married filing jointly or qualifying widow(er)).

**Qualified opportunity investment.** If you held a qualified investment in a qualified opportunity fund at any time during the year, you must attach Form 8997, Initial and Annual Statement of Qualified Opportunity Fund (QOF) Investments, to your return. For more information, see Form 8997 and its instructions.

**Virtual currency.** If, in 2019, you engaged in a transaction involving virtual currency you will need to file Schedule I. See the instructions for Schedule I for more information.

**Email address.** An optional field for your email address has been added to Forms 1040 and 1040-SR.

**Medicaid waiver payments.** Changes have been made to how Medicaid waiver payments are treated for purposes of the earned income credit. See the instructions for line 18a.

**Extended tax provisions.** Recent legislation extended certain tax benefits that had expired at the end of 2017. These tax benefits include the following:

- Tuition and fees deduction.
- Deduction for mortgage insurance premiums.
- Nonbusiness energy property credit.

- Alternative fuel vehicle refueling credit.
- Indian employment credit.

If you are eligible for one or more of these benefits in 2019, you can claim them on your 2019 return. If you are eligible for one or more of these benefits for tax year 2018, you will need to file an amended return, Form 1040-X, to claim them. See [IRS.gov/Form1040X](https://www.irs.gov/Form1040X) for more information about amending a tax return.

**Disaster tax relief.** Disaster tax relief was enacted for those impacted by certain federally declared disasters. The tax benefits provided by this relief include the following:

- An increased standard deduction based on your qualified disaster losses. See the instructions for line 9 and the Instructions for Schedule A for information on qualifying for and figuring the increased standard deduction.
- Election to use your 2018 earned income to figure your 2019 earned income credit. See the instructions for line 18b and the Instructions for Schedule 8812 for more information on this election.
- Election to use your 2018 earned income to figure your 2019 additional child tax credit. See the instructions for line 18b and the Instructions for Schedule 8812 for more information on this election.

Have you tried IRS e-file? It's the fastest way to get your refund and it's free if you are eligible. Visit [IRS.gov](http://IRS.gov) for details.

## Do You Have To File?

Use Chart A, B, or C to see if you must file a return. U.S. citizens who lived in or had income from a U.S. possession should see Pub. 570. Residents of Puerto Rico can use [Tax Topic 901](#) to see if they must file.

Even if you do not otherwise have to file a return, you should file one to get a refund of any federal income tax withheld. You also should file if you are eligible for any of the following credits.

- Earned income credit
- Additional child tax credit
- American opportunity credit
- Credit for federal tax on fuels
- Premium tax credit
- Health coverage tax credit

See Pub. 501 for details. Also see Pub. 501 if you do not have to file but received a Form 1099-B (or substitute statement).

**Requirement to reconcile advance payments of the premium tax credit.** If you, your spouse with whom you are filing a joint return, or a dependent was enrolled in coverage through the Marketplace for 2019 and advance payments of the premium tax credit were made for this coverage, you must file a 2019 return and attach Form 8962. You (or whoever enrolled you) should have received Form 1095-A from the Marketplace with information about your coverage and any advance payments.

You must attach Form 8962 even if someone else enrolled you, your spouse, or your dependent. If you are a dependent who is claimed on someone else's 2019 return, you do not have to attach Form 8962.

**Exception for certain children under age 19 or full-time students.** If certain conditions apply, you can elect to in-

tion, you may be able to file later. See Pub. 3 for details.

If you e-file your return, there is no need to mail it. However, if you choose to mail it, filing instructions and addresses are at the end of these instructions.

## What if You Can't File on Time?

You can get an automatic 6-month extension if, no later than the date your return is due, you file Form 4868. For details, see Form 4868. Instead of filing Form 4868, you can apply for an automatic extension by making an electronic payment by the due date of your return.

An automatic 6-month extension to file doesn't extend the time to pay your tax. If you don't pay your tax by the original due date of your return, you will owe interest on the unpaid tax and may owe penalties. See Form 4868.

If you are a U.S. citizen or resident alien, you may qualify for an automatic extension of time to file without filing Form 4868. You qualify if, on the due date of your return, you meet one of the following conditions.

- You live outside the United States and Puerto Rico and your main place of business or post of duty is outside the United States and Puerto Rico
- You are in military or naval service on duty outside the United States and Puerto Rico

This extension gives you an extra 2 months to file and pay the tax, but interest will be charged from the original due date of the return on any unpaid tax. You must include a statement showing that you meet the requirements. If you are still unable to file your return by the end of the 2-month period, you can get an additional 4 months if, no later than June 15, 2020, you file Form 4868. This 4-month extension of time to file doesn't

extend the time to pay your tax. See Form 4868.

\*\*Gross income means all income you received in the form of money, goods, property, and services that isn't exempt from tax, including any income from sources outside the United States or from the sale of your main home (even if you can exclude part or all of it). If (a) or (b) applies, see the instructions for lines 5a and 5b to figure the taxable part of social security benefits you must include in gross income. Gross income includes gains, but not losses, reported on Form 8949 or Schedule D. Gross income from a business means, for example, the amount on Schedule C, line 7, or Schedule F, line 9. **Free File** makes available free brand-name software and free e-file. Visit [IRS.gov/efile](https://www.irs.gov/efile) for details and to see if you are eligible.

**What form to file.** Everyone can file Form 1040. Form 1040-SR is available to you if you were born before January 2, 1955.

**Fiscal year filers.** If you are a fiscal year filer using a tax year other than January 1 through December 31, 2019, write "Tax Year" and the beginning and ending months of your fiscal year in the top margin of page 1 of Form 1040 or 1040-SR. Section references are to the Internal Revenue Code.

**Write-in information.** If you need to write a word, code, and/or dollar amount on Form 1040 or 1040-SR to explain an item of income or deduction, but don't have enough space to enter the word, code, and/or dollar amount, you can put an asterisk next to the applicable line number and put a footnote at the bottom of page 2 of Form 1040 or Form 1040-SR indicating the line number and the word, code, and/or dollar amount you need to enter.

For example, if you received wages as a household employee and didn't receive a W-2 because you were paid only \$2,000, the instructions for line 1 state that you must enter "HSH" and the amount of the wages next to line 7. You may instead put an asterisk next to line 7 and in the white space at the bottom of page 2 of Form 1040 or 1040-SR enter "Line 7: HSH \$2,000."

considered married and can't check the box.

- You were widowed before January 1, 2019, and didn't remarried before the end of 2019. But if you have a child, you may be able to use the qualifying widow(er) filing status. See the instructions for *Qualifying Widow(er)*, later.

### Married Filing Jointly

You can check the "Married filing jointly" box at the top of Form 1040 or 1040-SR if any of the following apply.

- You were married at the end of 2019, even if you didn't live with your spouse at the end of 2019.
- Your spouse died in 2019 and you didn't remarry in 2019.
- You were married at the end of 2019 and your spouse died in 2020 before filing a 2019 return.

A married couple filing jointly report their combined income and deduct their combined allowable expenses on one return. They can file a joint return even if only one had income or if they didn't live together all year. However, both persons must sign the return. Once you file a joint return, you can't choose to

### Filing Status

Check only the filing status that applies to you. The ones that will usually give you the lowest tax are listed last.

- Married filing separately.
  - Single.
  - Head of household.
  - Married filing jointly.
  - Qualifying widow(er).
- For information about marital status, see Pub. 501.

**TIP** More than one filing status can apply to you. You can choose the one that will give you the lowest tax.

### Single

You can check the "Single" box at the top of Form 1040 or 1040-SR if any of the following was true on December 31, 2019.

- You were never married.
- You were legally separated according to your state law under a decree of divorce or separate maintenance. But if, at the end of 2019, your divorce wasn't final (an interlocutory decree), you are

be treated as a resident alien and file a joint return. See Pub. 519 for details.

### Married Filing Separately

Check the "Married filing separately" box at the top of Form 1040 or 1040-SR if you are married and file a separate return. Enter your spouse's name in the entry space below the filing status checkboxes. Be sure to enter your spouse's SSN or ITIN in the space for spouse's SSN or Form 1040 or 1040-SR. If your spouse doesn't have an SSN or ITIN, enter "NRA."

If you are married and file a separate return, you generally report only your own income, deductions, and credits. Generally, you are responsible only for the tax on your own income. Different rules apply to community property states; see Pub. 555.

However, you usually will pay more tax than if you use another filing status for which you qualify. Also, if you file a separate return, you can't take the student loan interest deduction, the tuition and fees deduction, the education credit, or the earned income credit. You also can't take the standard deduction if your spouse itemizes deductions.

**TIP** You may be able to file as head of household if you had a child living with you and you lived apart from your spouse during the last 6 months of 2019. See Married persons who live apart.

### Head of Household

You can check the "Head of household" box at the top of Form 1040 or 1040-SR if you are unmarried and provide a home for certain other persons. You are considered unmarried for this purpose if any of the following applies.

- You were legally separated according to your state law under a decree of divorce or separate maintenance at the end of 2019. But if, at the end of 2019, your divorce wasn't final (an interlocutory decree), you are considered married.
- You are married but lived apart from your spouse for the last 6 months of 2019 and you meet the other rules under *Married persons who live apart*.
- You are married to a nonresident alien at any time during the year and the

alien spouse elects to be treated as a resident alien.

Check the "Head of household" box only if you are unmarried (or considered unmarried) and either *Test 1* or *Test 2* applies.

**Test 1.** You paid over half the cost of keeping up a home that was the main home for all of 2019 of your parent whom you can claim as a dependent, except under a multiple support agreement (see *Who Qualifies as Your Dependent*, later). Your parent didn't have to live with you.

**Test 2.** You paid over half the cost of keeping up a home in which you lived and in which one of the following also lived for more than half of the year (if half or less, see *Exception to time lived with you*).

1. Any person whom you can claim as a dependent. But don't include:
  - a. Your child whom you claim as your dependent because of the rule for *Children of divorced or separated parents* under *Who Qualifies as Your Dependent*, later.
  - b. Any person who is your dependent only because he or she lived with you for all of 2019, or
  - c. Any person you claimed as a dependent under a multiple support agreement. See *Who Qualifies as Your Dependent*, later.
2. Your unmarried qualifying child who isn't your dependent.
3. Your married qualifying child who isn't your dependent only because you can be claimed as a dependent on someone else's 2019 return.
4. Your qualifying child who, even though you are the custodial parent, isn't your dependent because of the rule for *Children of divorced or separated parents* under *Who Qualifies as Your Dependent*, later.

If the child isn't claimed as your dependent, enter the child's name in the entry space below the filing status checkboxes. If you don't enter the name, it will take us longer to process your return.

**Qualifying child.** To find out if someone is your qualifying child, see Step 1 under *Who Qualifies as Your Dependent*, later.

**Dependent.** To find out if someone is your dependent, see *Who Qualifies as Your Dependent*, later.

**TIP** The dependents you claim are those you list by name and SSN in the Dependents section on Form 1040 or 1040-SR.

**Exception to time lived with you.** Temporary absences by you or the other person for special circumstances, such as school, vacation, business, medical care, military service, or detention in a juvenile facility, count as time lived in the home. Also see *Kidnapped child*, later, under *Who Qualifies as Your Dependent*, if applicable.

If the person for whom you kept up a home was born or died in 2019, you still may be able to file as head of household. If the person is your qualifying child, the child must have lived with you for more than half the part of the year he or she was alive. If the person is anyone else, see Pub. 501.

**Keeping up a home.** To find out what is included in the cost of keeping up a home, see Pub. 501.

**Married persons who live apart.** Even if you weren't divorced or legally separated at the end of 2019, you are considered unmarried if all of the following apply.

- You lived apart from your spouse for the last 6 months of 2019. Temporary absences for special circumstances, such as for business, medical care, school, or military service, count as time lived in the home.
- You file a separate return from your spouse.
- You paid over half the cost of keeping up your home for 2019.
- Your home was the main home of your child, stepchild, or foster child for more than half of 2019 (if half or less, see *Exception to time lived with you*, earlier).
- You can claim this child as your dependent or could claim the child except that the child's other parent can claim him or her under the rule for *Children of divorced or separated parents* under *Who Qualifies as Your Dependent*, later.

**Adopted child.** An adopted child is always treated as your own child. An

adopted child includes a child lawfully placed with you for legal adoption.

**Foster child.** A foster child is any child placed with you by an authorized placement agency or by judgment, decree, or other order of any court of competent jurisdiction.

**Qualifying Widow(er)**

You can check the "Qualifying widow(er)" box at the top of Form 1040 or 1040-SR and use joint return tax rates for 2019 if all of the following apply.

1. Your spouse died in 2017 or 2018 and you didn't remarry before the end of 2019.
2. You have a child or stepchild (not a foster child) whom you can claim as a dependent or could claim as a dependent except that, for 2019:
  - a. The child had gross income of \$4,200 or more,
  - b. The child filed a joint return, or
  - c. You could be claimed as a dependent on someone else's return.

If the child isn't claimed as your dependent, enter the child's name in the entry space below the filing status checkboxes. If you don't enter the name, it will take us longer to process your return.

3. This child lived in your home for all of 2019. If the child didn't live with you for the required time, see *Exception to time lived with you*, later.

4. You paid over half the cost of keeping up your home.

5. You could have filed a joint return with your spouse the year he or she died, even if you didn't actually do so.

If your spouse died in 2019, you can't file as qualifying widow(er). Instead, see the instructions for *Married Filing Jointly*, earlier.

**Adopted child.** An adopted child is always treated as your own child. An adopted child includes a child lawfully placed with you for legal adoption.

**Dependent.** To find out if someone is your dependent, see *Who Qualifies as Your Dependent*, later.

**TIP** *The dependents you claim are those you list by name and SSN in the Dependents section on Form 1040 or 1040-SR.*

**Exception to time lived with you.** Temporary absences by you or the child for special circumstances, such as school, vacation, business, medical care, military service, or detention in a juvenile facility, count as time lived in the home. Also see *Kidnapped child*, later, under *Who Qualifies as Your Dependent*, if applicable.

A child is considered to have lived with you for all of 2019 if the child was born or died in 2019 and your home was the child's home for the entire time he or she was alive.

**Keeping up a home.** To find out what is included in the cost of keeping up a home, see Pub. 501.

**Name and Address**

Print or type the information in the spaces provided. If you are married filing a separate return, enter your spouse's name in the entry space below the filing status checkboxes instead of below your name.

**TIP** *If you filed a joint return for 2018 and you are filing a joint return for 2019 with the same spouse, be sure to enter your names and SSNs in the same order as on your 2018 return.*

**Name Change**

If you changed your name because of marriage, divorce, etc., be sure to report the change to the Social Security Administration (SSA) before filing your return. This prevents delays in processing your return and issuing refunds. It also safeguards your future social security benefits.

**Address Change**

If you plan to move after filing your return, use Form 8822 to notify the IRS of your new address.

**P.O. Box**

Enter your box number only if your post office doesn't deliver mail to your home.

**Foreign Address**

If you have a foreign address, enter the city name on the appropriate line. Don't enter any other information on that line, but also complete the spaces below that line. Don't abbreviate the country name. Follow the country's practice for entering the postal code and the name of the province, county, or state.

**Death of a Taxpayer**

See *Death of a Taxpayer* under *General Information*, later.

**Social Security Number (SSN)**

An incorrect or missing SSN can increase your tax, reduce your refund, or delay your refund. To apply for an SSN, fill in Form SS-5 and return it, along with the appropriate evidence documents, to the Social Security Administration (SSA). You can get Form SS-5 online at [ssa.gov](http://ssa.gov), from your local SSA office, or by calling the SSA at 800-772-1213. It usually takes about 2 weeks to get an SSN once the SSA has all the evidence and information it needs.

