

## “Scam” Warning

The State of NJ/NJBPU does **not** have a program that offers free solar panel installation for residents of the state. Any claims that such a program exists are **false**. All current NJBPU sponsored Solar incentive programs can be found at [www.NJCleanEnergy.com/renewable-energy](http://www.NJCleanEnergy.com/renewable-energy).

We recommend you visit this link [Considering Solar? Understand Your Options | NJ OCE Web Site \(njcleanenergy.com\)](http://www.njcleanenergy.com/considering-solar) before you make any final decision.
