## Learning Management System (LMS)

### Counselling Process

**Mode of Counselling** :- Synchronous as well as Asynchronous

**Brief describe the provision in LMS to be used by HEI :-**

Following provisions are made in the LMS (Learning Management System) for the counselling of online mode students: • Online Induction sessions: These sessions would be conducted for the newly enrolled learners through LMS/ website/ video-conferencing for orienting them regarding the system and processes of the university. • Live Interactive Classes through LMS and/ or Video-conferencing: These interactive multilingual sessions are to be delivered by the expert faculty through LMS and/ or video-conferencing platforms by using innovative pedagogical tools including relevant PPTs, demo videos, MOOCs, etc. Instruction Plans are to be developed for various courses and shared with the students online through LMS before the start of live interactive classes, so that faculty and students are aware of the things to be delivered during the live video lectures. • Recorded Video Lectures: These well edited and well illustrated lectures are to be made available for the better understanding of the students. In addition to the Online Mode faculty, the expert faculty members from conventional mode of education and industry experts would also be involved for the production of these recorded video lectures. • Virtual Academic & Professional Enhancement Workshops: These workshops would be conducted virtually for learners to enhance their academic, employability and communication skills. • Online Discussion Forum & Blog for Asynchronous Interactions: These provisions on LMS provide learners opportunities to get engaged with course coordinators/ mentors and peers for raising and clarification of doubts and queries asynchronously. • Online Live Chat facility with Course Coordinators/ Mentors: LMS also has the provision for the learners to interact with the course coordinators/ mentors and peers through online live chat facility. • Social Media Platforms integrated in LMS: Various learner engagement activities involving experts of the concerned fields are also to be conducted through popular social media platforms like Facebook, Instagram, Twitter, Youtube etc., links for which are integrated with LMS. • Relationship Management Cell: Learners can also get in touch with counselors of Relationship Management Cell of the university through  call centre  emails and  web-chat facility. Links/ details of all these channels would be available on LMS. • Academic Resources: Academic Counselling is also to be provided through academic resources like:  ELMs,  Programme Guides,  Assignments/ Quizzes  PPTs,  Open-Access Resources/ MOOCs etc. These would be made available to students through the Learning Management System.

**Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-** <https://ums.lpu.in/econnect/>

Assessment mechanism	Continuous Assessment is to be done through the graded assignments with subjective analytical questions and graded objective online quizzes for each course to be attempted by the students through online Learning Management System. The number of assignments and quizzes depend upon the credit weights of the course. The marks scored by the students in continuous assessment shall be added to the End Term Exam marks to generate the final grade of the learner in that course which is to be reflected in the online academic transcript available on LMS. The term end assessment would be done based on the online proctored end term exam. Learners can access their date sheet, admit card, result, marks and grade cards through their LMS account.
Identified technological interface and interoperability	Online programmes are accessible through a user friendly Learning Management System using user credentials. The user friendly system interfaces are mobile and web responsive and provide ease of navigation. The learning material is to be made available in text, audio and video formats. The systems have been created in a web browser to support font enlargement, ease of navigation and 24x7 online access with compatibility to third party tools like Google translator for translating words in different languages, Speech-to-Text Google tool to convert speech to text etc. to meet accessibility standards for interoperability and access for learners with special needs.
Learner's Authentication Requirements	During online admission, the LMS captures the learners' authentication data as the applicants need to submit the scanned copies of their Aadhaar or Govt. approved photo identity card and Residential Proof. Admission is subject to the verification and authentication of the submitted documents. Learners can access their respective LMS accounts through user credentials provided to them and various online checks and monitoring mechanisms would be in place to monitor their academic integrity and synchronous /asynchronous participations in various online activities. The proctored computer-based end term online exams would be conducted under the central control of the university. Before allowing the students to take the test, their identity is to be established based on the admit card issued by the university and Govt. approved photo identity proof.
Learner Registration - through a web application	Robust Online mechanism is available on website for Learner Registration which is integrated with LMS. Applicant needs to sign up in online enquiry form available on the website to receive the credentials for logging in the online admission application form. Applicant needs to provide the details and upload the required documents under Personal and Academic Details tabs of the online admission application form. Based on the verification of the documents submitted and eligibility check, the applicant is provided the link/ interface for fee payment. On successful receiving of fee, applicant is enrolled in the applicable programme and his/ her enrolment number and LMS log-in credentials are generated and shared with him/ her.
Active Engagement of the Learners along with Analytics for active engagement of learners and Reporting	Learner's engagement is ensured through following initiatives: <ul style="list-style-type: none"> <li>• Online Induction sessions: These sessions are to be conducted for the newly enrolled learners through LMS/ website/ video-conferencing for orienting them regarding the system and processes of the university..</li> <li>• The engaging Learning Management System (LMS): The same can be accessed through various gadgets like desktop, laptop, tab, smart mobile phone etc.</li> <li>• Instruction Plans: Instructional plans are to be developed for various courses and shared with the students online before the start of live interactive classes, so that faculty and students are aware of the things to be delivered during the live video lectures.</li> <li>• Live Interactive Classes through LMS and/ or Video-conferencing: These interactive multilingual sessions are to be delivered by the expert faculty through LMS and/ or video-conferencing platforms by using innovative pedagogical tools including relevant PPTs, demo videos, MOOCs, etc.</li> <li>• Online Attendance system: Online Attendance system for live interactive video sessions would be developed with provision for learners to keep track of their attendance online.</li> <li>• Online quizzes and feedback sessions: These are to be conducted for students at the end of live sessions.</li> <li>• Expert Faculty Members: In addition to the Online Mode faculty, expert faculty members from conventional mode of education and industry experts would also be involved for delivering live and recorded video lectures.</li> <li>• Online Discussion Forum &amp; Blog for Asynchronous Interactions: These provisions on LMS provide learners opportunities to get engaged with course coordinators/ mentors and peers for raising and clarification of doubts and queries asynchronously.</li> <li>• Online Live Chat facility with Course Coordinators/ Mentors: LMS also has the provision for the learners to interact with the course coordinators/ mentors and peers through online live chat facility.</li> <li>• Social Media Platforms integrated in LMS: Various learner engagement activities involving experts of the concerned fields are also to be conducted through popular social media platforms like Facebook, Instagram, Twitter, Youtube etc., links for which are integrated with LMS.</li> <li>• Self assessment provisions and Assignments: Learners are to be provided opportunities to test their knowledge and understanding of the subject through interactive online practice quizzes, self assessment activities and graded assignments, which would be provided for various courses from time to time using LMS.</li> <li>• Special focus classes: These classes are to be organized online to help the learners to have better understanding of difficult courses and concepts.</li> <li>• Feedback based quality enhancement measures: Feedback on programme quality and other activities, processes etc. of online programmes is to be taken from the learners through LMS and requisite quality improvement/enhancement measures are to be taken on the basis of feedback analysis.</li> <li>• Curricular and Co-curricular Activities: Learners are to be given opportunities to attend/ participate and compete in various curricular and co-curricular university events like: <ul style="list-style-type: none"> <li><input type="checkbox"/> Academic &amp; Professional Enhancement workshops</li> <li><input type="checkbox"/> Special classes or doubt clearing sessions</li> <li><input type="checkbox"/> Convocation</li> <li><input type="checkbox"/> Placement drives</li> <li><input type="checkbox"/> Sports meet</li> <li><input type="checkbox"/> Inter-school cultural competitions etc.</li> </ul> Learners can participate in the same virtually as well as physically as per the nature of the event. They are also eligible to attend national and international level conferences, seminars, exhibitions, youth-fests, guest-lectures etc.</li> <li>• Virtual professional enhancement workshops: These workshops are to be conducted virtually for learners to enhance their employability and communication skills.</li> <li>• Relationship Management Cell: Learners can also get in touch with counselors of Relationship Management Cell through call centre, emails and web-chat facility. Links/ details of all these channels would be made available on LMS.</li> <li>• Analytical Reports: Online LMS would be equipped with analytics and auto reports generation pertaining to various aspects of programme delivery and learner engagement which include usage reports for various features, learners' attendance reports in online live sessions, learners' performance reports for various assessment activities etc. In addition, some other administrative reports/ analytics which would be fetched from LMS backend include session wise admission master, Student search, Specialization report, Programme Transfer report etc.</li> </ul>
Payment Gateway –using Digital Payment system	LMS is equipped with payment gateways like Internet Banking, Debit Card, Credit Card, Bhim UPI, Paytm etc. to provide learners facility to pay their fee online for new admissions, continuous admissions, examination related registrations and for requests related to additional/ special certificates and allied services.