Check that both the name and SSN on your Forms 1040 or 1040-SR, W-2, and 1099 agree with your social security card. If they don't, certain deductions and credits on Form 1040 or 1040-SR may be reduced or disallowed and you may not receive credit for your social security earnings. If your Form W-2 shows an incorrect SSN or name, notify your employer or the form-issuing agent as soon as possible to make sure your earnings are credited to your social security record. If the name or SSN on your social security card is incorrect, call the SSA.

**IRS Individual Taxpayer Identification Numbers (ITINs) for Aliens**

If you are a nonresident or resident alien and you don't have and aren't eligible to get an SSN, you must apply for an ITIN. It takes about 7 weeks to get an ITIN.

If you already have an ITIN, enter it wherever your SSN is requested on your tax return.

Some ITINs must be renewed. If you haven't used your ITIN on a federal tax return at least once in the last 3 years, or if your ITIN has the middle digits 83, 84, 85, 86, or 87, (9NN-83-NNNN), it expired at the end of 2019 and must be renewed if you need to file a federal tax return in 2020. You don't need to renew your ITIN if you don't need to file a federal tax return. You can find more information at [irs.gov/ITIN](http://irs.gov/ITIN).

**TIP** *ITINs with middle digits 70 through 82 have expired and also must be renewed if you need to file a tax return in 2020 and haven't already renewed the ITIN.*

An ITIN is for tax use only. It doesn't entitle you to social security benefits or change your employment or immigration status under U.S. law.

For more information on ITINs, including application, expiration, and renewal, see Form W-7 and its instructions.

If you receive an SSN after previously using an ITIN, stop using your ITIN. Use your SSN instead. Visit a local IRS office or write a letter to the IRS explaining that you now have an SSN and want all your tax records combined under your SSN. Details about what to include with the letter and where to mail it are at [irs.gov/ITIN](http://irs.gov/ITIN).

**Nonresident Alien Spouse**

If your spouse is a nonresident alien, he or she must have either an SSN or an ITIN if:

- You file a joint return, or
- Your spouse is filing a separate return.

**Standard Deduction**

**TIP** *If you are filing Form 1040-SR, you can find a Standard Deduction Chart on page 1 of that form that can calculate the amount of your standard deduction in most situations.*

**Single and Married Filing Jointly**

If you or your spouse (if you are married and filing a joint return) can be claimed as a dependent on someone else's return, check the appropriate box in the *Standard Deduction* section.

If you were a dual-status alien, check the "Spouse itemizes on a separate return" box. If you were a dual-status alien and you file a joint return with your spouse who was a U.S. citizen or resident alien at the end of 2019 and you and your spouse agree to be taxed on your combined worldwide income, don't check the box.

**Age/Blindness**

If you or your spouse (if you are married and filing a joint return) were born before January 2, 1955, or were blind at the end of 2019, check the appropriate boxes on the line labeled "Age/Blindness."

Don't check any boxes for your spouse if your filing status is head of household.

**Death of spouse in 2019.** If your spouse was born before January 2, 1955, but died in 2019 before reaching age 65, don't check the box that says "Spouse was born before January 2, 1955."

A person is considered to reach age 65 on the day before his or her 65th birthday.

**Example.** Your spouse was born on February 14, 1954, and died on February 13, 2019. Your spouse is considered age 65 at the time of death. Check the appropriate box for your spouse. However, if your spouse died on February 12, 2019, your spouse isn't considered age 65. Don't check the box.

**Death of taxpayer in 2019.** If you are preparing a return for someone who died in 2019, see Pub. 501 before completing the standard deduction information.

**Blindness**

If you weren't totally blind as of December 31, 2019, you must get a statement certified by your eye doctor (ophthalmologist or optometrist) that:

- You can't see better than 20/200 in your better eye with glasses or contact lenses, or
- Your field of vision is 20 degrees or less.

If your eye condition isn't likely to improve beyond the conditions listed above, you can get a statement certified by your eye doctor (ophthalmologist or optometrist) to this effect instead.

You must keep the statement for your records.

**Married Filing Separately**

If your filing status is married filing separately and your spouse itemizes deductions on his or her return, check the "Spouse itemizes on a separate return or you were a dual-status alien" box.

If your filing status is married filing separately and your spouse was born before January 2, 1955, or was blind at the end of 2019, you can check the appropriate box(es) on the line labeled "Age/Blindness." If your spouse had no income, isn't filing a return, and can't be claimed as a dependent on another person's return.

**Presidential Election Campaign Fund**

This fund helps pay for Presidential election campaigns. The fund reduces candidates' dependence on large contributions from individuals and groups and places candidates on an equal financial footing in the general election. The fund also helps pay for pediatric medical research. If you want \$3 to go to this fund, check the box. If you are filing a joint return, your spouse also can have \$3 go to the fund. If you check a box, your tax or refund won't change.

# Who Qualifies as Your Dependent

## Dependents, Qualifying Child for Child Tax Credit, and Credit for Other Dependents

Follow the steps below to find out if a person qualifies as your dependent and to find out if your dependent qualifies you to take the child tax credit or the credit for other dependents. If you have more than four dependents, check the box on the right side of page 1 of Form 1040 or 1040-SR (just above the Dependents section) and include a statement showing the information required in columns (1) through (4).

**TIP** The dependents you claim are those you list by name and SSN in the Dependents section on Form 1040 or 1040-SR.

**Before you begin.** See the definition of Social Security number later. If you want to claim the child tax credit or the credit for other dependents, you (and your spouse if filing jointly) must have an SSN or ITIN issued on or before the due date of your 2019 return (including extensions). If an ITIN is applied for on or before the due date of a 2019 return (including extensions) and the IRS issues an ITIN as result of the application, the IRS will consider the ITIN as issued on or before the due date of the return.

### Step 1 Do You Have a Qualifying Child?

A qualifying child is a child who is your...

Son, daughter, stepchild, foster child, brother, sister, stepbrother, stepsister, half brother, half sister, or a descendant of any of them (for example, your grandchild, niece, or nephew)

Under age 19 at the end of 2019 and younger than you (or your spouse, if filing jointly) was ...

Under age 24 at the end of 2019, a student (defined later), and younger than you (or your spouse, if filing jointly)

Any age and permanently and totally disabled (defined later)

Who didn't provide over half of his or her own support for 2019 (see Pub. 501)

Who isn't filing a joint return for 2019 or is filing a joint return for 2019 only to claim a refund of withheld income tax or estimated tax paid (see Pub. 501 for details and examples)

Who lived with you for more than half of 2019. If the child didn't live with you for the required time, see Exception to time lived with you, later.

If the child meets the conditions to be a qualifying child of any other person (other than your spouse if filing jointly) for 2019, see Qualifying child of more than one person, later.

1. Do you have a child who meets the conditions to be your qualifying child?

Yes. Go to Step 2.  No. Go to Step 4.

### Step 2 Is Your Qualifying Child Your Dependent?

1. Was the child a U.S. citizen, U.S. national, U.S. resident alien, or a resident of Canada or Mexico? (See Pub. 519 for

the definition of a U.S. national or U.S. resident alien. If the child was adopted, see Exception to citizen test, later.)

Yes. Continue  No. **STOP** You can't claim this child as a dependent.

2. Was the child married?

3. Could you, or your spouse if filing jointly, be claimed as a dependent on someone else's 2019 tax return? See Steps 1, 2, and 4.

Yes. **STOP** You can't claim any complete columns (1) dependents. Complete the rest of Form 1040 or 1040-SR and any applicable schedules. See Step 3.  No. You can claim this child as a dependent.

### Step 3 Does Your Qualifying Child Qualify You for the Child Tax Credit or Credit for Other Dependents?

1. Did the child have an SSN, ITIN, or adoption taxpayer identification number (ATIN) issued on or before the due date of your return (including extensions)? (Answer "Yes" if you are applying for an ITIN or ATIN for the child on or before the due date of your return (including extensions).)

Yes. Continue  No. **STOP** You can't claim the child tax credit or the credit for other dependents for this child.

2. Was the child a U.S. citizen, U.S. national, or U.S. resident alien? (See Pub. 519 for the definition of a U.S. national or U.S. resident alien. If the child was adopted, see Exception to citizen test, later.)

Yes. Continue  No. **STOP** You can't claim the child tax credit or the credit for other dependents for this child.

3. Was the child under age 17 at the end of 2019?

Yes. Continue  No. You can claim the credit for other dependents for this child. Check the "credit for other dependents" box in column (4) of the Dependents section for this person.

4. Did this child have an SSN valid for employment issued before the due date of your 2019 return (including extensions)? (See Social Security Number, later.)

Yes. You can claim the child tax credit for this person. Check the "child tax credit" box in column (4) of the Dependents section for this person.  No. **STOP** You can claim the credit for other dependents for this child. Check the "credit for other dependents" box in column (4) of the Dependents section for this person.

### Step 4 Is Your Qualifying Relative Your Dependent?

A qualifying relative is a person who is your...

Son, daughter, stepchild, foster child, or a descendant of any of them (for example, your grandchild)

or

Brother, sister, half brother, half sister, or a son or daughter of any of them (for example, your niece or nephew)

or

Father, mother, or an ancestor or sibling of either of them (for example, your grandmother, grandfather, aunt, or uncle)

or

Stepbrother, stepsister, stepfather, stepmother, son-in-law, daughter-in-law, father-in-law, mother-in-law, brother-in-law, or sister-in-law

or

Any other person (other than your spouse) who lived with you all year as a member of your household if your relationship didn't violate local law. If the person didn't live with you for the required time, see Exception to time lived with you, later.

Who wasn't a qualifying child (see Step 1) of any taxpayer for 2019. For this purpose, a person is a taxpayer if the site on which he or she lives is in the U.S. and he or she is either a U.S. citizen or a resident alien. If the child is a U.S. citizen or a resident alien, the child's withheld income tax or estimated tax paid. See Pub. 501 for details and examples.

Who had gross income of less than \$4,200 in 2019. If the person was permanently and totally disabled, see Exception to gross income test, later.

For whom you provided over half of his or her support in 2019. But see Children of divorced or separated parents, Multiple support agreements, and Kidnapped child, later.

You can't claim the credit for other dependents for this qualifying relative.

2. Was your qualifying relative a U.S. citizen, U.S. national, or U.S. resident alien? (See Pub. 519 for the definition of a U.S. national or a U.S. resident alien. If your qualifying relative was adopted, see *Exception to citizenship test*, later.)  
 **Yes.** You can claim the credit for other dependents for this dependent. Check the "credit for other dependents" box in column (4) of the *Dependents* section for this person.

**No.**

You can't claim the credit for other dependents for this qualifying relative.

**Definitions and Special Rules**

**Adopted child.** An adopted child is always treated as your own child. An adopted child includes a child lawfully placed with you for legal adoption.

**Adoption taxpayer identification numbers (ATINs).** If you have a dependent who was placed with you for legal adoption and you don't know his or her SSN, you must get an ATIN for the dependent from the IRS. See Form W-7A for details. If the dependent isn't a U.S. citizen or resident alien, apply for an ITIN instead, using Form W-7.

**Children of divorced or separated parents.** A child will be treated as the qualifying child or qualifying relative of his or her noncustodial parent (defined later) if all of the following conditions apply.

- The parents are divorced, legally separated, separated under a written separation agreement, or lived apart at all times during the last 6 months of 2019 (whether or not they are or were married).
- The child received over half of his or her support for 2019 from the parents (and the rules on *Multiple support agreements*, later, don't apply). Support of a child received from a parent's spouse is treated as provided by the parent.
- The child is in custody of one or both of the parents for more than half of 2019.
- Either of the following applies.
  - The custodial parent signs Form 8332 or a substantially similar statement that he or she won't claim the child as a dependent for 2019, and the noncustodial parent includes a copy of the form or statement with his or her return. If the divorce decree or separation agreement went into effect after 1984 and before 2009, the noncustodial parent may be able to include certain pages from the decree or agreement instead of Form 8332. See *Post-1984 and pre-2009 decree or agreement*, and *Post-2008 decree or agreement*.
  - A pre-1985 decree of divorce or separate maintenance or written separation agreement between the parents provides that the noncustodial parent can claim the child as a dependent, and the noncustodial parent provides at least \$600 for support of the child during 2019.

If conditions (1) through (4) apply, only the noncustodial parent can claim the child for purposes of the child tax credits and credit for other dependents (lines 13a and 18b). However, this doesn't allow the noncustodial parent to claim head of household filing status, the credit for child and dependent care expenses, the exclusion for dependent care benefits, the earned income credit, or the health coverage tax credit. The custodial parent or another taxpayer, if eligible, can claim the child for the earned income credit and these other benefits. See Pub. 501 for details.

**Custodial and noncustodial parents.** The custodial parent is the parent with whom the child lived for the greater number of nights in 2019. The noncustodial parent is the other parent. If the child was with each parent for an equal number of nights,

the custodial parent is the parent with the higher adjusted gross income. See Pub. 501 for an exception for a parent who works at night, rules for a child who is emancipated under state law, and other details.

**Post-1984 and pre-2009 decree or agreement.** The decree or agreement must state all three of the following.

- The noncustodial parent can claim the child as a dependent without regard to any condition, such as payment of support.
- The other parent won't claim the child as a dependent.
- The years for which the claim is released.

The noncustodial parent must include all of the following pages from the decree or agreement.

- Cover page (include the other parent's SSN on that page)
- The pages that include all the information identified in (1) through (3) above.
- Signature page with the other parent's signature and date of agreement.

You must include the required information even if you filed it with your return in an earlier year.

**Post-2008 decree or agreement.** If the divorce decree or separation agreement went into effect after 2008, the noncustodial parent can't include pages from the decree or agreement instead of Form 8332. The custodial parent must sign either Form 8332 or a substantially similar statement the only purpose of which is to release the custodial parent's claim to certain tax benefits for a child, and the noncustodial parent must include a copy with his or her return. The form or statement must release the custodial parent's claim to the child without any conditions. For example, the release must not depend on the noncustodial parent paying support.

**Release of certain tax benefits revoked.** A custodial parent who has revoked his or her previous release of a claim to certain tax benefits for a child must include a copy of the revocation with his or her return. For details, see Form 8332.

**Exception to citizen test.** If you are a U.S. citizen or U.S. national and your adopted child lived with you all year as a member of your household, that child meets the requirement to be a U.S. citizen in Step 2, question 1; Step 3, question 2; Step 4, question 2; and Step 5, question 2.

**Exception to gross income test.** If your relative (including a person who lived with you all year as a member of your household) is permanently and totally disabled (defined later), certain income for services performed at a sheltered workshop may be excluded for this test. For details, see Pub. 501.

**Exception to time lived with you.** Temporary absences by you or the other person for special circumstances, such as school, vacation, business, medical care, military service, or detention in a juvenile facility, count as time the person lived with you. Also see *Children of divorced or separated parents, earlier*, or *Kidnapped child, later*.

If the person meets all other requirements to be your qualifying child but was born or died in 2019, the person is considered to have lived with you for more than half of 2019 if your home

was this person's home for more than half the time he or she was alive in 2019.

Any noncustodial parent is considered to have lived with you for all of 2019 if the person was born or died in 2019 and your home was this person's home for the entire time he or she was alive in 2019.

**Foster child.** A foster child is any child placed with you by an authorized placement agency or by judgment, decree, or other order of any court of competent jurisdiction.

