LCH Limited Self-Certification: Variable Notional OIS – remaining currencies extension

Dear Mr. Kirkpatrick:

Pursuant to CFTC regulation §40.6(a), LCH Limited (“LCH”), a derivatives clearing organization registered with the Commodity Futures Trading Commission (the “CFTC”), is submitting for self-certification changes to its rules to extend the clearing eligibility to support variable notional, variable fixed rate and variable spread swaps for the following OIS currencies: AUD, CAD, CHF, EUR (EuroSTR), JPY, NZD and SGD.

Part I: Explanation and Analysis

LCH’s SwapClear service is making some enhancements to the OIS product suite to align it more with the type of features available in the Interest Rate Swap (IRS) offering. These changes will assist in the market implementation of fallbacks and adoption of Risk-Free Rates (RFR) in both the derivative and cash markets. In September 2020 SwapClear started clearing of VNOIS for GBP SONIA, USD SOFR and USD Fed Funds swaps. SwapClear offers this feature in IBOR based products and will now extend it to all remaining OIS eligible currencies and indices.

There are no changes to IM / VM methodology or default management approach as these are extensions to eligibility that LCH already allows.

These rule changes will go live on, or after, 26 April 2021.

Part II: Description of Rule Changes

Section 2 (Economic Terms) of the general SwapClear Product Specific Contract Terms has been updated to reflect that SwapClear will also accept OIS variable notional swaps as a valid economic term in the products it clears. Part B 1.2(a) of the general SwapClear Product Specific Contract Terms has been updated to show the availability of variable notional swaps on AUD, CAD, CHF, EUR (EuroSTR), JPY, NZD and SGD OIS products. The equivalent change has been made to the FCM Product Specific Contract Terms in section 2 and Part B 1.1(a).

The text of the changes is attached hereto as:

Appendix I – Product Specific Contract Terms and Eligibility Criteria Manual

Appendix II – FCM Product Specific Contract Terms and Eligibility Criteria Manual

Part III: Core Principle Compliance

LCH has reviewed the changes against the requirements of the Core Principles and finds it will continue to comply with all the requirements and standards therein. This specific rule change has relevance to core principles (C) Participant and Product Eligibility. The amendments extend the clearing eligibility to support variable notional, variable fixed rate and variable spread swaps for the following OIS currencies: AUD, CAD, CHF, EUR (EuroSTR), JPY, NZD and SGD. This change has been approved by LCH's governance structure taking into consideration the factors to be considered in determining product eligibility. Additionally, the terms and conditions of the contracts are not changing in any other material respect, and such contracts will continue to be cleared by LCH in the same manner as they are currently. As a result, LCH believes that the extension is consistent with the requirements of Core Principle C and Commission Rule 39.12(b).

Part IV: Public Information

LCH has posted a notice of pending certification with the CFTC and a copy of the submission on LCH's website at: <https://www.lch.com/resources/rules-and-regulations/proposed-rule-changes-0>.

Part V: Opposing Views

There were no opposing views expressed by LCH's governing board or executive committee, members of LCH or market participants that were not incorporated into the change.

Certification

LCH hereby certifies to the Commodity Futures Trading Commission, pursuant to the procedures set forth in the Commission regulation § 40.6, that the attached rule submission complies with the Commodity Exchange Act, as amended, and the regulations promulgated there under.

Should you have any questions please contact me.

Yours sincerely

Julian Oliver
