

BECOME A PART OF NAVIGATION NATION

OUR SUPPORTIVE, INTERACTIVE “Navigation Nation” learning community is designed to enhance professional skills, provide a peer network and emotional support system and give navigators tools and resources to meet the needs of those experiencing breast cancer inequities.

WHO SHOULD PARTICIPATE?

Patient navigators or those who are doing navigation in the following ways:

- Community Health Workers
- Nurse Navigators
- Care Coordinators
- Medical Assistants
- Case Managers
- Providers
- Social Workers
- All Patient-Facing Roles

JOIN OUR TRAINING COMMUNITY and help address breast cancer inequities

New Cohorts Start Regularly

WHAT CAN I EXPECT FROM THE TRAINING PROGRAM?

- This self-paced program includes a core curriculum from George Washington University’s Patient Navigation Training Program and additional content developed by Susan G. Komen that features strategies, tools and resources for navigating patients in diverse populations.
- Course topics include:
 - Breast Cancer 101
 - Overview of Patient Navigation
 - Basics of Health Care
 - Basics of Patient Navigation
 - Navigating Black Patients Through Racism and Bias in Health Care

WHAT IS PATIENT NAVIGATION?

Patient navigation addresses health inequities by eliminating an individual’s barriers to quality care – helping patients effectively navigate a fragmented health care system.

HOW WILL THIS TRAINING BENEFIT ME?

Graduates will receive a certification of completion, a virtual graduation and ongoing networking and learning opportunities.

NAVIGATION NATION SUMMIT:

As part of our Navigation Nation community, you are invited to Komen’s Navigation Nation Summit: Navigating a Path to Health Equity. This free, virtual education event takes place in Fall 2022 and will arm navigators with strategies to dismantle barriers and other factors contributing to health inequities.
