

# HABITAT ZOO

## Scavenger Hunt *pg.1*

OUTDOOR

*Learn a bit about the animals living at Point Defiance Zoo & Aquarium while you explore your neighborhood and search for these things:*

**M**uskoxen like Charlotte, Hudson and Mya live in very cold places. They have to dig through snow to find grass to eat.  
*Can you find a good place for a muskox to graze?*

**C**louded leopards are expert tree climbers. Their long tail helps them to balance on high branches. *Can you spot a tree that a clouded leopard would love to climb?*

**I**ndian crested porcupines have teeth that never stop growing, so they munch on things to wear them down. *Can you find a piece of wood that a porcupine might chew on?*

**S**harks can hear really well! Channel your inner shark and listen to the sounds around you: *Do you hear a bird singing? Music playing? Wind blowing through leaves?*

# HABITAT ZOO

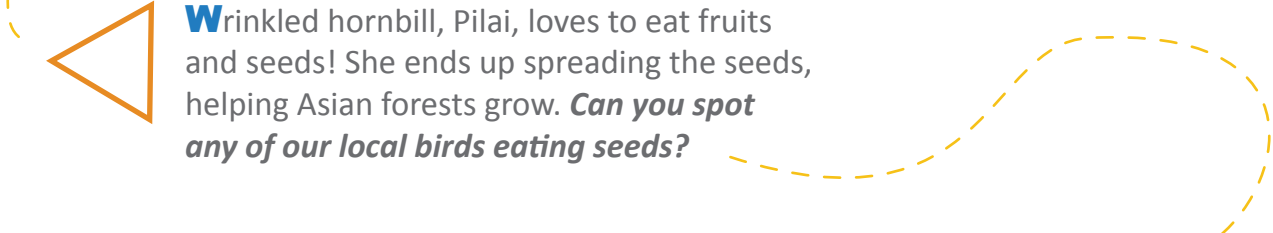

## Scavenger Hunt pg.2

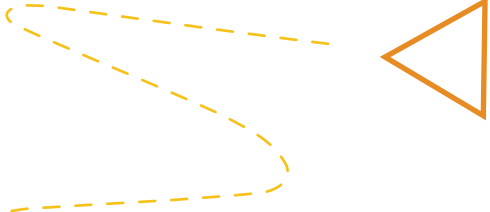

OUTDOOR

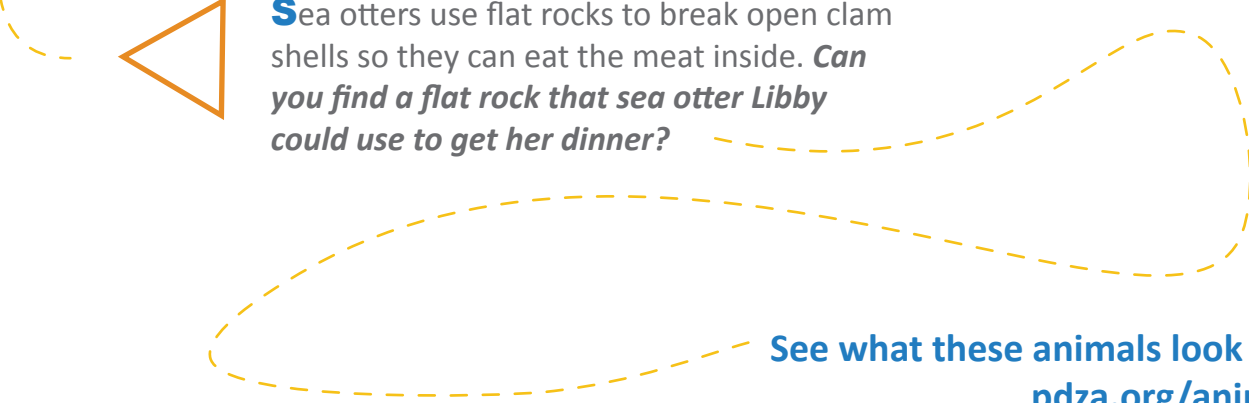

**M**any animals use their sense of smell to find food. Flower scents attract pollinators like bees and moths. *Can you find a flower or plant that smells nice to you?*

**W**rinkled hornbill, Pilai, loves to eat fruits and seeds! She ends up spreading the seeds, helping Asian forests grow. *Can you spot any of our local birds eating seeds?*

**O**ur polar bears, Boris and Blizzard, are older bears and love to take naps. *Can you find a nice sunny spot that would be perfect for a polar bear-sized nap?*

**S**ea otters use flat rocks to break open clam shells so they can eat the meat inside. *Can you find a flat rock that sea otter Libby could use to get her dinner?*
