GOVERNOR

STATE OF MINNESOTA

OFFICE OF THE GOVERNOR

ST. PAUL 55155

January 27, 1975

To the Sixty-Ninth Legislature
of the State of Minnesota:

Minnesota Statutes 1974, Section 16A.11 requires the biennial budget submitted to the legislature by the governor to include recommendations as to capital expenditures. Such recommendations are submitted herewith.

Requests from state agencies covering capital acquisitions and improvements, and related items approximate \$116,000,000. My recommendations aggregate \$56,390,496 and are conservative when one examines the merit of the many requests that I am not recommending at this time.

However, we know we need to examine minutely the implications that changing conditions in the field of higher education hold for us. We know that we are continuing our commitment to more community-based corrections programs. We know that, in the welfare field, we are accelerating the de-institutionalization of the care and training of our mentally handicapped people in large state institutions in favor of providing these services in a community setting.

Recognizing the impact that the foregoing will have on capital budgets, I am recommending that, between now and the 1976 legislative session, we give further study to those requests which I am not recommending at this time so that the legislature will be in a position to act favorably on those it deems appropriate to the needs of our citizens.

Dear Governor Anderson:

Pursuant to Minnesota Statutes, Sections 16A.04 and 16.141, and your instructions in the matter we transmit to you the proposed Capital Budget for 1975-77. Items of a non-capital nature, such as repairs and replacements recommended to be appropriated from funds other than the state building fund, are also included in these proposals.

Respectfully yours,

Edward G. Ziegler