Tracking the delivery of a Course or programme	Delivery of the programme is to be done through Learning Management System accessible through desktop as well as Mobile App as per the academic calendar (important dates) to be shared with the learners through website and LMS before the beginning of the session. Academic support and LMS team would ensure the timely conduct of various delivery components and availability of academic resources for the various courses of the concerned programme. Learning management System tracks the delivery of Programme including learner's engagement, assessment and results. Automated analytical reports extracted by suitable analytical tools help the Programme and Course Coordinators to use these insights for tracking the programme delivery. Coordinators would also make sure to adhere to norms for Delivery of Courses in Online Mode. Learners are to be made aware about the upcoming academic activities through LMS announcements and SMS. Learners' attendance in the live lectures is to be captured and reflected in the corresponding interface. Learners would be graded based on various assessment activities and the course-wise grades are to be made available through online academic transcript on LMS which would be updated regularly as learners progress through various semesters of the programme. Learners can also keep track of their progress in various courses through the dashboard of the academic interface accessible through Learning Management System having the provisions of reflecting their progress in percentage. They would also be able to see batch overall progress, deadlines with days remaining, details of skipped components etc. for each module.
Technical Know-how or Skills Requirements	Programme Coordinators, Course Coordinators, Course Mentors and other staff involved in the planning, designing, development and delivery of online programmes are well qualified and have the requisite technical knowledge, skills and competencies to deliver Online Education effectively for enhancing the effectiveness of learning for online learners. Regular staff and faculty development workshops, training and orientation programmes are to be conducted for continuous upgradation of skills of these resources, facilitating the embracing of newer methodologies and Information and communication technology tools for enhancing the development and delivery of the Online Programmes. Staff and faculty members would also be encouraged and incentivized to enhance their technical know-hows and skills by enrolling in the relevant MOOCs and training programmes offered by the concerned institutions.

## Learning Platform

---

**Learning Platform :-** Non- SWAYAM

**Provide details for sample module/unit :-**

The course content for each course is to be divided into manageable modules/ units which would be delivered online in a structured format, with clearly spelt out learning outcomes which learners are expected to attain at the end of the each module/ unit. The Self-Learning e-Module is a modular unit of course material in e-learning form which is inter alia self-explanatory, self-contained, self-directed at the learner, and amenable to self-evaluation, and enables the learner to acquire the prescribed level of learning in a course of study and includes the following e-learning components as per the applicability and nature of the content:-

- e-Text Materials;
- Recorded Video Lectures;
- Audio-Visual interactive material including Audio Pod casts, Virtual Simulation etc.
- Interactive Virtual Classroom sessions;
- Self-Assessment Quizzes or Tests

Structurally each module/ unit consists of various sessions, first being introduction and last one being summary with intervening main content sections. Each of these sessions would cover the applicable elements of four quadrant approach i.e. e-Tutorial, e-Content, Discussion Forum and Assessment. These modules/ units would also contain the information about the no. of hours which a learner should ideally spent on each of the sections along with the indication of which of these sections have been covered by the learners.