**Kidnapped child.** If your child is presumed by law enforcement authorities to have been kidnapped by someone who isn't a family member, you may be able to take the child into account in determining your eligibility for head of household or qualifying widower filing status, the child tax credit, the credit for other dependents, and the earned income credit (EIC). For details, see Pub. 501 (Pub. 596 for the EIC).

**Married person.** If the person is married and files a joint return, you can't claim that person as your dependent. However, if the person is married but doesn't file a joint return or files a joint return only to claim a refund of withheld income tax or estimated tax paid, you may be able to claim him or her as a dependent. (See Pub. 501 for details and examples.) In that case, go to Step 2, question 3 (for a qualifying child), or Step 4, question 4 (for a qualifying relative).

**Multiple support agreements.** If no one person contributed over half of the support of your relative (or a person who lived with you all year as a member of your household) but you and another person(s) provided more than half of your relative's support, special rules may apply that would treat you as having provided over half of the support. For details, see Pub. 501.

**Permanently and totally disabled.** A person is permanently and totally disabled if, at any time in 2019, the person can't engage in any substantial gainful activity because of a physical or mental condition and a doctor has determined that this condition has lasted or can be expected to last continuously for at least a year or can be expected to lead to death.

**Public assistance payments.** If you received payments under the Temporary Assistance for Needy Families (TANF) program or other public assistance program and you used the money to support another person, see Pub. 501.

**Qualifying child of more than one person.** Even if a child meets the conditions to be the qualifying child of more than one person, only one person can claim the child as a qualifying child for all of the following tax benefits, unless the special rule for *Children of divorced or separated parents*, described earlier, applies.

- Child tax credit and credit for other dependents (line 13a) and additional child tax credit (line 18b).
- Head of household filing status.
- Credit for child and dependent care expenses (Schedule 3, line 2).
- Exclusion for dependent care benefits (Form 2441, Part III).
- Earned income credit (line 18a).

No other person can take any of the five tax benefits just listed based on the qualifying child. If you and any other person can claim the child as a qualifying child, the following rules apply.

- If only one of the persons is the child's parent, the child is treated as the qualifying child of the parent.
• If the parents file a joint return together and can claim the child as a qualifying child, the child is treated as the qualifying child of the parents.
• If the parents don't file a joint return together but both parents claim the child as a qualifying child, the IRS will treat the child as the qualifying child of the parent with whom the child lived for the longer period of time in 2019.

If you apply for an ITIN on or before the due date of your 2019 return (including extensions) and the IRS issues you an ITIN as a result of the application, the IRS will consider your ITIN as issued on or before the due date of your return.

Student. A student is a child who during any part of 5 calendar months of 2019 was enrolled as a full-time student at a school or took a full-time, on-farm training course given by a school or a state, county, or local government agency.

unless exempt by law or a tax treaty. You also must report earned income, such as wages and tips, from sources outside the United States. If you worked abroad, you may be able to exclude part or all of your foreign earned income.

Income

Generally, you must report all income except income that is exempt from tax by law. For details, see the following instructions and the Schedule 1 instructions, especially the instructions for lines 1 through 6 and Schedule 1, lines 1 through 8. Also see Pub. 525.

Foreign-Source Income

You must report unearned income, such as interest, dividends, and pensions, from sources outside the United States

tax benefits (such as the child tax credit) based on that dependent. If the name or SSN on the dependent's social security card isn't correct or you need to get an SSN for your dependent, contact the Social Security Administration.

For the child tax credit, your child must have the required SSN. The required SSN is one that is valid for employment and that is issued by the Social Security Administration before the due date of your 2019 return (including extensions).

If you apply for an ITIN on or before the due date of your 2019 return (including extensions) and the IRS issues you an ITIN as a result of the application, the IRS will consider your ITIN as issued on or before the due date of your return.

Student. A student is a child who during any part of 5 calendar months of 2019 was enrolled as a full-time student at a school or took a full-time, on-farm training course given by a school or a state, county, or local government agency.

unless exempt by law or a tax treaty. You also must report earned income, such as wages and tips, from sources outside the United States. If you worked abroad, you may be able to exclude part or all of your foreign earned income.

Foreign retirement plans. If you were a beneficiary of a foreign retirement plan, you may have to report the undistributed income earned in your plan. However, if you were the beneficiary of a Canadian registered retirement plan, see Rev. Proc. 2014-55, 2014-44 I.R.B.

Foreign financial assets. If you had foreign financial assets in 2019, you may have to file Form 8938. See Form 8938 and its instructions.

Chapter 11 Bankruptcy Cases

If you are a debtor in a chapter 11 bankruptcy case, income taxable to the bankruptcy estate and reported on the estate's income tax return includes:

- Earnings from services you performed after the beginning of the case (both wages and self-employment income), and
• Income from property described in section 541 of title 11 of the U.S. Code that you or that owned when the case began or that you acquired after the case began and before the case was closed, dismissed, or converted to a case under a different chapter.

Because this income is taxable to the estate, don't include this income on your own individual income tax return. The only exception is for purposes of figuring your self-employment tax.

Community Property States. Community property states include Arizona, California, Idaho, Louisiana, Nevada, New Mexico, Texas, Washington, and Wisconsin. If you and your spouse lived in a community property state, you usually must follow state law to determine what is community income and

what is separate income. For details, see Form 8958 and Pub. 555.

Nevada, Washington, and California domestic partners. A registered domestic partner in Nevada, Washington, or California generally must report half the combined community income of the individual and his or her domestic partner. See Form 8958 and Pub. 555.

Rounding Off to Whole Dollars

You can round off cents to whole dollars on your return and schedules. If you do round to whole dollars, you must round all amounts. To round, drop amounts under .50 cents and increase amounts under .50 to 99 cents to the next dollar.

If you have to add two or more amounts to figure the amount to enter on a line, include cents when adding the amounts and round off only the total.

If you are entering amounts that include cents, make sure to include the decimal point. There is no cents column on the form.

The lines on Forms 1040 and 1040-SR are the same. References to lines in the following instructions refer to the line on either form.

Line 1

Wages, Salaries, Tips, etc. Enter the total of your wages, salaries, tips, etc. If a joint return, also include your spouse's income. For most people, the amount to enter on this line should be shown in box 1 of their Form(s) W-2. But the following types of income also must be included in the total on line 1.

- All wages received as a household employee. An employer isn't required to provide a Form W-2 to you if he or she paid you wages of less than \$2,100 in 2019. If you received wages as a household employee and you didn't receive a Form W-2 because an employer paid you less than \$2,100 in 2019, enter "HSH" and the amount not reported to you on a Form W-2 in the space to the left of line 1. For information on employment taxes for household employees, see Tax Topic 756.

- Any Medicaid waiver payments you received that you choose to include in earned income for purposes of claiming a credit or other tax benefit, even if you didn't receive a Form W-2 reporting these payments. See the instructions for Schedule 1, line 8.

Tip income you didn't report to your employer. This should include any allocated tips shown in box 8 on your Form(s) W-2 unless you can prove that your unreported tips are less than the amount in box 8. Allocated tips aren't included as income in box 1. See Pub. 531 for more details. Also include the value of any noncash tips you received, such as tickets, passes, or other items of value. Although you don't report these non-cash tips to your employer, you must report them on line 1.

You may owe social security and Medicare or railroad retirement (RRRA) tax on unreported tips. See the instructions for Schedule 2, line 5.

- Dependent care benefits, which should be shown in box 10 of your Form(s) W-2. But first complete Form 2441 to see if you can exclude part or all of the benefits.

Employer-provided adoption benefits, which should be shown in box 12 of your Form(s) W-2 with code T. But see the instructions for Form 8839 to find out if you can exclude part or all of the benefits. You may also be able to exclude amounts if you adopted a child with special needs and the adoption became final in 2019.

Scholarship and fellowship grants not reported on Form W-2. Also, enter "SCH" and the amount on the dotted line next to line 1. However, if you were a degree candidate, include on line 1 only the amounts you used for expenses other than tuition and course-related expenses. For example, amounts used for room, board, and travel must be reported on line 1.

- Excess elective deferrals. The amount deferred should be shown in box 12 of your Form W-2, and the "Retirement plan" box in box 13 should be checked. If the total amount you (or your spouse if filing jointly) deferred for 2019 under all plans was more than \$19,000 (excluding catch-up contributions as explained later), include the ex-

cess on line 1. This limit is (a) \$13,000 if you have only SIMPLE plans, or (b) \$22,000 for section 403(b) plans...

A higher limit may apply to participants in section 457(b) deferred compensation plans for the 3 years before retirement age.

If you were age 50 or older at the end of 2019, your employer may have allowed an additional deferral (catch-up contributions) of up to \$6,000 (\$3,000 for section 401(k)(1) and SIMPLE plans).

You can't deduct the amount deferred. It isn't included as income in box 1 of your Form 1099-R.

Disability pensions shown on Form 1099-R if you haven't reached the minimum retirement age set by your employer. But see Insurance Premiums for Retired Public Safety Officers in the instructions for lines 4c and 4d.

Corrective distributions from a retirement plan shown on Form 1099-R of excess elective deferrals and excess contributions (plus earnings). But don't include distributions from an IRA\* on line 1. Instead, report distributions from an IRA on lines 4a and 4b.

\*This includes a Roth, SEP, or SIMPLE IRA.

Were You a Statutory Employee?

If you were, the "Statutory employee" box in box 13 of your Form W-2 should be checked. Statutory employees include full-time life insurance salespeople and certain agent or commission drivers.

traveling salespeople, and homeworkers. If you have related business expenses to deduct, report the amount shown in box 1 of your Form W-2 on Schedule C along with your expenses.

Missing or Incorrect Form W-2?

Your employer is required to provide or send Form W-2 to you no later than January 31, 2020. If you don't receive it by early February, use the Topic 15J to find out what to do.

Line 2a

Tax-Exempt Interest

If you received any tax-exempt interest (including any tax-exempt original issue discount (OID)), such as from municipal bonds, each payer should send you a Form 1099-INT or a Form 1099-OID.

Also include on line 2a any exempt-interest dividends from a mutual fund or other regulated investment company. This amount should be shown in box 11 of Form 1099-DIV.

Don't include interest earned on your IRA, health savings account, Archer or Medicare Advantage MSA, or Coverdell education savings account.

Line 2b Taxable Interest

Each payer should send you a Form 1099-INT or Form 1099-OID. Enter your total taxable interest income on line 2b. But you must fill in and attach Schedule B if the total is over \$1,500 or the beginning of the Schedule B instructions applies to you.

For more details about reporting taxable interest, including market discount on bonds and adjustments for amortizable bond premium or acquisition premium, see Pub. 550.

Interest credited in 2019 on deposits that you couldn't withdraw because of the bankruptcy or insolvency of the financial institution may not have to be included in your 2019 income.

Line 3a

Qualified Dividends

Enter your total qualified dividends on line 3a. Qualified dividends also are included in the ordinary dividend total reported to be shown on line 3b. Qualified dividends are eligible for a lower tax rate than other ordinary income.

Some dividends may be reported as qualified dividends in box 1b of Form 1099-DIV but aren't qualified dividends. These include:

- Dividends you received as a nominee. See the Schedule B instructions.
Dividends you received on any share of stock that you held for less than 61 days during the 121-day period that began 60 days before the ex-dividend date.

days you held the stock, include the day you disposed of the stock but not the day you acquired it. See the examples that follow.

Dividends attributable to periods totaling more than 366 days that you received on any share of preferred stock held for less than 91 days during the 181-day period that began 90 days before the ex-dividend date.

Dividends on any share of stock to the extent that you are under an obligation (including a short sale) to make related payments with respect to positions in substantially similar or related property.

Dividends from a corporation which first became a surrogate foreign corporation after December 22, 2017, other than a foreign corporation which is treated as a domestic corporation under section 7874(b).

Example 1. You bought 5,000 shares of XYZ Corp. common stock on July 8, 2019. XYZ Corp. paid a cash dividend of 10 cents per share.

Example 2. You bought 5,000 shares of XYZ Corp. common stock on July 8, 2019. XYZ Corp. paid a cash dividend of 10 cents per share.

Example 3. You bought 5,000 shares of XYZ Corp. common stock on July 8, 2019. XYZ Corp. paid a cash dividend of 10 cents per share.

Example 2. The facts are the same as in Example 1 except that you bought the stock on July 15, 2019 (the day before the ex-dividend date).

Example 3. You bought 10,000 shares of ABC Mutual Fund common stock on July 8, 2019. ABC Mutual Fund paid a cash dividend of 10 cents a share.

Use the Qualified Dividends and Capital Gain Tax Worksheet, whichever applies, to figure your tax. See the instructions for line 12a for details.

Line 3b

Ordinary Dividends

Each payer should send you a Form 1099-DIV. Enter your total ordinary dividends on line 3b. This amount should be shown in box 1a of Form(s) 1099-DIV.

You must fill in and attach Schedule B if the total is over \$1,500 or you received, as a nominee, ordinary dividends that actually belong to someone else.

Nondividend Distributions

Some distributions are a return of your cost (or other basis). They won't be taxed until you recover your cost (or other basis). You must reduce your cost (or other basis) by these distributions.

After you get back all of your cost (or other basis), you must report these distributions as capital gains on Form 8949. For details, see Pub. 550.

Dividends on insurance policies are a partial return of the premiums you paid. Don't report them as dividends.

Lines 4a and 4b IRA Distributions

Special rules may apply if you received a distribution from your individual retirement arrangement (IRA) and your main home was in one of the federally declared disaster areas eligible for these special rules at any time during the incident period.

You should receive a Form 1099-R showing the total amount of any distribution from your IRA before income tax or other deductions were withheld.

You must fill in and attach Schedule B if the total is over \$1,500 or you received, as a nominee, ordinary dividends that actually belong to someone else.

Also, enter "rollover" next to line 4b. If the total distribution was rolled over, enter -0- on line 4b.

Need more information or forms? Visit IRS.gov.

over. Generally, a rollover must be made within 60 days after the day you received the distribution. For more details on rollovers, see Pub. 590-A and Pub. 590-B.

If you rolled over the distribution into a qualified plan or you made the rollover in 2020, include a statement explaining what you did.

**Exception 2.** If any of the following apply, enter the total distribution on line 4a and see Form 8606 and its instructions to figure the amount to enter on line 4b. 1. You received a distribution from an IRA (other than a Roth IRA) and you made nondeductible contributions to any of your traditional or SEP IRAs for 2019 or an earlier year. If you made nondeductible contributions to these IRAs for 2019, also see Pub. 590-A and Pub. 590-B.

2. You received a distribution from a Roth IRA. But if either (a) or (b) below applies, enter -0- on line 4b; you don't have to see Form 8606 or its instructions. a. Distribution code T is shown in box 7 of Form 1099-R and you made a contribution (including a conversion) to a Roth IRA for 2014 or an earlier year.

b. Distribution code Q is shown in box 7 of Form 1099-R. 3. You converted part or all of a traditional, SEP, or SIMPLE IRA to a Roth IRA in 2019. 4. You had a 2018 or 2019 IRA contribution returned to you, with the related earnings or less any loss, by the due date (including extensions) of your tax return for that year.

5. You made excess contributions to your IRA for an earlier year and had them returned to you in 2019. 6. You recharacterized part or all of a contribution to a Roth IRA as a contribution to another type of IRA, or vice versa.

**Exception 3.** If all or part of the distribution is a qualified charitable distribution (QCD), enter the total distribution on line 4a. If the total amount distributed is a QCD, enter -0- on line 4b. If only part of the distribution is a QCD, enter the part that is not a QCD on line 4b unless *Exception 2* applies to that part. Enter "QCD" next to line 4b.

