

Ontario's Highway Programs Data Guide

Project information for the Ontario's Highways Programs is presented in the tables and interactive map. This guide provides explanations for some of the data presented.

Start Year

2024

- Includes all projects that are scheduled to start in 2024 plus all projects that started prior to 2024

2025

- Includes all projects that are scheduled to start in 2025

2026-2027

- Includes all projects that are scheduled to start in 2026 or 2027

Upcoming Expansion

- Includes expansion projects that are scheduled to start in 2028 or later

Target Completion

Projects in Underway status

- Shows the scheduled end year

Projects in Planned status

2024

- Projects that are scheduled to be completed in 2024

2025

- Projects that are scheduled to be completed in 2025

2026-2027

- Projects that are scheduled to be completed in 2026 or 2027

Not available

- Projects that are scheduled to be completed in 2028 or later

Estimated Cost Range

- This displays the estimated cost of the projects within specific dollar ranges
 - i.e., projects in the \$15 to \$50 million range will have an estimated cost between \$15,000,000 and \$50,000,000

Delivery Method

- The delivery method is displayed for all projects that are underway
- The planned delivery method is displayed for planned rehabilitation projects that have a scheduled start year of 2024 or 2025 or where the Engineering status is Design complete
- The delivery method for planned rehabilitation projects that have a scheduled start year of 2026 or 2027 will display as “To be determined”
- Planned expansion projects will include the delivery method where the method has been determined, otherwise it will display as “To be determined”
- Design-Build delivery model:
 - Start Year = Anticipated Year of Award of DB assignment
 - Planned = DB assignment has not yet been awarded
 - Underway = DB assignment awarded and underway

Contract Number

- Where available, planned contract numbers for upcoming project tenders

Planned Early Tender (*only available on the Winter publication*)

- This identifies the projects that the Ministry of Transportation Ontario anticipates tendering between Jan 1, 2025 and March 31, 2025
 - Please note that these are subject to change

Engineering Status

- Planning / environmental assessment upcoming
 - Project planning and environmental assessment work has not been initiated
- Planning / environmental assessment in procurement
 - Project planning and environmental assessment work is in the process of being procured and awarded
- Planning / environmental assessment underway
 - Project planning and environmental assessment work is awarded and underway
- Planning / environmental assessment complete
 - Project planning and environmental assessment work has been completed

- Design upcoming
 - Project design has not been initiated
- Design in procurement
 - Project design is in process of being procured and awarded
- Design underway
 - Project design work is awarded and underway
- Design complete
 - Project design has been completed