**Briefly write on ICT facilities available/ to be ready dedicated for the implementation of Online Courses :-**

Online Learning Management System: Powered by its user friendly online Learning Management System (LMS) – LPU e-Connect, LPU is strengthening quality and efficient delivery of higher education for online learners. LMS offers 'Any Time Any Where' strong and secure online connection that links LPU and its Online Education student located at different geographical locations. It provides flexible learning opportunities by overcoming separation of teacher and learner using internet, e-Learning Materials and full-fledged programme delivery through the internet using technology assisted mechanism and resources. Based on enterprising web portal technology, LPU e-Connect truly automates various administrative and academic processes of Online Education and minimizes the shortcomings of physical distances by providing 24X7 accessibility through its various useful features. Objectives of LMS: LPU e-Connect is a web based ERP Project that can be accessed from any part of the world with the help of any standard web browser and serves the following objectives: • To monitor different functions and processes for better control, analysis and projection of data through Data Mining. • To act as an Information Hub for the learners by providing them personalized learning environment and access to various academic operations so that they can learn as per their convenience along with their other commitments. • Providing access of e-Connect to students for various student related academic operations. • To make the University 'paperless' and 'Eco Friendly' through its Online Tools. • To expand its reach across the Globe by catering to varied needs of global users. • To make LPU Online Education, a Transparent and Efficient System with its Innovative tools. Scalability of LMS: The LMS is very scalable and can handle lakhs of distinct users. Presently the storage of the system is 20 Tera Bytes which is scalable to 180 Tera Bytes. The system is scalable in terms of accessibility from any kind of device like mobile phones, tablet PC, desktop etc. The central Enterprise Switch from Nortel is scalable to 720 Gbps of network throughput. It has ability to use different delivery media including online and computer mediated communication and Information and Communication Technology enabled learning. Various Modules of LMS: The LMS has different modules which support entire online mode process starting from learners' registration to further progression of learners at all the stages. □ Admission Module: Its Online Admission Module helps in storing and maintaining the centralized pool of admissions related information for further accessibility, verification and rectifications at different stages with the provisions like Enquiry, Follow-up, Online Admission Application, Document & Fee Verification and Various automatic reports and auto SMS. Further this information is accessed and utilized with other modules providing customized information to the students like student's personal information, contact details, course & medium details, re-registration details, specialization details, fee details etc. □ e-Communication Module: Its e-Communication module helps in building better understanding between University and Students with up-to-date and timely information through Announcements, Personalized Messages, Running Reminders, and Flashing Messages with provision of proper back up or history of data. □ Feedback Module: Through Feedback Form, learners can provide constructive feedback for improvement in Online Education programme delivery through their customized LMS account □ Relationship Management System: This is used for handling learners' queries. It provides an online facility for submitting grievances and tracking their status. □ Help Manual. This provides detailed information to access various features of LMS effectively. □ Academic Delivery Interface: The academic delivery interface of LMS has the clearly defined course content for each course, each having modular e-content, which is to be delivered online in a structured format, with clearly spelt out learning outcomes which learners are expected to attain at the end of each module. □ Online Discussion Forum & Blog for Asynchronous Interactions: These provisions on LMS provide learners opportunities to get engaged with course coordinators/ mentors and peers for raising and clarification of doubts and queries asynchronously. □ Online Live Chat facility with Course Coordinators/ Mentors: LMS also has the provision for the learners to interact with the course coordinators/ mentors and peers through online live chat facility. □ Pool of Resources: LMS also has a provision to provide centralized pool of important Academic and Administrative Resources under this module, which can be accessed by different users at any time as per their convenience. □ Examination Module: Examination module is to provide: □ Online Admit Card, □ Date Sheet, □ Grade Card, □ Current CGPA/ TGPA and □ Other examination related sub modules providing easy access and user friendly environment to the learners. Proctored Online Examination: Proctored End term exams are to be conducted online under the central control of the university with following provisions: □ These computer-based proctored online exams are to be conducted by the university with all the security arrangements ensuring transparency and credibility of the examinations. □ Before allowing the students to take the test, their identity is to be established based on the admit card issued by the university and Govt. approved photo identity proof. □ State-of-the art software would be used for the conduct and management of entire examination that helps in establishing the Transparent Examination System with complete security. □ Besides this, the examinations are to be monitored remotely by the team located at the office of Controller of Examination at university campus. □ Fully confidential process is followed in development of question bank, moderation of questions and automated customized question paper generation for students as per the Examination policy of the university. □ To ensure security, transparency and credibility of examination, the university is presently relying on online proctored examination. The ways and means of conducting full proof technology enabled proctored examination at students' homes, in future, are also being explored. Privacy of Data: Online Sharing of Data, Records, Information, Updates and Resources help in fast and better communication among users. The system purely functions on Secured Socket Layer (SSL) for complete session from 128 – 256 Bit Encryption ensuring safety and privacy of the data. Server Load: Issue of load on the Server is catered with the help of proper architecture and setting up clusters of servers at the backend. In order to ensure smooth functioning of the system, the bandwidth is increased. Data storage and backup: This issue is taken care of with the help of SAN/NAS storage and automated backups. Proper backup policy is in place to take the backup(s) and to handle the situation in case of any eventuality. Mobile App: One can also access and explore LMS through 'LPU Touch' mobile app which is available for download on iOS and Android platforms from respective online Play or App Stores. Audio Video Production Infrastructure: There is sufficient infrastructure available at university campus in terms of state of the art recording and animation studios with provisions of video recording, editing and post production. Audio or video material is developed in forms and formats that are easily accessible by the learners and compatible with web- based delivery.