**CAUTION** The amount of an HFD reduces the amount you can contribute to your HSA for the year. If you fail to maintain eligibility for an HSA for the 12 months following the month of the HFD, you may have to report the HFD as income and pay an additional tax. See Form 8889, Part III.

**More than one exception applies.** If more than one exception applies, include a statement showing the amount of each exception, instead of making an entry next to line 4b. For example, "Line 4b - \$1,000 Rollover and \$500 HFD." But you do not need to attach a statement if only *Exception 2* and one other exception apply.

**More than one distribution.** If you or your spouse (if filing jointly) received more than one distribution, figure the taxable amount of each distribution and enter the total of the taxable amounts on line 4b. Enter the total amount of those distributions on line 4a.

**CAUTION** You may have to pay an additional tax if (a) you received an early distribution from your IRA and the total wasn't rolled over, or (b) you were born before July 1, 1948, and received less than the minimum required distribution from your traditional, SEP, and SIMPLE IRAs. See the instructions for Schedule 2, line 6, for details.

**More information.** For more information about IRAs, see Pub. 590-A and Pub. 590-B.

### Lines 4c and 4d

#### Pensions and Annuities

**TIP** Special rules may apply if you received a distribution from a profit-sharing plan or retirement plan and your main home was in one of the federally declared disaster areas eligible for these special rules at any time during the incident period. Special rules may also apply if you received a distribution on certain dates to buy or construct a main home in one of the federally declared disaster areas eligible for these special rules, but that home wasn't bought or constructed because of the disaster. See Pub. 575 for details.

You should receive a Form 1099-R showing the total amount of your pension and annuity payments before income tax and other deductions were withheld. This amount should be shown in box 1 of Form 1099-R. Pension and annuity payments include distributions from 401(k), 403(b), and governmental

457(b) plans. Rollovers and lump-sum distributions are explained later. Don't include the following payments on lines 4c and 4d. Instead, report them on line 1.

- Disability pensions received before you reach the minimum retirement age set by your employer.
- Corrective distributions (including any earnings) of excess elective deferrals or other excess contributions to retirement plans. The plan must advise you of the year(s) the distributions are includable in income.

**TIP** Attach Form(s) 1099-R to Form 1040 or 1040-SR if any federal income tax was withheld.

#### Fully Taxable Pensions and Annuities

Your payments are fully taxable if (a) you didn't contribute to the cost (see Cost, later) of your pension or annuity, or (b) you got your entire cost back tax free before 2019. But see *Insurance Premiums for Retired Public Safety Officers*, later. If your pension or annuity is fully taxable, enter the total pension or annuity payments (from Form(s) 1099-R, box 1) on line 4d; don't make an entry on line 4c.

Fully taxable pensions and annuities also include military retirement pay shown on Form 1099-R. For details on military disability pensions, see Pub. 525. If you received a Form RRB-1099-R, see Pub. 575 to find out how to report your benefits.

#### Partially Taxable Pensions and Annuities

Enter the total pension or annuity payments (from Form 1099-R, box 1) on line 4c. If your Form 1099-R doesn't show the taxable amount, you must use the General Rule explained in Pub. 939 to figure the taxable part to enter on line 4d. But if your annuity starting date (defined later) was after July 1, 1986, see *Simplified Method*, later, to find out if you must use that method to figure the taxable part.

You can ask the IRS to figure the taxable part for you for a \$1,000 fee. For details, see Pub. 939.

If your Form 1099-R shows a taxable line 4d, you can report that amount on line 4c. But you may be able to report a lower taxable amount by using the General Rule or the Simplified Method or if the exclusion for retired public safety officers, discussed next, applies.

#### Public Safety Officers Retired

If you are an eligible retired public safety officer (law enforcement officer, firefighter, chaplain, or member of a rescue squad or ambulance crew), you can elect to exclude from income distributions made from your eligible retirement plan that are used to pay the premiums for coverage by an accident or health plan or a long-term care insurance contract. You can do this only if you retired because of disability or because you reached normal retirement age. The premiums can be for coverage for you, your spouse, or dependents. The distribution must be from a plan maintained by the employer from which you retired as a public safety officer. Also, the distribution must be made directly from the plan to the provider of the accident or health plan or long-term care insurance contract. You can exclude from income the smaller of the amount of the premiums or \$3,000. You can make this election only for amounts that would otherwise be included in your income.

An eligible retirement plan is a governmental plan that is a qualified trust or a section 403(a), 403(b), or 457(b) plan.

If you make this election, reduce the otherwise taxable amount of your pension or annuity by the amount excluded. The amount shown in box 2a of Form 1099-R doesn't reflect the exclusion. Report your total distributions on line 4c and the taxable amount on line 4d. Enter "PSO" next to line 4c.

If you are retired on disability and reporting your disability pension on line 1, include only the taxable amount on that line and enter "PSO" and the amount excluded on the dotted line next to line 1.

#### Simplified Method

You must use the Simplified Method if either of the following applies.

1. Your annuity starting date was after July 1, 1986, and you used this method last year to figure the taxable part.

2. Your annuity starting date was after November 18, 1996, and both of the following apply.

- a. The payments are from a qualified employee plan, a qualified employee annuity, or a tax-sheltered annuity.
- b. On your annuity starting date, either you were under age 75 or the number of years of guaranteed payments was fewer than 5. See Pub. 575 for the definition of guaranteed payments.

If you must use the Simplified Method, complete the Simplified Method Worksheet in these instructions to figure the taxable part of your pension or annuity. For more details on the Simplified Method, see Pub. 575 (or Pub. 721 for U.S. Civil Service retirement benefits).

**CAUTION** If you received U.S. Civil Service retirement benefits and you chose the alternative annuity option, see Pub. 721 to figure the taxable part of your annuity. Do not use the Simplified Method Worksheet in these instructions.

#### Annuity Starting Date

Your annuity starting date is the later of the first day of the first period for which you received a payment or the date the plan's obligations became fixed.

#### Age (or Combined Ages) at Annuity Starting Date

If you are the retiree, use your age on the annuity starting date. If you are the survivor of a retiree, use the retiree's age on his or her annuity starting date. But if your annuity starting date was after 1997 and the payments are for your life and that of your beneficiary, use your combined ages on the annuity starting date.

If you are the beneficiary of an employee who died, see Pub. 575. If there is more than one beneficiary, see Pub. 575 or Pub. 721 to figure each beneficiary's taxable amount.

#### Cost

Your cost is generally your net investment in the plan as of the annuity starting date. It doesn't include pre-tax contributions' taxable amount.

Need more information or forms? Visit [IRS.gov](http://IRS.gov).

**Simplified Method Worksheet—Lines 4c and 4d**

**Keep for Your Records**

**Before you begin:** If you are the beneficiary of a deceased employee or former employee who died before August 21, 1996, include any death benefit exclusion that you are entitled to (up to \$5,000) in the amount entered on line 2 below.

**Rollovers**

Generally, a rollover is a tax-free distribution of cash or other assets from one retirement plan that is contributed to another plan within 60 days of receiving the distribution. However, a rollover to a Roth IRA, or a designated Roth account is generally not a tax-free distribution. Use lines 4c and 4d to report a rollover, including a direct rollover, from one qualified employer's plan to another or an IRA or SEP.

Enter on line 4c the distribution from Form 1099-R, box 1. From this amount, subtract any contributions (usually shown in box 5) that were taxable to you when made. From that result, subtract the amount of the rollover. Enter the remaining amount on line 4d. If the remaining amount is zero and you have no other distribution to report on line 4d, enter -0- on line 4d. Also, enter "Rollover" next to line 4d.

See Pub. 575 for more details on rollovers, including special rules that apply to rollovers from designated Roth accounts, partial rollovers of property, and distributions under qualified domestic relations orders.

**Lump-Sum Distributions**

If you received a lump-sum distribution from a profit-sharing or retirement plan, your Form 1099-R should have the "Total distribution" box in box 2b checked. You may owe an additional tax if you received an early distribution from a qualified retirement plan and the total amount wasn't rolled over. For details, see the instructions for Schedule 2, line 6.

Enter the total distribution on line 4c and the taxable part on line 4d. For details, see Pub. 575.

**TIP** If you or the plan participant was born before January 2, 1936, you could pay less tax on the distribution. See Form 4572.

**Lines 5a and 5b**

**Social Security Benefits**

You should receive a Form SSA-1099 showing in box 3 the total social security benefits paid to you. Box 4 will show the amount of any benefits you repaid in 2019. If you received railroad retirement benefits treated as social security, you should receive a Form RRB-1099.

Use the Social Security Benefits Worksheet in these instructions to see if any of your benefits are taxable.

**Exception.** Do not use the Social Security Benefits Worksheet in these instructions if any of the following applies:

- You made contributions to a traditional IRA for 2019 and you or your spouse were covered by a retirement plan at work or through self-employment. Instead, use the worksheets in Pub. 590-A to see if any of your social security benefits are taxable and to figure your IRA deduction.
- You repaid any benefits in 2019 and more than your total benefits for 2019 (box 3). None of your benefits are taxable for 2019. Also, if your total repayments in 2019 exceed your total benefits received in 2019 by more than \$3,000, you may be able to take an itemized deduction or a credit for part of the excess repayments if they were for benefits you included in income in an earlier year. For more details, see Pub. 915.
- You file Form 2555, 4563, or 8815, or you exclude employer-provided adoption benefits or income from sources within Puerto Rico. Instead, use the worksheet in Pub. 915.

**Benefits for earlier year received in 2019?** If any of your benefits are taxable for 2019 and they include a lump-sum benefit payment that was for an earlier year, you may be able to reduce the taxable amount. See Lump-Sum Election in Pub. 915 for details.

**Social security information.** Social security beneficiaries can now get a variety of information from the SSA website with a my Social Security account, including getting a replacement Form SSA-1099 if needed. For more information:

tion and to set up an account, go to [SSA.gov/myaccount](http://SSA.gov/myaccount).

Disability payments (including Social Security Disability Insurance (SSDI) payments) are generally not included in income if they are for injuries incurred as a direct result of a terrorist attack directed against the United States or its allies. If these payments are incorrectly reported as taxable on Form W-2 or Form 1099-R, contact the company or agency making the disability payments to get a corrected Form W-2 or Form 1099-R. If these payments are incorrectly reported as taxable on Form SSA-1099, don't include the nontaxable portion of income on your tax return. You may receive a notice from the IRS regarding the omitted payments. Follow the instructions in the notice to explain that the excluded payments aren't taxable. For more information about these payments, see Pub. 3920.

**Form RRB-1099.** If you need a replacement Form RRB-1099, call the Railroad Retirement Board at 877-772-5772 or go to [www.rrb.gov](http://www.rrb.gov).

**Line 6**

**Capital Gain or (Loss)**

If you sold a capital asset, such as a stock or bond, you must complete and attach Form 8949 and Schedule D.

**Exception 1.** You don't have to file Form 8949 or Schedule D if you aren't deferring any capital gain by investing in a qualified opportunity zone fund and both of the following apply:

1. You have no capital losses, and your only capital gains are capital gain distributions from Form(s) 1099-DIV, box 2a (or substitute statements); and
2. None of the Form(s) 1099-DIV (or substitute statements) have an amount in box 2b (unrecaptured section 1250 gain), box 2c (section 1202 gain), or box 2d (collectibles (28% gain)).

**Exception 2.** You must file Schedule D but generally don't have to file Form 8949 if *Exception 1* doesn't apply, you aren't deferring any capital gain by investing in a qualified opportunity zone fund or terminating deferral from an investment in a qualified opportunity zone, and your only capital gains and losses are:

**Line 8a**

Report any adjustments to income on Schedule 1, lines 10 to 21. Enter the amount from Schedule 1, line 22, on line 8a.

- Capital gain distributions;
- A capital loss carryover from 2018;
- A gain from Form 2439 or 6252 or Part I of Form 4797;
- A gain or loss from Form 4684, 6781, or 8824;
- A gain or loss from a partnership, S corporation, estate, or trust; or
- Gains and losses from transactions for which you received a Form 1099-B (or substitute statement) that shows basis and actually belong to the IRS, the QOF box in box 3 isn't checked and for which you don't need to make any adjustments in column (g) of Form 8949 or enter any codes in column (f) of Form 8949.

**Line 8b**

**Adjusted Gross Income**  
 Subtract line 8a from line 7b and enter the amount on this line.

**Tax and Credits**

**Line 9**

**Itemized Deductions or Standard Deduction**  
 In most cases, your federal income tax will be less if you take the larger of your itemized deductions or standard deduction.

**Itemized Deductions**

To figure your itemized deductions, fill in Schedule A.

**Standard Deduction**

Most Form 1040 filers can find their standard deduction by looking at the amounts listed to the left of line 9. Most Form 1040-SR filers can find their standard deduction by using the chart at the bottom of page 1 of Form 1040-SR.

**Exception 1—Dependent.** If you checked the "Someone can claim you as a dependent" box, or if you're filing jointly and you checked the "Someone can claim your spouse as a dependent" box, use the Standard Deduction Worksheet for Dependents to figure your standard deduction.

**TIP** Someone claims you or your spouse as a dependent if they list your or your spouse's name and SSN in the Dependents section of their return.

**Exception 2—Born before January 2, 1955, or blind.** If you checked any of the following boxes, figure your standard deduction using the Standard Deduction Chart for People Who Were Born Before January 2, 1955, or Were Blind

if you are filing Form 1040 or by using the chart on page 1 of Form 1040-SR.

- You were born before January 2, 1955.
- You are blind.
- Spouse was born before January 2, 1955.
- Spouse is blind.

**Exception 3—Separate return or dual-status alien.** If you checked the box labeled "Spouse itemizes on separate return or you were dual-status alien" on the Spouse standard deduction line, your standard deduction is zero, even if you were born before January 2, 1955, or were blind.

**Exception 4—Increased standard deduction for net qualified disaster loss.** If you had a net qualified disaster loss and you elect to increase your standard deduction by the amount of your net qualified disaster loss, use Schedule A to figure your standard deduction. Qualified disaster loss refers to losses arising from certain disasters occurring in 2016, 2017, 2018, or 2019. See the instructions for Form 4684 and Schedule A, line 16, for more information.

**Line 10**

**Qualified Business Income Deduction (Section 199A Deduction)**

To figure your Qualified Business Income Deduction, use Form 8995 or Form 8995-A as applicable.

Use Form 8995 if:

- You have qualified business income, qualified REIT dividends, or qualified PTP income (loss).
- Your 2019 taxable income before the qualified business income deduction is less than or equal to \$160,700 (\$160,725 if married filing separately or \$321,400 if married filing jointly), and
- You aren't a patron in a specified agricultural or horticultural cooperative.

If you don't meet these requirements, use Form 8995-A. Qualified Business Income Deduction. See the instructions for Forms 8995 and 8995-A, for more information for figuring and reporting your qualified business income deduction.

**Line 12a**

**Tax**

Include in the total on the entry space on line 12a all of the following taxes that apply.

- Tax on your taxable income. Figure the tax using one of the methods described, later.
- Tax from Form(s) 8814 (relating to the election to report child's interest or dividends). Check the appropriate box.
- Tax from Form 4972 (relating to lump-sum distributions). Check the appropriate box.
- Tax due to making a section 962 election (the election made by a domestic shareholder of a controlled foreign corporation to be taxed at corporate rates). See section 962 for details. Check box 3 and enter the amount and "962" in the space next to that box. Attach a statement showing how you figured the tax.
- Recapture of an education credit. You may owe this tax if you claimed an education credit in an earlier year, and either tax-free educational assistance or a refund of qualified expenses was received in 2019 for the student. See Form 8863 for more details. Check box 3 and enter the amount and "ECR" in the space next to that box.
- Any tax from Form 8621, line 16c, relating to a section 1291 fund. Check box 3 and enter the amount of the tax and "1291TAX" in the space next to that box.

