

# US/UK World Magnetic Model - 2020.0

## Main Field Total Intensity (F)

**Main Field**  
**Total Intensity (F)**  
 South Polar Region  
 Polar Stereographic Projection  
 — Contour interval: 1000 nT

☼ Position of Dip Poles

**Blackout Zones**  
*Horizontal Field (H) Strength:*  
 0-2000 nT (Unreliable Zone)  
 2000-6000 nT (Caution Zone)
