

Are you doing all you can to protect your patients from abuse?

Recognizing & Responding to Children at Risk

Suspected Child Abuse & Neglect Education

If you suspect that a child is a victim of abuse, do you know what to do?

Recognizing and Responding to Children at Risk explores the legal and clinical aspects of mandated reporting that are uniquely targeted to **Primary Care Providers** and **Hospital Staff**.

Conducted by a physician and a local Children & Youth worker, this **two-hour presentation** is approved by the Department of Human Services and the Department of State.

Learning Objectives:

- Identify the role of child protection
- Understand categories of child abuse in the law
- Recognize potential risks/indicators of child abuse/neglect
- Describe the role of a mandated reporter
- Explain the referral process and follow up
- Identify prevention resources

- *Free*
- *2-hour on-site presentation*
- *Expert presenters*
- *Act 31 approved*
- *CME credits for those eligible*