**Do you want the IRS to figure the tax on your taxable income for you?**

- Yes. See chapter 28 of Pub. 17 for details, including who is eligible and what to do. If you have paid too much, we will send you a refund. If you didn't pay enough, we will send you a bill.
- No. Use one of the following methods to figure your tax.

**Tax Table or Tax Computation Worksheet.** If your taxable income is less than \$100,000, you must use the Tax Table, later in these instructions, to figure your tax. Be sure you use the correct column. If your taxable income is \$100,000 or more, use the Tax Computation Worksheet right after the Tax Table.

However, don't use the Tax Table or Tax Computation Worksheet to figure your tax if any of the following applies:

- Form 8615. Form 8615 generally must be used to figure the tax on your unearned income over \$2,200 if you are under age 18, and in certain situations if you are older.

You must file Form 8615 if you meet all of the following conditions:

- 1. You had more than \$2,200 of unearned income (such as taxable interest, ordinary dividends, or capital gains (including capital gain distributions)).
- 2. You are required to file a tax return.
- 3. You were either:
  - a. Under age 18 at the end of 2019, and
  - b. Age 18 at the end of 2019 and didn't have earned income that was more than half of your support, or

c. A full-time student at least age 19 but under age 24 at the end of 2019 and didn't have earned income that was more than half of your support.

- 4. At least one of your parents was alive at the end of 2019.
- 5. You don't file a joint return in 2019.

A child born on January 1, 2002, is considered to be age 18 at the end of 2019; a child born on January 1, 2001, is considered to be age 19 at the end of 2019; and a child born on January 1, 1996, is considered to be age 24 at the end of 2019.

**Schedule D Tax Worksheet.** If you have to file Schedule D, and line 18 or 19 of Schedule D is more than zero, use the Schedule D Tax Worksheet in the instructions for Schedule D to figure the amount to enter on Form 1040 or 1040-SR line 12a. But if you are filing Form 2555, you must use the Foreign Earned Income Tax Worksheet instead.

**Qualified Dividends and Capital Gain Tax Worksheet.** Use the Qualified Dividends and Capital Gain Tax Worksheet, later, to figure your tax if you don't have to use the Schedule D Tax Worksheet and if any of the following applies:

- You reported qualified dividends on Form 1040 or 1040-SR, line 3a.
- You don't have to file Schedule D and you reported capital gain distributions on Form 1040 or 1040-SR, line 6.
- You are filing Schedule D and Schedule D, lines 15 and 16, are both more than zero.

But if you are filing Form 2555, you must use the Foreign Earned Income Tax Worksheet instead.

**Schedule J.** If you had income from farming or fishing (including certain amounts received in connection with the Exxon Valdez litigation), your tax may be less if you choose to figure it using income averaging on Schedule J.

**Foreign Earned Income Tax Worksheet.** If you claimed the foreign earned income exclusion, housing exclusion, or housing deduction on Form 2555, you must figure your tax using the Foreign Earned Income Tax Worksheet.

Need more information or forms? Visit [IRS.gov](http://IRS.gov).

Foreign Earned Income Tax Worksheet—Line 12a

Keep for Your Records

**CAUTION** If Form 1040 or 1040-SR, line 11b, is zero, don't complete this worksheet.

- Enter the amount from Form 1040 or 1040-SR, line 11b
- Enter the amount from your (and your spouse's, if filing jointly) Form 2555, lines 45 and 50 related to excluded income
- Subtract line 2b from line 2a. If zero or less, enter -0-
- Add lines 1 and 2c
- Figure the tax on the amount on line 3. Use the Tax Table, Tax Computation Worksheet, Qualified Dividends and Capital Gain Tax Worksheet, Schedule D Tax Worksheet, or Form 8615, whichever applies. See the instructions for Form 1040 or 1040-SR, line 12a to see which tax computation method applies. (Don't use a second Foreign Earned Income Tax Worksheet to figure the tax on this line.)
- Figure the tax on the amount on line 2c. If the amount on line 2c is less than \$100,000, use the Tax Table to figure this tax. If the amount on line 2c is \$100,000 or more, use the Tax Computation Worksheet
- Subtract line 5 from line 4. Enter the result. If zero or less, enter -0-. Also include this amount on the entry space on Form 1040 or 1040-SR, line 12a

\* Enter the amount from line 3 above on line 1 of the Qualified Dividends and Capital Gain Tax Worksheet or Schedule D Tax Worksheet if you use either of those worksheets to figure the tax on line 4 above. Complete the rest of that worksheet through line 6 (line 10 if you use the Schedule D Tax Worksheet). Next, you must determine if you have a capital gain excess. To find out if you have a capital gain excess, subtract Form 1040 or 1040-SR, line 11b, from line 6 of your Qualified Dividends and Capital Gain Tax Worksheet (line 10 of your Schedule D Tax Worksheet). If the result is more than zero, that amount is your capital gain excess.

If you don't have a capital gain excess, complete the rest of either of those worksheets according to the worksheet's instructions. Then complete lines 5 and 6 above.

If you have a capital gain excess, complete a second Qualified Dividends and Capital Gain Tax Worksheet or Schedule D Tax Worksheet (whichever applies) as instructed above but in its entirety and with the following additional modifications. Then complete lines 5 and 6 above. These modifications are to be made only for purposes of filing out the Foreign Earned Income Tax Worksheet above.

- Reduce (but not below zero) the amount you would otherwise enter on line 3 of your Qualified Dividends and Capital Gain Tax Worksheet or line 9 of your Schedule D Tax Worksheet by your capital gain excess.
- Reduce (but not below zero) the amount you would otherwise enter on line 2 of your Qualified Dividends and Capital Gain Tax Worksheet or line 6 of your Schedule D Tax Worksheet by any of your capital gain excess not used in (1) above.

Child Tax Credit and Credit for Other Dependents

Form 8862, who must file. You must file Form 8862 to claim the child tax credit or credit for other dependents if your child tax credit or additional child tax credit for a year after 2015 was denied or reduced for any reason other than a math or clerical error. Attach a completed Form 8862 to your 2019 return. Don't file Form 8862 if you filed Form 8862 for 2018 and the child tax

credit or additional child tax credit was allowed for that year. See Form 8862 and its instructions for details.

If you take the child tax credit or credit for other dependents even though you aren't eligible and it is determined that your error is due to reckless or intentional disregard of the rules for these credits, you won't be allowed to take either credit or the additional child tax credit for 2 years even if you're otherwise eligible to do so. If you take the child tax credit or credit for other dependents even though you aren't eligible and it is later deter-

mined that you fraudulently took either credit, you won't be allowed to take either credit or the additional child tax credit for 10 years. You may also have to pay penalties.

If your qualifying child didn't have an SSN valid for employment issued before the due date of your 2019 return (including extensions), you can't claim the child tax credit for that child on your original or amended return. However, you may be able to claim the credit for other dependents for that child.

Definitions and Special Rules

Adopted child. An adopted child is always treated as your own child. An adopted child includes a child lawfully placed with you for legal adoption.

Church employees. Determine how much of the amount on Form 1040 or 1040-SR, line 1, also was reported on Schedule SE, Section B, line 5a. Subtract that amount from the amount on Form 1040 or 1040-SR, line 1, and enter the result on line 1 of the worksheet in Step 5 (instead of entering the actual amount from Form 1040 or 1040-SR, line 1). Be sure to answer "Yes" to question 2 in Step 5.

Clergy. The following instructions apply to ministers, members of Christian orders who have not taken a vow of poverty, and Religion Science practitioners. If you are filing Schedule SE and the amount on line 2 of that schedule includes an amount that also was reported on Form 1040 or 1040-SR, line 1 do the following.

- 1. Enter "Clergy" on the dotted line next to line 18a.
2. Determine how much of the amount on Form 1040 or 1040-SR, line 1, also was reported on Schedule SE, Section A, line 2, or Section B, line 2.
3. Subtract that amount from the amount on Form 1040 or 1040-SR, line 1. Enter the result on line 1 of the worksheet in Step 5 (instead of entering the actual amount from Form 1040 or 1040-SR, line 1).
4. Be sure to answer "Yes" to question 2 in Step 5.

Combat pay, nontaxable. If you were a member of the U.S. Armed Forces who served in a combat zone, certain pay is excluded from your income. See Combat Zone Exclusion in Pub. 596. You can elect to include this pay in your earned income when figuring the EIC. The amount of your nontaxable combat pay should be shown in box 12 of Form(s) W-2 with code Q. If you are filing a joint return and both you and your spouse received nontaxable combat pay, you can each make your own election. In other words, if one of you makes the election, the other one also can make it but doesn't have to.

If you are using your 2018 earned income to figure your 2019 EIC and you elected to include nontaxable combat pay, be sure to use 2018 nontaxable combat pay and enter that amount on the dotted line next to line 18a.

If you elect to use your nontaxable combat pay in figuring your EIC, enter "NCP" and the amount on the dotted line next to line 18a.

Credit figured by the IRS. To have the IRS figure your EIC:

- 1. Enter "EIC" on the dotted line next to line 18a.
2. Be sure you enter the nontaxable combat pay you elect to include in earned income by entering "NCP" and the amount on the dotted line next to line 18a. See Combat pay, nontaxable, earlier.
3. If you have a qualifying child, complete and attach Schedule EIC. If your EIC for a year after 1996 was reduced or disallowed, see Form 8862, who must file, later.

Exception to time lived with you. Temporary absences by you or the child for special circumstances, such as school, vacation, business, medical care, military service, or detention in a juvenile facility, count as time the child lived with you. Also see Kidnapped child under Who Qualifies as Your Dependent, earlier, and Members of the military, later. A child is considered to have lived with you for more than half of 2019 if the child was born or died in 2019 and your home was this child's home for more than half the time he or she was alive in 2019.

Form 4797 filers. If the amount on Form 1040 or 1040-SR, line 6, includes an amount from Form 4797, you must use Worksheet 1 in Pub. 596 to see if you can take the EIC. Otherwise, stop; you can't take the EIC.

Form 8862, who must file. You must file Form 8862 if your EIC for a year after 1996 was reduced or disallowed for any reason other than a math or clerical error. But don't file Form 8862 if either of the following applies.

- You filed Form 8862 for another year. The EIC was allowed for that year, and your EIC hasn't been reduced or disallowed again for any reason other than a math or clerical error.
• You are taking the EIC without a qualifying child and the only reason your EIC was reduced or disallowed in the other year was because it was determined that a child listed on Schedule EIC wasn't your qualifying child.
Also, don't file Form 8862 or take the credit for the:
• 2 years after the most recent tax year for which there was a final determination that your EIC claim was due to reckless or intentional disregard of the EIC rules, or
• 10 years after the most recent tax year for which there was a final determination that your EIC claim was due to fraud.

Foster child. A foster child is any child placed with you by an authorized placement agency or by judgment, decree, or other order of any court of competent jurisdiction. For more details on authorized placement agencies, see Pub. 596.

Married child. A child who was married at the end of 2019 is a qualifying child only if (a) you can claim him or her as your dependent, or (b) you could have claimed him or her as your dependent except for the special rule for Children of Divorced or Separated Parents under Who Qualifies as Your Dependent, earlier.

Members of the military. If you were on extended active duty outside the United States, your main home is considered to be in the United States during that duty period. Extended active duty is military duty ordered for an indefinite period or for a period of more than 90 days. Once you begin serving extended active duty, you are considered to be on extended active duty even if you don't serve more than 90 days.

Nonresident aliens. If your filing status is married jointly, go to Step 2. Otherwise, stop; you can't take the EIC. Enter "No" on the dotted line next to line 18a.

Permanently and totally disabled. A person is permanently and totally disabled if, at any time in 2019, the person couldn't engage in any substantial gainful activity because of a physical

tax benefits listed here for which you otherwise qualify. Your mother can't claim any of the five tax benefits listed here based on your daughter. However, if your mother's AGI is higher than yours and you don't claim your daughter as a qualifying child, your daughter is the qualifying child of a qualifying child.

For more details and examples, see Pub. 596.  
If you won't be taking the EIC with a qualifying child, enter "No" on the dotted line next to line 18a. Otherwise, go to Step 3, question 1.

**Social security number (SSN).** For the EIC, a valid SSN is a number issued by the Social Security Administration unless "Not Valid for Employment" is printed on the social security card and the number was issued solely to allow the recipient of the SSN to apply for or receive a federally funded benefit. However, if "Valid for Work Only With DHS Authorization" is printed on your social security card, your SSN is valid for EIC purposes only as long as the DHS authorization is still valid.

To find out how to get an SSN, see *Social Security Number (SSN)* near the beginning of these instructions. If you won't have an SSN by the date your return is due, see *What if You Can't File on Time?*

If you didn't have an SSN issued on or before the due date of your 2019 return (including extensions), you can't claim the EIC on your original or an amended 2019 return. Also, if a child didn't have an SSN issued on or before the due date of your return (including extensions), you can't count that child as a qualifying child in figuring the EIC on your original or an amended 2019 return.

**Student.** A student is a child who during any part of 5 calendar months of 2019 was enrolled as a full-time student at a school or took a full-time, on-farm training course given by a school or a state, county, or local government agency. A school includes a technical, trade, or mechanical school. It doesn't include an on-the-job training course, correspondence school, or school offering courses only through the Internet.

**Welfare benefits, effect of credit on.** Any refund you receive as a result of taking the EIC can't be counted as income when determining if you or anyone else is eligible for benefits or assistance, or how much you or anyone else can receive, under any federal program or under any state or local program financed in whole or in part with federal funds. These programs include Temporary Assistance for Needy Families (TANF), Medicaid, Supplemental Security Income (SSI), and Supplemental Nutrition Assistance Program (formerly food stamps). In addition, when determining eligibility, the refund can't be counted as a resource for at least 12 months after you receive it. Check with your local benefit coordinator to find out if your refund will affect your benefits.

or mental condition and a doctor has determined that this condition (a) has lasted or can be expected to last continuously for at least a year, or (b) can be expected to lead to death.

**Qualifying child of more than one person.** Even if a child meets the conditions to be the qualifying child of more than one person, only one person can claim the child as a qualifying child for all of the following tax benefits, unless the special rule for *Children of divorced or separated parents* under *Who Qualifies as Your Dependent*, earlier, applies.

1. Child tax credit, credit for other dependents, and additional child tax credit (lines 13a and 18b).
2. Head of household filing status.
3. Credit for child and dependent care expenses (Schedule III).
4. Exclusion for dependent care benefits (Form 2441, Part III).
5. Earned income credit (line 18a).

No other person can take any of the five tax benefits just listed based on the qualifying child. If you and any other person can claim the child as a qualifying child, the following rules apply.

- If only one of the persons is the child's parent, the child is treated as the qualifying child of the parent.
- If the parents file a joint return together and can claim the child as a qualifying child, the child is treated as the qualifying child of the parents.
- If the parents don't file a joint return together but both parents claim the child as a qualifying child, the IRS will treat the child as the qualifying child of the parent with whom the child lived for the longer period of time in 2019. If the child lived with each parent for the same amount of time, the IRS will treat the child as the qualifying child of the parent who had the higher adjusted gross income (AGI) for 2019.
- If no parent can claim the child as a qualifying child, the child is treated as the qualifying child of the person who had the highest AGI for 2019.
- If a parent can claim the child as a qualifying child but no parent does so claim the child, the child is treated as the qualifying child of the person who had the highest AGI for 2019, but only if that person's AGI is higher than the highest AGI of any parent of the child who can claim the child.

