This Privacy Statement applies to PayPal and Xoom accounts and aims to provide you with information regarding our use of your Personal Information when you visit our website, apply for, or use our services, like Braintree and Zettle (collectively, the "[Services](#)"). We encourage you to read this Privacy Statement and to use it to help you make informed decisions.

If you Pay Without a PayPal account, we may link your transaction information with your PayPal account, if you have one at the time you use the Service without logging in, or if you create a PayPal account later.

With a Connect profile, individuals can store their payment methods and Personal Information with PayPal so that they can complete the checkout process faster at participating Partners and Merchants without having to manually input payment method details and Personal Information each time they checkout (“Connect”). When you create a Connect profile, you are agreeing to let PayPal store your Personal Information, including your name, email, phone number, address information, as well as billing information and payment method details, and pre-populate that information in the checkout flows of participating Partners and Merchants so that you can complete purchases faster by not having to manually input the information. We will also collect transaction data related to your purchases when you use Connect.

The Visa+ Service enables eligible customers with a PayPal account to send and receive money to and from Venmo and third-party Visa+-enabled digital wallets (“Visa+”).

When you shop on Partner and Merchant sites, the partner or merchant may disclose Personal Information with PayPal that we will use in accordance with this Privacy Statement and the relevant PayPal user agreement.

Understanding your choices

You can control how Personal Information is collected or disclosed, as well as how we communicate with you. Here are some of the ways you can customize your choices.

Choose how we collect Personal Information

You may choose to limit the Personal Information you provide when our apps or Services request it. To help make choices that are right for you, it's important to understand that Personal Information helps us provide a richer, more personalized experience for you. Also, some Personal Information is required for our Services to function at all.

For example, sharing your contacts helps make it easier for you to find the people you want to send money to. If you choose not to share your contacts with us, you can still use our mobile apps, but some actions may not be as fast or easy as it would be if shared your contacts. Another example is creating an account or Connect profile with us. If you choose not to provide information that is required for an account or Connect profile to function, like your name and email address, we will not be able to create an account or Connect profile for you.

Choose how linked accounts collect and use Personal Information

If you link your account to a third-party service, you may be able to manage how your Personal Information is collected, used, and shared by them. Read the third parties' privacy policies to see the choices they offer you.

You can control which third-party services you link to your account and what Personal Information they can collect about you. For example, to manage the permissions, go to the Security settings in your PayPal account.

Choose what we disclose with other Users

Some Personal Information may be seen by other Users. You may be able to adjust or turn off this setting in the privacy section in your account settings.

Choose how we communicate with you

Your choices about how we communicate with you differ depending on the purpose of the message and how it is delivered. Some messages are considered optional, and some are necessary for you to manage your accounts or Connect profile with us. We use email, text messages, push notifications on your mobile device, and even phone calls or paper mail depending on the situation and your preferences.

You can click the unsubscribe link in a PayPal or Connect marketing email, opt out of a text message by replying "STOP," or turn off notifications on your device. You can also change your account's notification settings or the notification preferences on your device.

You won't be able to opt out of messages that are considered necessary for the Services, such as digital receipts and emails that alert you to changes in your account or Connect profile status. You may be able to decide how we send those messages, such as by email, phone, text message, or a notification on your mobile device.

How Do We Protect Your Personal Information?

We maintain technical, physical, and administrative security measures designed to provide reasonable protection for your Personal Information against loss, misuse, unauthorized access, disclosure, and alteration. The security measures include firewalls, data encryption, physical access controls to our data centers, and information access authorization controls. While we are dedicated to securing our systems and Services, you are responsible for securing and maintaining the privacy of your password(s) and account/Connect profile registration information and verifying that the Personal Information we maintain about you is accurate and current. We are not responsible for protecting any Personal Information that we share with a third-party based on a linked account connection that you have authorized.

Can Children Use Our Services?

We do not knowingly collect information, including Personal Information, from children under the age of 13 or other individuals who are not legally able to use our Services. If we obtain actual knowledge that we have collected Personal Information from someone not allowed to use our Services, we will promptly delete it, unless we are legally obligated to retain such data.

Please [contact us](#) if you believe that we have mistakenly or unintentionally collected information from someone not allowed to use our Services.
