

## SUMMARY

The responsibility of managing the Club property changed, starting from the second quarter 2021.

Two main areas require the attention of the property manager:

- The SHOP
- TROPHIES and other items

After a period of adaptation and understanding the flow of events and expected demands from NGC members and friends, we are now in a position of restocking our shop. Our trophies are now in sufficient number to honour our brave winners throughout the season!

## THE SHOP

The shop is active and accessible online @ <https://www.natogolfclub.org/shop> . The shop doesn't offer shipping. Pick up of items are arranged directly between buyers and the property manager. The delivery of items should be done, preferably, during club events.

The shop remains its exclusive objectives of promoting NGC by making available to members a variety of items with our logo and allowing to access, in a very handy way, to some great golf products. The pricing of items is to be assessed by the Executive Committee in beforehand to endure the best support for our members, at a reasonable price, with the aim of just covering our costs.

There weren't many sales during this report period. There was no aggressive campaign to promote the shop and that was not assessed as a key priority during this period. New memberships and the expectations of a post-covid restrictions restart give us a good reason for optimism on the coming months!

Inventory of the existing items in the shop is presented in Annex A. We have already identified the need of restocking our sweaters and polos.

## TROPHIES AND ITEMS

Early this year we had to proceed with the purchase of the trophies for the season. Once the previous seller was already in possession of our vectorized logos and had the models prepared, we decided to buy from him, although he is based in the UK, and therefore, subject to additional taxation.

After EC decision of participating in late 2021 NATO Staff Center “Open Day”, a very appealing roll-up was made to help us promoting our club in a very direct and modern way! Therefore, we have now this great addition to our property.

The inventory of the trophies / other items is presented in Annex B.

The Property Manager

Ricardo Guerreiro