**TIP** If, under these rules, you can't claim a child as a qualifying child for the EIC, you may be able to claim the EIC under the rules for a taxpayer without a qualifying child. For more information, see Pub. 596.

**Example.** Your daughter meets the conditions to be a qualifying child for both you and your mother. Your daughter doesn't meet the conditions to be a qualifying child of any other person, including her other parent. Under the rules just described, you can claim your daughter as a qualifying child for all of the five

Caution. This is not a tax table.

1. To find your credit, read down the "At least" column that includes the amount you were to look up from your EIC Worksheet.

2. Then, go to the column that includes your filing status and the number of qualifying children you have. Enter the credit from that column on your EIC Worksheet.

This election to apply part or all of the amount overpaid to your 2020 estimated tax can't be changed later.

## Amount You Owe

To avoid interest and penalties, pay your taxes in full by the date of your return (not including extensions)—April 15, 2020, for most taxpayers. You don't have to pay if line 23 is under \$1.

Include any estimated tax penalty from line 24 in the amount you enter on line 23. Don't include any estimated payments for 2020 in this payment. Instead, make the estimated payment separately.

**Bad check or payment.** The penalty for writing a bad check to the IRS is \$25 or 2% of the check, whichever is more. However, if the amount of the check is less than \$25, the penalty equals the amount of the check. This also applies to other forms of payment if the IRS doesn't receive the funds. Use [Tax Topic 206](#).

## Line 23

### Amount You Owe

The IRS offers several payment options. You can pay online, by phone, mobile device, cash (maximum \$1,000 per day and per transaction), check, or money order. Go to [IRS.gov/Payments](#) for payment options.

### Pay Online

The IRS offers an electronic payment option that is right for you. Paying online is convenient and secure and helps make sure we get your payments on time. To pay your taxes online or for more information, go to [IRS.gov/Zoomize](#). You can pay using any of the following methods.

- **IRS Direct Pay** for online transfers directly from your checking or savings account at no cost to you, go to [IRS.gov/Payments](#).
- **Pay by Card.** To pay by debit or credit card, go to [IRS.gov/Payments](#). A convenience fee is charged by these service providers.

- **Electronic Funds Withdrawal (EFW)** is an integrated e-file/e-pay option offered when filing your federal taxes electronically using tax preparation software through a tax professional, or the IRS at [IRS.gov/Payments](#).
- **Online Payment Agreement.** If you can't pay in full by the due date of your tax return, you can apply for an online monthly installment agreement at [IRS.gov/Payments](#). Once you complete the online process, you will receive immediate notification of whether your agreement has been approved. A user fee is charged.
- **IRS2Go** is the mobile application of the IRS; you can access Direct Pay or Pay By Card by downloading the application.

### Pay by Phone

Paying by phone is another safe and secure method of paying electronically. Use one of the following methods: (1) call one of the debit or credit card service providers, or (2) use the Electronic Federal Tax Payment System (EFTPS).

**Debit or credit card.** Call one of our service providers. Each charges a fee that varies by provider, card type, and payment amount.

People who are deaf, hard of hearing, or have a speech disability and who have access to TTY/TDD equipment can call 800-753-4829. For more information

about EFTPS, go to [IRS.gov/Payments](#) or [www.EFTPS.gov](#).

### Pay by Mobile Device

To pay through your mobile device, download the IRS2Go app.

### Pay by Cash

Cash is an in-person payment option for individuals provided through retail partners with a maximum of \$1,000 per day per transaction. To make a cash payment, you must first be registered online at [www.officialpayments.com/efd](#), our Official Payment provider.

### Pay by Check or Money Order

Before submitting a payment through the mail, please consider alternative methods. One of our safe, quick, and easy electronic payment options might be right for you. If you choose to mail a tax payment, make your check or money order payable to "United States Treasury" for the full amount due. Don't send cash. Don't attach the payment to your return. Write "2019 Form 1040" or "2019 Form 1040-SR" and your name, address, daytime phone number, and social security number (SSN) on your payment and attach Form 1040-V. For the most up-to-date information on Form 1040-V, go to [IRS.gov/Form1040V](#). If you are filing a joint return, enter the SSN shown first on your tax return.

To help us process your payment, enter the amount on the right side of the check like this: \$ XXX.XX. Don't use dashes or lines (for example, don't enter "\$ XXX-<sup>00</sup>" or "\$ XXXX<sup>100</sup>").

Mail your 2019 tax return, payment, and Form 1040-V to the address shown on the form that applies to you.

**Notice to taxpayers presenting checks.** When you provide a check as payment, you authorize us either to use information from your check to make a one-time electronic fund transfer from your account or to process the payment as a check transaction. When we use information from your check to make an electronic fund transfer, funds may be withdrawn from your account as soon as the same day we receive your payment, and you will not receive your check back from your financial institution.

**No checks of \$100 million or more accepted.** The IRS can't accept a single check (including a cashier's check) for amounts of \$100,000,000 (\$100 million) or more. If you are sending \$100 million or more by check, you'll need to spread the payment over 2 or more checks with each check made out for an amount less than \$100 million. This limit doesn't apply to other methods of payment (such as electronic payments). Please consider a method of payment other than check if the amount of the payment is over \$100 million.

**What if You Can't Pay?**  
If you can't pay the full amount shown on line 23 when you file, you can ask for:

- An installment agreement, or
- An extension of time to pay.

**Installment agreement.** Under an installment agreement, you can pay all or part of the tax you owe in monthly installments. However, even if an installment agreement is granted, you will be charged interest and may be charged a late payment penalty on the tax not paid (counting extensions)—April 15, 2020, for most people. You also must pay a fee. To limit the interest and penalty charges, pay as much of the tax as possible when you file. But before requesting an installment agreement, you should consider other less costly alternatives, such as a bank loan or credit card payment.

To apply online, go to [IRS.gov](#) and click on [Apply for an Online Payment Plan](#).

**Extension of time to pay.** If paying the tax when it is due would cause you an undue hardship, you can ask for an extension of time to pay by filing Form 1127 by the due date of your return (not counting extensions)—April 15, 2020, for most people. An extension generally won't be granted for more than 6 months. You will be charged interest on the tax not paid by April 15, 2020. You must pay the tax before the extension runs out. Penalties and interest will be imposed until taxes are paid in full. For the most up-to-date information on Form 1127, go to [IRS.gov/Form1127](#).

To ask for an installment agreement, you can apply online or use Form 9465. To apply online, go to [IRS.gov](#) and click on [Apply for an Online Payment Plan](#).

**Extension of time to pay.** If paying the tax when it is due would cause you an undue hardship, you can ask for an extension of time to pay by filing Form 1127 by the due date of your return (not counting extensions)—April 15, 2020, for most people. An extension generally won't be granted for more than 6 months. You will be charged interest on the tax not paid by April 15, 2020. You must pay the tax before the extension runs out. Penalties and interest will be imposed until taxes are paid in full. For the most up-to-date information on Form 1127, go to [IRS.gov/Form1127](#).

For most people, the "tax shown on your 2018 return" is the amount on your 2018 Form 1040, line 15, minus the total of any amounts shown on lines 17a, 17b, 17c, Schedule 4, line 61, and Schedule 5, lines 70 and 73, and Forms 8828,

4137, 5329 (Parts III through IX only), 8885, and 8919. Also subtract from line 15 any:

- Tax on an excess parachute payment.
- Excise tax on insider stock compensation of an expatriated corporation.
- Uncollected social security and Medicare or RRTA tax on tips or group-term life insurance, and
- Look-back interest due under section 167(g) or 460(b).

When figuring the amount on line 15, only if line 16 is more than zero or you would have owed the estimated tax penalty for 2018 even if you didn't include those taxes.

If the **Exception** just described doesn't apply, see the Instructions for Form 2210 for other situations in which you may be able to lower your penalty by filing Form 2210.

**Figuring the Penalty**  
If you choose to figure the penalty yourself, use Form 2210 (or 2210-F for farmers and fishermen).

Enter any penalty on line 24. Add the penalty to any tax due and enter the total on line 23.

However, if you have an overpayment on line 20, subtract the penalty from the amount you would otherwise enter on line 21a or line 22. Lines 21a, 22, and 24 must equal line 20.

If the penalty is more than the overpayment on line 20, enter -0- on lines 21a and 22. Then subtract line 20 from line 24 and enter the result on line 23.

Don't file Form 2210 with your return unless Form 2210 indicates that you must do so. Instead, keep it for your records.

**Because Form 2210 is completed, you can leave line 24 blank and the IRS will figure the penalty and send you a bill. We won't charge you interest on the penalty if you pay by the date specified on the bill. If your income varied during the year, the annualized income installment method may reduce the amount of your penalty. But you must file Form 2210 because the IRS can't figure your penalty under this method.**

**TIP**  
Because Form 2210 is completed, you can leave line 24 blank and the IRS will figure the penalty and send you a bill. We won't charge you interest on the penalty if you pay by the date specified on the bill. If your income varied during the year, the annualized income installment method may reduce the amount of your penalty. But you must file Form 2210 because the IRS can't figure your penalty under this method.

Third Party Designee

If you want to allow a friend, a family member, or any other person you choose (other than your paid preparer) to discuss your 2019 tax return with the IRS, check the "Yes" box in the "Third Party Designee" area of your return. Also, enter the designee's name, phone number, and any five digits the designee chooses as his or her personal identification number (PIN).

If you want to designate your paid preparer's firm or business, check the "Yes" box and complete the other information requested. Don't check the "3rd Party Designee" box in the "Paid Preparer Use Only" section.

If you check the "Yes" box, you, and your spouse if filing a joint return, are authorizing the IRS to call the designee to answer any questions that may arise during the processing of your return. You also are authorizing the designee to:
• Give the IRS any information that is missing from your return,
• Call the IRS for information about the processing of your return or the status of your refund or payment(s),
• Receive copies of notices or transcripts related to your return, upon request, and
• Respond to certain IRS notices about math errors, offsets, and return preparation.

You aren't authorizing the designee to receive any refund check, bind you to anything (including any additional tax liability), or otherwise represent you before the IRS. If you want to expand the designee's authorization, see Pub. 947. This authorization will automatically end no later than the due date (not counting extensions) for filing your 2020 tax return. This is April 15, 2021, for most people.

If you complete the "Third Party Designee" section of your return, do not check the "3rd Party Designee" box in the "Paid Preparer Use Only" section of your return.

Sign Your Return

Form 1040 or 1040-SR isn't considered a valid return unless you sign it. If you are filing a joint return, your spouse also must sign. If your spouse can't sign the return, see Pub. 501. Be sure to date your return and enter your occupation(s). If you have someone prepare your return, you are still responsible for the correctness of the return. If your return is signed by a representative for you, you must have a power of attorney attached that specifically authorizes the representative to sign your return. To do this, you can use Form 2848. If you are filing a joint return as a surviving spouse, see Death of a Taxpayer, later.

Court-Appointed Conservator, Guardian, or Other Fiduciary

If you are a court-appointed conservator, guardian, or other fiduciary for a mentally or physically incompetent individual who has to file Form 1040 or 1040-SR, sign your name for the individual and file Form 56.

Child's Return

If your child can't sign his or her return, either parent can sign the child's name in the space provided. Then, enter "By (your signature), parent for minor child."

Electronic Return Signatures

To file your return electronically, you must sign the return electronically using a personal identification number (PIN). If you are filing online using software, you must use a Self-Select PIN. If you are filing electronically using a tax practitioner, you can use a Self-Select PIN or a Practitioner PIN.

Self-Select PIN. The Self-Select PIN method allows you to create your own PIN. If you are married filing jointly, you and your spouse will each need to create a PIN and enter these PINs as your electronic signatures.

A PIN is any combination of five digits you choose except five zeros. If you use a PIN, there is nothing to sign and nothing to mail—not even your Forms W-2.

To verify your identity, you will be prompted to enter your date of birth and your adjusted gross income (AGI) from your originally filed 2018 federal income tax return, if applicable. Don't use your AGI from an amended return (Form 1040-X) or a math error correction made by the IRS. AGI is the amount shown on your 2018 Form 1040, line 7. If you don't have your 2018 income tax return, call the IRS at 800-908-9946 to get a free transcript of your return or visit IRS.gov/Transcript. (If you filed electronically last year, you may use your prior year PIN to verify your identity instead of your prior-year AGI. The prior year PIN is the five-digit PIN you used to electronically sign your 2018 return.)

You can't use the Self-Select PIN method if you are a first-time filer under age 16 at the end of 2019.

Practitioner PIN. The Practitioner PIN method allows you to authorize your tax practitioner to enter or generate your PIN. The practitioner can provide you with details.

Form 8453. You must send in a paper Form 8453 if you have to attach certain forms or other documents that can't be electronically filed. See Form 8453.

Identity Protection PIN

For 2019, if you received an Identity Protection Personal Identification Number (IP PIN) from the IRS, enter it in the IP PIN spaces provided next to the space for your occupation. You must correctly enter all six numbers of your IP PIN. If you didn't receive an IP PIN, leave these spaces blank.

New IP PINs are generated every year. This year they will generally be sent out by mid-January 2020. Use this IP PIN on your 2019 return as well as any prior-year returns you file in 2020.

If you are filing a joint return and both taxpayers receive an IP PIN, enter both IP PINs in the spaces provided.

If you need more information, go to IRS.gov/IPPIN. If you received an IP PIN but misplaced it, call 800-908-4490.

Phone Number and Email Address

You have the option of entering your phone number and email address in the spaces provided. There will be no effect on the processing of your return if you choose not to enter this information. Note that the IRS initiates most contacts through regular mail delivered by the United States Postal Service.

You can report a phone scam to the Treasury Inspector General for Tax Administration at IRS.Impeachment.Scams@treasury.gov or the FTC using the FTC Complaint Assistant at FTC.gov. Add "IRS Telephone Scam" in the notes.

You can report an unsolicited email claiming to be from the IRS, or an IRS-related component like Electronic Federal Tax Payment System, to the IRS at phishing@irs.gov.

For more information, go to IRS.gov/Phishing and IRS.gov/newsroom/how-to-know-its-really-the-irs-calling-or-broaching-on-your-door.

Paid Preparer Must Sign Your Return

Generally, anyone you pay to prepare your return must sign it and include their Preparer Tax Identification Number (PTIN) in the space provided. The preparer must give you a copy of the return for your records. Someone who prepares

your return but doesn't charge you shouldn't sign your return.

If your paid preparer is self-employed, then he or she should check the "self-employed" checkbox.

If you want to allow your paid preparer to be able to discuss your return with the IRS, check the "3rd Party Designee" checkbox.

Checking this box allows the preparer whose name and PTIN appear in this section to discuss your return with the IRS.

If you want your paid preparer's firm or business to discuss your return with the IRS, check the "Yes" box in the "Third Party Designee" section and complete the other information requested in that section instead of checking this box.

If you check the "3rd Party Designee" checkbox, you, and your spouse if filing a joint return, are authorizing the IRS to call the designee to answer any questions that may arise during the processing of your return. You also are authorizing the designee to:
• Give the IRS any information that is missing from your return,
• Call the IRS for information about the processing of your return or the status of your refund or payment(s),
• Receive copies of notices or transcripts related to your return, upon request, and
• Respond to certain IRS notices about math errors, offsets, and return preparation.

You aren't authorizing the designee to receive any refund check, bind you to

anything (including any additional tax liability), or otherwise represent you before the IRS. If you want to expand the designee's authorization, see Pub. 947.

This authorization will automatically end no later than the due date (not counting extensions) for filing your 2020 tax return. This is April 15, 2021, for most people.

