## Sports Centre Activities Suggestion from the NATO Golf Club

As a means to expand the variation and breadth of activities for all to enjoy and benefit from, I am happy to forward a proposal for a video based Golf Simulator system, that could fit nicely into Sports Centre area, either as a temporary or more permanent basis.

A Golf Simulator provides you with the opportunity to play golf, practice, compete or simply have fun, without the need to go to a golf course, being dependent on an expensive club membership, good weather, a registered handicap etc.

We have explored the market, and suggest something like this:

### Best Home Indoor Golf Simulators under \$10,000

If you are like most golfers, you will get the best value with your golf simulator investment in this tier. Whether you want to dial in your distances or have endless entertainment, the five time Golf Digest Best Value Golf Simulator, SkyTrak, paired with the SwingBay or HomeCourse golf simulator bays provide an excellent value, all for a starting price under \$10,000.

#### SkyTrak SwingBay Golf Simulator

Price: \$9,781

Minimum Room Size:  
9' High x 12' Wide x 16' Deep

[LEARN MORE ABOUT THE  
SKYTRAK SWINGBAY](#)

#### SkyTrak Retractable Golf Simulator

Price: \$8,181

Minimum Room Size:  
9' High x 10' Wide x 12' Deep

[LEARN MORE ABOUT THE  
SKYTRAK RETRACTABLE](#)

#### Mevo+ SwingBay Golf Simulator

Price: \$8,881

Minimum Room Size:  
9' High x 12' Wide x 16' Deep

SWINGBAY](#)

In short, the NATO Golf Club recommends either the SkyTrak SwingBay or the SkyTrak Retractable (See below). The decision on which one would be dependent upon whether the Sports Centre wants the space to be multipurpose or not.

The SkyTrak Retractable allows us to break down the golf hitting area and leave the main part of the net and screen up.

The SkyTrak SwingBay is a little bit better in terms of quality of picture, but it would be a permanent setup.

## SkyTrak SwingBay:

### SKYTRAK SWINGBAY Golf Simulator Package

★★★★★ 17 reviews

~~€9,999.00~~ **€9,799.00**

Pay as low as \$316.15 / Month \* [Learn More >](#)

#### CUSTOMIZE YOUR SETUP

##### Choose Your Turf

5'x5' SwingTurf Hitting Mat + Landing Pad Turf

##### Choose Your Projector Setup

SwingShield Floor Enclosure

##### Choose Your Tech

Gaming Laptop Bundle (Laptop & Stand + Wi-Fi Extender)

📦 Ships next business day

Qty - 1 +

ADD TO CART

The cost for the SkyTrak SwingBay is \$9,999.00,-. This does not include shipping (a one-time cost) or a subscription for the simulation (which could be a one-time cost or annual cost). The space requirements for this option are 9 feet high, 12 feet deep, and 16 feet wide (3 yards high, 4 yards deep and just over 5 yards wide). I would expect shipping to be expensive (perhaps a couple hundred euros, or maybe even more)

## SkyTrak Retractable:

### SKYTRAK RETRACTABLE

## Golf Simulator Package

The cost (also without shipping) for the SkyTrak Retractable is \$8,999.00,-. The shipping costs would be about the same, and the subscription costs would be the same. The space requirements for this option are 9 feet high, 12 feet deep and 12 feet wide (so a little narrower than the SwingBay). Again, this allows multipurpose use of the space, but the quality of the picture is a little less just because of the type of screen it uses.

For both options, we would recommend doing a one-time purchase of The Golf Club package of simulations, which includes 150,000 different courses, which would cost \$895. For reference, an annual purchase of The Golf Club would be \$479, so in just two years, we pay less by choosing the one time purchase.

For both option, it would require an annual SkyTrak subscription for the Player Improvement package which is about \$100.00.

Complete Package costs and what it includes:

SkyTrak SwingBay:

Total cost would be \$10,994 + shipping. Additional costs if we wanted to use different mats, but not necessary.

Package includes: (Essentially everything we would need)

SkyTrak Launch Monitor and protective case

Projector and protective mounting

Hitting mat

Mat from hitting area to screen

Ball Tray

Screen and enclosure

Laptop, and accessories for the Simulator

SkyTrak Retractable:

Total cost would be \$9,994 + shipping. Additional costs if we wanted to use different mats, but not necessary.

Package includes: (Again, essentially everything)  
SkyTrak Launch Monitor and protective case  
Projector (the site doesn't say the protective mounting, but it should be included).  
Hitting mat  
Mat from hitting area to screen  
Ball Tray  
Retractable screen and enclosure  
Laptop, and accessories for the Simulator

In closing, please have a look at this proposal, and don't hesitate to reach out, if we in any way can be of any assistance to you in the process of deciding.

For your further consideration.
