

# PROCUREMENT SOLUTIONS

EFFICIENT DIGITAL MANAGEMENT

## ABOUT

---

### LEXISNEXIS PROCUREMENT SOLUTIONS

In a world of remote working, paper-based vendor management can be inefficient, time-consuming and often results in delays. Now more than ever before, you need a complete digital procurement solution to administer your supplier relationships with confidence and compliance from start to finish.

LexisNexis has you covered. Our online procurement solutions are fully compliant with POPIA and keep you protected at every step of your vendor management life cycle.

At LexisNexis we have a solid history of developing online solutions that simplify work processes and lighten your workload, while always advancing the Rule of Law. Our range of LexisNexis Procurement solutions can help you take your digital procurement up a notch, enabling efficient, centralised data management and enhanced risk management controls.

### **NEW!** INTRODUCING LEXIS ONBOARD

A fully electronic, single stop with all the checks and balances you need to start off your vendor management life cycle soundly, and to continue to manage it effectively, from Registration and Sourcing to Contracting. Lexis OnBoard is integrated with Lexis® ProcureCheck. It houses all your vendor documentation and empowers your suppliers to onboard themselves electronically into your procurement system, while ensuring your company applies an appropriate level of due diligence. You're also given advance notification of any documents expiring soon, such as BBBEE and Tax Clearance Certificates.

# WHY LEXIS ONBOARD?

## **ENHANCED RISK MANAGEMENT & CONTROLS**

Single point of entry for creation of suppliers ensuring 100% compliance.

## **STRATEGIC BENEFITS**

Rapid setup and self-service configuration with web base application.

## **SELF-SERVICE**

Suppliers can upload and maintain their data.

## **GOLDEN RECORD**

Single "Golden Record" which is maintained and accessed by suppliers and business users (self-service capability for suppliers and business users).

## **POPIA COMPLIANT**

POPIA compliant with secure hosting and access control. No personal vendor data lying around.

## **INTRODUCING LEXIS PROCURECHECK - WITH WORLD COMPLIANCE**

### **INFORMATION AT YOUR FINGERPRINTS TO MAKE INFORMED DECISIONS.**

Supply Chain Governance is a core component of overall corporate governance and if implemented correctly can be the easiest way to protect a business from financial and reputation ruin. Leveraging LexisNexis' ability to develop quality information driven systems, Lexis ProcureCheck uses advanced technology and a matrix of databases to highlight the conflicts of interest that exist in both your human resource and procurement environments. Lexis ProcureCheck is a solution designed for the South African market to assist procurement, compliance, forensic and internal audit departments in their procurement vetting, Audit processes and supplier management.

### **WORLD COMPLIANCE**

LexisNexis WorldCompliance is an online tool that allows users to perform initial due diligence by screening potential clients, agents and business partners through an industry-leading database. Containing more than 2.5 million detailed profiles, the database helps clients detect individuals, organisations and vessels linked to more than 50 risk categories including Sanctions, Foreign Officials, and State Owned Enterprises.

# WHY LEXIS PROCURECHECK?

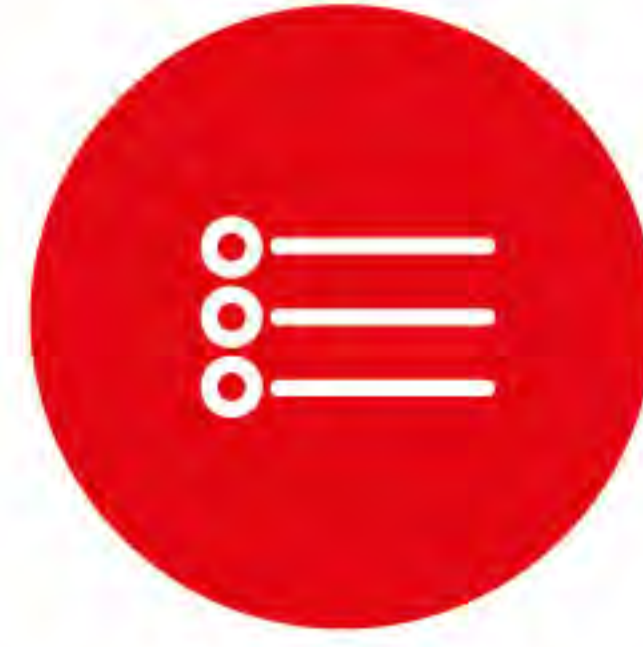

## IMPORT SEARCHES

Automatically perform all the searches as soon as an import takes place.