If you want someone other than your paid preparer to be your third party designee, do not check the box here. Instead, see Third Party Designee, earlier.

Assemble Your Return

Assemble any schedules and forms behind Form 1040 or 1040-SR in order of the "Attachment Sequence No." shown in the upper-right corner of the schedule or form. If you have supporting statements, arrange them in the same order as the schedules or forms they support and attach them last. File your return, schedules, and other attachments on standard size paper. Cutting the paper may cause problems in processing your return. Don't attach correspondence or other items unless required to do so. Attach Forms W-2 and 2439 to Form 1040 or 1040-SR. If you received a Form W-2c (a corrected Form W-2), attach your original Forms W-2, and any Forms W-2c. Attach Forms W-2G and 1099-R to Form 1040 or 1040-SR if tax was withheld.

**General Information**

**The IRS Mission.** Provide America's taxpayers top-quality service by helping them understand and meet their tax responsibilities and enforce the law with integrity and fairness to all.

**How To Avoid Common Mistakes**

Mistakes can delay your refund or result in notices being sent to you. One of the best ways to file an accurate return is to file electronically. Tax software does the math for you and will help you avoid mistakes. You may be eligible to use free tax software that will take the guesswork out of preparing your return. Free File makes available free brand-name software and free e-file. Visit [IRS.gov/FreeFile](http://IRS.gov/FreeFile) for details. Join the eight in 10 taxpayers who get their refunds faster by using direct deposit and e-file.

- File your return on a standard size sheet of paper. Cutting the paper may cause problems in processing your return.
- Make sure you entered the correct name and social security number (SSN) for each dependent you claim in the *Dependents* section. Check that each dependent's name and SSN agrees with his or her social security card. For each child under age 17 who is a qualifying dependent who qualifies for the credit for other dependents, make sure you checked the appropriate box in column (4) of the *Dependents* section.
- Check your math, especially for the child tax credit, earned income credit (EIC), taxable social security benefits, total income, itemized deductions or standard deduction, taxable income, total tax, federal income tax withheld, and refund or amount you owe.
- Be sure to add the correct amounts on Form 1040 or 1040-SR. Some lines require you to add across instead of down and some lines require you to add amounts from another form or schedule and then enter the total on Form 1040 or 1040-SR.
- Be sure you used the correct method to figure your tax. See the instructions for line 12a.

copy of the same return (unless we ask you to do so), could delay your refund.

- Make sure that if you, your spouse, or your dependent was enrolled in Marketplace coverage and advance payments of the premium tax credit were made for the coverage, that you attach Form 8962. You may have to repay excess advance payments even if someone else enrolled you, your spouse, or your dependent in the Marketplace coverage. Excess advance payments may also have to be repaid if you enrolled someone in Marketplace coverage, you don't claim that individual as a dependent, and no one else claims that individual as a dependent. See the instructions for Schedule 2, line 2, and the Instructions for Form 8962. You or whoever enrolled you should have received Form 1095-A from the Marketplace with information about who was covered and any advance payments of the premium tax credit.

**Innocent Spouse Relief**

Generally, both you and your spouse are each responsible for paying the full amount of tax, interest, and penalties on your joint return. However, you may qualify for relief from liability for tax on a joint return if (a) there is an understatement of tax because your spouse omitted income or claimed false deductions or credits; (b) you are divorced, separated, or no longer living with your spouse; or (c) given all the facts and circumstances, it wouldn't be fair to hold you liable for the tax. You also may qualify for relief if you were a married resident of a community property state but didn't file a joint return and are now liable for an unpaid or understated tax. File Form 8857 to request relief. In some cases, Form 8857 may need to be filed within 2 years of the date on which the IRS first attempted to collect the tax from you. Don't file Form 8857 with your Form 1040 or 1040-SR. For more information, see Pub. 971 and Form

• Be sure to enter your SSN in the space provided on page 1 of Form 1040 or 1040-SR. If you are married filing a joint or separate return, also enter your spouse's SSN. Be sure to enter your SSN in the space next to your name. Check that your name and SSN agree with your social security card.

- Make sure your name and address are correct. Enter your (and your spouse's) name in the same order as shown on your last return.
- If you live in an apartment, be sure to include your apartment number in your address.
- If you are taking the standard deduction, see the instructions for line 9 to be sure you entered the correct amount.
- If you received capital gain distributions but weren't required to file Schedule D, make sure you checked the box on line 6.
- If you are taking the EIC, be sure you used the correct column of the EIC Table for your filing status and the number of children you have.
- Remember to sign and date Form 1040 or 1040-SR and enter your occupation(s).
- Attach your Form(s) W-2 and other required forms and schedules. Put all forms and schedules in the proper order. See *Assemble Your Return*, earlier.
- If you owe tax, and are paying by check or money order, be sure to include all the required information on your payment. See the instructions for line 23 for details.
- Make sure to check *Where Do You File?* before mailing your return. Over the next several years, the IRS will be reducing the number of paper tax return processing sites. Because of this, you may need to mail your return to a different address than you have in the past.
- Don't file more than one original return for the same year, even if you haven't gotten your refund or haven't heard from the IRS since you filed. Filing more than one original return for the same year, or sending in more than one

Income Tax Withholding and Estimated Tax Payments for 2020

You can use the Tax Withholding Estimator instead of Pub. 505 or the worksheets included with Form W-4 or W-4P to determine whether you need to have your withholding increased or decreased.

In general, you don't have to make estimated tax payments if you expect that your 2020 Form 1040 or 1040-SR will show a tax refund or a tax balance due of less than \$1,000. If your total estimated tax for 2020 is \$1,000 or more, see Form 1040-ES and Pub. 505 for a worksheet you can use to see if you have to make estimated tax payments. For more details, see Pub. 505.

Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information, such as your name, social security number (SSN), or other identifying information, without your permission, to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

- To reduce your risk:
• Protect your SSN.
• Ensure your employer is protecting your SSN, and
• Be careful when choosing a tax return preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter. For more information, see Pub. 507.

If your SSN has been lost or stolen or you suspect you are a victim of tax-related identity theft, visit IRS.gov/IdentityTheft to learn what steps you should take.

How Do You Make a Gift To Reduce Debt Held By the Public?

If you wish to do so, make a check payable to "Bureau of the Fiscal Service." You can send it to: Bureau of the Fiscal Service, Attn: Dept. G, P.O. Box 2188, Parkersburg, WV 26106-2188. Or, you can enclose the check with your income tax return when you file. In the memo section of the check, make a note that it is a gift to reduce the debt held by the public. Don't add your gift to any tax you may owe. See the instructions for line 23 for details on how to pay any tax you owe. For information on how to make this type of gift online, go to www.irs.gov/efile and click on "How to Make a Contribution to Reduce the Debt."

You may be able to deduct this gift on your 2020 tax return.

How Long Should Records Be Kept?

Keep a copy of your tax return, worksheets you used, and records of all items appearing on it (such as Forms W-2 and 1099) until the statute of limitations runs out for that return. Usually, this is 3 years from the date the return was due or filed or 2 years from the date the tax was paid, whichever is later. You should keep some records longer. For example, keep property records (including those on your home) as long as they are needed to figure the basis of the original or replacement property. For more details, see chapter 1 of Pub. 17.

Amended Return

File Form 1040-X to change a return you already filed. Generally, Form 1040-X must be filed within 3 years after the date the original return was filed or within 2 years after the date the tax was paid, whichever is later. But you may have more time to file Form 1040-X if you live in a federally declared disaster area or you are physically

or mentally unable to manage your financial affairs. See Pub. 556 for details.

Use the Where's My Amended Return application on IRS.gov to track the status of your amended return. It can take up to 3 weeks from the date you mailed it to show up in our system.

Need a Copy of Your Tax Return Information?

Tax return transcripts are free and generally are used to validate income and tax filing status for mortgage applications, student and small business loan applications, and during tax return preparation. To get a free transcript:
• Visit IRS.gov/Transcript.
• Use Form 4506-T or 4506-T-EZ, or
• Call us at 800-908-9946.

If you need a copy of your actual tax return, use Form 4506. There is a fee for each return requested. See Form 4506 for the current fee. If your main home, principal place of business, or tax records are located in a federally declared disaster area, this fee will be waived.

Death of a Taxpayer

If a taxpayer died before filing a tax return for 2019, the taxpayer's spouse or personal representative may have to file and sign a return for that taxpayer. A personal representative can be an executor, administrator, or anyone who is in charge of the deceased taxpayer's property. If the deceased taxpayer didn't have to file a return but had tax withheld, a return must be filed to get a refund. The person who files the return must enter "Deceased" the deceased taxpayer's name, and the date of death across the top of the return. If this information isn't provided, it may delay the processing of the return.

If your spouse died in 2019 and you didn't re-marry in 2019, or if your spouse died in 2020 before filing a return for 2019, you can file a joint return. A joint return should show your spouse's 2019 income before death and your income for all of 2019. Enter "Filing as surviving spouse" in the area where you sign the return. If someone else is the personal representative, he or she also must sign.

The surviving spouse or personal representative should promptly notify all payers of income, including financial institutions, of the taxpayer's death. This will ensure the proper reporting of income earned by the taxpayer's estate or heirs. A deceased taxpayer's social security number shouldn't be used for tax years after the year of death, except for estate tax return purposes.

Claiming a Refund for a Deceased Taxpayer

If you are filing a joint return as a surviving spouse, you only need to file the tax return to claim the refund. If you are a court-appointed representative, file the return and include a copy of the certificate that shows your appointment. All other filers requesting the deceased taxpayer's refund must file the return and attach Form 1310.

For more details, see Tax Topic 356 or see Pub. 559.

Past Due Returns

If you or someone you know needs to file past due tax returns, use Tax Topic 353 or go to IRS.gov/Individuals for help in filing those returns. Send the return to the address that applies to you in the latest Form 1040 and 1040-SR instructions. For example, if you are filing a 2016 return in 2020, use the address at the end of these instructions. However, if you got an IRS notice, mail the return to the address in the notice.

**Interest and Penalties**

You don't have to figure the amount of any interest or penalties you may owe. We will send you a bill for any amount due.

If you choose to include interest or penalties (other than the estimated tax penalty) with your payment, identify and enter the amount in the bottom margin of Form 1040 or 1040-SR, page 2. Don't include interest or penalties (other than the estimated tax penalty) in the amount you owe on line 23.

**Interest**

We will charge you interest on taxes not paid by their due date, even if an extension of time to file is granted. We also will charge you interest on penalties imposed for failure to file, negligence, fraud, substantial or gross valuation misstatements, substantial understatement of tax, and reportable transaction understatements. Interest is charged on the penalty from the due date of the return (including extensions).

**Penalties**

**Late filing.** If you don't file your return by the due date (including extensions), the penalty is usually 5% of the amount due for each month or part of a month your return is late, unless you have a reasonable explanation. If you have a reasonable explanation for filing late, include it with your return. The penalty of these penalties.

can be as much as 25% of the tax due. The penalty is 15% per month, up to a maximum of 75%, if the failure to file is fraudulent. If your return is more than 60 days late, the minimum penalty will be \$435 or the amount of any tax you owe, whichever is smaller.

**Late payment of tax.** If you pay your taxes late, the penalty is usually 1/2 of 1% of the unpaid amount for each month or part of a month the tax isn't paid. The penalty can be as much as 25% of the unpaid amount. It applies to any unpaid tax on the return. This penalty is, in addition to interest charges on late payments.

**Frivolous return.** In addition to any other penalties, the law imposes a penalty of \$5,000 for filing a frivolous return. A frivolous return is one that doesn't contain information needed to figure the correct tax or shows a substantially incorrect tax because you take a frivolous position or desire to delay or interfere with the tax laws. This includes altering or striking out the preprinted language above the space where you sign. For a list of positions identified as frivolous, see Notice 2010-33, 2010-17 I.R.B. 609, available at [IRS.gov/irb/2010-17\\_IRB%2010-33](https://www.irs.gov/irb/2010-17_IRB%2010-33).

**Other.** Other penalties can be imposed for, among other things, negligence, substantial understatement of tax, reportable transaction understatements, filing an erroneous refund claim, and fraud. Criminal penalties may be imposed for willful failure to file, tax evasion, making a false statement, or identity theft. See Pub. 17 for details on some of these penalties.

Instructions for Schedule 1 Additional Income and Adjustments To Income

General Instructions Use Schedule 1 to report income or adjustments to income that can't be entered directly on Form 1040 or 1040-SR.

Additional income is entered on Schedule 1, lines 1 through 8. The amount on line 9 of Schedule 1 is entered on Form 1040 or 1040-SR, line 7a.

Adjustments to income are entered on Schedule 1, lines 10 through 22. The amount on line 22 is entered on Form 1040 or 1040-SR, line 8a.

Virtual Currency If, in 2019, you engaged in any transaction involving virtual currency, check the "Yes" box next to the question on a transaction at the top of Schedule 1. A transaction involving virtual currency includes:

- The receipt or transfer of virtual currency for free (without providing any consideration), including from an airdrop or following a hard fork.
An exchange of virtual currency for goods or services;
A sale of virtual currency; and
An exchange of virtual currency for other property, including for another virtual currency.

If you disposed of any virtual currency that was held as a capital asset, use Form 8949 to figure your capital gain or loss and report it on Schedule D (Form 1040 or 1040-SR).

If you received any virtual currency as compensation for services or disposed of any virtual currency that you held for sale to customers in a trade or business, you must report the income as you would report other income of the same type (for example, W-2 wages on Form 1040 or 1040-SR, line 1, or inventory or services from Schedule C on Schedule 1).

If, in 2019, you have not engaged in any transaction involving virtual currency, and you don't otherwise have to file

Schedule 1, you don't have to do anything further. If you otherwise have to file Schedule 1, check the "No" box.

For more information, go to IRS.gov/virtualcurrencytaxes.

Additional Income

Line 1

Taxable Refunds, Credits, or Offsets of State and Local Income Taxes

None of your refund is taxable if, in the year you paid the tax, you either (a) didn't itemize deductions, or (b) elected to deduct state and local general sales taxes instead of state and local income taxes.

If you received a refund, credit, or offset of state or local income taxes in 2019, you may be required to report this amount. If you didn't receive a Form 1099-G, check with the government agency that made the payments to you. Your 2019 Form 1099-G may have been made available to you only in an electronic format, and you will need to get instructions from the agency to retrieve this document. Report any taxable refund you received even if you didn't receive Form 1099-G.

If you chose to apply part or all of the refund to your 2019 estimated state or local income tax, the amount applied is treated as received in 2019. If the refund was for a tax you paid in 2018 and you deducted state and local income taxes on your 2018 Schedule A, use the State and Local Income Tax Refund Worksheet in these instructions to see if any of your refund is taxable.

Exception. See Itemized Deduction Recoveries in Pub. 525 instead of using the State and Local Income Tax Refund Worksheet in these instructions if any of the following applies.

- 1. You received a refund in 2019 that is for a tax year other than 2018.
2. You received a refund other than an income tax refund, such as a general sales tax or real property tax refund, in 2019 of an amount deducted or credit claimed in an earlier year.

- 3. You had taxable income on your 2018 Form 1040, line 10, but no tax on your Form 1040, line 11, because of the 0% tax rate on net capital gain and qualified dividends in certain situations.

- 4. Your 2018 state and local income tax refund is more than your 2018 state and local income tax deduction minus the amount you could have deducted as your 2018 state and local general sales taxes.

- 5. You made your last payment of 2018 estimated state or local income tax in 2019.

- 6. You owed alternative minimum tax in 2018.

- 7. You couldn't use the full amount of credits you were entitled to in 2018 because the total credits were more than the amount shown on your 2018 Form 1040, line 11.

