

COOPERATOR AIRCRAFT USE VALIDATION FORM

Must be completed daily prior to any fire operations by a federal dispatcher. ONLY where there is "significant or imminent threat to life or property" and there are no federal contract aircraft available, may Cooperator aircraft be used on a federal fire.

United States Code 49 §40125 (a)(1) requires certification that the use of Cooperator aircraft is necessary to respond to a significant and imminent threat to life or property (including natural resources) and that no service by a private operator is reasonably available to meet the threat.

Today's Date: Incident #:
Incident Name: Request #:
Responding Agency Aircraft ID# N #:

SIGNIFICANT OR IMMINENT THREAT TO LIFE OR PROPERTY (Check all that are appropriate)

Life
Property – Homes, Businesses, Outbuildings, Land Property
