Medicine for the world.

2019 Annual Report

**A message from our President and CEO,
and Board Chairman**

Since 1954, MAP International has been on a mission to bring life-changing medicines and hope to a world desperately in need of both.

Looking back on 2019—a year in which we celebrated our 65th anniversary—we can see how God continues to guide and shape our work. With His help, MAP reached more than 13 million people—many of whom were children—in 98 countries, delivering more than \$553 million dollars' worth of essential medicines and healthcare supplies.

As you read through this annual report, you will be able to see the highlights of what has been accomplished this past year. You will also see that we are dedicated to financial transparency and sound stewardship of the resources which are entrusted to our care.

What the numbers don't tell is how MAP is a beacon of hope for millions who are suffering—whether that is the anguished parent who sheds tears of happiness when her child receives lifesaving antibiotics or the gratitude of a family left devastated by a hurricane.

None of this would have been possible without our dedicated partners, donors, staff and volunteers who worked tirelessly to enable MAP to deliver critically needed medicines and healthcare supplies to some of the world's most vulnerable people when they needed it the most. With God's continued guidance, we will continue to impact—and save—more lives in the next 65 years.

With thanks and gratitude,

Steve Stirling