- 8. You could be claimed as a dependent by someone else in 2018.

- 9. You received a refund because of a jointly filed state or local income tax return, but you aren't filing a joint 2019 Form 1040 with the same person.

**Alimony Paid**

**Line 18a**

If you made payments to or for your spouse or former spouse under a divorce or separation agreement entered into on or before December 31, 2018, you may be able to take this deduction. You can't take a deduction for alimony payments you made to or for your spouse if you entered into your divorce or separation agreement after December 31, 2018, or if you entered into the agreement on or before December 31, 2018, and the agreement was changed after December

31, 2018, to expressly provide that alimony received is not included in your former spouse's income. Use [Tax Topic 452](#) or see Pub. 504.

**Line 18c**

On line 18c, enter the month and year of your original divorce or separation agreement that relates to this deduction for alimony paid.

**Line 19**

**IRA Deduction**

**TIP** If you made any nondeductible contributions to a traditional individual retirement arrangement (IRA) for 2019, you must report them on Form 8606.

If you made contributions to a traditional IRA for 2019, you may be able to take an IRA deduction. But you, or your spouse if filing a joint return, must have had earned income to do so. For IRA purposes, earned income includes alimony and separate maintenance payments reported on Schedule 1, line 2a. If you were a member of the U.S. Armed Forces, earned income includes any nontaxable combat pay you received. If you are self-employed, earned income generally is your net earnings from self-employment if your personal services were a material income-producing factor. For more details, see Pub. 590-A. A statement should be sent to you by June 1, 2020, that shows all contributions to your traditional IRA for 2019.

Use the IRA Deduction Worksheet to figure the amount, if any, of your IRA deduction. But read the following 11-item list before you fill in the worksheet.

1. If you were age 70½ or older at the end of 2019, you can't deduct any contributions made to your traditional IRA for 2019 or treat them as nondeductible contributions.
2. You can't deduct contributions to a Roth IRA. But you may be able to take the retirement savings contributions

credit (saver's credit). See the instructions for Schedule 3, line 4.

3. If you are filing a joint return and you or your spouse made contributions to both a traditional IRA and a Roth IRA for 2019, don't use the IRA Deduction Worksheet in these instructions. Instead, see Pub. 590-A to figure the amount, if any, of your IRA deduction.

4. You can't deduct elective deferrals to a 401(k) plan, 403(b) plan, section 457 plan, SIMPLE plan, or the federal Thrift Savings Plan. These amounts aren't included as income in box 1 of your Form W-2.

5. If you made contributions to your IRA in 2019 that you deducted for 2018, don't include them in the worksheet.

6. If you received income from a nonqualified deferred compensation plan or nongovernmental section 457 plan that is included in box 1 of your Form W-2, or in box 7 of Form 1099-MISC, don't include that income on line 8 of the worksheet. The income should be shown in (a) box 11 of your Form W-2, (b) box 12 of your Form W-2 with code Z, or (c) box 15b of Form 1099-MISC. If it isn't, contact your employer or the payer for the amount of the income.

7. You must file a joint return to deduct contributions to your spouse's IRA. Enter the total IRA deduction for you and your spouse on line 19.

8. Don't include rollover contributions in figuring your deduction. Instead, see the instructions for Form 1040 or 1040-SR, lines 4a and 4b.

9. Don't include trustees' fees that were billed separately and paid by you for your IRA.

10. Don't include any repayments of qualified reservist distributions. You can't deduct them. For information on how to report these repayments, see [Qualified reservist repayments in Pub. 590-A](#).

11. If the total of your IRA deduction on line 19 plus any nondeductible con-

tribution to your traditional IRAs shown on Form 8606 is less than your total traditional IRA contributions for 2019, see Pub. 590-A for special rules.

**TIP**

By April 1 of the year after the year in which you turn age 70½, you must start taking minimum required distributions from your traditional IRA. If you don't, you may have to pay a 50% additional tax on the amount that should have been distributed. For details, including how to figure the minimum required distribution, see Pub. 590-B.

**Were You Covered by a Retirement Plan?** If you were covered by a retirement plan (qualified pension, profit-sharing (including 401(k)), annuity, SEP, SIMPLE, etc.) at work or through self-employment, your IRA deduction may be reduced or eliminated. But you can still make contributions to an IRA even if you can't deduct them. In any case, the income earned on your IRA contributions isn't taxed until it is paid to you.

The "Retirement plan" box in box 13 of your Form W-2 should be checked if you were covered by a plan at work even if you weren't vested in the plan. You also are covered by a plan if you were self-employed and had a SEP, SIMPLE, or qualified retirement plan.

If you were covered by a retirement plan and you file Form 2555 or 8815, or you exclude employer-provided adoption benefits, see Pub. 590-A to figure the amount, if any, of your IRA deduction.

**Married persons filing separately.** If you weren't covered by a retirement plan but your spouse was, you are considered covered by a plan unless you lived apart from your spouse for all of 2019.

**TIP**

You may be able to take the retirement savings contributions credit. See the Schedule 3, line 4 instructions.

IRA Deduction Worksheet—Continued

7. Multiply lines 6a and 6b by the percentage below that applies to you. If the result isn't a multiple of \$10, increase it to the next multiple of \$10 (for example, increase \$490.30 to \$500). If the result is \$200 or more, enter the result. But if it is less than \$200, enter \$200.

- Single, head of household, or married filing separately, multiply by 60% (0.60) (or by 70% (0.70) in the column for the IRA of a person who is age 50 or older at the end of 2019).
- Married filing jointly or qualifying widow(er), multiply by 30% (0.30) (or by 35% (0.35) in the column for the IRA of a person who is age 50 or older at the end of 2019). But if you checked "No" on either line 1a or 1b, then in the column for the IRA of the person who wasn't covered by a retirement plan (line 1a or 1b) by 60% (0.60) (or by 70% (0.70) if age 50 or older at the end of 2019).

8. Enter the total of your (and your spouse's if filing jointly):

- Wages, salaries, tips, etc. Generally, this is the amount shown in box 1 of Form W-2. If amounts are explained earlier in these instructions for line 19.

- Non-taxable combat pay. This amount should be reported in box 12 of Form W-2 with code Q.

9. Enter the earned income you (and your spouse if filing jointly) received as a self-employed individual or a partner. If zero or less, enter -0-. For more details, see Pub. 590-A.

10. Add lines 8 and 9.

**CAUTION** If married filing jointly and line 10 is less than \$11,000 (\$12,000 if one spouse is age 50 or older at the end of 2019; \$13,000 if both spouses are age 50 or older at the end of 2019), stop here and use the worksheet in Pub. 590-A to figure your IRA deduction.

12. On line 12a, enter the smallest of line 7a, 10, or 11a. On line 12b, enter the smallest of lines 7b, 10, or 11b. This is the most you can deduct. Add the amounts on lines 12a and 12b and enter the total on Schedule 1, line 19. Or, if you want, you can deduct a smaller amount and treat the rest as a nondeductible contribution (see Form 8606).

**Excess Advance Premium Tax Credit Repayment**  
 The premium tax credit helps pay premiums for health insurance purchased from the Marketplace. Eligible individuals may have advance payments of the premium tax credit paid on their behalf directly to the insurance company. If you, your spouse with whom you are filing a joint return, or your dependent was enrolled in coverage purchased from the

Marketplace and advance payments of the premium tax credit were made for the coverage, complete Form 8962 to reconcile (compare) the advance payments with your premium tax credit. You (or whoever enrolled you) should have received Form 1095-A from the Marketplace with information about your coverage and any advance credit payments. If the advance credit payments were more than the premium tax credit you can claim, the amount you must repay will be shown on Form 8962, line 29. Enter that amount, if any, on line 2.

You may have to repay excess advance payments of the premium tax credit even if someone else enrolled you, your spouse, or your dependent in Marketplace coverage. In that case, another individual may have received the Form 1095-A for the coverage. You also may have to repay excess advance payments of the premium tax credit if you enrolled an individual in coverage through the Marketplace, you don't claim the individual as a dependent on your return, and no one else claims that individual as a dependent. For more information, see the instructions for Form 8962.

If any of the following apply, see Form 5329 and its instructions to find out if you owe this tax and if you must file Form 5329. Also see Form 5329 and its instructions for definitions of the terms used here.

- You received an early distribution from (a) an IRA or other qualified retirement plan, (b) an annuity, or (c) a modified endowment contract entered into after June 20, 1988, and the total distribution wasn't rolled over.
- Excess contributions were made to your IRA, Coverdell education savings account (ESA), Archer MSA, health savings account (HSA), or ABLE account.

Also, enter "No" in the margin to the left of line 6 to indicate that you don't have to file Form 5329. But you must file Form 5329 if distribution code 1 is incorrectly shown in box 7 of Form 1099-R or you qualify for an exception, such as the exception for qualified medical expenses, qualified higher education expenses, qualified first-time homebuyer distributions, or a qualified reservist distribution.

**Estimates of Taxpayer Burden**

The following table shows burden estimates based on current statutory requirements as of October 2019 for taxpayers filing a 2019 Form 1040 or 1040-SR tax return. Time spent and out-of-pocket costs are presented separately. Time burden is broken out by taxpayer activity, with recordkeeping representing the largest component. Out-of-pocket costs include any expenses incurred by taxpayers to prepare and submit their tax returns. Examples include tax return preparation and submission fees, postage and photocopying costs, and tax return preparation software costs. While these estimates don't include burden associated with post-filing activities, IRS operational data indicate that electronically prepared and filed returns have fewer arithmetic errors, implying lower post-filing burden.

Reported time and cost burdens are national averages and don't necessarily reflect a "typical" case. Most taxpayers experience lower than average burden, with taxpayer burden varying considerably by taxpayer type. For instance, the estimated average time burden for all taxpayers filing a Form 1040 or 1040-SR is 11 hours, with an average cost of \$210 per return. This average includes all associated forms and schedules, across all tax return preparation methods and taxpayer activities.

Within this estimate there is significant variation in taxpayer activity. For example, nonbusiness taxpayers are expected to have an average burden of about 7

tax return. This could make the tax higher or delay any refund. Interest may also be charged.

Generally, tax returns and return information are confidential, as stated in Code section 6103. However, Code section 6103 allows or requires the Internal Revenue Service to disclose or give the information shown on your tax return to others as described in the Code. For example, we may disclose your tax information to the Department of Justice to enforce the tax laws, both civil and criminal, and to cities, states, the District of Columbia, and U.S. commonwealths or possessions to carry out their tax laws. We may disclose your tax information to the Department of Treasury and contractors for tax administration purposes; and to other persons as necessary to obtain information needed to determine the amount of or to collect the tax you owe. We may disclose your tax information to the Comptroller General of the United States to permit the Comptroller General to review the Internal Revenue Service. We may disclose your tax information to committees of Congress; federal, state, and local child support agencies; and to other federal agencies for the purposes of determining entitlement for benefits or the eligibility for and the repayment of loans. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

Please keep this notice with your records. It may help you if we ask you for other information. If you have questions about the rules for filing and giving information, please call or visit any Internal Revenue Service office.

**We Welcome Comments on Forms**

We try to create forms and instructions that can be easily understood. Often this is difficult to do because our tax laws are very complex. For some people with income mostly from wages, filling in the forms is easy. For others who have businesses, pensions, stocks, rental income, or other investments, it is more difficult.

We ask for tax return information to carry out the tax laws of the United States. We need it to figure and collect the right amount of tax.

If you do not file a return, do not provide the information we ask for, or provide fraudulent information, you may be charged penalties and be subject to criminal prosecution. We may also have to disallow the exemptions, exclusions, credits, deductions, or adjustments shown on the

If you have comments concerning the time and cost estimates below, you can contact us at either one of the addresses shown under *We Welcome Comments on Forms*.

# Major Categories of Federal Income and Outlays for Fiscal Year 2018

**Income and Outlays.** These pie charts show the relative sizes of the major categories of federal income and outlays for fiscal year 2018.

On or before the first Monday in February of each year, the President is required by law to submit to the Congress a budget proposal for the fiscal year that begins the following October. The budget plan sets forth the President's proposed receipts, spending, and the surplus or deficit for the federal government. The plan includes recommendations for new legislation as well as recommendations to change, eliminate, and add programs. After receipt of the President's proposal, the Congress reviews the proposal and makes changes. It first passes a budget resolution setting its own targets for receipts, outlays, and surplus or deficit. Next, individual spending and revenue bills that are consistent with the goals of the budget resolution are enacted.

## Footnotes for Certain Federal Outlays

- 1. Social security, Medicare, and other retirement:** These programs provide income support for the retired and disabled and medical care for the elderly.
- 2. National defense, veterans, and foreign affairs:** About 15% of outlays were to equip, modernize, and pay our armed forces and to fund national defense activities; about 4% were for veterans benefits and services; and about 1% were for international activities, including military and economic assistance to foreign countries and the maintenance of U.S. embassies abroad.
- 3. Physical, human, and community development:** These outlays were for agriculture; natural resources; environment; transportation; aid for elementary and secondary education and direct assistance to college students; job training; debt insurance; commerce and housing credit; and community development, and space, energy, and general science programs.
- 4. Social programs:** About 16% of total outlays were for Medicaid, Supplemental Nutrition Assistance Program (formerly food stamps), temporary assistance for needy families, supplemental security income, and related programs; and 6% for health research and public health programs, unemployment compensation, assisted housing, and social services.

In fiscal year 2018 (which began on October 1, 2017, and ended on September

Note: The percentages shown here exclude certain third-offering receipts, which were \$98 billion in fiscal year 2018. In the budget, these receipts are offset against spending in figuring the outlay totals shown above. These receipts are for the U.S. Government's share of the employer's retirement program, and are reported to the Social Security Administration.

### Purpose of Schedule

After you have figured your earned income credit (EIC), use Schedule EIC to give the IRS information about your qualifying child(ren).

To figure the amount of your credit or to have the IRS figure it for you, see the instructions for Form 1040 or 1040-SR, line 18a.

**Taking the EIC when not eligible.** If you take the EIC even though you are not eligible and it is determined that your error is due to recklessness or intentional disregard of the

EIC rules, you will not be allowed to take the credit for 2 years even if you are otherwise eligible to do so. If you fraudulently take the EIC, you will not be allowed to take the credit for 10 years. You may also have to pay penalties.

**Future developments.** For the latest information about developments related to Schedule EIC (Form 1040 or 1040-SR) and its instructions, such as legislation enacted after they were published, go to [www.irs.gov/ScheduleEIC](http://www.irs.gov/ScheduleEIC).

**TIP** You may also be able to take the additional child tax credit if your child was your dependent and under age 17 at the end of 2019. For more details, see the instructions for line 18b of Form 1040 or 1040-SR.

### Qualifying Child

Who is not filing a joint return for 2019 or is filing a joint return for 2019 only to claim a refund of withheld income tax or estimated tax paid

Who lived with you in the United States for more than half of 2019.

**CAUTION** You can't claim the EIC for a child who didn't live with you for more than half of the year, even if you paid most of the child's living expenses. The IRS may ask you for documents to show you lived with each qualifying child. Documents you might want to keep for this purpose include school and child care records and other records that show your child's address.

**TIP** If the child didn't live with you for more than half of the year because of a temporary absence, birth, death, or kidnapping, see Exception to time lived with you in the instructions for Form 1040 or 1040-SR, line 18a.

**CAUTION** If the child was married or meets the conditions to be a qualifying child of another person (other than your spouse, if filing a joint return), special rules apply. For details, see Married child or Qualifying child of more than one person in the instructions for Form 1040 or 1040-SR, line 18a.
